TRADE MARK

Master-Made—The Mark of Quality

WHEN you buy Master-Made Furniture you can be absolutely sure of two things: well designed furniture, built for service, and a price lower than you would usually pay for such good quality. We have invested hundreds of thousands of dollars in furniture factories just to uphold Ward's standards of quality—and to be able to sell you furniture that we can guarantee to be right in every detail of construction.

Take, for example, our Master-Made Period Bedroom Outfits. In this furniture we use five-ply veneer for tops instead of three-ply, to give greater strength and guard against warping. We could buy three-ply veneer cheaper, of course, but we don't want it—because it is not good enough to offer to our customers. Joints are dove-tailed and glued, both front and rear, to prevent pulling apart. Drawers are veneered and finished on the inside. Mahogany and walnut finishes are rubbed instead of the glossy finish that you would expect on furniture selling at such low prices.

It is these features that determine the quality of furniture, and our inspectors at the factories see that every piece of Master-Made furniture is built exactly like we want it.

We take great care in crating our furniture, to be sure that it will reach you in good condition—another precaution that makes satisfied customers. And speaking of satisfied customers, I wish you could read the enthusiastic letters that I receive from customers stating that they never expected to receive such high grade furniture for the price they paid.

Make your own comparisons of prices—but be sure to compare quality as well. You will be surprised how much you can save at Ward's.

F. E. DEUBERT,
Manager Furniture, Rug and Curtain Departments.

New Two-Tone Walnut Veneer Bedroom Set Queen Anne Design

IF you could visit all the high grade furniture stores in the large cities, you would find Queen Anne bedroom sets featured in this new and beautiful Two-Tone finish. This design and finish is selected for many of the finest homes because it is so attractive and harmonizes so perfectly with your other pretty furnishings.

This set is an exact reproduction of one of the finest and most expensive designs of a leading manufacturer. By purchasing many hundreds of these sets at one time, we are able to make a price just about half what you would pay at the average retail store for furniture of equal quality. Every piece is Master-Made, which means that you can depend absolutely upon the quality and the workmanship. Pictures can not begin to show the true beauty of this furniture. You would have to see it in your own favorite bedroom before you would believe it possible to buy such beautiful high grade furniture at such a low price.

Two-Tone Walnut is so popular because it provides such a pleasing contrast. Dark, beautifully grained walnut is combined with walnut of a lighter color. The finish consists of many coats, carefully rubbed to secure a dull, smooth surface that does not easily show scratches.

Full dustproof construction throughout, to keep the dust out of your clothes. Heavy plate mirrors are set in massive frames. Drawer pulls are silver plated.

Every man will appreciate the many conveniences of either the Chifforobe or the Chifforette, and the large well designed Vanity Dresser will appeal to every woman because she can sit down to comb her hair. The big triple mirrors may be adjusted to any angle desired. Bed has full bow ends and wood side rails, which look much better than the steel side rails usually furnished at this price. The Dresser, with its roomy drawers and large mirror, presents a fine appearance and provides an abundance of storage room.

Chairs and bench are of exceptional quality as to materials, workmanship and finish. Genuine Walnut with hardwood finished to match in the beautiful Two-Tone effect.

Remember, all tops and fronts in this set are made from five-ply veneer—a big feature in any furniture because of its freedom from warping. Joints will not pull apart. The set is exceptionally well finished throughout. Any piece may be bought separately.

Features of Construction

Bed—Strongly built with five-ply Veneer panels. Finish carefully rubbed. Wood side rails instead of steel for better appearance. Foot end finished on both sides. All legs fitted with easy rolling casters. Total height, 54 inches. Furnished in 54-inch width only. Full bow ends. Bedding not included.

Dresser—Full dustproof construction throughout, which means every drawer is separated from the one beneath or above by a dustproof partition. Top is 45 by 20 inches. Heavy plate mirror 30 by 24 inches, in a well designed frame, supported by handsomely turned posts. Legs fitted with easy rolling casters. Four roomy drawers with silver plated pulls.

Vanity Dresser—Every woman loves a Vanity Dresser, because of its many conveniences. This one is extra large, with base 46 by 18 inches. Full dustproof construction and high grade rubbed finish. Big center mirror, 46 by 18 inches. Side mirrors, each 28 by 10 inches, and can be tilted to any angle desired. The dresser is supported by eight legs with easy rolling casters. Mirrors are heavy plate, set in massive frames.

Chifforette—An exceedingly useful as well as attractive piece of furniture, which provides plenty of room for the man to keep his clothes. Top 34 by 18 inches. There are two large drawers, and top section contains three roomy trays. Closes up with two attractive doors. Silver plated drawer pulls. Fitted with easy rolling casters.

Chifforobe—Many men prefer a chifforobe because of the roomy compartment fitted with hangers for suits. This one is extra roomy, 55 inches high, 38 inches wide and 20 inches deep. In addition to the wardrobe compartment, there are five roomy trays, 12 inches wide and 15 inches long. Closes up in front with two attractive doors. Equipped with easy rolling casters. Five-ply veneer construction. Finish carefully rubbed.

Chairs—Rocker and chair are strongly constructed, well braced and designed for comfort. Genuine Solid Walnut top and lower back slat. Five-ply Walnut veneered back panel. Seats are of genuine cane, such as is found in the highest grade furniture. Carefully rubbed throughout in Two-Tone finish.

Vanity Bench—Designed particularly for the Vanity Dresser. Well constructed and braced. Finish is carefully rubbed in Two-Tone effect. Seat of genuine cane, is much finer in appearance than solid wood. Top is 22½ by 15 inches.

Seven-Piece Queen Anne Bedroom Set

THIS splendidly matched Set is one of our most remarkable values.

American Walnut Veneer With Burl Mahogany Decorations

Those who own this fine Queen Anne Bedroom Set prize the rich, 5-ply American Walnut Veneer with its burl Mahogany decorations. They also admire the beautiful dull rubbed finish and the superior construction of these big roomy pieces of furniture. Tops, fronts and sides of the four larger pieces veneered with best American Walnut. Superbly built layer on layer; absolutely non-warping; closely fitted joints, the most durable way to make furniture. Graceful wing legs. Arched top rails. Silvered drawer pulls. Easy running casters. A set like this will be hard to duplicate for the low price asked.

Bed. Height, head end, 50 inches. Bow end foot, 28½ inches high. Width, 54 inches. Wood rails. Bedding not included.

Dresser. Big, wide top. Plenty of space for linen and clothes inside. Top, 48 by 22 inches. Large mirror, 32 by 28 inches.

Vanity Dresser. Large size, beautifully made. You will enjoy its convenience every day. Long center mirror, 46 by 18 inches. Adjustable side mirrors, 28 by 8 inches. Top, 48 by 20 inches.

Chifforette. Fine, dark finish like all other pieces in this set. Beautifully grained top, front and sides are very closely matched. Dark stained inside; two big trays and compartment to hold hats. Deep bottom drawer. Top, 40 by 19 inches.

Straight Chair and Rocker. Two-tone finish. Top and lower back slat solid walnut. Cane seats, 16 by 14 inches.

Dressing Table Bench. Solid walnut two-tone top. Cane seat, 22½ by 15 inches. Height, 18 inches.

Bring the Beauty of Period Furniture into Your Home

Master Made Renaissance Period

American Walnut Veneer or Ivory Enamel

This charming Set in fine grained Walnut veneer or clear Ivory Enamel possesses those features found only in the highest quality furniture. This Renaissance Bedroom Set is one of our best. It is Master-Made—like all our other furniture—from strong, carefully selected woods. The larger pieces are attractively decorated with burl panel ornaments in a darker tone than the large panels on which they appear. An overlay scroll design gives the whole set a handsome appearance. All drawer bottoms well built of 3 layers of veneer. Every piece is solidly built. If you order the entire set we select pieces for you that match each other perfectly.

Double Bed. Woodside rails. Head end securely braced, 50 inches high. Bow end, 35 inches high. Width, 54 inches. Bedding not included.

Twin Bed. Just like the double bed, but is 39 inches wide.

Dresser. Plenty of drawer space. Wide top, 48 by 22 inches. Large mirror, 32 by 28 inches.

Vanity Dresser. One to be proud of. Just right for fitting clothes, dressing hair and other uses. Tall mirror, 46 by 18 inches. Side mirrors, 28 by 8 inches. Width, 48 inches. Depth, 20 inches.

Chifforette. Convenient and roomy. Top 36 by 18 inches. Height, 54 inches.

Bedside Table. Handy drawer. Top, 18 by 18 inches. Height, 30 inches.

Straight Chair and Rocker. With 5-ply Walnut veneered back panel. Finest cane seats, 16 by 14 inches. Height of backs from seats, 19½ inches.

Dressing Table Chair. 5-ply walnut veneer back panel. Low back allows free use of arms. Cane seat, 16 by 14 inches. Height of back from seat, 12 inches. Seat, 18 inches above floor. Entire height, 30 inches.

Any of These Pieces May Be Ordered Separately.

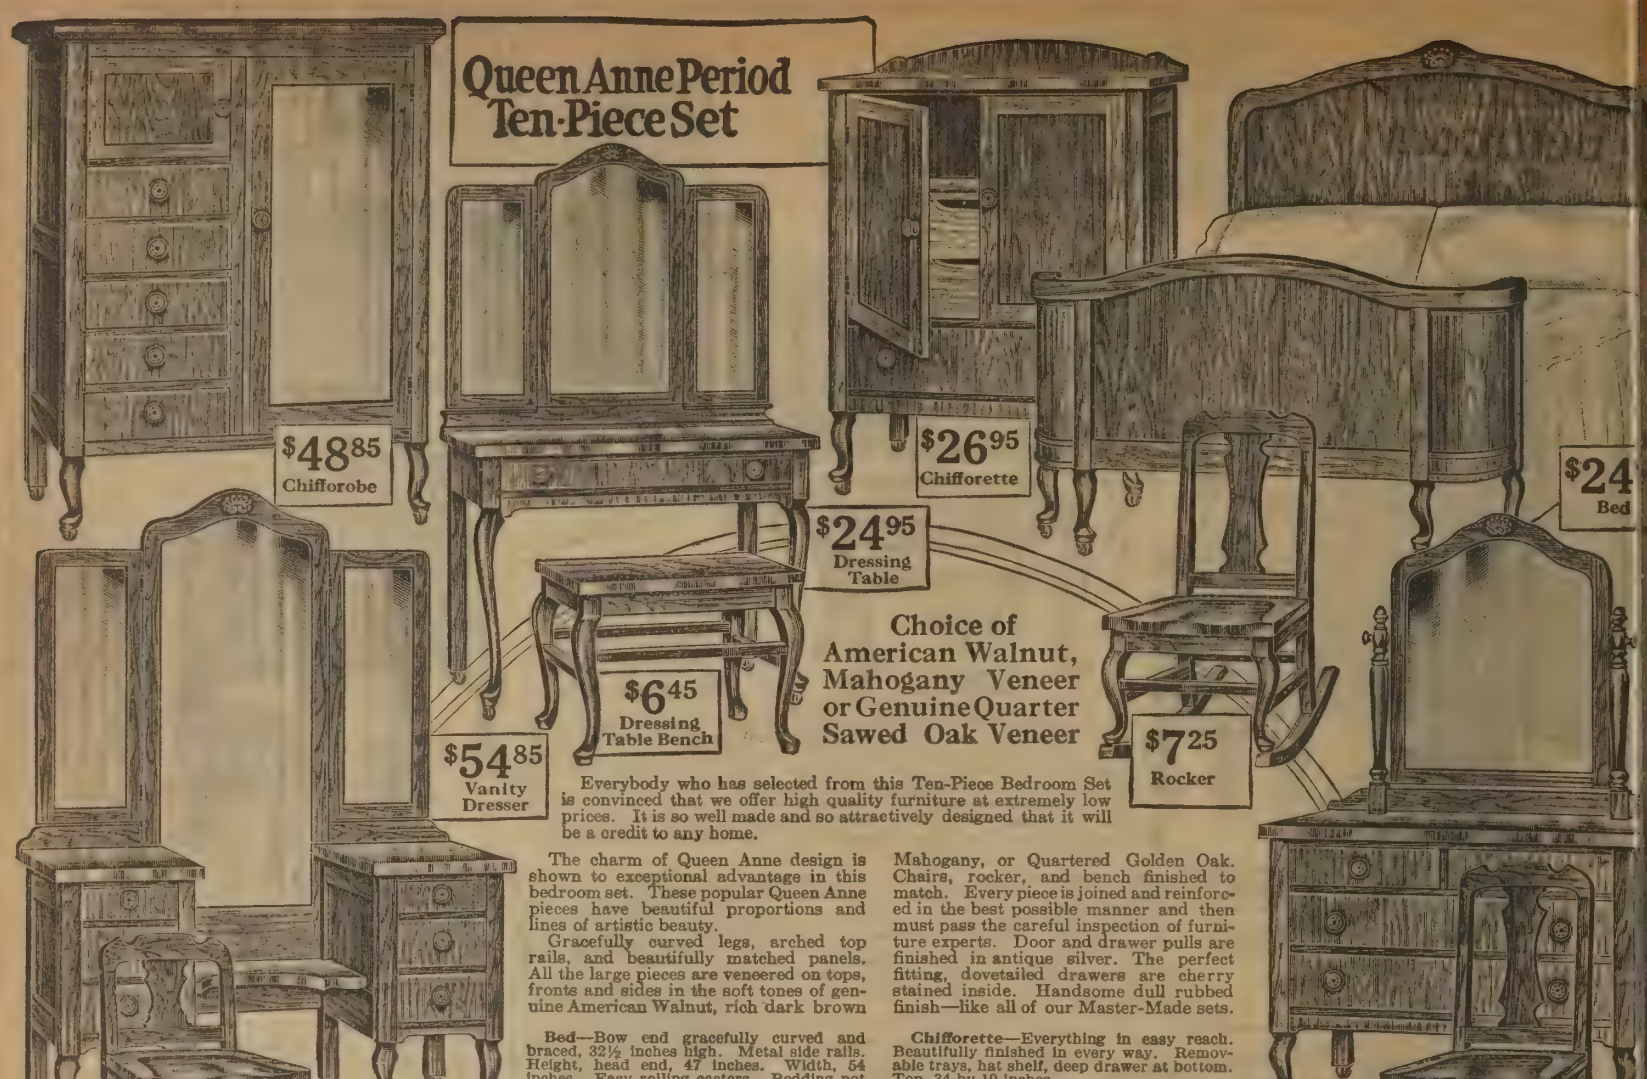
Queen Anne Period Ten-Piece Set



Choice of American Walnut, Mahogany Veneer or Genuine Quarter Sawed Oak Veneer

Everybody who has selected from this Ten-Piece Bedroom Set is convinced that we offer high quality furniture at extremely low prices. It is so well made and so attractively designed that it will be a credit to any home.

The charm of Queen Anne design is shown to exceptional advantage in this bedroom set. These popular Queen Anne pieces have beautiful proportions and lines of artistic beauty.

Gracefully curved legs, arched top rails, and beautifully matched panels. All the large pieces are veneered on tops, fronts and sides in the soft tones of genuine American Walnut, rich dark brown Mahogany, or Quartered Golden Oak. Chairs, rocker, and bench finished to match. Every piece is joined and reinforced in the best possible manner and then must pass the careful inspection of furniture experts. Door and drawer pulls are finished in antique silver. The perfect fitting, dovetailed drawers are cherry stained inside. Handsome dull rubbed finish—like all of our Master-Made sets.

Bed—Bow end gracefully curved and braced, 32½ inches high. Metal side rails. Height, head end, 47 inches. Width, 54 inches. Easy rolling casters. Bedding not included.

Vanity Dresser—You will like it because of its many conveniences. Center shelf allows plenty of knee room while seated. Six drawers; most vanity dressers have only four. Extra high center plate mirror, 46 by 16 inches. High adjustable side plate mirrors, each 28 by 8 inches. Entire height, 73 inches.

Dresser—One of the finest pieces in this set. Large adjustable plate mirror, 28 by 22 inches. Top, 40 by 20 inches. Height, 70¾ inches.

Chifforobe—Five drawers, hat box, and long closet with sliding clothes rack. A convenience not found in most chifforobes of this kind. Top, 41 by 20 inches. Mirror, 48 by 14 inches.

Chifforette—Everything in easy reach. Beautifully finished in every way. Removable trays, hat shelf, deep drawer at bottom. Top, 34 by 19 inches.

Dressing Table—This is something every woman wants. Center mirror, 22 by 12 inches. Adjustable wing mirrors, 18 by 6 inches. Top, 36 by 18 inches. Height, 57½ inches.

Dressing Table Bench—Push it under dressing table when not in use. Strongly built. Top, 22½ by 15 inches. Height, 18 inches.

Straight Chair, Rocker and Dressing Table Chair—Genuine veneer center panels. Solid saddle seats, 16 by 14 inches. Height of back from seat of chair and rocker, 19½ inches; dressing table chair, 12 inches. Dressing table chair has extra low back.

Your Home Deserves Beautiful Furniture

Think how easy your toilette will be when you have a Vanity Dresser in your room like the one shown above. Every piece in this set will be a daily source of pleasure to you. High grade in every way — Master-Made furniture can not be otherwise

Adam Period Set

The beautiful rich tone and attractive grain of this graceful Adam Period Bedroom Set will add beauty and elegance to your home. The simple design is a style quite different than other type of period furniture. The prominent surfaces are veneered with genuine American Walnut and then rubbed to a beautiful, dull satiny finish. Artistically fluted legs and standards on all pieces in this set.

Bed—Graceful bow end foot. Attractively paneled. Strong wood side rails. Height, head end, 48 inches. Width, 54 inches. Bedding not included.

Dresser—An important part of your bedroom—useful and handsome. Height, 66¾ inches. Top, 40 by 20 inches. French plate mirror, 28 by 22 inches.

Vanity Dresser—The woman of good judgment likes this dresser because she can sit in front of it, dress, comb her hair and have all toilet articles within easy reach. Longer mirror and lower top than on ordinary dressers. You can turn the 23 by 18-inch side mirrors to any angle. French plate center mirror, 36 by 15 inches. Top, 42 by 18 inches.

Chifforette—One of the most convenient pieces of furniture made for the orderly arrangement of clothing. Panels are beautifully matched and carefully finished. Deep drawer at bottom; two sliding trays and large compartment for linen and clothing above. Height, 52 inches. Top, 34 by 19 inches.

Princess Dresser—The low top and long mirror of this handsome piece of bedroom furniture cannot be fully appreciated until you have used it yourself. Low mirror makes fitting of clothes much easier. Height, 4 inches. Top, 34 by 16 inches. French plate mirror, 3 by 16 inches.

All pieces sturdily reinforced; decorated with embossed wreaths. Drawers with 3-ply bottoms and cupboards stained inside. Silver finished drawer and door pulls. All except vanity dresser have casters.

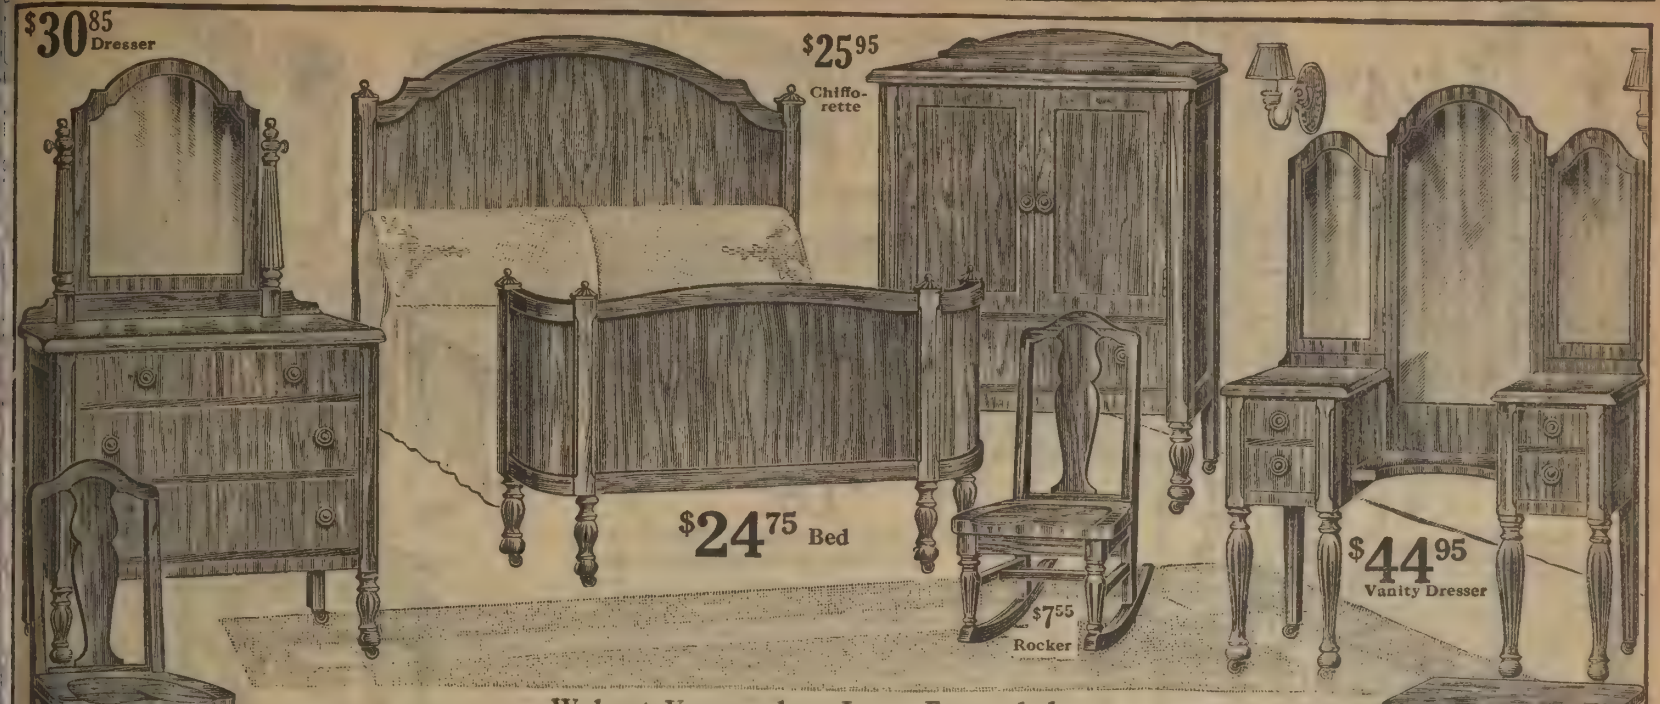
Charming Seven-Piece Louis XVI Bedroom Set



Walnut Veneered or Ivory Enameled

Could anything improve the appearance of your bedroom more than this fine Set in American Walnut veneer or Ivory Enamel? It is an artistic Louis XVI design which will add much to the beauty of your home. It is one of our most popular sets because of its attractive lines and sturdy construction. A very pleasing and serviceable set priced lower than similar sets offered elsewhere that do not have the desirable features that this one possesses. The kind of furniture you will always cherish.

A great deal of time has been spent in giving the Walnut veneer set an exceptionally fine finish. This is another reason why it is far superior to sets commonly sold at this price. The soft dull rubbed walnut finish gives each piece a remarkably fine appearance. Tops are of closely matched 5-ply walnut veneer. Fronts are cut from one large piece of walnut veneer which harmonizes quite perfectly. All exposed surfaces are veneered with genuine American Walnut. Upright posts and standards are carefully made of finished hardwood walnut.

This Louis XVI set is also very popular in the cheerful ivory enamel finish which reveals the elegant two-tone effect in flutings and ornamentations. This attractive and charming finish always looks bright and new because it is so easy to keep clean.

ed. Bow end style. Foot end supported by four legs, very strongly ed. Head end supported by two legs. Steel side rails. Height, d end, 50 inches. Head and foot board panels, 5-ply veneer. Casters. ding not included.

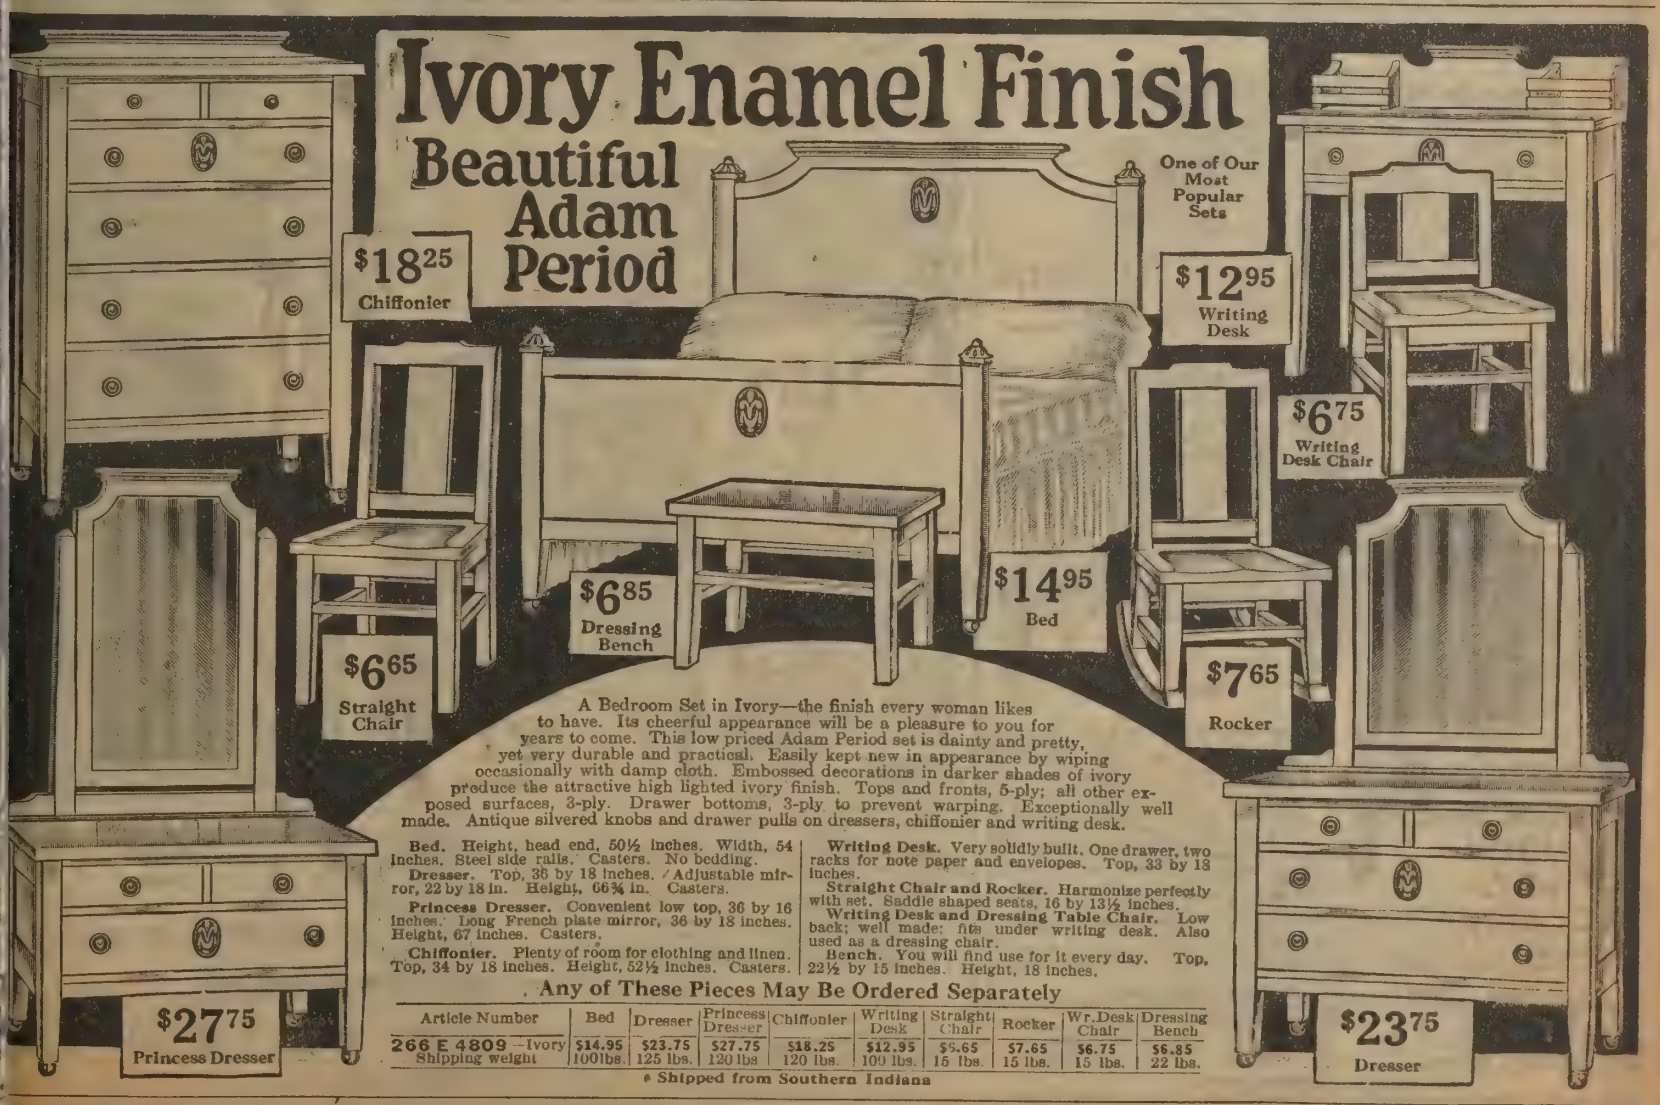
Ivory Enamel Finish

Beautiful Adam Period



A Bedroom Set in Ivory—the finish every woman likes to have. Its cheerful appearance will be a pleasure to you for years to come. This low priced Adam Period set is dainty and pretty, yet very durable and practical. Easily kept new in appearance by wiping occasionally with damp cloth. Embossed decorations in darker shades of ivory produce the attractive high lighted ivory finish. Tops and fronts, 5-ply; all other exposed surfaces, 3-ply. Drawer bottoms, 3-ply to prevent warping. Exceptionally well made. Antique silvered knobs and drawer pulls on dressers, chiffonier and writing desk.

Bed. Height, head end, 50½ inches. Width, 54 inches. Steel side rails. Casters. No bedding.

Dresser. Top, 36 by 18 inches. Adjustable mirror, 22 by 18 in. Height, 66¾ in. Casters.

Princess Dresser. Convenient low top, 36 by 16 inches. Long French plate mirror, 36 by 18 inches. Height, 67 inches. Casters.

Chiffonier. Plenty of room for clothing and linen. Top, 34 by 18 inches. Height, 52½ inches. Casters.

Writing Desk. Very solidly built. One drawer, two racks for note paper and envelopes. Top, 33 by 18 inches.

Straight Chair and Rocker. Harmonize perfectly with set. Saddle shaped seats, 16 by 13½ inches.

Writing Desk and Dressing Table Chair. Low back; well made; fits under writing desk. Also used as a dressing chair.

Bench. You will find use for it every day. Top, 22½ by 15 inches. Height, 18 inches.

Beautiful Queen Anne Period Design
All Pieces Dull Rubbed Finish

If you could only see this Master-Made Genuine Walnut veneer Set, and examine its sturdy construction, its fine dull rubbed finish, and the perfectly matched Queen Anne design, you would surely want to have it in your own home. One big advantage of this charmingly beautiful set is that every piece matches perfectly—and that's what you want. You know how strange a bedroom looks when the furniture does not match. This rich looking well built set will prove that you can get better bargains at Ward's than elsewhere. All tops and the panels of the handsome bow end bed are of select 5-ply Walnut veneer. The remainder is 3-ply except the graceful standards and legs which are of hardwood, finished to match. French plate glass. Antique silvered pull rings and knobs on dressers, chiffonier and chiffonette.

Bed. Bow end. Artistic molding around head and foot ends. Bow end gracefully paneled. Steel side rails. Height, head end, 50 inches. Width, 54-inch only. Casters. Bedding not included.

Bed and Spring Outfits

You will like these steel Bed and Spring outfits for several reasons—lower price; a complete two-piece outfit in one; and, best of all, a bed which needs no side rails of its own because the side rails are built into the spring frame. When you sit or lie on the edge, the sleeping surface will not strike the rail below because it is built several inches higher. This makes the edges just as comfortable as the center. The bottom rods and the uprights in both ends of the bed are of oval construction. All these features mean a lighter outfit that is easier to move, better built, and more desirable in many ways for your home. These outfits have so many decided advantages that you will be highly pleased with any one that you may order.

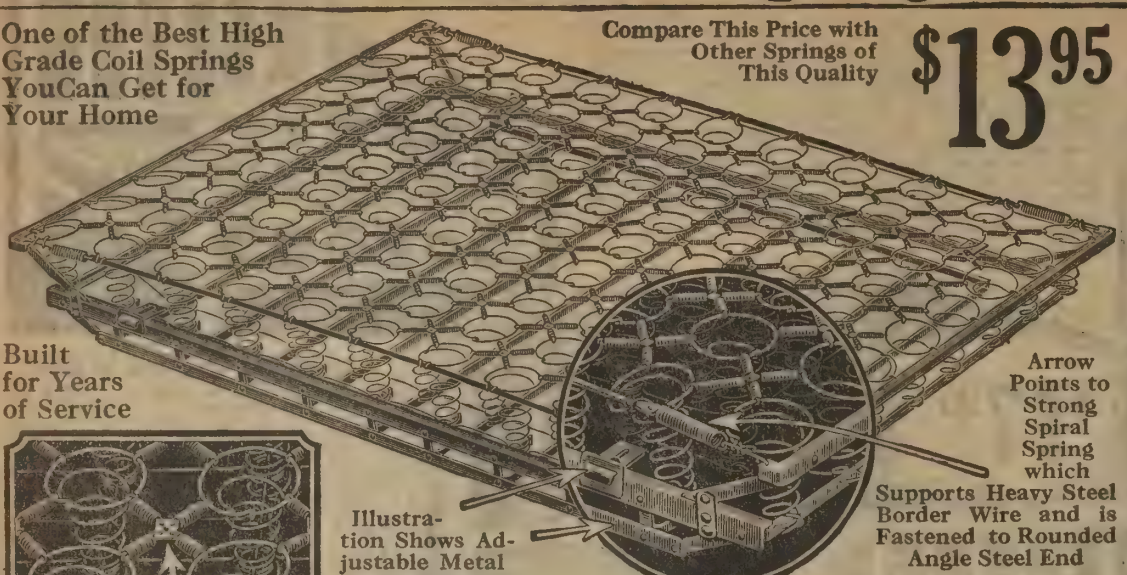
Luxurious Double Deck Spring—For Refreshing Sleep

One of the Best High Grade Coil Springs YouCan Get for Your Home

Compare This Price with Other Springs of This Quality

$13.95

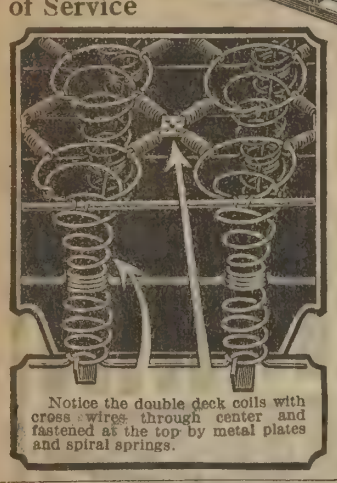
A Spring of Finest Construction at a Price That Saves You Money



Built for Years of Service

Arrow Points to Strong Spiral Spring which Supports Heavy Steel Border Wire and is Fastened to Rounded Angle Steel End

Illustration Shows Adjustable Metal Brackets and the Riveted Double Truss Construction



Notice the double deck coils with cross wires through center and fastened at the top by metal plates and spiral springs.

The comfort of your night's rest depends upon the Sprin on which you sleep. If you would have sleeping comfort suc as you have never known before, order this, our best bo spring. Its long spirals are so sensitive they yield delightful to the slightest touch. Even the edges are springy, yet sagless The whole effect is of supreme comfort.

Ninety-nine Coil Springs. Firmly set in individu sockets, on steel slats, are 99 oil tempered large spiral spring They are built into the frame in what is known as the doub deck construction. This means that the steel slats at botto of the bed spring are lower than the side rails and that all t springs except those at the edge, which are 7 inches dee have the advantage of extra length. Long coils are mo resilient than short ones, so this spring, with its 9-inch spiral gives perfect cushioning.

Noiseless Cross Springs. The top of each large coil firmly tied to four coiled cross springs. Where these sma cross springs come together, they do not cross one anothe but each group of four is attached to a small square plat This prevents rubbing of spring against spring and quiet re is assured. Friction is reduced and the life of the sprin prolonged.

Reinforced Side Springs. Strong, 7-inch coil spring support the heavy side border wire which is attached to t angle ends. The two sides are further strengthened by heavy ⅜-inch steel border wire which prevents saggin These border wires, one on each side, are fastened to th angle ends by flexible spiral springs. This produces th square box edge so much desired by all housekeepers. The spiral springs prevent the edges of the spring from saggin after a short time.

The Double Truss Bottom Frame is an extra bottom support which adds more strength and supporting power to the frame and can hold much more than the ordinary weight. This feature alone will make this spring last you many years longer. All springs are machine riveted—a much better method than hand riveting.

Strongest Construction. The angle ends with rounded corners are made of sturdy steel, not simply wire, and rigidly braced against the angle iron sides of the frame. They absolutely do away with side sway or sagging. The heavier 7-inch springs along each side are all attached at the top to the extra strong wire edges, which are spring supported and attached to the angle ends. All the large spirals are set on steel slats which extend across the spring at the bottom.

Careful Inspection after the spring is finished, of every detail of workmanship is made by men who have had years of experience in making high grade springs. These springs must also undergo a special process of heating and tempering to give the springs the proper elasticity.

Adjustable Metal Corner Brackets fit any full size bed —you can adjust them to rest on the side rails of a steel or a wooden bed with steel rails or will fit a wood bed with wood rails. Handsomely finished with baked-on French gray enamel. If you want sleeping comfort and rest such as you have never known before, get this spring—one of the finest that can be built. Shipping weight, 54-inch width about 83 pounds.

WIDTHS: 48 or 54 inches. **State width wanted.**

166 E 5402—For bow end bed..... 14.45

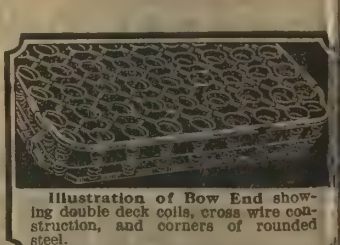

Illustration of Bow End showing double deck coils, cross wire construction, and corners of rounded steel.

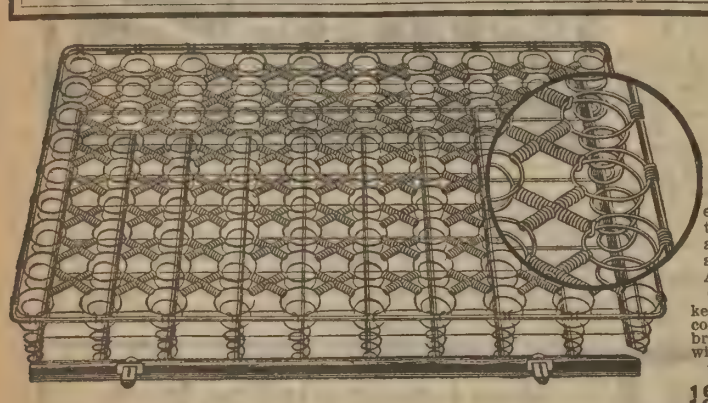

Tops of Coils Reinforced by 160 Spiral Springs

$7.85

Non-Sagging Coil Spri 99 Large Flexible Coi

You will have nights of restful sleep if you use this well built coil Spring. It is exceptionally good quality and construction and the price is unusually low. The tops of the 99 large flexible coils are held in place by 160 smaller spiral springs and are fastened at the bottom to strongly riveted steel slats. The spiral springs at the top are extra long and increase greatly the strength and springiness. A spring which cannot sag.

The flexible coils support every part of the body comfortably. The whole spring will keep its shape for years. Heavy angle steel frame, the strongest possible bed spring construction. Heavy steel border wire with rounded corners. Adjustable metal corner brackets. Fits wood or metal beds. Gray enameled finish. Shipping weight, 54-inch width, about 68 pounds.

WIDTHS: 39, 48 or 54 inches. **State width wanted.**

Flexible Double Deck 99 Coil Springs

Cross Construction

$9.98

A high quality double deck Spring which will give you many years of excellent service. This is the kind of double deck spring which is so flexible and well built that it always keeps its shape. It has 99 9-inch coils of heavy tempered steel wire fastened at the bottom to flat cross rods of specially treated steel. At the top these cone shaped coils are held together by 160 cross springs which make the spring buoyant and strong. In the center of each coil are wires running both lengthwise and crosswise; these hold each coil firmly in position. A heavy border wire with rounded corners keeps the whole spring square and even. The angle iron frame has adjustable corner brackets for wood or metal beds. Shipping weight, 54-inch width, about 68 pounds.

WIDTHS: 39, 48 or 54 inches. **State width wanted.**

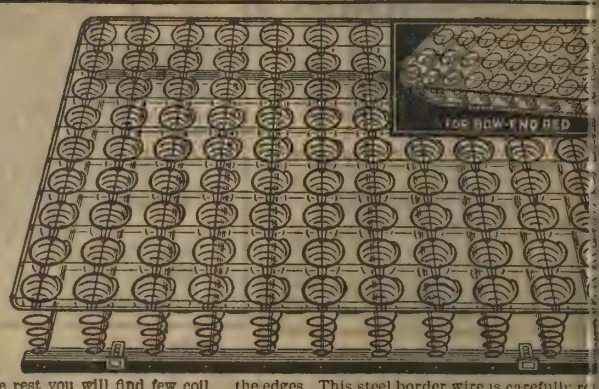
Heavy Border Wire Edges

$6.48



For sound, comfortable rest you will find few coil Springs that are equal to this one at this low price. The surface of the spring is made soft and flexible by 99 coils. These coils and the strong angle iron frame are strongly reinforced by a base of nine steel slats. The coils are fastened to these slats which brace the whole spring and give it much more supporting power. The coils are firmly fastened at the top by cross wires. The buoyant sleeping surface is made strong and rigid by a thick, strong wire around the edges. This steel border wire is carefully r at the corners. Bracket at corners fit metal o beds. Gray enameled finish. Shipping w 54-inch width, about 52 pounds.

WIDTHS: 36, 39, 42, 48 or 54 inches. **State width wanted.**

166 E 5432—For straight end bed..... $
166 E 5430—For bow end bed.....

Steel Slat Fabric Spring

Buoyant Sleeping Surface
Rounded Corner Castings

Lasting comfort has been built into this restful slat fabric Spring. Specially priced. Built to stand a great deal of service without sagging or losing its buoyancy. The sleeping surface has just enough "give" for comfort. The surface of galvanized steel slats is firmly held together by interlocking cross wires and fastened to the heavy angle steel ends by 54 tempered spiral springs. Each edge is strengthened by a flat steel band, 1¼ inches wide. Because of this construction the edge of the bed will not sag under your weight and is as comfortable to lie upon as the center of the bed. The ends are connected to side rails of 1⅜-inch oval steel tubing by smoothly rounded and very strong malleable iron corner castings, which elevate the sleeping surface six inches above the side rails, so it cannot strike the sides of the bed. Durable gray enamel finish. Shipping weight, largest size, about 50 pounds.

WIDTHS: For metal beds or wood beds with steel rails, 48 and 54 inches. For wood beds with wood rails, must be made to order— about three days required. **State size wanted.**

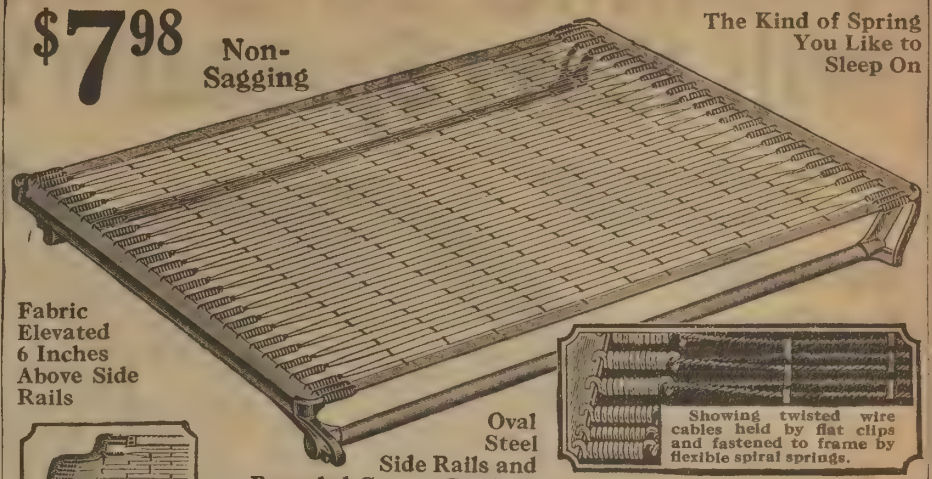
166 E 5312—For straight end metal beds..... **$6.48**
366 E 5313—For straight end wood beds..... **6.46**

Flexible Cable Fabric Spring

$7.98

Non-Sagging

The Kind of Spring You Like to Sleep On



Fabric Elevated 6 Inches Above Side Rails

Oval Steel Side Rails and Rounded Corner Castings

Showing twisted wire cables held by flat clips and fastened to frame by flexible spiral springs.

FOR BOW END BED

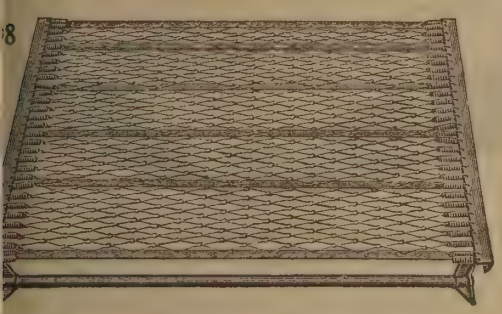
One of the very best cable fabric Springs made. A comfortable, squarely dressed bed—the pride of every housewife—is assured when you use this spring. The independent action of the separate strands of the fabric make it possible for persons of uneven weight to sleep on this spring without disturbing each other or rolling to the center. This spring has a remarkably good sleeping surface.

The sleeping surface is as flexible as anyone could wish because it is made of **wire cables**, each one consisting of seven tightly twisted and very strong wires. **Flat wire links** hold these cables so that the mattress rests on a perfectly level surface, and prevents it from being torn. **Highly tempered spiral springs**, 54 in all, hold the wires to the angle steel ends of the frame. Here is where you have strength, firmness, and elasticity—just where it is needed most of all.

The edges of the sleeping surface are well supported by **broad, flat steel bands**, 1¼ inches wide, which make the edges as comfortable as the center. These steel bands lengthen the life of the mattress by keeping it in shape and they form a straight, even edge. They are slightly flexible but very strong and carry the extra weight if you sit on the edge of the bed. At each end of these steel bands are two strong, spiral springs which also help to keep the edges of the spring level at all times and add still greater strength and elasticity to the sleeping surface. The side **rails are of 1⅜-inch oval steel tubing.**

Strong malleable iron castings—which are practically indestructible—have double arms for strength and security and connect the side rails to the angle steel ends. The castings elevate the sleeping surface about 6 inches above the side rails, giving the much desired box spring effect. **This well made spring has smoothly rounded corners** which prevent tearing of any of your bedding. Durable baked-on French Gray Enamel. Made for straight end or bow end metal beds only. Width, 54-inch only. Shipping weight, about 55 pounds.

166 E 5310—For straight end beds **$7.98**
166 E 5311—For bow end beds **8.98**



Reinforced Diamond Link Spring

forced diamond link fabric Spring built to prevent sagging and more comfort. The diamond link wire fabric surface is fastened strong angle steel ends by 60 pliable spiral springs. Five steel each 1¼ inches wide, prevent sagging and support the buoyant surface. Strong malleable corner castings elevate the sleeping four inches above the side rails, which are of 1⅜-inch oval steel Gray Enameled finish. Shipping weight, largest size, about ds.

THS: 39 and 54 inches. **State width wanted.**

The "Inner-Strap" Mattress Will Never Spread or Widen

Will Always Retain its Original Shape

You Can Buy "Inner-Strap" Master-Made Mattresses Only at Ward's

Choosing a Mattress Is Largely a Question of Confidence

When you select a mattress you want to feel confident and perfectly satisfied that you have chosen an extremely comfortable, well built mattress. It is worth something to you to feel that you have one of the best mattresses made.

You know what it is to buy a mattress which fits the bed perfectly the day it is put on, but several months later has spread several inches in width. Such a mattress presents an untidy appearance which makes it difficult for you to make the bed so it will look well.

To overcome this, we offer you a mattress which can not spread—the **"Inner-Strap" Mattress.** It is made of many thicknesses of the choicest pure fluffy cotton, fresh and clean, felted into smooth, even layers. These layers are built one upon the other to form a deep, downy mass, then compressed to exactly the proper thickness to insure a smooth, yielding and restful surface. The "Inner-Strap" construction not only prevents the mattress from spreading, but guards against the mattress getting lumpy. Besides, while it always will remain soft it is extremely durable and does not lose its comfort giving springiness.

Our Finest Felted Cotton Mattress Sateen Border in Solid Color

For supreme comfort and restful sleep you need a downy mattress which yields to every contour of your body. When you have one of these "Inner-Strap" Mattresses you will realize just how important a mattress is in promoting health and vigor—no more of that early morning tired feeling. The kind of mattress you will be proud to own. It has extra heavy drill ticking with an attractive floral design. The handsome sateen border is in a solid color and harmonizes beautifully with the ticking. This mattress is furnished with highest quality cotton filling, and should not be compared with that usually found in others selling at the same price as ours.

The Imperial roll edge with its three rows of side stitching—an extra row, by the way—gives you a better looking mattress with a firm edge, as well as one that holds its shape and enables you always to have a neat appearing bed. Side hand loops at each corner of the mattress make it easy to remove or turn over. For shipment the mattress is first wrapped in heavy paper, then covered with burlap. Guaranteed to reach you clean and sanitary. Size, 54 by 76 inches. Weight, 50 pounds. Shipping weight, 53 pounds.

45 Pounds

The simple, easy test shown above will convince you that the cushioned tufts make the surface springy, yet firm; soft, always shapely and neat. To meet the demand in many homes for a light mattress we show here our "Inner-Strap" Mattress in the three most popular lighter weights. These mattresses have an excellent quality of felted cotton filling built up layer on layer and covered with a medium weight strong drill ticking which has a decorative floral art design. The Imperial Roll edge keeps them in shape and makes them last longer than others.

What "Inner-Strap" Means to You!

Strong reinforcing straps sewed inside the ticking, both top and bottom, prevent the mattress from spreading or widening. These straps hold the filling in place and absolutely prevent bulging. The mattress always remains soft and comfortable. In addition, it always will fit your bed just as it did the day you bought it. A mattress made in this way may cost a little more, but it is worth far more in comfort and appearance and will greatly outwear any ordinary mattress.

Buy Your Mattress at Ward's—Where Quality is never sacrificed for low prices.

Comfort Is Assured With the "Inner-Strap" Guaranteed Not to Spread or Widen

Every Master-Made Mattress with "Inner-Strap" construction will remain always true to form and will not sag in one place, bulge in another, or overhang the bed.

The Imperial roll edge (as shown in oval at left) makes our mattresses more durable and attractive, and helps them to hold their shape. That, together with the "Inner-Strap" construction, is why we guarantee to replace **any** mattress on this page if it spreads or widens.

See how uniformly and evenly spaced are the tufts on these Mattresses. The rows of smoothly rounded, cushiony tufts on which your body lies make your bed much more comfortable and springy than possible with an average mattress. These tufts can not sag, and you know that this helps much to make your bed neat looking after it has been made.

This very popular mattress has a heavy weight drill ticking. The material and handsome floral art design are the same in the border as in the cover. This mattress wears and holds its shape as well as the mattress shown above. It is the same weight—50 pounds and is filled with a select grade of felted cotton. It also has the imperial Roll edge and is firmly sewed all around with three rows of side stitching. Shipping weight, 3 pounds more than actual weight.

"Inner-Strap" Means Your Mattress Will Always Stay in Shape

Most of the satisfaction of sound refreshing sleep depends upon the quality of the Mattress used. In producing these lighter weight and lower priced mattresses we have not overloooked the comfort and long wearing qualities. Don't forget that these, too, are "Inner-Strap" Mattresses which keep their shape.

The built up layers of cotton filling are bound together by a firm pressure at top and bottom so that no amount of use can disarrange them. If you have ever slept on a hard, lumpy mattress you know the advantages of a feature like this. Compare the low prices of these mattresses with the prices you would have to pay elsewhere for equal quality. You will appreciate the saving you can make here.

Famous KAPOK Mattresses

Inner-Strap Construction With Imperial Roll Edge

No mattress has more desirable features than our Kapok Inner-Strap mattress. Can only be obtained from Ward's. Think of having an Inner-Strap Master-Made Mattress of snow white Kapok—that fluffy, silk-like floss, one of the best fillers known—weighing only 30 pounds, 20 pounds less than most full size mattresses.

Although this Kapok is packed as tightly as possible it is still a great deal lighter, softer and more buoyant than the average mattress sold at the same price as this high grade Inner-Strap. Kapok is the most remarkable material that has ever been used in mattresses. If you have never examined a Kapok Inner-Strap mattress you will be surprised when you discover the many excellent features of this mattress. The inner straps hold the mattress so that it must keep its shape. No spreading or widening—will not bunch together. Always fits your bed just like it did the day you got it. The Imperial roll edge with three rows of side stitching keeps edges of bed neat and even. The floral art cover has a fine sateen border in a harmonizing solid color.

So light you can turn it over every day almost as easily as a comforter. Cloth handles sewed on the sides make it still easier to handle. Tightly packed filling, yet very soft and springy. You have to feel and lift this unusual mattress to realize what it really is. The most careful housekeeper would be proud of it. Becoming more popular everywhere. One of the best and softest mattresses for comfort and sleep that can be made and offered at this price. Size, 54 by 76 inches. Actual weight, 30 pounds. Shipping weight, 33 pounds.

$19.85

Sateen Border in Solid Color

Not affected by dampness. Always fluffy and fresh. Will not lose its shape

$18.45

Very easy to handle on account of the lightness of the filling of which it is made. Cloth handles sewed on the sides add to ease of handling.

30-Pound Kapok Mattress

This deep, thick Mattress is very buoyant and comfort giving. In these Master-Made Kapok Mattresses we use only the finest and softest Javanese kapok. This material is a fluffy, snow white vegetable fiber, light and airy, which will not bunch up, pack together and become hard and lumpy and uncomfortable to sleep upon. It is so delightfully soft, clean and silky and is more commonly known as Silk Floss.

Although tightly packed and full size, the Kapok Mattress is very light, and you will find it surprisingly easy to turn or handle on the bed.

The mattress is covered with an excellent quality of drill in a pretty floral pattern which will add as much to the neat, attractive appearance of your beds as the mattress itself will to their comfort. Not an "Inner-Strap," but a high grade mattress which is evenly machine tufted and is finished with the Imperial roll edges all around and at top and bottom. Corners are neatly rounded—which saves them from wear and makes the bed easier to make, and has strongly stitched side handles, a most desirable feature. Shipping weight, 3 pounds more than actual weight.

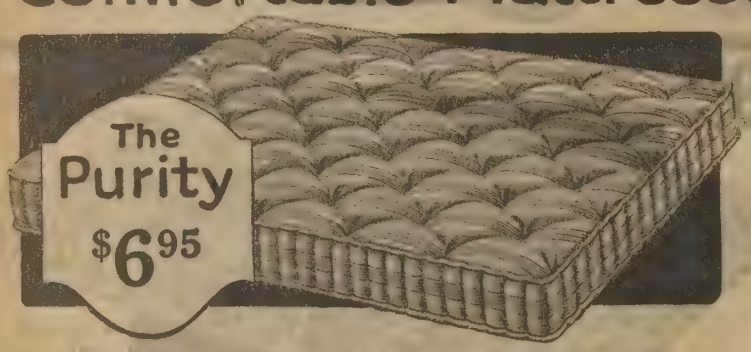
Far-Away Java Gives You This Light, Soft Mattress

Kapok—sometimes called Silk Floss—is a pure absolutely clean vegetable product. This fine, silky material comes from the seed pod of the Randoe tree found only in Java. Very light and fluffy, it makes a wonderful filling for high grade mattresses and is often used as a substitute for down or feathers in cushions, pillows and upholstering.

The reasons for its popularity for mattresses are many. The extremely light weight assures a mattress easy to turn and handle. Fine for outdoor sleeping because Kapok does not absorb moisture, in fact it sheds water like a duck's back! And being a vegetable composition, you are never troubled with bugs or vermin, which in itself is a great advantage.

With a Kapok Mattress you can be sure of the greatest sleeping comfort, as it always remains just as soft and pliable as the day you bought it. Never gets hard or lumpy. Where a good light weight mattress is desired, Kapok has no superior.

Comfortable Mattresses – Priced Notably Low



New Well Built and Comfortable

In this sanitary Mattress we use the same exacting care to insure both cleanliness and comfort as we do in our higher priced mattresses. The center is filled with a layer of sea moss with thick layers of wood wool, curly and resilient above and below them. Finally, to insure restful comfort, layers of genuine felted cotton are placed at both top and bottom so mattress may be reversed. Covered with good quality striped ticking. Even machine tufting and strongly stitched edges insure a lasting, comfortable mattress. A genuine bargain at this price. Shipping weight, 3 pounds more than actual weight.

Article Number	Size, In.	Actual Wt.	Each
166 E 5615	54 by 76	45 lbs.	$6.95
166 E 5616	42 by 76	35 lbs.	6.75
166 E 5617	39 by 76	33 lbs.	6.65

You are fortunate in being able to buy as good a mattress as this at the price we quote.

The Sleepwell has a center filling of Canadian Sea Moss, a vegetable fiber of great value in the building of low priced mattresses. It is a strong, curly fiber which will not lump and makes a firm, smooth, soft, delightfully restful mattress. The layer of curly Sea Moss is overlaid on top, bottom and sides with clean, new, felted cotton covered with fancy art ticking. Shipping weight, 3 pounds more than actual weight.

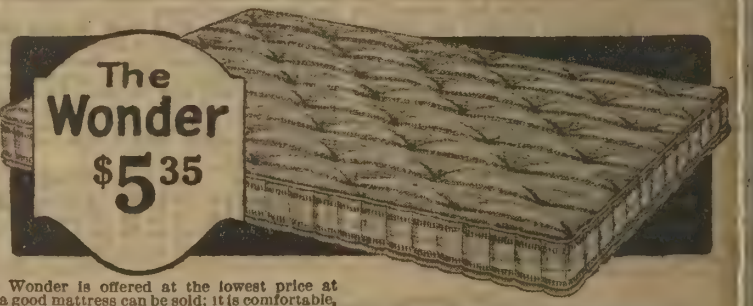
Good Mattresses Can Not Be Sold for Less



Every Mattress you buy from Ward's is a good mattress, regardless of price. We use none but fresh clean materials for filling. Center filling of the Jewel is curly excelsior. On both sides, and top and bottom of mattress are heavy layers of good grade cotton felt, covering the center layer completely and insuring a soft, comfortable bed. Covered with durable woven ticking, evenly and firmly machine tufted so the Jewel will remain as smooth and even as the day you purchase it.

Choose this mattress if you want good quality at a very low price. Shipping weight, 3 pounds more than actual weight.

Article Number	Size, In.	Actual Wt.	Each
166 E 5609	54 by 76	45 lbs.	$5.95
166 E 5610	48 by 76	40 lbs.	5.85
166 E 5611	39 by 76	33 lbs.	5.65

The Wonder is offered at the lowest price at which a good mattress can be sold; it is comfortable, clean and sanitary throughout and will give excellent service. It is made with new clean excelsior, very curly and springy, with layers of felted cotton on top. The use of good clean excelsior enables us to sell the Wonder at this very low price, and the layers of felted cotton on top give assurance of comfort. The ticking is a very durable grade of striped woven goods. Deep, uniform machine tufting checks any tendency to spread. Here is quality at an astonishingly low price. Shipping weight, 3 pounds more than actual weight.

Ward's "Imperial" All New Feathers and Pillows

YOU could spend just an hour or two in the factory where our Imperial Pillows are made and where our Imperial Feathers are ated, you would never be satisfied with any other kind. You would w just why they are so soft and downy, why they are so clean and itary, and why a pat or two restores any Imperial pillow to its ginal fullness and comfort.

Guaranteed All New Feathers; Dry Picked! No butcher's thers, scalded feathers, or used feathers ever are sold by us. You oy healthful sleep and rest when you buy your feathers and pillows e. Not only are all our feathers new and dry picked, they are roughly cleansed, sterilized and deodorized.

Cleansed and Sterilized by Live Steam! By a special process, feathers are double dusted, then subjected to the cleansing and ilizing power of live steam under a pressure of more than 100 pounds he square inch. Think what that means! Live steam forced into ry part of every feather—inside the stems and over the entire sur- e! This removes all animal matter and foreign substances, leaving h feather absolutely clean, thoroughly sanitary and entirely free n odor. Imperial feathers more than meet the requirements of the strictest sanitary bedding laws ever passed by any state or board of health.

Curled and Dried by Air Blast! After the steaming process, our feathers are dried rapidly by powerful fans. This fast drying curls the feathers. And while the air blast swirls them about the drying room the quills, pin feathers and scales, being heavier, drop through screens in the floor. The finishing process leaves the feathers a downy heap, clean, bright, light, soft and fluffy.

Cover Patterns Carefully Matched! All our pillow covers are strongly sewed with the patterns carefully matched at the side and both end seams. In closing the covers, no feathers are allowed to stick out at the seam.

Exact Descriptions. In every pillow description, we tell you the exact quantity and kind of feathers used so you can be sure of the value. In comparing weights, remember that our process of removing quills, stems and heavy feathers means plumper, softer pillows, weight for weight.

Shipping Weights. Add 2½ pounds for each pair of pillows if they are to be shipped alone; if included with other merchandise use actual weight only.

$3.68 — r Those Who Want the Best Snow White Goose Feathers

ou would not ask for a finer Pillow than this aber Queen. The choice snow white Goose hers make it supremely soft and comfortable. The ers are carefully selected, thoroughly sterilized cleaned. A fine quality ticking is carefully sewed he pretty art pattern matches perfectly at the s. An extra good value.

Feathers

When you order from us you get the exact weight of feathers you order—the bag is not weighed in. The weight of the bag would make quite a difference if it were counted as part of the weight of the feathers. Our feathers are weighed entirely separate from the bag and you get your full money's worth.

All the feathers listed below represent the best and truest values possible, because we describe the exact kind and quantity of feathers in every instance. All feathers absolutely free from quills, in feathers, coarse feathers, and scales. They make plumper, softer, ticks and pillows. For shipping weight of bulk feathers, add from 2 to 8 unces to actual weight.

These Descriptions Are Exact

	Net Weight Feathers

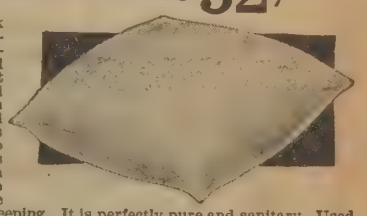
Kapok Sofa Pillows 52¢



Kapok—known as Silk Floss—has many advantages over all other substances for pillow and mattress stuffing. It comes from the seed pod of the Randoe tree, in Java. It is very soft and fluffy, and will retain its natural resiliency, no matter how long it is used. Extremely light in weight, does not absorb moisture, and is therefore unequaled for outdoor sleeping. It is perfectly pure and sanitary. Used either in mattresses or pillows, it is luxuriously comfortable. These pillows have good, strong, serviceable cambric covers.

Keep Your Mattress Clean

A Mattress Cover Pays for Itself

We don't need to tell you that a mattress can not be cleaned satisfactorily in the home. And you know, too, that sending a mattress to the renovator is an expense you would avoid gladly. Why not save that expense and at the same time add years to the life of your mattresses by giving them the protection of Mattress Covers? Our covers are durably made of tan cotton sheeting so closely woven it is practically dustproof and will stand a lot of hard laundering.

Simply slip the mattress cover over the mattress and fasten with the snaps at the end. Covers fit snugly and without wrinkles because they are cut over accurate patterns and carefully sewed. They are easy to wash; no trouble to take them off when they become soiled. They not only keep the entire surface of the mattress clean and sanitary but they add greatly to the life of the mattress by keeping out the dust and taking most of the wear off the mattress itself. You will find them a good investment. Shipping weights: 2 and 2½ pounds.

66 E 5600—Size, 51 by 81 inches; fits 48-inch mattress $2.59

Keep Your Pillows Free From Dust

Pillow Bolster Roll

Keep your pillows covered and free from dust during the day time and they will not need laundering so often. Besides the protection it gives, a Bolster Roll with its trim, neat appearance makes your bed look better when made up. This bolster is well made of strong fiber board, with wood ends; it is softly padded on the outside and completely covered with white muslin. Two folded pillows fit inside. Our price is much lower than the regular price for a good bolster. Pillows not included. Supplied for beds 36, 39, 48 and 54 inches in width. **State width wanted.** Shipping weight, about 10 pounds for the largest size.

Deep Spring Seats Oak Frames Finished Golden Waxed or Fumed Brown

More women every day recognize that the Davenport Bed is the most useful and economical furniture. When properly made, as these sets are, they give roomy, luxurious comfort for living room use, and provide a full size bed whenever needed. It is like adding another room to your house. Ready at a moment's need, opening with a single easy motion. Its sheets, blankets and pillows all in place. Yet completely hidden when the davenport is folded for daytime use. This set, priced lower than has been possible in years, is an exceptional value. It is built throughout of seasoned, carefully selected Oak. Designed in the simple, artistic, mission style.

The long davenport seat is built up over 24 oil tempered spiral springs; in the short davenport, the seat has 18 tempered springs. The seats are thickly cushioned over the springs. Upholstered with Imitation Brown Spanish Leather or Genuine Brown Spanish Leather; finished Fumed Brown or Golden waxed. Davenports have casters. Bedding not included.

Long Davenport. Entire length, 82¾ inches. Entire height, 34 inches. Size of seat, 75½ by 21 inches; width of front legs, 3½ inches. 24 coil springs in seat. Shipped taken apart to save you freight.

Short Davenport. Entire length, 59½ inches. Entire height, 34 inches. Size of seat, 52½ by 21 inches. Width of front legs, 3½ inches. Shipped taken apart, but easily set up. Casters.

Arm Chair and Rocker. Well made of carefully seasoned wood. Height of backs from seats, 22 inches. Entire height, 37 inches; size of seats, 20 by 20 inches. Entire width, 26 inches.

Colonial Quartered Oak Davenport Bed Set

An imposing Set of Living Room Furniture, as sound and substantial in construction as it is massive in appearance. Choice of long or short style Davenport Bed; either style makes a full size double bed when open. The most economical furniture it is possible to buy because, aside from its beauty and comfort as living room furniture, it enables you to make any room a bedroom when you wish, and that without the slightest fuss or bother. In addition to this economy, our low prices bring you a further saving. Frames of select hardwood, reinforced and block braced; faced with beautiful Quartered Oak veneer; side panels of solid Quartered Oak. Spring seats; cushioned backs. Upholstered with Genuine or Imitation Brown Spanish Leather, or Genuine Black Leather. Attractive Golden finish. To change the Davenport into a full size double bed requires only a single easy movement and a few moments' time; just as easy to change back into a Davenport afterwards. You sleep on a fabric bed spring, made comfortable by the many coil springs which support it at each end. Plenty of room inside to fold up mattress and bedding. Construction of bed section is open and sanitary; air circulates freely beneath it. You will find sets like these in thousands of homes.

All pieces shipped taken apart to save you freight

Massive Overstuffed Queen Anne Furniture-Unusual Values

The Right Kind of Furniture for Your Home

Tapestry, Velour or Mohair

$44.85 Arm Chair

$84.85 Davenport

Your living room deserves good furniture. Imagine having this massive, dignified Master-Made Furniture—with its excellent lines, fine construction and rich upholstery—in your living room! At these low prices, you now can have one or more of these fine pieces. One of our very best styles of furniture—supremely comfortable, extra large, and beautiful in appearance. Twice the comfort and service that you can get from ordinary furniture. When your friends see such furniture as this they will realize you know how to choose the right kind of furniture. Overstuffed furniture is an excellent investment because it will give you many years of comfort, satisfaction, and continuous service.

Popular Marshall spring construction—this means the cushions, arms and backs are built with many spiral springs stuffed with cotton over lively cone shaped steel springs. Cushions easily removed for cleaning all crevices and corners. Hidden beneath the luxurious cushioned surfaces is a massive, reinforced frame of sturdy hardwood—built for years of service. Gracefully curved Queen Anne legs and runners in dull Mahogany finish. Noiseless glides on all feet. You can get this furniture in flowered Tapestry; blue, mulberry or brown Velour, or in two-tone brown Mohair. **State color wanted if you order Velour.**

Davenport. No well furnished home is complete without one of these fine, massive, stylish Davenports. As comfortable in construction as it is sturdy and beautiful in appearance. Just the piece you want for your home. Three loose cushions. Forty steel coil springs in back, 24 in seat. Seat, 22 by 59 inches. Entire length, 75 inches. Entire height, 35 inches.

Fireside Wing Chair. Extra large; deeply cushioned; padded wings and back. Built for long wear, continuous service, and restful comfort. A cozy chair for the long winter evenings. Eleven flexible steel coil springs in back, 9 in seat. Single face cushion. Size of seat, 20 by 22 inches. Entire width, 35 inches. Entire height, 36 inches.

Arm Chair. Big, wide arms and back. Soft roomy cushion gives added ease and comfort. Sixteen springs in back, 9 in seat. Seat, 20 by 20½ inches. Entire width, 39 inches. Entire height, 35½ inches.

Special Value

Beautiful Mahogany Finish

Have you noticed how much more cheerful a good Rocker makes a room? Every well furnished home should have at least one good looking, well built rocker in the living room or parlor. As a special suggestion, we offer you here one of our most beautiful and comfortable rockers at a feature price. It is a value you can hardly afford to overlook. The beauty of the Queen Anne period design is brought out in every curve and arch; it is built of select Gumwood, a hardwood popular among makers of good furniture because of its great strength and its resemblance to Mahogany when properly finished. Deep upholstered spring seat—a specially luxurious type. Durably upholstered with rich floral tapestry. Size of seat, 19½ by 17½ inches. Height of back from seat, 22 inches. Shipping weight, about 25 pounds.

166 E 721 ..... $11.95

Massive and Roomy

$17.95

In this large, massive, substantial Rocker is found a combination of good appearance and solid comfort. Scrolled arms and front posts in Colonial style. The big, soft seat is spring filled and the high back is cushioned all the way up; your head is supported by a pillow head rest. Constructed of select, heavy Oak, finished Golden. Arms veneered with Genuine Quartered Oak. Seat, 21 by 19 inches with steel spiral springs. Height of back from seat, 26 inches; arms, 2¾ inches wide. Shipping weight, about 75 pounds.

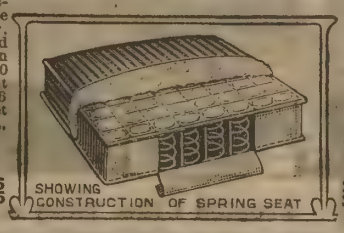
Overstuffed Comfort Rockers

Removable Cushion Seat

$36.95
Tapestry

First of all, a Rocker must be inviting. It is not enough that it be simply a handsome piece of furniture; that it be strong, well built and durable—it must have these qualities, too. But first, it must invite you to relax. The rockers shown on this page are of that sort. They have that "sink way in" solid comfort appearance about them which makes you want to stretch out and rest. No home—no really "comfy" home—should be without one or more of these rockers; and at the low prices quoted here, every home can afford to have one.

EVERY curve, arch and springy part invites you to sit right down and rest. The spring edge seat, for instance, is of the famous Marshall spring construction. This means that the loose cushion, built with many spiral springs and stuffed with cotton, is set over a spring foundation of 72 cone shaped springs. Even the back is inlaid with spiral springs, overstuffed with cotton. Choice of upholstering in Tapestry or Brown Genuine Spanish Leather. Hardwood frame and runners finished in Mahogany. Seat, 20 by 21 inches; height of back from seat, 26 inches. Shipped set up. Shipping weight, about 90 pounds.



SHOWING CONSTRUCTION OF SPRING SEAT

A LUXURIOUS Rocker with Marshall spring construction seat. To make the seat, a number of cone-shaped resilient springs are fastened to the braced hardwood frame of the rocker. Over these is stretched a layer of heavy duck canvas. The small illustration shows how the seat is then built up, with 72 spirals, overstuffed with flax fiber and cotton. The back of the rocker is of spring construction as picture shows. Choice of Tapestry or Brown Genuine Spanish Leather. Wood runners finished Mahogany. Size of seat, 19 by 10 inches; height of back from seat, 26 inches. Shipped set up. Shipping weight, about 90 pounds.

$18.95

Nationally advertised and known as the World's Easiest Easy Chair. For solid comfort all you do is push the button and the back reclines to any position desired and stays there. You can pull the patent foot rest forward, actually giving you all the comforts of a bed without the need of retiring at an early hour after a hard day's work. And you don't even have to get out of the chair to adjust it. Nothing to get out of order.

Choice of Imitation or Genuine Brown Spanish Leather

Many so called Easy Chairs are not entitled to the name. An easy chair should bring perfect ease to every muscle of the tired body. That is why the Royal Easy Chair is the choice of thousands who know the pleasures of real comfort. Pull out the footrest, press the push-button; the back reclines and in a moment you have converted it from an arm chair to a most comfortable easy chair. This model not only embodies all the features of the Royal Easy Chair but it also will prove an attractive addition to your home. Seat and back are filled with deep coil springs, carefully padded and upholstered in Brown Imitation Spanish Leather or Genuine Brown Spanish Leather. Solid Oak frame. Golden finish. Beautiful Master-Made Fiber Reed Furniture

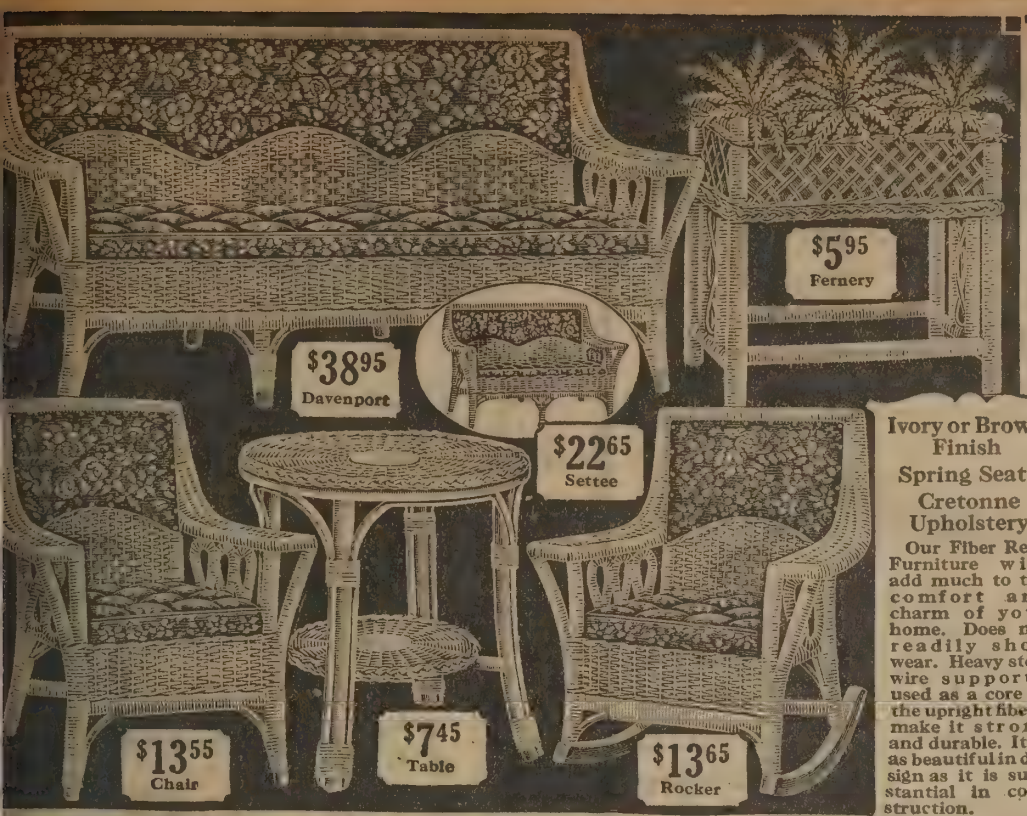
TRADE MARK

THE fiber reed used in our furniture is manufactured on machines especially designed to change the raw material into a hard, smooth surfaced fiber cord. It is woven on the frame, similar to reed. It is not easily affected by moisture. Our Fiber Reed Furniture is noted for its durability, luxurious comfort, charm and beautiful flowered Cretonne upholstery. All the uprights are braced through the center with a concealed wire of tough steel, which gives them added strength and stability. It combines those qualities of lightness, beauty of finish and ease of cleaning so much appreciated by women. For the very low price we ask, our Fiber Reed Furniture will prove a delightful surprise to those seeking to beautify their homes at small cost.



Ivory or Brown Finish
Spring Seats
Cretonne Upholstery

Our Fiber Reed Furniture will add much to the comfort and charm of your home. Does not readily show wear. Heavy steel wire supports, used as a core in the upright fibers, make it strong and durable. It is as beautiful in design as it is substantial in construction.

iber Reed Furniture Makes the Home More Attractive

Fiber Reed Furniture is becoming more popular each season. may now be used in almost any room in the correctly furshed home. This set is attractive and well built. The ames are of seasoned hardwood. All cross strands of fiber ed have steel wire centers, insuring great strength. Davenrt, settee, chair and rocker have spring seats, with tufted reovable cushions. Good Books Are Worth Protecting

Books always are worth buying, and they surely are worth protecting from dust and mishandling. A good Bookcase is not only necessary to protect your books, but when well laden with good books it becomes an unfailing indication of the distinction and refinement which mark the homes of people who seek knowledge and cultural improvement. We show on this page bookcases worthy of your most treasured volumes; all are Master-Made, all are low in price. These are unmistakable evidences of unusual value.

The handsome Oak Bookcase shown below is offered in three sizes and prices, to meet every requirement. In all sizes the construction is the same. Built with Genuine Quartered Oak fronts. Golden or Fumed Brown finish. Reinforced construction throughout. There is a lifetime of service in whatever size you order.

This graceful Walnut Veneer Dining Set in Queen Anne design will make entertaining a pleasure. You will be proud to seat your guests at the roomy, attractive table and they cannot fail to admire the graceful lines and pleasing balance of each piece in this well made set.

The entire set is of genuine Walnut Veneer with a rich velvety, dull rubbed finish. All exposed surfaces are built with genuine Walnut Veneer, carefully matched for grain. The legs and posts are seasoned hardwood, walnut finish, in the graceful Queen Anne design. All handles and drawer pulls are antique silver finish, designed to harmonize with the period style of this very fine furniture.

Each piece in this set is carefully inspected before it leaves the factory. Satisfaction assured whenever you choose Master-Made furniture.

Buffets with Plate Glass Mirrors
Choice of 54-inch or 60-inch lengths

Combines an unusually attractive exterior with a convenient drawer and cupboard arrangement. The three easy sliding drawers have bottoms of three-ply genuine Mahogany Veneer and are dovetailed at the corners for strength. There is a felt lined drawer for silverware and two convenient cupboards to hold extra china or glassware. Top either 54 by 21 inches with plate mirror 50 by 5 inches; or 60 by 22 inches with plate mirror 54 by 6 inches.

Table. Both round and oblong tables have 5-ply tops with genuine Walnut Veneer. Legs are seasoned hardwood, Walnut finish, with a double leg support in center.

Round Table. Diameter, 48 inches.

Oblong Table. 60 by 45 inches.

China Cabinet. Glass doors and sides, with Walnut Veneer backing. Three adjustable shelves. Top, 40 by 14 inches. Height, 60 inches.

Server. Walnut Veneer nicely finished. Harmonizes perfectly with every other piece in the set. Top, 36 by 18 inches.

Straight Chair and Arm Chair. Genuine Walnut Veneer back panels. Seats, 17½ by 14¾ inches, are upholstered in Genuine Brown or Blue Spanish Leather. Height of backs from seats, 22½ inches. **State leather wanted.**

Exquisite Queen Anne Period Buffet

Our finest and one of our most beautiful Buffets, offered as an exceptional value. We do not say it is a big value because of low price alone, but because it is of sound construction, exquisite style, and dull rubbed finish, yet is priced very reasonably. First, consider the construction; it is built of genuine American Walnut veneer, in comoination with select cabinet hardwood; the top, front, and sides are in built up construction, and can never warp nor draw; all joints are securely mortised and tenoned.

Designed in Queen Anne Period with gracefully curved legs, scrolled front, beveled edge top, and shaped mirror frame. The mirror is of good quality plate glass. Drawer and cupboard space is arranged for the convenience of the housekeeper. Two drawers, the upper of which is lined for protection of cutlery. At each side is a dustproof cupboard. Top, 60 by 22 inches; plate mirror, 54 by 8 inches. Shipping weight, about 225 pounds.

Exceptional Value Here

Handsome appearance, sound construction and convenient arrangement of space are offered you here at a special price. This is more evidence that at Ward's good quality always goes with low price.

The Mission style is especially appropriate in a buffet—a piece of furniture which must combine utility with good looks, and give long service. This is sturdily built of well seasoned Oak; Golden Waxed or Fumed Brown finish. Two small drawers, full width drawer below and two generous cupboards supply ample space for linens, silver and cutlery. Good quality plate glass mirror surmounted by panel which forms a small shelf. Size of top, 42 inches by 20. Plate mirror, 32 by 6 inches. Shipping weight, about 155 pounds.

What to look for When you buy a Dining Table

1. It must be small enough for family use, yet built so it can be quickly extended for company.
2. It must not lose any of its sturdiness when extended. Each of our pedestal extension tables has solid, non-dividing pedestal. Notice how it remains in center and forms a solid base for the extra center leaves. (See illustrations at left.)
3. Furthermore, the ends are braced by concealed drop legs.
4. All of our tables are furnished with close fitting and very carefully seasoned extra center leaves.

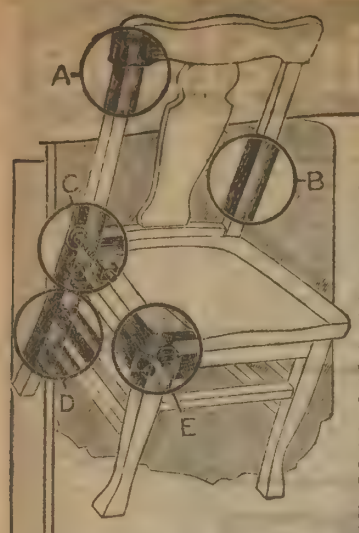
Strength! Look For It When Yo Buy Dining Chair



These Chairs are masterpieces of the woodworkers' skill, made according to the most modern ideas of style, construction and finish.

A—The back panel fits onto the tops of the back posts by means of perfect grooves so they are joined and glued solidly without the use of screws.

B—The back posts are bent to the right curve instead of being cut to shape. This adds much to their strength and permits a continuous and even grain.

C—Note the bolted construction which holds the back posts to the seat frame. These bolts—one on each side and much longer than ordinary screws—are 1¼ inches thick and 3 inches long, and run through each back post deep into the seat frame where they are securely bolted. You're not going to have any loose and wobbly chairs if you furnish your home with chairs like these—they are Master-Made Chairs.

D—All of these chairs have two stretchers between the legs on each side, making them firmer, more rigid, and longer lasting.

E—Double dowels on each side hold the front legs firmly to the top of the seat frame—another proof of the greater durability and solid strength of these chairs. The pad seat chairs are of single dowel construction.

You would expect chairs constructed so carefully would be high in price. Our low prices with "Master-Made" quality is made possible only by the large quantities of these chairs that we sell to our customers.

Queen Anne Period Chair or Arm Chair

One of our most beautiful Dining Chairs designed in the charming Queen Anne period, offered to you here as a special value. Every Desirable Convenience Included

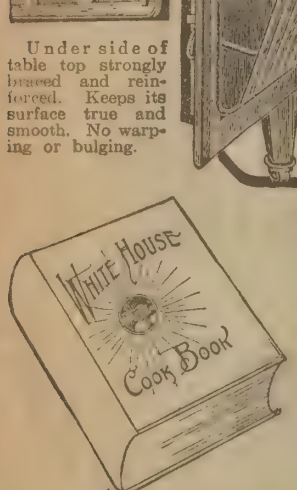
Suppose you are baking a cake. First you want recipe. It is on a card, filed in one of the small dra provided for just such purposes. Your flour is above the table space in a sanitary metal bin wi glass front so you can see when your supply is low few turns of the crank and you have it sifted, all re for use. Sugar is right at hand in a sanitary, dustp glass jar where you get it without a step; and you even have to scoop it out; instead, just press back a simple and the sugar runs freely into your cup. Pull the lever bac the jar is closed! Eggs, chocolate and extracts are in one o little cupboards; baking powder and spices are right at the fi tips in airtight glass jars. Egg beater and nutmeg grater one of the drawers within easy reach. Crocks, cake pans other utensils are in the bottom cupboard, and you don't to crawl in to get them out, either, because this cupboard h sanitary sliding metal tray. Simply pull the tray out and utensils come right along with it. You do your work on a tary porcelain enameled table top, which pulls out to give more room. When your cake is done, there is the lower r hand drawer with a sanitary metal box in which to place it. the box is perfectly ventilated to keep it sanitary!

Absolutely Antproof! Which means that you never hav worry about troublesome ants getting into your flour or s They can not get any higher than the casters!

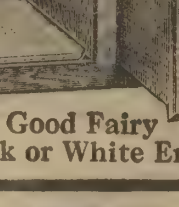
Priced at Practically Half What You P Elsewhere for Equal Quality!



White House Cook Book Included With This Cabinet

We don't have to tell you what a real help the famous White House Cook Book would be to you! With every Good Fairy Kitchen Cabinet we include, without additional cost, one of these excellent cook books, containing hundreds of pages of practical recipes and suggestions for preparing new and delicious dishes. This book will help to solve many of your difficult cooking problems, and as a constant reminder and reference book it will be invaluable to every housekeeper.

Antproof casters, a sanitary protection in your kitchen.



The sliding wire shelf can be used to rest hot dishes before serving.

A sliding bread board—for cutting bread and meat—firm and solid.

A dustproof all metal bread box for keeping bakery goods fresh.

Now You Can Say Good-By to Kitchen Drudgery!

This Good Fairy Kitchen Cabinet (Master-Made) was meant for women just like yourself, and it is so well built and conveniently arranged that it has been tested and approved by the Good Housekeeping Institute. You know what that means. It means that this cabinet supplies every convenience to lighten the usual drudgery of kitchen work. If you were to design your own cabinet just as you wanted it, we doubt if you would change a single one of the features shown here! The finish is in a beautiful Golden Oak, with art glass doors. The full sliding top, of stain and acid proof White Porcelain Enamel, with its strong frame work underneath, never bulges, warps or gets out of shape. Provides a working surface, 40 by 36 inches, when extended. Interior of top compartments white enameled; compartment over table closes with a rolling shutter. Equipment consists of a swinging glass sugar jar with metal cap and shut-off; one coffee, one tea and five spice jars. White enameled sifter flour bin lowers easily to proper height for filling. Special bracket and block for food and meat grinder. Has sliding bread board, metal bread and cake drawer with sliding lid, and base cupboard equipped with sliding sanitary metal tray. Removable metal shelf and pan rack, and a special compartment for pan covers. The big cutlery drawer is partitioned into sections. Dustproof Lip construction on all doors and drawers. Nothing has been forgotten! If you prefer White Enamel Finish throughout, we can furnish it that way at a slight additional cost. Height, 70 inches; width, 40 inches; depth, 25 inches. Groceries and dishes not included. Shipping weight, 240 pounds.

White Enamel or Golden Oak Cabin

Just think what a difference this high grade, conveniently arranged Cabinet will make in your kitchen. If you could only fully realize how much a good kitchen cabinet helps you in your work you would never be without one like this. Choice of seasoned Golden Oak, with sliding Extension top of either Nickel or White Porcelain Enamel or hardwood White Enameled throughout with porcelain enamel top. In the Golden Oak cabinet, the interior of upper section is finished in White Enamel. Strongly braced and reinforced throughout. This cabinet has more drawer and cupboard space than most cabinets.

There are five roomy drawers in the base; notice large linen drawer just above the big kitchen utensil cupboard. Use the three other roomy drawers for various articles which you need every day in your work. Large bottom metal drawer for bread and cake rests on sliding platform which remains in same position when extended.

Lower metal utensil cupboard has sliding metal tray, sliding wire shelf, and metal pan rack. Attractive floral design on doors, which have special file hooks, coin and check tray and card rack. Cupboard below is covered by easy rolling, full canvas back curtain front, perfectly dustproof. At back are wire rack with five glass spice jars; rolling pin rack, and tilting sugar jar with nickeled top and metal scoop. Rack with glass tea and coffee jars on large door at left. White enameled flour bin, 50-pound capacity, swings forward and downward so that op at top of bin is level with porcelain top, making it ea easier for you to fill bin with flour and swing up into pl again. Convenient cutting board, 14 by 20 inches, fi with top. Also has block for attaching meat cho High grade antproof casters. Attractive nickel trimm Back of top, back and bottom of base, ends and do selected, non-warping three ply veneer. Height, 72 in Width, 40 inches. Depth, 25 inches.

You will find this superior cabinet, although low price, has all of the important, up-to-date conveni found in any strictly first class cabinet. It is so arra that everything is in easy reach, yet nothing is in y way until needed. This cabinet is a real labor sa one which you will use and appreciate for a long ti your own home. You will be delighted with this m saving value. Groceries and dishes not included. S ping weight, 210 pounds.

The well aged cupboards above provide ample room for ed goods; in fact, this cabinet is made extra large provides practically as much usable space as you d find in many pantries.

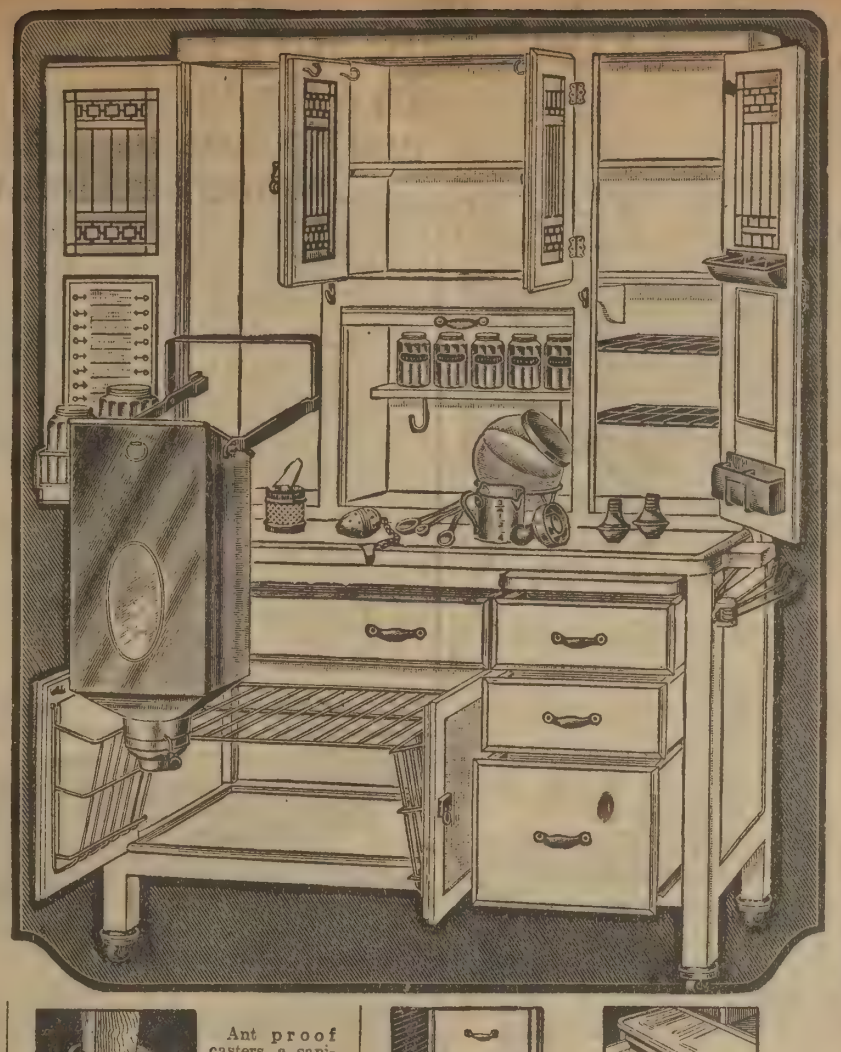
White Enamel or Golden Oak

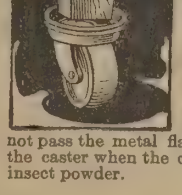
ery woman appreciates the advantages and beauty Kitchen cabinet finished all in White Enamel, h is perfectly sanitary in appearance and is easily so with a little soap and water. The Princess is white, and equipped with a sliding Porcelain nel top having a firm, hard surface which does not g or warp. Also furnished in Golden Oak with in- r of upper section White Enameled. Here is, indeed, ue in kitchen cabinets that you cannot duplicate in retail store except at a great additional cost. This statement applies to every kitchen cabinet and shown on these two pages.
mpare the price of this cabinet with what it will do ou, year after year, in lightening and speeding up kitchen work, and you will realize that the cabinet more necessary to you than the money it takes to hase it!

All-metal flour bin has a capacity of one 50-pound sack of flour. Lowers on steel arms to convenient height for easy filling. Simple, easy push sends it back into compartment. Window in front tells how much flour is in your bin. Sifter firmly attached to cone shaped bottom.

Sliding metal tray and wire shelf gives plenty of room for utensils. Slides quickly forward into easy reach. Can be removed entirely for your convenience in cleaning. Adjustable shelf.

Airtight tea and coffee jars with aluminum tops.

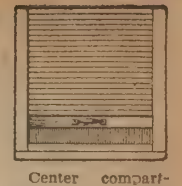




Ant proof casters, a sanitary protection in your kitchen and a reliable means of shutting out this bothersome pest. Ants cannot pass the metal flange just above the caster when the cup is filled with insect powder.

A dustproof all-metal bread box is provided, keeps bakery goods fresh longer.

A partitioned drawer is provided for keeping your cutlery in an orderly arrangement.



Center compartment has easy rolling shutter. When down cupboard is dustproof. Rolls up out of your way.

Compartment for filing recipes and receipted store bills. Keeps them out of way but within reach.

Convenient wood block makes firm place to attach food chopper. Also handy swinging towel rack.

Hardwood cutting board extends with top. Firm solid wood.

This Aluminum Set Included With This Cabinet

Here is a sturdy, compact, all-aluminum set, containing salt and pepper shakers, graduated measuring spoons, doughnut or cookie cutter, tea ball, coffee percolator, and measuring cup. You will use them daily, and all are included free with this cabinet.

Fingertip Convenience That Replaces Footsteps!

The big advantage of this Princess lies in the fact that you have everything right in your kitchen where you can reach it in an instant. All of the necessary jars are provided, for spices, teas, coffee, etc. Your pots and pans are out of the way in the bottom compartment, yet readily accessible because pulling out the sliding metal tray brings them right to the front whenever you want them. And when your cakes and bread are baked, they are kept fresh and crisp in the large metal bread box concealed in the lower right hand drawer. Attached to the doors in the upper section you have convenient want lists, recipe lists, coin holder, card and book rack, and hooks for filing bills. In fact, nothing has been overlooked to make this cabinet as complete as any on the market, regardless of price. Your saving, moreover, compared with what you would have to pay in any retail store for any cabinet as good as this, is truly unusual. So, in considering the many time and step saving advantages and the genuine high quality of this cabinet, don't overlook the positive saving in money that it is possible for you to make by putting it in your kitchen!

This Cabinet is 48 Inches Wide

The Princess is made especially for the home requiring a large cabinet. It is 71 inches high, 48 inches wide, and 27 inches deep. Table top closed is 48 by 27 inches in size. When extended, the working surface is 48 by 36 inches in size. Shipping weight, 300 pounds.

Cedar Chests Protect Your Clothes

At Home in Any Room

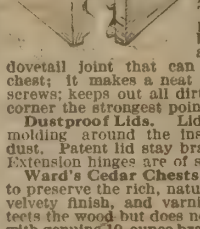
As a cushioned window seat, at the foot of the bed, in hallway or living room, a Cedar Chest is a beautiful and appropriate piece of furniture. Even as it protects your clothing, it lends its comfort and color to your home.

In a Cedar Chest, Furs and Woolens are Safe From Moths and Dust

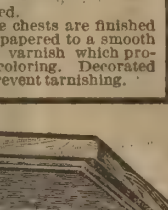
U. S. Government tests have proved that the odor of Red Cedar is death to moths. Seventy full grown moths were shut in a cedar chest and left for several months. When it was opened every moth was dead, and no eggs had been laid.

If you have ever had valuable furs or clothing ruined by moths, you will realize what a relief it is to **know**, when you store away clothing, that it is safe from this pest. You can appreciate how quickly a cedar chest pays for itself in the clothing it saves.

Our chests are made from solid **Tennessee Red Cedar**, thoroughly seasoned and kiln dried, and free from defects but rich in fragrant cedar oil. At every point our aim is to build chests that shall be not only mothproof, but mouse-proof, dustproof and dampproof—so beautiful that they will add to the appearance of any home, so sturdy that they will last for generations.

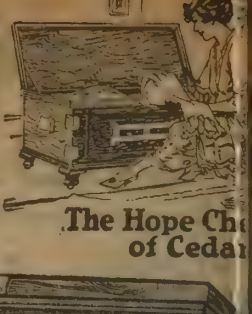


Locked Corners. Illustrations show how our super strength corners are made. These invisible lock joints are driven together, forming a self locking brace. They are glued under pressure and again braced by a strong, three-cornered strip. This is the best dovetail joint that can be devised for a cedar chest; it makes a neat corner without nails or screws; keeps out all dirt and dust, and makes the corner the strongest point in the chest.



Dustproof Lids. Lids fit perfectly and a cedar molding around the inside, seals them against dust. Patent lid stay braces lid in open position. Extension hinges are of strong brass, firmly secured.

Ward's Cedar Chests Will Never Fade. These chests are finished to preserve the rich, natural color. They are sandpapered to a smooth velvety finish, and varnished with a transparent varnish which protects the wood but does not alter its beautiful rosy coloring. Decorated with genuine 10-ounce brass, heavily lacquered to prevent tarnishing.



The Hope Ch of Cedar

A Cedar Chest is the perfect "Hope Chest." To it you trust your choicest linens, knowing they are safe. In the new home it will be your first, most cherished furniture—and again a hope chest to guard faithfully tiny, precious woolens.

The Rose Standish Three Sizes — $23.98 With Tray

The Standish Chest, purchased today for a "hope chest," may become a family heirloom, so sturdily is it made and so lasting the fragrance of Tennessee Red Cedar. Artistic design on Colonial lines, suitable for hall or living room as well as bedroom. Natural finish with hand polished top and genuine copper trimming. Comes with or without three-quarter length sliding tray. Sturdy locked corners, dustproof lid, brass lid stay and hinges. Lock and casters. Bag of cedar shavings included.

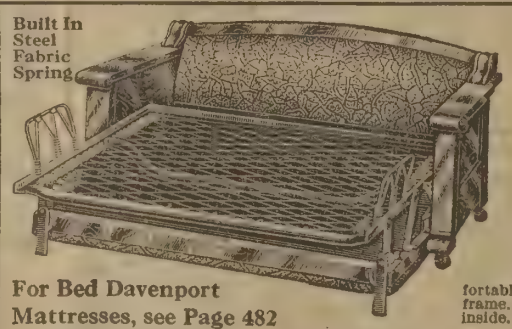
Built In Steel Fabric Spring



For Bed Davenport Mattresses, see Page 482

Day and Night Service Is in This Master-Made Bed Davenport

Opens easily and quickly into full size double bed, 48 by 72 inches, with comfortable built in steel fabric spring, tubular frame. Mattress and all bedding fold away inside. Mattress and bedding not included.

Comfortable Bed Davenport, Rocker and Chair With Oak Frames

ONLY a small payment down brings this handsome Davenport Bed, Chair and Rocker into your home for you to use and enjoy. You pay for it as you use it. Why wait until you have money saved to buy the furniture you need and want today? It is much easier and just as business like to use your credit and pay on easy terms. Take advantage of this opportunity—have a comfortable, practical Bed Davenport set in your home—**now.**

The complete davenport set makes the most attractive and homelike living room. The biggest furniture value is found in the Bed Davenport because it practically adds another room to the house.

Long Davenport. Entire length, 84¾ inches. Entire height, 34 inches. Size of seat, 75½ by 21 inches; width of front legs, 3½ inches. 36 coil springs in seat. Opens into a bed 48 by 72 inches. Casters. Shipped taken apart to save you freight.

Short Davenport. Entire length, 61½ inches. Entire height, 34 inches. Size of seat, 52½ by 21 inches. Width of front legs, 3½ inches. 24 springs in seat. Opens into a bed 48 by 72 inches. Casters. Shipped taken apart to save you freight.

Chair and Rocker. Height of backs from seats, 22 inches. Entire height, 37 inches; size of seats, 20 by 20 inches. Entire width, 28 inches. Shipped taken apart to save you freight.

Quartered Oak Veneer

This set, priced lower than has been possible in years, is an exceptional value. It is built throughout of seasoned, carefully selected Oak with front and sides veneered with Genuine Quarter Sawed Oak, showing the flaky grain pattern of the wood. Careful workmanship marks each piece and the artistic design is very pleasing.

The massiveness of these pieces makes it possible to build comfort into them. The long davenport seat is built up over 36 oil tempered spiral springs with top filling of moss and cotton. Seats of arm chair and rocker are spring filled and the backs of all pieces are fully cushioned in a comfortable curve. Upholstery—your choice of Imitation Spanish Leather or Genuine Spanish Leather; finish is Fumed Brown or Golden Waxed. A single, simple operation changes the davenport into a bed. A fabric bed spring is built into it and you sleep on spring and mattress just as in a regular bed. Sanitary construction gives plenty of air circulation beneath the bed. When closed, there is room inside for the bedding and mattress.

Luxurious Overstuffed Set

Chair and Rocker with Regular Davenport or Bed Davenport

Imagine yourself, after a hard day, sinking into the cushioned depths of one of these Master-Made Overstuffed Chairs. Picture how much more comfortable and inviting your home will be graced with these pieces with their gently arched backs, gracefully curved arms and distinctive Queen Anne style feet. Durability, as important as comfort in good furniture, is built into the strong, massive frame made of high grade, select hardwood. All seats have excellent springs built into the frames; springs especially developed to give the utmost in comfort and lasting service. Removable cushions are made of high grade moss, tow and felted cotton over closely assembled resilient wire springs of excellent quality, and supported by strong webbing back. All seats have soft spring edges. All exposed wood parts finished in dull rubbed Brown Mahogany.

Richly Covered With Velour or Mohair Your Choice

The upholstery is in your choice of figured brown Mohair; or Blue, Mulberry or Brown Velour. **State color wanted if you choose Velour.** Illustration shows the set in Velour upholstery. The velour is velvetlike in its soft pile and is attractively flowered. The mohair is in a pleasing harmony of colors, artistically blended.

Regular Davenport—or Bed Davenport

Two styles of Davenports are provided in this set: the regular or stationary kind, which can not be opened into a bed; and the Bed Davenport, which may be opened into a full size double bed.

Regular Davenport. In the seat, the back arms of this davenport are deep comfort ma springs. Soft spring edge. Spring filled, re cushions. Entire length, 84 inches. Length of inches; depth, 22½ inches. Height of back fr 16 inches. Casters.

Long Bed Davenport. When closed looks like the regular Davenport—having the same and upholstery—and is just as luxuriously com to sit on, since it has the same coil spring con in back and arms, with resilient, spring filled and spring edge. Long Bed Davenport is 84 in length. Opens to a full size bed, 48 by 7 Casters.

Regular Chair. Deep spring seat, bu arms. Many fine coils in removable cushi side length of seat, 19½ inches; depth of se inches. Height of back from seat, 16 inches.

Fireside Chair. This has the same soft, able spring construction as the other pieces. is higher than the back of the regular chair. each side to support the head when you relax Seat, 19½ by 22½ inches; height of back fr 20 inches. Casters.

Italian Renaissance Dining Set

THE style and design of this Set were developed in Italy in the days of Michael Angelo, during the great revival of art and beauty. It has ever since been a great favorite among those who admire beautiful furniture, and is one of the most stylish and popular designs on the market today. We are offering these pieces at remarkably low prices, and are confident that equal values can not be found elsewhere. With our **easy payment plan** you have the use and enjoyment of the furniture while paying for it! The Buffet, Cabinet, Server and Table have beautifully embossed moldings and are veneered on tops, fronts and ends with Genuine American Walnut, dull rubbed, carved legs and chairs are of Hardwood, finished to match. Drawer pulls are wood embossed. The Buffet is especially convenient. The minute you put your knives, forks, napkins and table linens into the drawers, and your coffee urn, bowls and other things in the two end compartments, you will realize its usefulness as well as its beauty.

The China Cabinet is the very latest design, with paneled doors. Your china will be kept safe, clean and handy for use. The server will save you many trips to the kitchen. The table is extraordinarily strong and rigid; its cut off corners are particularly stylish. The chairs are built to last for many years. Choice of Genuine Blue Leather or Figured Tapestry seats.

State upholstery wanted.

Easy Payment Plan

Take advantage of our new Easy Payment Furniture Service. You may choose the furniture you want from Pages 510, 511, 512 and 513, and have any of it in your own home for only a small first payment. Be sure to turn to our table of Easy Payment terms at the top of Page 510.

They show you how easy your home can be furnished complete without the necessity of paying the full amount at one time.

Adam Period Dining Set A Favorite

THE simplicity and elegance of Adam Period furniture has made it a favorite among people of good taste. This is an especially beautiful example, which we are able to offer at prices that make it one of our most remarkable furniture bargains in recent years. Provided in two finishes, Walnut veneer and Jacobean Oak, which is similar to fumed oak, but richer and more attractive. The Buffet, Cabinet, Server and Table are veneered on top, front and sides with Genuine Walnut rubbed to a dull finish; or Genuine Quartered Oak beautifully waxed. The chairs are finished to match. The Buffet will prove a great convenience. The Cabinet will set off your china to the very best effect. The Server may be moved close by your table, keeping in readiness everything you will need. The Table is especially attractive in design. The chairs are sturdy, with strong, rigid joints, and have upholstered slipseats. Choice of Genuine Blue Leather, or Figured Tapestry seats. **State upholstery wanted.**

Our Easy Payment Plan is for your accommodation and makes it very easy to buy this set. A small payment down will put it into your dining room immediately. Small monthly amounts will soon complete payment.

$5.00 A Month Pays for Either of these Rugs

See Terms - Page 510

You will admire the soft, rich colorings of this handsome **Velvet Rug.** A small cash payment places it in your home and you can pay the balance in easy monthly payments. For the amount to be paid each month, see table of terms on Page 510. This rug has a warm tan background with a very beautiful oriental pattern in deep blue, brown and a little ivory. The dark blue border shows the tan and blue design in charming relief and adds much to the attractiveness of the rug. The quality is dependable. In fact for service as well as beautiful appearance, you can not obtain a better value. Woven of pure worsted yarns with thick, silky pile and strong back. **Seamless.**

Why buy a cheaper Rug for cash when you can obtain this high grade, handsome **Axminster Rug** on such easy terms? Only a small cash deposit will bring it to your home. The balance can be paid in small monthly installments—for table of terms, see Page 510. The pattern is a particularly pleasing all over design in warm brown tones with a very little tan and green. Beautiful band border showing the design makes a pleasing contrast. This Axminster Rug is woven from pure worsted yarns over a strong back and has a soft, deep pile which gives it a lovely silken sheen. The quality is one which we can recommend for its splendid service. **Seamed.**

This Is a Case Where Small Payments Will Produce Big Results in Furnishing Your Home

Renaissance Period Bedroom Set-Walnut Veneer

THIS exquisite four-piece Renaissance Period Two-Tone Bedroom Set will appeal to all those persons who love beautiful furniture. You can easily afford to buy one or all of these pieces on our Easy Payment Plan. A small first payment will bring them to your home so that you may use and enjoy them while saving to make the remaining payments. See Page 510 for table of terms. These four pieces are bargains that we are proud to offer.

We are confident that equal value in really good furniture can not possibly be obtained elsewhere. Every line of this set expresses grace and beauty. The four pieces are veneered top, front and sides with dull rubbed Genuine American Walnut selected for beauty of grain. The circular decorations are overlaid, and are of a lighter shade of Walnut, giving a charming and stylish two-tone effect. The Chifforobe, Vanity Dresser and Dresser tops have molded edges which add greatly to their fine appearance. Various other moldings also serve to enrich the general effect. The body construction is of seasoned hardwood, carefully joined and reinforced so as to give many years of use and satisfaction. The drawers are dovetail construction, with 3-ply non-warping Mahogany veneer bottoms. They fit nicely, are conveniently arranged and have decorative silvered pulls. All pieces have easy rolling casters.

Bed.—The dainty head and foot, with the stylish bow ends, will make any bedroom artistic and delightful. Height of head, 49 inches; width, 54 inches. Wood side rails. Bedding not included.

Dresser.—Especially attractive to the woman of good taste. Large and roomy, with 48 by 22-inch top. Plate glass mirror is 28 by 32 inches.

Vanity Dresser.—This is a most convenient and stylish piece. The two plate glass side mirrors, 28 by 8 inches, swing on hinges. The large center plate mirror is 46 inches high, 18 inches wide. Total width, 48 inches.

Chifforobe.—This is a very valuable addition to any bedroom—its convenience can hardly be overrated. Hat compartment, three large sliding trays below for various articles of wearing apparel, and wardrobe section fitted with coat hangers will make you delighted with this piece the minute you put it into use. Entire height is 53 inches; width, 36 inches; depth, 18 inches.

$5.00 A Month Is a Very Small Amount, Yet It Will Soon Pay for This Convenient, Time Saving

Kitchen Cabinet

EVERY woman deserves a good Kitchen Cabinet. You can now obtain this extra large size, well equipped cabinet on easy monthly payments. Just a small cash payment with your order brings it to your home and you can enjoy the full use of it while paying the balance. See table of terms on Page 510.

The woman whose kitchen work is made easier by The Luxury begins each new day with time gained from the start. In The Luxury we have included features of excellence not found in any other cabinet. You will be pleased with its handsome appearance in your kitchen, and welcome its help in making your work more pleasant.

Spotless White Enamel or Lustrous Golden Oak

You may have your choice of washable White Enamel or Golden Oak. The white enamel cabinet is built of select seasoned hardwood, and is finished white enamel inside and outside. This attractive finish is especially suited for the kitchen because of its spotless whiteness. It is easily washed with a damp cloth, and the hard enameled finish is unharmed by steam and gases which often fill the kitchen, at cooking time.

If your choice is the golden oak cabinet, you are equally certain of beautiful appearance, long service and durability. It is made of select Genuine Oak, built sturdily and carefully, up to Master-Made standards of construction, and the interior of upper section is finished in white enamel. The cabinet is given several coats of a varnish not affected by steam or gases. As a result, your oak cabinet will retain its clean, handsome appearance.

Labor Saving Features

Large lowering flour bin which will hold 50 pounds of flour, has sifter and hinged metal cover. Window front, so you may see at a glance when it needs refilling. Swinging sugar jar, with metal cap and metal automatic dispenser. One coffee, one tea, and five spice jars, all with metal covers. Metal bracket and block for food chopper. Nickel plated towel rack. Upper cupboard with wood shelf and art glass doors. Lower cupboard of upper section closes with roll curtain front. Five convenient small drawers. Removable bread board.

The design of the base of this cabinet indicates the care and thought exercised to make it of the greatest possible assistance to the housekeeper. It has four different size drawers. Special metal cake and bread drawer with sliding metal lid. Extra large cupboard with removable wire shelf. Metal tray on bottom pulls out, bringing pots and pans within easy reach. Pan racks on doors; ant proof casters.

Beautiful Nickeled Hardware—White Porce… Enamel Extension Top

$5.00 A Month Pays for Complete Outfit, Bed, Mattress and Spring

Look At All The Beauty and Comfort This Small Amount Will Soon Pay For!

Our Easy Payments Solve Your Home Furnishing Problem

Luxurious Comfort and Beauty!

But Above All This Outfit is Easy for You to Own

UNTIL you have slept over the cushioning spirals of a soft surface coil spring, with every coil yielding under a soft, thick mattress to each curve and contour of your body, you have not experienced the luxurious content which sleeping comfort brings to a tired body. And hardly second in importance even to a good spring and mattress is the necessity of a bed which stands rigid, steady and noiseless, designed and built so it can never develop annoying squeaks or rattles.

Here is your opportunity! This entire outfit, or any piece, will be delivered to your home on receipt of only a small first payment.

Steel Bed. The steel bed is really a work of art. Steel construction contributes its long lasting strength; always is sanitary and easy to keep clean; finished to show the grain pattern and color of Golden Oak, Brown Mahogany, or American Walnut. Sound, rigid construction. Patent, pressed steel corner locks, which insure a steady, upright bed always. Windsor feet with casters. Height of head end, 52 inches; foot end, 34 inches. Corner posts and cross rails, 1½ inches square; 9 uprights in each end. In 54-inch width only. Easy rolling casters. Bedding shown not included.

Inner Strap Mattress. A 50-pound, felted cotton mattress, our own special make fully described on Page 480. It is thoroughly reinforced with strong Inner-Straps sewed across the inside of the ticking. **It can never spread or widen and only at Ward's can you buy this famous mattress.** Extra quality, floral pattern art tick; sewed with reinforcing roll edges and uniformly tufted. Mattress has plain sateen border. In 54-inch width only.

Spring. Built with specially tempered wire coils, in double deck construction. The deep coil springs are attached at the tops to smaller cross springs; the edge is bound all around with a heavy border wire. This spring has a stabilizer, a special feature, which prevents side sway. All the springiness is up and down, none is lost in side motion. In 54-inch width only.

Order the Outfit with Brass Bed if Desired

Brass Bed. Made of beautiful brass tubing, reinforced with steel to give it greater strength. Patent pressed steel corner locks to hold it always steady and rigid. Lustrous satin finish, with brightly polished, decorative ribbon bands. Corner posts are 2 inches in diameter and decorated with brass caps. Attractively grouped filler rods, 2 inches in diameter. Height of head end, 50 inches; foot end, 34 inches. In 54-inch width only. Bedding shown not included. Easy rolling casters.

You Want a Beautiful Bedroom

EVERY woman wants to have the kind of furniture which will make her bedroom a room of beauty. Of course, Master-Made bedroom furniture always is built to that ideal, but in making this Queen Anne Period Two-tone Set we have gone even a step further than usual in striving to produce furniture which you will be proud to have in your bedroom. This is one of our finest sets; it is of exceptional quality, yet as always, you get the benefit here of a lower price than you would pay elsewhere.

American Walnut Veneer

Built in genuine American Walnut veneer construction, in combination with high grade, select hardwood. This veneer construction has a twofold advantage. First, it prevents warping of the wood, thereby producing exceptional strength and durability. Second, it brings out the full beauty of Walnut at a great deal lower cost than if solid walnut were used.

Joints are mortised and tenoned, which is the method of joining used in the most expensive furniture. Drawers are made with extra strong, three-ply bottoms, instead of the usual single ply. Drawer joints are dovetailed. Hardware is silver plated. These are all important details; they are marks of hidden values—signs of quality furniture.

Two-Tone Walnut Finish

The finish is dull rubbed Walnut, with overlays of Walnut veneer finished a harmonizing, lighter tone.

Bed. Bow end style, with gracefully arched head end. Embossed molding along bottom of foot end. Gracefully curved and beautifully carved feet. Height at head end, 48 inches. Wood side rails. In 54-inch width only. Easy rolling casters. Bedding shown not included.

Dresser. Extra large, with 45-inch top, 22 inches deep. Landscape style adjustable plate mirror, 24 by 30 inches. Top has beveled edge; embossed molding on lower edge of front; carved feet. Easy rolling casters.

Vanity Dresser. Tall center plate mirror, 44 by 16 inches. Adjustable side plate mirrors, 24 by 10 inches. Entire width, 45 inches. Depth, 18 inches. Two drawers and shelf. Easy rolling casters.

Chifforobe. Arranged to give the greatest convenience. At one side is wardrobe section, with hangers; there are four drawers and a hat compartment. Doors are dustproof. Entire height, 54 inches; width, 36 inches. Easy rolling casters.

Look at Your Window Shades By Lamp Light

YOUR home, otherwise attractive and pleasant, may be made unsightly by cracked and worn window shades.

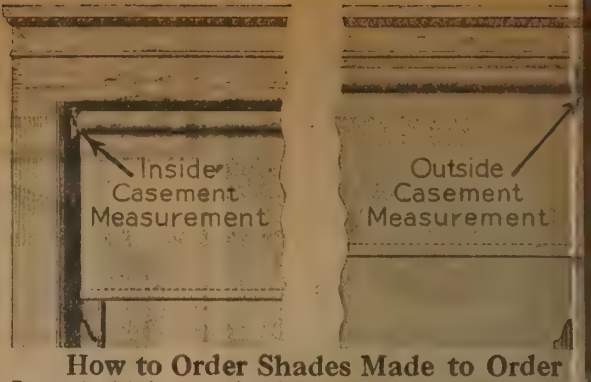
Perhaps you have not paid much attention to yours before, but look at them carefully— in the daytime when the sun shines through, or by night (from the outside) when the house is fully lighted. If they show cracks or pinholes, you will see shafts of light filtering through, quite plainly.

Passersby notice them, too. So do visitors in your home. And what woman is not anxious to have her home above criticism?

Worn window shades, of course, are no reflection on your good housekeeping, as most shades are given rather hard treatment—often raised and lowered none too gently and allowed to flap against the casement when the windows are open. But you do want your windows to look well from inside and outside, by night and by day.

Those shabby shades can now be replaced with fresh, bright new ones and at very small cost when you buy them here.

We take pride in calling your attention to our large assortment of dependable window shades. All our prices on window shades are low, just as on everything else we sell, and no matter what price you pay here, the quality is surprisingly better than you would expect to get.



How to Order Shades Made to Order

Be sure to state in your order whether you want your shades to hang **inside** or **outside** of the window casings.

When shades are wanted to hang on the **inside of the casing**, give m ment from tip to tip of roller **including** the extreme tips of the iron ends, for **inside** brackets. Do not measure with a cloth tape line.

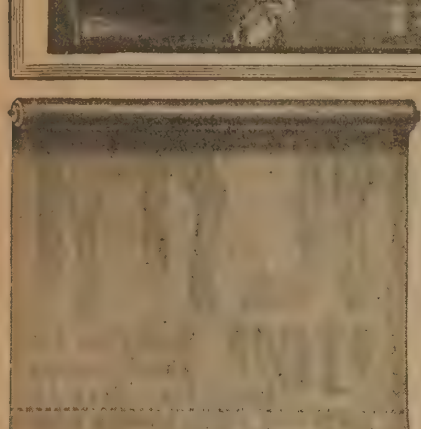
When shades are wanted to hang on the **outside** of the window casi the exact width of the shade cloth and ask for **outside** brackets.

For **length** of shades, measure from top to bottom of window and **add** six to allow easy raising and lowering.

State the color wanted. If you want your window shades to match t order them all of the same quality, as different qualities will show different since lighter weight cloth allows more light to pass through. For sizes large we have quoted, or for colors not listed, prices will be sent promptly on re

Lettering. We letter shades for stores and offices in shaded gilt. Pr lettering sent promptly on request.

When exact size wanted is not shown in table allow price for next size gi



Oil Opaque Window Shades Made to Order

How To Order Carpets and Rugs of Special Size

We Furnish You Free Estimates

Absolutely free of charge and without obligating you in any way, we will cheerfully estimate the cost of floor covering for any room in your home.

When Ordering Carpets Follow These Simple Instructions

Give the exact size of room. Make a diagram to show the room and mark on it, bay window, fireplace and any offset or irregularities in the shape of the room, giving exact measurements of each. State whether you wish strips to run the long or short way of room. Unless otherwise specified, we always cut carpet the long way of room. Allow about 1½ yards waste for matching pattern for every 25 yards of carpet.

Be Sure to Include Sewing Charges

For sewing Ingrain or Rag Carpet, add three cents per yard extra. For Brussels, Velvet or Axminster Carpet, add four cents per yard extra. For Brussels, Velvet or Axminster carpet with border, add ten cents per yard extra. When ordering hall runners made from stair carpet, allow ¾ of a yard extra for mitering ends and $1.00 extra for sewing.

Use the Table Below

In case the size of your room is not given in this list allow enough money for the next larger size. The necessary waste for matching is included. In case we use less we will return the balance to you. We do all cutting, matching and sizing free of charge.

Size of Room Feet	27-Inch Carpet Needed	27-Inch Carpet, Including Border Needed	36-Inch Carpet Needed
6 by 9	13 yds.	17 yards	9½ yds.
9 by 12	17 yds.	21½ yards	12¾ yds.
9 by 13	18½ yds.	23 yards	13¾ yds.
9 by 14	19⅓ yds.	24⅔ yards	14¾ yds.
9 by 15	21 yds.	26 yards	15¾ yds.
10 by 10	16¼ yds.	20¼ yards	12½ yds.
10 by 12	19¼ yds.	23⅔ yards	15 yds.

14 by 15	33¾ yds.	39½ yards	26¼ yds.
14 by 16	36 yds.	41¾ yards	.....
14 by 17	38½ yds.	44¼ yards	.....
15 by 15	36¾ yds.	40¼ yards	26¼ yds.

Special Size Rugs

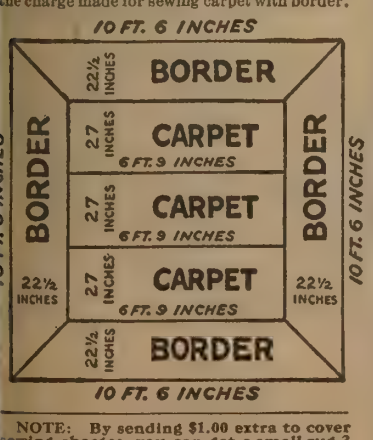
Choose the carpet you want with border to match from styles shown on opposite page. We will make a rug to fit any size or type of room. Be sure to send us a complete diagram of room, showing all measurements. If you estimate your own requirements, follow carefully the instructions given below.

For determining the amount of border required, measure the distance around the room. For instance, if the room is 10 feet 6 inches square as shown on diagram at bottom of page, it would take four times 10 feet 6 inches, or 42 feet, which is 14 yards of border.

To find the number of strips of carpet required, subtract the width of two strips of border, or 45 inches, from 10 feet 6 inches (126 inches). This gives you 6 feet 9 inches, or 81 inches. Dividing this by 27 (the width of one strip of carpet) gives the number of strips needed.

To get the length of strips, deduct width of two strips of border (45 inches) from 10 feet 6 inches; the result is 6 feet 9 inches. Three strips 6 feet 9 inches long would be 20 feet 3 inches, or 6¾ yards.

Allow 1½ yards for matching. This makes the carpet and border required to fit a room 10 feet 6 inches square, a total of 22¼ yards. To this cost add a cost of 10 cents per yard, the charge made for sewing carpet with border.



NOTE: By sending $1.00 extra to cover sewing charges, you can get a small rug 3 feet 9 inches square from the waste due to mitering the corners of large rugs. This makes an extremely inexpensive rug of convenient size and good appearance.

Genuine Crex Rugs

$11.75
9 by 12 Feet

An Unusually Good Value

Quality is the cornerstone upon which our business has been built. We sell only the better qualities of merchandise, and every item is priced to give you superior value. Our Crex Rugs are no exception to this policy. They are pleasing in appearance and combine the advantages of light weight with long wear. We offer them in many harmonious shades. Made of a tough wire grass, firmly woven and bound on the edges. They lie flat on the floor.

These are exceptionally attractive Rugs for the home. The material is excellent and the workmanship perfect. All edges are bound, adding to the life of the rugs. Colors harmonize perfectly with the furnishings in almost any room.

COLORS: Brown, Blue, or Green. Blue rug has blue-gray background with blue border and pleasing design in blue and black. Brown and green rugs similar except borders and designs are Brown or Green to match gray-green or gray-brown background. These color combinations are very pleasing and the designs used are carefully selected to give a charming effect.

State color wanted.

Wool and Fiber Rugs

Good Wearing Rug

This Rug is woven in a new way to give it extra wearing quality. Made of wool and fiber in very attractive pattern. These rugs are especially suited to rooms where the wear is great and will give excellent service under those circumstances. Both color combinations are very good looking and will be sure to please you.

COLORS: Red and green or tan and blue.
State color wanted.

Number	Size, Feet	Shipping Weight	Each
172 E 3120	9 by 12	About 22 pounds	$10.95
172 E 3121	8¼ by 10½	About 18 pounds	10.25
172 E 3122	11¼ by 12	About 24 pounds	15.45
172 E 3123	12 by 15	About 32 pounds	18.75

Low Priced Rug

Good value in a low priced floor covering—At Ward's you always get value no matter what the price. The style illustrated is decidedly attractive—in a dark green and brown mixed background with light figures.

Number	Size, Feet	Shipping Weight	Each
172 E 3075	9 by 12	About 13 pounds	$ 9.25
172 E 3076	6 by 9	About 7 pounds	6.45
172 E 3077	9 by 9	About 10 pounds	8.25
172 E 3078	12 by 13½	About 20 pounds	15.75

Medallion Pattern Rug

Another pleasing pattern in a Rug of good quality at an exceedingly low price. These rugs fill a large demand for an attractive Rug at a price within the reach of all. Nicely patterned and will look well in any room. You can afford one of these rugs to take the place of one of your old rugs. Either color combination will improve the appearance of your home.

COLORS: Red and green or oak and green. **State color wanted.**

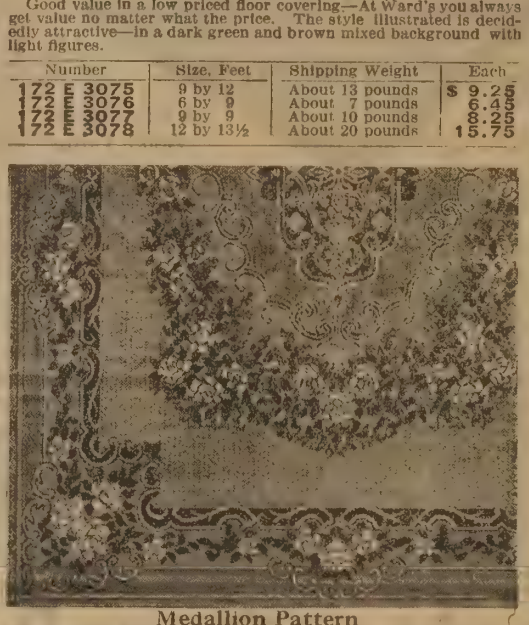
Number	Size, Feet	Shipping Weight	Each
172 E 3100	9 by 12	About 22 pounds	$11.9
172 E 3101	8¼ by 10½	About 18 pounds	10.3
172 E 3102	12 by 15	About 32 pounds	21.3
72 E 1140	2½ by 5	About 2¼ pounds	1.4

Extra Good Weight

These Rugs are heavier and better than most of the other rugs shown on this page, and although slightly higher in price are a much better value. Attractively finished in conventional pattern and surrounded by wide border.

COLORS: Red and green or oak and green. **State color wanted.**

Number	Size, Feet	Shipping Weight	Each
172 E 3124	9 by 12	About 25 pounds	$12.75
172 E 3125	6 by 9	About 13 pounds	7.95
172 E 3126	8¼ by 10½	About 20 pounds	11.75
172 E 3127	9 by 9	About 21 pounds	10.45
172 E 3128	11¼ by 12	About 28 pounds	17.50
172 E 3129	12 by 15	About 46 pounds	21.50



Medallion Pattern

Although this Rug is not quite as heavy as the other wool and fiber rugs shown on this page you will find it very attractive and durable. Color combinations are most pleasing and decorated in a good looking floral medallion pattern. This rug is of good quality despite the very low price.

COLORS: Red and green or oak and green. **State color wanted.**

Number	Size, Feet	Shipping Weight	Each
172 E 3090	9 by 12	About 22 pounds	$11.45

89¢ A Running Yard 6 Feet Wide
172 E 3755

ur Ward-o-leum and Linoleum are sold by the running yard. s means that for one yard of 6-foot width you get 2 square yards; yard of 9-foot width, 3 square yards; one yard of 12-foot width, uare yards. Remember this when comparing prices.

nly because Ward-o-leum is our own product can we offer it to our cus- rs at these low prices. Thousands of satisfied customers are using d-o-leum today, which is a certain indication that it meets the widespread and for economy and quality. Made of dependable materials on a sani- waterproof felt base.

ur faith in its dependability is backed by the same policy which covers ything we sell—**Satisfaction Guaranteed or Your Money Back.**

o Lay—Spread material flat on the floor, allowing about ¼ inch to over- at seams for shaping to floor. Cut it clear through; never attempt to tear it. w it to remain without tacking for about a week. You will have a smooth, floor covering that requires tacking only at the seams.

per-Ward-o-leum. An extra heavy grade Ward-o-leum. At this low price s good investment, for its specially selected materials will give you long, con- us wear. When ordering, see table at bottom of page for amount required ver your floor.

Made by pressing a mixture of ground cork and oxidized linseed oil into the mesh of a strong, heavy burlap. This is then covered with several layers of wear resisting paint in various attractive patterns. This makes a very strong product that will give you long, satisfactory service. The surface is easily cleaned and kept in good condition. Linoleum makes your floors much quieter as the cork used in its construction is shock absorbing and does away with the usual noise of footsteps on wooden floors. When ordering, see table at bottom of page for amount required to cover your floor.

Table Showing Quantity of Linoleum or Ward-o-Leum Required For Your Floors

The table below shows you how many yards of Linoleum or Ward-o-leum you need for your floor. Waste necessary for matching is included in the table given below. Unless otherwise stated in your order, we will cut the linoleum in one piece. If the size of your floor space is not listed here, state the size in your order and send money for the next largest size. If there is any unusual offset in the room, such as a bay window, make a diagram and give exact measurements.

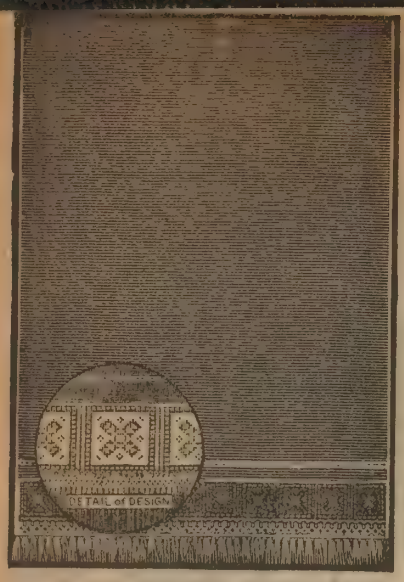
Panel Curtains

PANEL Curtains dress your windows prettily, correctly—and economically. They hang straight from the rod, without gathers, a single curtain to each window. You need buy only half as many curtains and yet the effect obtained is exceedingly beautiful. When you get them from Ward's, there is added economy. The prices on even our finest curtains are low. The quality of our lowest priced curtains is desirable. For living room, dining room or bedroom, panel curtains are equally suitable.

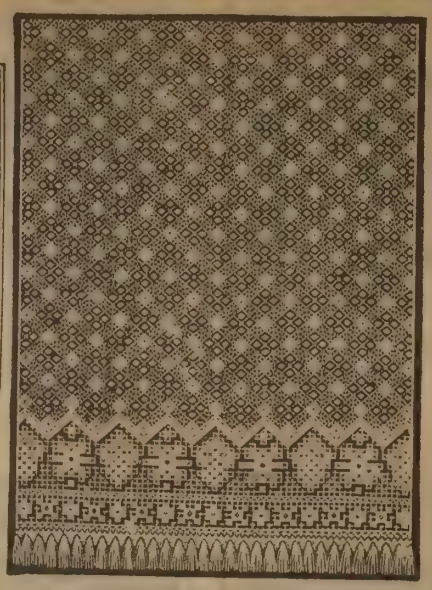


99¢ Each — **72 E 5650—Marquisette Curtain.** This trim curtain is of good quality mercerized marquisette, finished with a hem and full fringe. Insertion, in conventional block design, is of heavy, but dainty lace. Will wash and iron nicely and wear very well.
COLORS: White or beige. **State color wanted.** Width, 36 inches. Length, 2½ yards.
Postage, each, 6¢ extra

Separate Envelopes Protect Your Curtains in Transit. This is the Reason They Always Reach You Clean and Fresh

Newest Style Caledonian Net—Finished With Fringe

$1.59 Each — **72 E 5585—Caledonian Net Panel Curtain.** An open, lacy weave which is proving the most popular style shown this season. When hanging at a window, it gives much of the effect of a hand crocheted curtain. Woven in pretty figured design with deep border of filet, hemmed across lower edge and finished with fringe. A style which is suitable for living room, dining room or bedroom.
COLORS: White or beige. **State color wanted.** Width, 38 inches. Length, 2½ yards.
Postage, each, 6¢ extra



Exquisitely lacy in appearance, and the very newest thing in dainty Window Curtains. Give long service.

Beige is the newest shade of light tan. Ivory is a little lighter than cream color.

NO MATTER how costly your Curtains are, they never will quite satisfy you unless they are practical, also. This is why Sectional Panel Curtains maintain their popularity. They are araceful and lovely in design and adaptable to almost every window.

Each panel is a complete pattern. Cut them apart and you have a perfectly finished edge—a curtain ready to hang.

Use as many or as few panels as you need to trim your windows correctly. For the group window, the odd sized window, the room of many windows, sectional panel curtains solve the problem perfectly.

In our sectional panel curtains, like all our merchandise you get from Ward's quality first—and low price

Write For Your Copy

Before deciding on your new dinner set, you may want to see the pattern in detail. Our special Dinner Ware Circular contains in actual colors the detailed design of each of our colored patterns. A post card saying "Send Dinner Ware Circular" will bring it to you.

ON the following pages we offer a complete and varied selection of Dinner Ware. Practical plain white dishes are shown as well as light, dainty china of the finest quality.

In choosing our dinner ware, we have considered carefully the appearance of the entire set on the table. We do not carry gaudily colored patterns but only those patterns that are conservatively decorated.

Our American as well as our Imported Dinner Ware is the best of its kind obtainable. And because of the large quantities we buy direct from the makers we can quote these extremely low prices. Make a substantial saving by purchasing a complete set at our low prices.

The pieces for our various sets have been se carefully. No useless pieces have been included in accordance with the most modern table ap ments, our sets include bread and butter instead of individual butter dishes.

You risk absolutely nothing by buying you from us. We guarantee safe delivery and will r without charge any pieces broken in transit.

On the opposite page we give a list of the v pieces included in the American Dinner Sets on pages 538 and 539.

Imported Dinner Ware is shown on page 540

All White Embossed Dinner Ware

For the large family, boarding house or institution, nothing is more serviceable than this durable, plain white ware. Although it is comparatively light in weight, it will stand rough handling. A neat embossing trims the edges and handles. Our prices speak for themselves. In comparing our prices with others, remember that our American semi-porcelain is the best obtainable.

Conventional Rose Pattern

A new adaption of the always popular rose design. Pink roses are combined with small blue flowers in a graceful, conventional pattern daintily outlined in black. Blue line tracings skillfully applied by hand to edges and handles give a touch of individuality. Our highest grade American semi-porcelain ware, very favorably priced. The above illustration shows the various pieces included in our 36-piece breakfast set. But, like our other American dinner ware, this is furnished in four different sets. For list of pieces in various sets, see top of page 539.

55 Piece Dinner Set — $12.35 — Service for 12 Persons

Dainty Basket Patterns

The daintiness and simplicity of good taste make this an especially desirable set for your table. Graceful baskets filled with pink roses, forget-me-nots and gardenias form the delicately colorful design. The edges and handles are hand decorated with narrow bands in the popular periwinkle Blue. The body is our usual high quality American semi-porcelain ware. **For list of pieces in various sets, see top of page.**

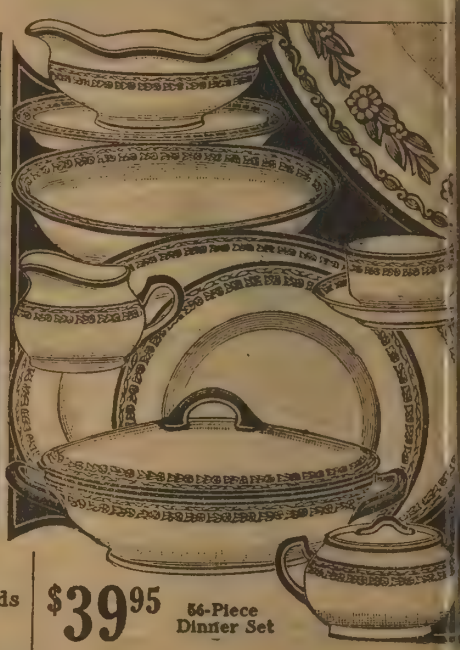
Guests Admire Its Beauty



$39.95 56-Piece Dinner Set

Imported Grecian Key Border

Plain designs have become more and more popular in china as in other things for the home. Their beauty is in their quiet dignity.

The famous DeLuxe shape is used in this dignified Grecian Key design of genuine H. & Co. Bavarian China Dinner Ware. The decoration is simple and neat, yet artistic enough to be pleasingly attractive.

The Grecian Key is drawn in delicate black lines between two gold borders—a design that harmonizes with any table decoration. The edge of each piece is finished with a narrow gold band and the handles are daintly traced with gold.

Our price is extremely low for an imported dinner set so beautifully decorated. The few pieces of this set illustrated above, show the beauty of the shapes and the charming decoration. **For list of pieces in various sets, see top of page.**

WARD'S ROYAL

Housekeepers appreciate Royal Aluminum Ware because no other kitchen utensils seem to be easy to take care of—so pleasant to work with—look so well or last so long.

The Mark That Stands for the Best in Aluminum Ware

When a woman sees the Royal Trademark on a piece of aluminum she knows it is what she wants. Royal Aluminum Ware has made a name for itself in quality, appearance and price.

No Seams—Rounded Corners

1 Entirely free from seams and sharp corners. There is no place for dirt and grease to lodge. For this reason they are most sanitary and may be cleaned quickly, easily and thoroughly.

Lock Handles

2 On Royal Aluminum Ware the ears to which handles are fastened have notches which prevent handle from dropping to side of kettle and becoming uncomfortably hot. This also prevents the handle from scorching.

Always You Will Be Glad You Bought Royal Aluminum

Royal Aluminum Roaster

Self basting. Body and cover fit snugly, preventing shrinkage of meat. The center of the lower pan is raised and does not touch the oven, which lessens the danger of scorching. Shipping weights, 2, 3 and 4½ pounds.

Self-Basting Roaster

For Tender, Juicy Roasts

$1.49 The special construction of the snug fitting cover insures perfect self-basting. All the rich juices are kept in the meat—no shrinkage and no waste. Just put your meat in the oven and forget all about it until dinner time. Your roast will be cooked perfectly. As the roast cooks vapor forms and collects on the grooves in the roaster cover. These savory drops of moisture fall back in a steady shower on the meat, basting it perfectly.

Sanitary and as easy to clean as china. It is entirely seamless. Has no cracks or corners. **Made in heavy imperial blue enamel.** Size, 19 inches long, 11¾ inches wide, 8¼ inches deep.

486 E 717.....$1.49

Shipping weight, 8 pounds.

Save Fuel, Time and Patience

Prepare an Entire Meal Over One Flame in Half an Hour

Use With Equally Good Results Over Gas, Oil, Coal or Electric Stoves

The Windsor Steam Pressure Cooker is as easily used and just as safe as any ordinary kettle, but cooks your entire meal at once and in about one-third the time it usually takes. Hundreds of housekeepers are cutting down their fuel bills and saving many hours each week by steam pressure cookery.

Cooks Potatoes in 10 Minutes, Rice in 30 Minutes. Prepares Beef in 30 Minutes

You start your dinner at 11:30 and serve it at noon. Besides this, none of the delicious flavor of the food nor the artistry of the seasoning is lost in cooking. It actually cooks food more thoroughly. You may prepare several dishes at one time, none of them absorbing the odors or flavors of the others. Complete instructions and time table included with each cooker.

A 30 Minute Dinner
Roast Beef
Browned Potatoes
String Beans
Pickled Beets
Stewed Figs
Custard

Unexcelled for Cold Pack Canning

You may do your canning like magic with a Windsor. No overtime work is necessary to can a large batch of fruit or vegetables. The work is done much quicker and with less effort than any other method of canning. The directions explain the length of time required.

Construction

Made of heavy polished cast aluminum. Safety valve releases steam automatically whenever pressure exceeds proper point.

You Should Enjoy This Convenience

Better Cooking With Less Effort

$8.00

The Auto-Maid Fireless Cooker does away with the drudgery of cooking and leaves you time for many other things. And your meals will be cooked more perfectly than ever before. All you do is prepare your food and place it in the cooker. When dinner comes, everything will be perfectly cooked—the meat tender and juicy—the vegetables whole but tender and piping hot. The flavor is all retained and no nourishment is lost. There is no danger of burning.

The **Auto-Maid** fits into a small space out of the way when not in use. Ideal to take with you when motoring, or for picnics or camping.

All metal, strongly built, compact, easily cleaned. Aluminum lined. Safety valve in cover allows excess of steam to escape. Also makes an excellent freezer for ice cream, sherbets etc., and being perfectly insulated will keep cold foods cold for hours. Height, 15½ inches; diameter, 12½ inches. Furnished with 2 aluminum vessels, one 6-quart and one 3-quart; 2 soapstone discs; baking rack, two wire handles and recipe book. Shipping weight, complete, 42 pounds.

486 E 1474—Complete.....**$8.00**

Water Seal Steam Canner for Cold Pack Canning

$2.48

Holds Four 1-Quart Jars

Preserves fruit by the cold pack process in less time than ordinary methods. First, the wire tray is put into the pail in about two inches of water. The "cold-packed" jars with the caps loosely in place, are put on the rack; the air chamber cylinder is then slipped over the jars and rack, forced down into the water and locked into position by means of the wire locking brace. It is then ready to place on the fire for steaming.

Each Canner is composed of three parts, as shown in small illustration. The pail and cylinder are coated with very durable gray enamel. Wire rack is rustproof. A complete time table, with directions for use is included. No jars included. Ship. weight, per set, 8 pounds.

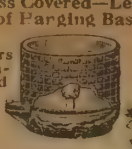
THE COMPLETE SET

486 E 666—Complete set.....$2.48

Moss Covered—Leak Proof Barging Basket

75

Flowers Not Included



Moss covered Baskets appropriate for indoor or outdoor use. The patented irrigator gives the plant the necessary amount of moisture without leakage. Water is poured in through spout on side. Inside container made of pottery. Large mesh wire screening on outside to hold moss in place.

Match Lighting Gasoline Lamps

$6.98

Light in 15 Seconds With a Common Match

Enjoy good light! Bright enough for the finest work yet soft and mellow enough to be restful to the eyes. The **Match Lighting Gasoline Lamp** gives 300 candle power of bright, steady light, brighter than city gas or electricity. **And there is no inconvenience or waste of time lighting it.** It lights in 15 seconds with an ordinary match and our low prices place these lamps within the reach of all.

Perfectly safe. It will burn upside down or in any position. Gasoline can not escape. No greasy wick to trim or dirty chimney to clean—no smoke, no smell. Requires only one cleaning a month. Burns 20 to 24 hours on one filling of 2 quarts of gasoline.

The base and trimmings are finished in polished nickel. Complete with a double mantle burner, air pump, extra generator and wrench.

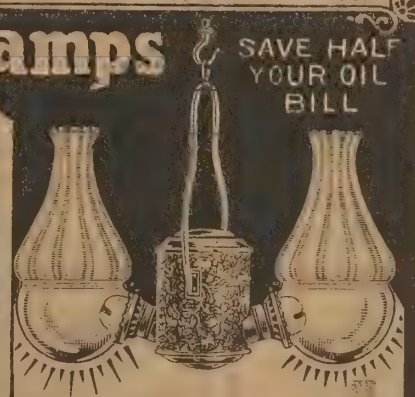
Famous Angle Lamps

GIVES A SHADOWLESS LIGHT

SAVE HALF YOUR OIL BILL



Come Out of the Shadow!

Use Angle Lamps—the choice of people who want comfort at the lowest cost. The flame burns at an angle, throwing the brightest light downward through the clear glass globe while the opal glass chimney spreads a soft mellow light to the upper part of the room. You read and work in perfect comfort. No shifting of position to get better light, because there is nothing under the flame to cast a shadow.

Easy to Light. Simply raise the burner and apply the lighted match. No chimneys or globes to remove. Angle lamps may be burned low or to full height without flicker, odor or smoke.

Cuts Your Oil Bill in Half. The Angle Lamp burns 20 hours on one quart of oil, while average lamps burn only 10 hours on this quantity. The oil pot may be lifted out for filling without removing chimney, globe or burner—**it is not even necessary to extinguish the light.**

Prices Greatly Reduced

Cast Metal—Classic Design
Old Gold Finish

Wardway Electric Vacuum Cleaner

$5.00 Down

Balance in Small Monthly Payments of Only $5.00 Each

Cleaner Floors With Less Work

Would you like to have cleaner rugs, bright and fresh as new, without the drudgery of sweeping and beating? The Wardway Electric Vacuum Cleaner means an end of cleaning worries. And think of it! $5.00 puts a Wardway to work in your home.

No more drudgery, no clouds of dust, no tiresome bending over a broom when you use the Wardway. Yet your floors will be cleaner than ever before. No matter how hard you sweep the old way, there is a deposit of fine dirt that no broom can remove. It cuts into the nap and causes wear on the rugs. The powerful suction of the Wardway—20 per cent more powerful than on the usual vacuum cleaner—lifts the nap and sucks up this fine grit and at the same time removes the surface dirt. This means added life for your rugs as well as less work for you.

Nothing could be more simple to operate than the Wardway. All you do is attach the plug to any convenient electric light socket, turn the switch and guide the sweeper over your floors. A twist of the handle turns the current on or off.

The Wardway is made of cast aluminum, with a dustproof bag, and ebonized handle. A special thumb screw attachment raises or lowers the height of the nozzle and brush from the floor, for use with long or short nap rugs. The Universal motor is compact, sturdily built and has self-feeding oil wells. A fan attached to the motor prevents overheating. The Wardway may be used on either direct or alternating current of 100 to 130 volts, 60 cycles or less.

You can not afford to be without this great labor saver at the price we are offering it. Our easy terms enable you to pay for it in small amounts of $5.00 monthly. You will find it sure economy to use the Wardway. Your rugs will last longer and be more sanitary. Shipping weight, 15 pounds.

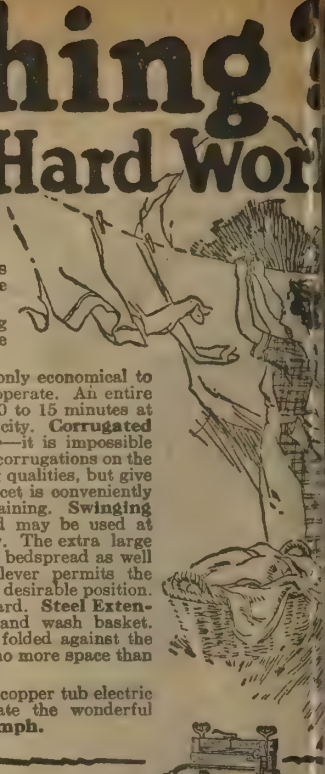
Use Easy Payment Order Blank No. 1 on Page 719

Tired of Washing? Let a Machine Do the Hard Work

The Improved Triumph Electric Washer

A very smooth running, practically noiseless copper tub Washer at a price within the reach of all. We are truly proud to offer a value so great as the Improved Triumph. It cleanses thoroughly with either the dolly or disc. Both of these devices are included with each Improved Triumph. The Dolly swirls the clothes around in the corrugated tub forcing the soapy water through every fiber of the cloth, and loosening every particle of dirt. The Special Disc is used for washing delicate clothes. It is especially desirable for laces and other thin materials.

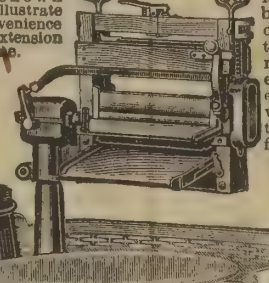


The Improved Triumph cleanses thoroughly but so easily that the clothes cannot be injured in any way.

The gears are steel cut and running in grease, but entirely enclosed. There is no danger of clothes being soiled.

You will find the Triumph is not only economical to purchase, but equally economical to operate. An entire tubful of clothes may be washed in 10 to 15 minutes at the cost of only a few cents of electricity. **Corrugated Copper Tub** is tinned on the inside—it is impossible for it to rust and soil the clothes. The corrugations on the sides not only add to its good washing qualities, but give it additional strength. A Bronze Faucet is conveniently placed at the side of the tub for draining. **Swinging Wringer** is driven by electricity and may be used at the same time as the tub or separately. The extra large 12-inch rollers will wring the heaviest bedspread as well as the lightest fabrics. A special lever permits the wringer to be swung and locked in any desirable position. Has an extra wide reversible drainboard. **Steel Extension Frame** holds two extra tubs and wash basket. When not in use, the frame may be folded against the side and the entire machine takes up no more space than an ordinary wash tub.

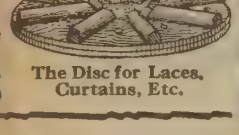
If you know the cost of the average copper tub electric washing machine, you will appreciate the wonderful value we offer in the **Improved Triumph.**



Extra tub and basket not included and are shown to illustrate convenience of extension frame.

Your filmiest blouses and rarest lace curtains may be laundered without fear of tearing them. Heavy garments and draperies are washed equally well; and wool blankets retain their original fluffiness.

The Dolly for Ordinary Washing



The Disc for Laces, Curtains, Etc.

Shipped from Northern Illinois

Thuro Power Vacuum Washer

Electric or Engine Drive

Wringer Swings in Any Direction

Platform Holds Two Extra Tubs and a Wash Basket

The rustless galvanized iron vacuum cup is set in motion as soon as the lid is closed, and stops when it is opened. Produces a positive, cleansing current that removes every particle of dirt and can not harm the most delicate fabrics.

Thuro washes clothes by the vacuum method in about one-fourth the usual time. Has folding frame which holds two tubs and swinging wringer with safety clutch.

Tub is of best water resisting Southern Cypress, corrugated inside. This feature increases the rubbing surface and produces greater agitation. The vacuum cups produce a gentle yet powerful force which literally sucks up the dirt, at the same time rotating the garments through the soapy water. You can trust your daintiest apparel to the Thuro without danger of harm; yet heavy pieces are washed equally well. Has special screw plug water drain with rubber hose attachment for emptying tub. Every improvement has been included to make the Thuro a real wash day convenience.

Machines carried in stock with 110-volt electric motor for alternating current, 60 cycles. Motors for every voltage and currents furnished at an additional charge of $4.00 to $5.00. Shipping weight, 225 pounds.

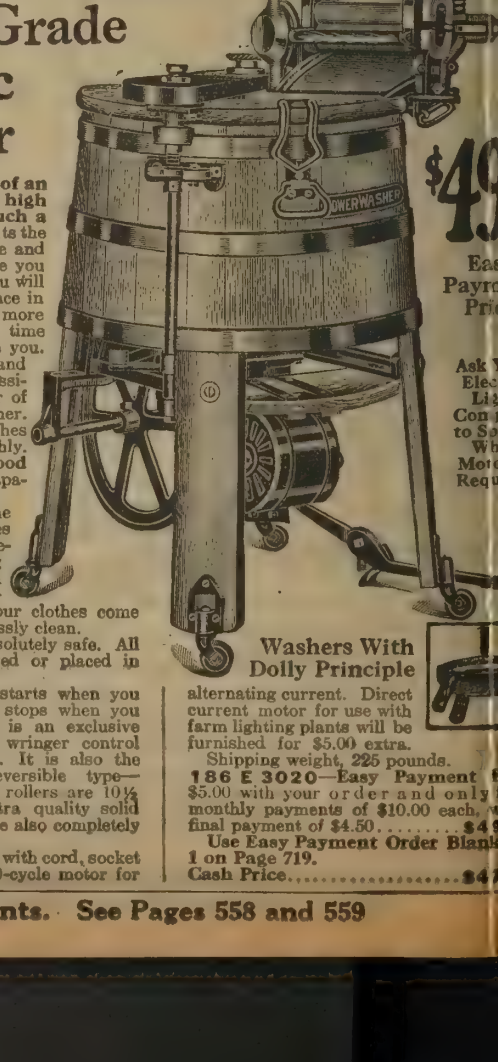
The Wash Klean A High Grade Electric Washer



We never have heard of an Electric Washer of such high quality being sold at such a low price. Only $5.00 puts the Wash Klean in your home and it will be paid for before you realize it. All the time you will be enjoying its convenience in your own home. It will more than pay for itself in the time and drudgery it will save you. Washes clothes cleaner and in less time than is ever possible by hand. No danger of injuring your garments either. The Wash Klean washes gently as well as thoroughly.

The strong cypress wood tub holds the heat. Capacity, 15 shirts or 6 sheets.

Inside is corrugated. The Dolly swirls the clothes around in the tub with a reversing motion, forcing the suds and water through every fiber of the cloth—driving out the dirt. Your clothes come out unharmed and spotlessly clean.

The Wash Klean is absolutely safe. All gears are entirely enclosed or placed in shielded position.

The Power Wringer starts when you press the foot lever and stops when you take the foot off. This is an exclusive feature, and makes the wringer control both convenient and safe. It is also the convenient swinging reversible type—strongly supported. The rollers are 10½ inches long—made of extra quality solid rubber. Wringer gears are also completely enclosed.

Completely equipped with cord, socket connection and 110-volt 60-cycle motor for

Washers With Dolly Principle

alternating current. Direct current motor for use with farm lighting plants will be furnished for $5.00 extra.

Shipping weight, 225 pounds.

$69.00 With Copper Tub

At Last—
The Washing Machine You Have Been Looking For

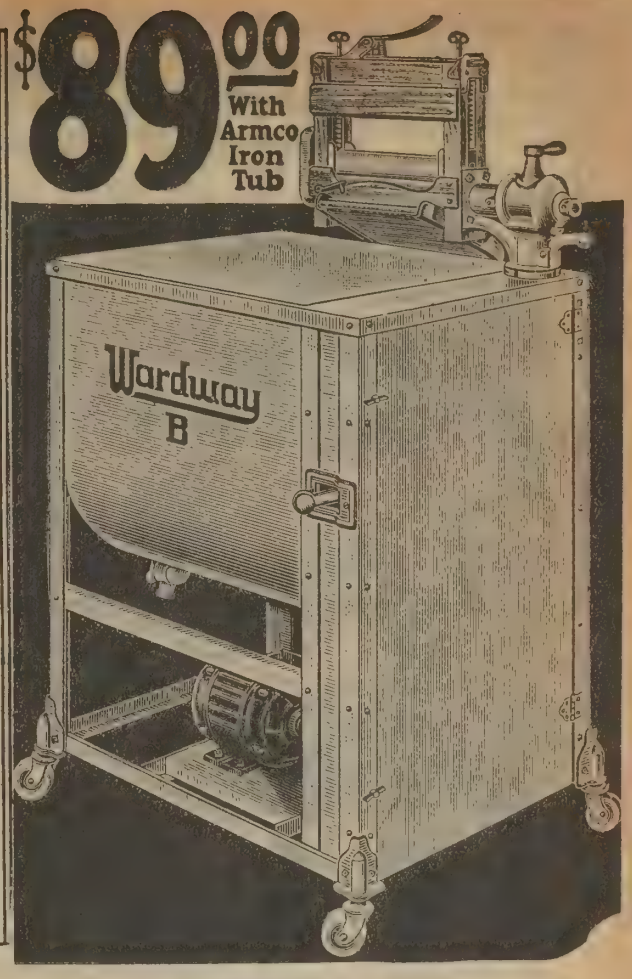
YOU have found it! Just the Washer you want—at a price far less than we thought was possible.

For years our experts have been on the lookout for better washers. They have tested literally hundreds of machines. We knew what our customers wanted—thoroughly high grade washing machines mechanically perfect, equipped with all the latest improvements and conveniences, yet simple and sturdily built for service. And we wanted to be able to give you all this at a cost far less than ever before had been possible.

At last we found two machines—the Minnehaha B and the Wardway B—and we knew our search was ended. We had found The Machines.

Expertly built in every detail, these washers combine to an unusual degree, quality, durablity and convenience. And we spared no effort to reduce the cost to the lowest possible figure. We are offering these washers to you today at an almost unheard of price for Electric washing machines of such high quality. We wanted these washers to be easily within the reach of all our customers—and they are! You can not afford to be without one now.

$89.00 With Armco Iron Tub



Lower Prices—Easy Terms

e Minnehaha B Electric—Well Known Figure 8 Action

[onday Morning—the dread of thousands of housekeepers who wash nand. But suppose you are using the Minnehaha B Electric Washer. nday's washing is reduced to an hour or two of comfortable activity. ttach the washer to the nearest electric light socket and put the clothes in the hine with plenty of soap flakes and hot water. A touch of the button and the hine begins to work, smoothly and almost noiselessly. The Minnehaha B es the clothes back and forth, sending through them again and again swirls of soapy water. Gently but quickly every particle of dirt is removed.

fter fifteen or twenty minutes, press the button again and the machine stops. r clothes are snow white and spotless—much cleaner than if you had rubbed n by hand a whole hour. The dirt has settled to the bottom and all the work been done by machinery while you were busy with other tasks.

ow you are ready to wring the clothes into the first rinse water. Simply press conveniently placed lever and the wringer starts cing. Simply guide the clothes—the wringer does hard work that has given women backaches for s. You can operate both tub and wringer at once ou wish—go ahead with one batch of clothes while her batch is being washed. No need for loss of time. r washing is finished before you know it and your nes are on the line.

Minnehaha B Electric Washer in your home means—vening backache from Monday morning's washing.

A Washer One Minute—A Table the Next

Wringer Folds Into Tub—Out of the Way

e removable cover of the tub is flat and may be used as a when washer is not in use. The wringer folds out of the way r the cover. Special Minnehaha B casters, made of solid rubire steel bound. Very easy running. Machine rolls and slides ut marring the floor. Casters are self oiling and squeakproof. e construction of the Minnehaha B is simple. It washes on scillating principle. The copper tub rests on a cradle which s back and forth. Fifty-eight times per minute a perfect "8" of hot soapy water sweeps through the tossing garments, ning every particle of dirt. In a few minutes you can remove lothes from the washer, spotlessly clean.

b: Capacity, 6 sheets or 12 shirts, or their equivalent. Made heavy sheet copper, tinned on the inside. Non-rusting and to clean. Slanting side of tub gives added strength and s it splashproof.

otor: Splashproof ⅛ horse power motor of standard make. ines are carried in stock equipped with 110-volt 60-cycle nating current motors. We can supply other voltage motors extra cost of $4.00.

wer Wringer: May be operated at same time washer is ng, if desired. Heavy steel frame with self oiling bearings; inch rubber rollers. Simple safety release. Automatic tension its wringer for any weight article put through wringer, and is s equal at both ends of rolls.

binet: Finished in baked on Gray Enamel. Frame: Heavy steel made all in one piece, giving great strength and durability. space, 21½ by 24½ inches.

Minnehaha B Electric With Copper Tub

State voltage motor required.

Cash Price $64.00

Shipping weight, 222 pounds.

$5.00 Puts Either of These Washers in Your Home

YOU don't even have to save the necessary amount to pay cash. Instead, you pay a little each month in amounts so small that you will scarcely miss the money. All the time you are paying for it you will be enjoying the ease and freedom from washday drudgery that one of these Electric Washers makes possible.

Just fill out one of the convenient Easy Payment Blanks No. 1 on Page 719. Enclose $5.00 with your order and in a few days you will receive the washer complete with power wringer. Remember you take absolutely no risk. Try out the machine in your own home, and if you are not completely satisfied with it write us for shipping instructions, return it to us and you will not be out one single penny. Could any offer be fairer?

The Wardway B Turns Wash Day into Wash Hour!

We are very proud of the Wardway B—proud of its high quality, its unusual construction, its sturdiness; and proud of the low price at which we are able to sell it to you.

Think of what it will mean to have the Wardway B in your home. Just put the clothes into the cylinder and switch on the current. The Wardway B operates by a revolving motion of the cylinder, reversing at every revolution. Let the Wardway B do the hard work. Save your time and strength for the things that need your skill and personal attention.

There is no wear and tear in your garments from rubbing. You can trust the Wardway B with the dainty things that you would not dare to rub on the board. Your most delicate lingerie and blouses will not be injured in the least, yet heavy blankets, curtains, even rag rugs, are washed equally well. The motor is strong enough to run both wringer and tub at the same time. A Wardway B Electric Washer in your home means an end to your washday worries. Your clothes are on the line while your less fortunate neighbors have scarcely started the usual round of washday drudgery.

Special Wardway B Features

Removable wringer allows the use of the flat top as a table when washing is done. Large rolling casters make it easy to roll around. Beautiful battleship Gray Enamel finish will add to the appearance of any laundry room or kitchen.

Tub: Capacity, 6 sheets or 15 shirts, or their equivalent. Made of either genuine Armco Iron, which has been treated so that it absolutely will not rust; or if you prefer, we will furnish the tub made from heavy gauge, high quality sheet copper, at a small additional cost. The copper tub is tinned on the inside.

Cylinder: Zinc body, perforated, with galvanized ends. Non-rusting, sanitary and lighter than wood. Five stationary wooden bars on the inside give increased rubbing action. The cylinder reverses at the end of every revolution. This method absolutely prevents clothes winding.

Motor: Splashproof ¼ horse power motor of standard make. Machines are carried in stock equipped with 110-volt 60-cycle alternating current motors. We can supply other voltage motors at an extra cost of $4.00.

Power Wringer: Large reversible 11-inch rollers, equipped with quick release safety control lever to prevent accidents. Adjustable to five positions, and locks with a convenient lever.

Frame: Of heavy angle iron, combined rivet and bolt construction, which insures long life. Any man will tell you this method of construction adds materially to the strength of the frame. Floor space, 22½ by 31½ inches.

A few cents worth of electricity washes three or four tubs of clothes.

Wardway B With Armco Iron Tub

The toughest of its kind known. Will not rust like ordinary galvanizing. State voltage motor required.

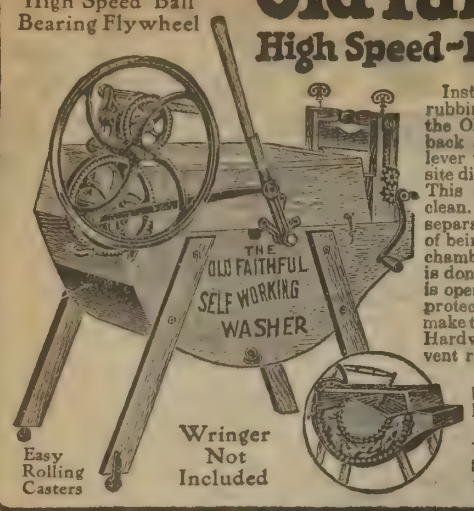
Old Faithful $17.98

High Speed–Easy Motion

High Speed Ball Bearing Flywheel



Easy Rolling Casters

Wringer Not Included

Instead of stooping over a wash tub and rubbing by hand, when you wash with the Old Faithful, all you do is push a lever back and forth. At every movement of the lever two curved washboards move in opposite directions, with the clothes between them. This motion washes the clothes spotlessly clean. As the dirt is loosened it settles into a separate chamber below the boards instead of being kept in the washing water. This dirt chamber is easily cleaned when the washing is done. The high speed ball bearing fly wheel is operated by cogwheels. The cogs are all protected for safety. Long double bearings make the machine easy to start and easy to run. Hardware and castings are galvanized to prevent rust.

You will find this reliable machine a big value at this price as well as a great labor saver.

Height, 30¾ inches. Length, 35 inches. Width, 20¼ inches. Capacity, 12 shirts. Shipping weight, 120 pounds.

186 E 148.....**$17.98**

Water Queen Power Washing Machine

$16.98

Equipped With Pulley for Attaching to Gasoline Engine

May Be Operated by Hand

A thoroughly reliable power Machine, which may be run direct by gasoline engine or by drive shaft. A belt shift makes it possible to throw the power on tight or loose pulley. If desired this machine may be operated by hand. It is built on the reliable dolly principle with tub of Southern Cypress.

Guaranteed for five years against breakage (except through misuse) or defective castings. Inside of tub, 23½ inches at bottom, 19¾ inches at top, 12¼ inches deep. Equipped with 8-inch pulley to run 240 revolutions per minute. Shipping weight, 100 pounds.

186 E 183.....**$16.98**

Washes on the Dolly Principle

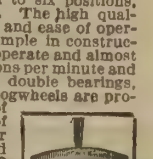
Veribest High Speed Washing Machine

$16.95

Grooved Flywheel Makes it Possible to Run by Motor

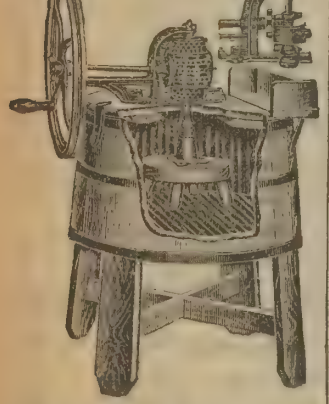
The Veribest Washer is a high speed machine adapted for either electric motor, or hand power use. A noteworthy feature is the handle, which may be adjusted to six positions, enabling you to sit or stand while washing. The high quality of this machine, together with its speed and ease of operation, insures lasting satisfaction. It is simple in construction—made on the dolly principle, easy to operate and almost noiseless. The flywheel makes 300 revolutions per minute and is mounted on a steel shaft, which runs on double bearings, insuring smooth running at high speed. Cogwheels are protected by a circular guard. The tub is of water resisting cypress and has a capacity of 8 shirts. The stand is reinforced by center bracing which makes the machine firm and steady when in use. Shipping weight, 90 pounds.

186 E 162.....**$16.95**



Washes on the Dolly Principle

Select Your Laundry Supplies from Pages 552 and 553



$12.98 Simplex Rotary Washing Machine

The roller bearing gear and heavy flywheel make this one of the easiest running washers made. May be operated by hand or electric motor, as wheel is grooved for belt. Machine is fitted with a telescope dasher post which adjusts itself to quantity of clothes in the tub. This prevents any possibility of tearing or injuring the clothes. The cogwheels are protected by a special safety covering. Tub is of waterproof cypress, natural finish, with strongly braced legs and wringer board. Washes on the dolly principle. Capacity, 8 shirts. Shipping weight, 85 pounds.

186 E 143.....**$12.98**

Ward's Improved Reliable

A Good Low Priced Washing Machine

$9.85

Does very satisfactory work. The wooden dolly whirls the clothes through the soapy water so skillfully that the dirt is easily removed without injury to the clothes. Has easy-moving hand lever and tub of waterproof cypress.

Inside diameter, 23 inches at bottom, 20¾ inches at top. Height, 12½ inches. Shipping weight, 60 pounds.

186 E 164...**$9.85**

Famous Whirl Washer

Easy to Operate Washes Clothes Quickly

$5.75

This simple Machine is very easy to operate. You simply push the handle back and forth and the clothes are washed clean in a short time. Both the lower washboard and upper rub board are well made of water resisting wood. To empty the tub simply raise the upper rub board and rest it on the convenient bracket. The lower board may be taken out for cleansing. Width, 17½ inches. Length, 28 inches. Depth, 13 inches. Capacity, 11 gallons. Shipping weight 50 pounds.

186 E 160.....**$5.75**

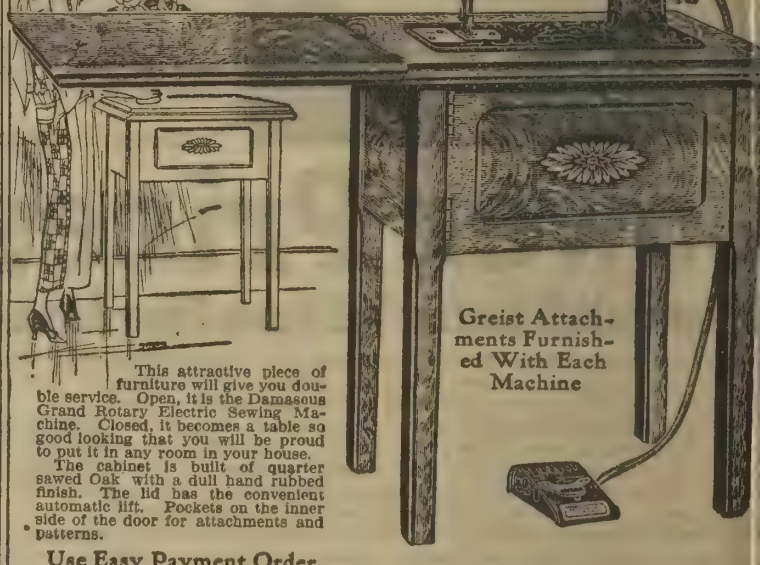
Grand Rotary Electric Sewing Machine

Sew the Easiest Way With the Damascus Electric

$4.00 Down

Console Cabinet Sewing Cabinet

DO you wish sometimes your machine would run itself? The Damascus Electric does just that—it runs itself. All you do is guide the stitching. A sturdy little electric motor does the work and relieves you of the tiresome pedaling. If you have electricity in your home, this convenient machine will prove a great labor saver. You can do more and better work than you have ever done with a foot power machine, and with almost no effort. It is economical, too, for you can sew for three hours with one cent's worth of electricity. It carries our best Damascus Grand Rotary sewing head (fully described on Page 557). The motor is a high grade standard make and is conveniently attached to sewing head. Just a pressure of your foot on the control pedal starts the motor, runs it just as fast or as slow as you wish, and stops it instantly.



This attractive piece of furniture will give you double service. Open, it is the Damascus Grand Rotary Electric Sewing Machine. Closed, it becomes a table so good looking that you will be proud to put it in any room in your house.

The cabinet is built of quarter sawed Oak with a dull hand rubbed finish. The lid has the convenient automatic lift. Pockets on the inner side of the door for attachments and patterns.

Guaranteed for 20 Years

EVERY Montgomery Ward Sewing Machine comes to you completely guaranteed for 20 years sewing service and satisfaction. We absolutely protect you. When you put one of these machines into your home, you do it with the assurance that even after you have used it for 20 years, your sewing machine will still be giving you good service. Use it every day if you like, and if at any time within twenty years after the machine reaches you, any defect of workmanship or material develops, we will put the machine into perfect running order without cost to you. We will even pay the freight charges both ways.

The best proof of worth is service and hundreds of women tell us that our machines are still giving excellent service after 20 years of everyday use. What could be better proof that our machines are right?

Liberal Trial Offer

WE want you to try a sewing machine in your own home on our free trial offer. If you order on the easy payment plan, fill out Order Blank No. 1 on Page 719, and send only $4.00 with your order. We will send for 30 days' free trial either a Damascus Grand Rotary or a Damascus Vibrating Shuttle Machine, whichever you choose. Use it as much as you like, and if at the end of 30 days you are not entirely satisfied, write us for directions for returning the machine. We will then refund your deposit together [with all freight charges.

If you order on the Cash Plan, send your order in the usual way, enclosing remittance, and we will send any machine you wish on 90 days' trial. If at the end of that time, you are not entirely satisfied; write for instructions for returning the machine. We will refund the full purchase price with all freight charges.

Windsor B and Brunswick Machines are priced so low that they are sold only on the cash plan.

Full Set of Greist Attachments

WITH each sewing machine is included free a complete set of nickel plate Greist attachments, packed in a case which fits conveniently into the machine drawer. With the help of these extra attachments you may give your garments many dainty and individual touches and the well tailored appearance of ready-to-wear clothing. Set includes ruffler, tucker, braider, five hemmers, special foot, under-braider and shirring slide. With each machine is included also 12 needles, 6 bobbins, thread cutter, screw driver, gauge, oil can (filled) and illustrated instruction book.

Sewing Stands

Each of our sewing stands is sturdily built of a high grade of heavy Japanned cast iron and is exactly the right height for comfort. Each machine is equipped with ball bearings, making it light running and quiet. The treadle is carefully adjusted to make it easy to run and the large flywheel is provided with a belt retainer which prevents the belt slipping off the wheel when the machine is closed.

Sewing Machine Features That Give Service and Satisfaction

Machines Shown on Pages 556 to 561

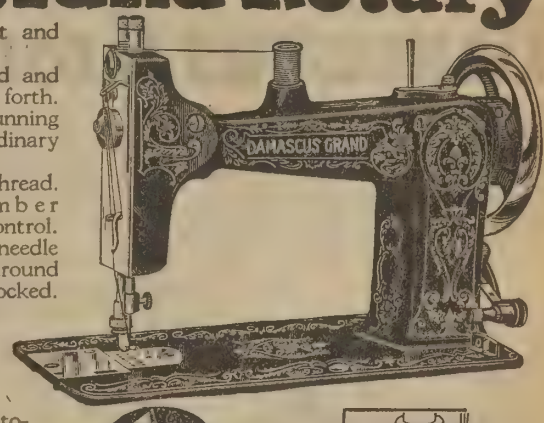
ON this page you will find a description of the special features found on our sewing machines. Read those details carefully. They will help you decide which type of machine best suits your needs. Then turn to pages 556–561 and select the stand you prefer. We offer a variety of stands for each make of sewing Head.

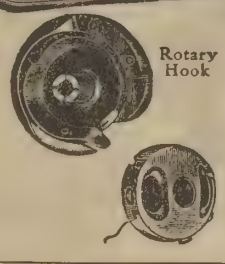
Damascus Grand Rotary

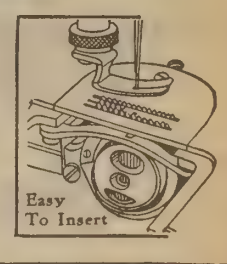
Six exclusive features make this Ward's best and most popular model.

1. **Rotary Principle.** The bobbin case is round and moves in a continuous circle instead of back and forth. This Rotary principle makes a light, quiet running machine that sews one third faster than any ordinary sewing machine.
2. **Automatic Tension** adjusts itself to any size thread. You may use any weight material or any number thread without giving a thought to the tension control.
3. **Strong 2-Thread Lockstitch.** Each time the needle goes through the cloth, the upper thread is passed around the bobbin, pulled up firmly, and the whole stitch locked.
4. **Stitch Size** is conveniently regulated by a small lever. You simply push it along a gauge and it stays—no danger of its working loose.
5. **Automatic Bobbin Winder.** It stops when the bobbin is full.
6. **Easy Action.** Best of materials, expertly put together and carefully adjusted.

The **Damascus Grand Rotary** is in every respect a well built machine, combining ease of operation with every possible device for convenience. Every machine is tested with both silk and cotton thread before it leaves our factory. Backed by Montgomery Ward & Company's 20-Year Guarantee against defects of material or workmanship. **Sewing Machines equipped with the Damascus Grand Rotary Head are shown on Pages 556 and 558.**







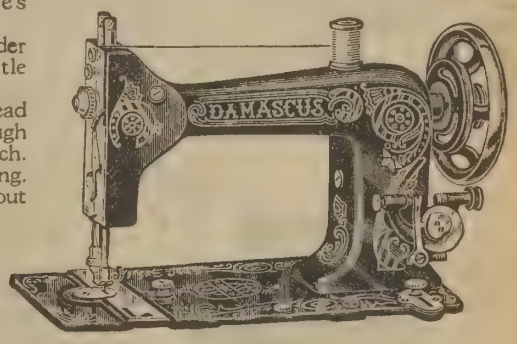
Damascus Vibrating Shuttle

If you prefer a vibrating shuttle head you cannot find a better machine than the Damascus Vibrating Shuttle. It is sturdily built for long use, and skilfully made to give smooth, easy action. Exclusive Damascus features make it convenient and easy to use.

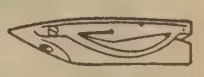
1. **The Vibrating Shuttle,** unlike the rotary, is cylinder shape and carries the bobbin back and forth. The shuttle is conveniently self threading.
2. **Lockstitch.** The needle carrying the upper thread dips with each stitch making a loop of thread through which the shuttle passes, and forms a secure lockstitch. Damascus take up draws it tight and prevents raveling.
3. **Automatic Tension** insures perfect stitching without changing tension for light or heavy weight thread.
4. **Stitch length** is regulated by a simple thumbscrew near base of arm. A gauge indicates length of stitch being made.
5. **Improved Presser Foot** holds any weight material smooth, while the positive feed carries goods evenly under the needle.

All Damascus machines are carefully tested with both silk and cotton thread before leaving the factory. Fully guaranteed against defects of material or workmanship.

Sewing Machines equipped with Damascus Vibrating Heads are shown on Page 559



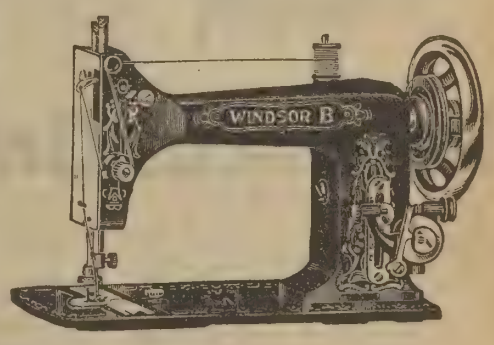
The Self-Threading Cylinder Shuttle



Windsor B Vibrating Shuttle

The Windsor B is an excellent, easy running machine at an attractively low price. Windsor B features include: Disc Tension; Handy Thumbscrew Stitch Regulator; Automatic Bobbin Winder; Automatic Tension Release; Self-setting Needle and Self-threading Shuttle.

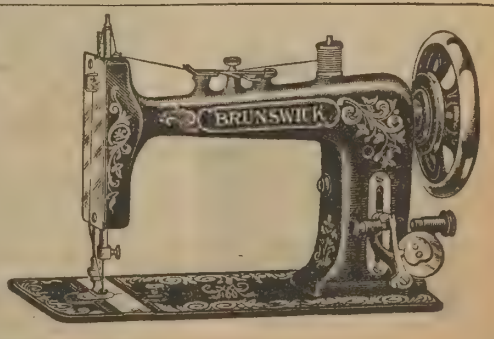
All Windsor B machines are tested with both silk and cotton thread before leaving the factory. Fully guaranteed against defects of material or workmanship. **Cabinets equipped with Windsor B Sewing Heads are shown on Page 560.**



Brunswick Vibrating Shuttle

The Brunswick will prove a dependable machine for general use. Brunswick features are: Automatic Bobbin Winder; Self-threading Shuttle Carrier; Tension Control conveniently located at top of sewing arm; Handy Thumbscrew Stitch Regulator in base of arm; easy Tension Release.

Each Brunswick Machine is carefully tested with both silk and cotton thread before it leaves the factory. Fully guaranteed against defects of material or workmanship. **Sewing machines equipped with Brunswick heads are shown on Page 561.**



Damascus Grand Rotary Sewing Machine

Our many years' experience with Sewing Machines has proved that there is no better machine made than the Damascus Grand Rotary, regardless of price. Hundreds of satisfied customers give the Damascus their hearty approval after many years of service. We know of no better proof that these sewing machines are right. Let us prove it to you. Send for a Damascus Grand Rotary on our liberal trial offer, and use it in your home. We know it will give you lasting satisfaction.

A Set of Greist Attachments for Making Dainty Trimming Ruffles and Tucks Is Furnished Free With Each Machine

Damascus Grand Rotary

YOU can not fail to appreciate the unusual value of a Damascus Grand Rotary at this price. The handsome case is made of richly grained, well seasoned Golden Oak; table and drawer frames of quarter sawed oak; front drop, side panels and top lid of built up stock, all carefully matched and highly polished. As you raise the lid the sewing head swings easily into position, and at the same time the front panel drops back, giving your knees ample space for sewing. The sewing arm is large and roomy, with a convenient 18-inch measure on the front. The four convenient drawers with attractive beveled edges and wooden knobs will hold sewing supplies. The Damascus Grand Rotary head insures perfect sewing service. Complete set of Greist Attachments furnished with each machine. **For full description of sewing head, see Page 557.**

Damascus Grand Rotary

THIS roomy Six-Drawer Model will appeal to the woman who wants the best of sewing machines and at the same time wants a case which will add to the appearance of the home. This is an unusually handsome model. Substantially built of well seasoned oak; table and drawer frames of quarter sawed; top lid, side panels and front drop of built-up stock. Finished in golden oak, highly polished. There could be no better choice than this Damascus Grand Rotary Model. Its swift, smooth action; the broad, well placed treadle; the sewing table at just the right height for comfort; all combine to make it possible for a seamstress to sew for hours without becoming tired, and to turn out perfect work. The convenient automatic lift brings the sewing head up with a single, easy motion and draws the front drop well out of the way of the knees. When the work is done, the sewing head is quickly lowered down into the case where it is protected from dirt and dust. The stand is firm and well braced. A complete set of Greist attachments included free with each machine.

Damascus Grand Rotary

YOUR friends will scarcely believe this attractive cabinet is a Sewing Machine. It is built throughout of cross banded, quarter sawed oak. The single, full width door is ornamented with a sunken panel and simple carved molding. A pocket on inside of door forms a handy place for patterns and other accessories. It has comfortable foot for treadle, automatic lift and ventilating holes in back of case. The base stands flat on the floor leaving no space for dust to collect. The protection it gives to your machine as well as its handsome appearance makes this cabinet well worth the few extra dollars it costs. Complete set of Greist Attachments furnished with each machine. **For full description of sewing head, see Page 557.**

Damascus Vibrating Shuttle

THIS sturdily built case, roomy and the proper height for sewing comfort, will add to the satisfaction you may expect from your Damascus Vibrating Shuttle Machine. The four-drawer model is made of richly grained quarter sawed oak, finished in Golden Oak. It has the time and strength saving automatic lift, the front drop which draws up to give knees room, handy 18-inch rule on front of table; roomy, easy-sliding drawers. Simple lines make it easy to keep clean, and the Damascus Vibrating Shuttle sewing head, with its easy action, ball bearing stand, correctly adjusted treadle and perfectly finished working parts, is easy and pleasant to run. With this machine we send free a complete set of high grade nickel plated Greist attachments, packed in a Japanned metal case. With these attachments you can make dainty rufflings, braidings, etc., and save the price of many trimmings

Damascus Vibrating Shuttle

THE Cabinet is the most practical case for the good machine. It protects the working parts from dirt and dust, and at the same time is an attractive piece of furniture suitable for any room in the house. This cabinet for the Damascus Vibrating Shuttle is unusually attractive in design. It is constructed throughout of oak; the door, side panels and top lid are of built-up stock and the frame of quarter sawed oak. Has rich, dark golden oak finish. Doors handsomely embossed. Square pillars form the corners. Base stands flat of floor. Handy wooden pockets on inside of the doors provide the space for accessories. The cabinet is firmly constructed and the stand securely anchored to its frame. It will not work loose. You will find it as firm and steady as a cast iron stand. Has the time and strength saving automatic lift. Foot form treadle, correctly adjusted, adds to the ease and comfort of sewing. Adequately ventilated through holes in back of case. The Damascus Vibrating Shuttle sewing head assures you many years of faithful service. With ordinary care it will retain its smooth, easy action far beyond the 20 years covered by our guarantee. Complete set of high grade nickel plated Greist attachments is included free with every machine.

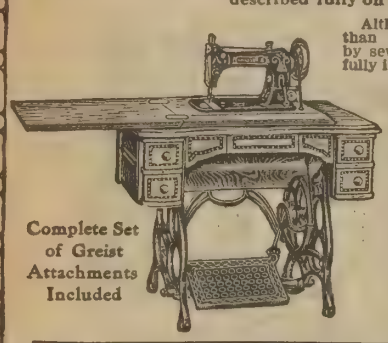
Set of Greist Attachments, for making Dainty Ruffles, Tu and Shirrings, Furnished Free with Each Machine

Windsor B Vibrating Shuttle

THE best way to judge the quality of a Sewing Machine is to sew with it. Our 90-day trial offer allows you to have this machine in your home for three months. During that time you may use it for any sewing you would do with the most expensive machine and see how quickly, easily and perfectly it stitches. You can assure yourself that both case and sewing head are well made and well worth the low price asked. This five-drawer model case is substantially built of oak. The side panels are mortised and secured to the legs with iron clamps. The top lid is of genuine oak veneer, excellently finished. It will not warp. Finished in handsome dark golden oak. Has accurate 18-inch measure imprinted on sewing table, and convenient slots in center drawer for holding extra bobbins.

The Windsor B Vibrating Shuttle sewing head used in this model is described fully on Page 557.



Complete Set of Greist Attachments Included

Although it is a less expensive model than our Damascus heads, it is made by sewing machine experts, and is carefully inspected and tested with both silk and cotton thread before it leaves the factory. It is backed by our 20-year guarantee against defects. Complete set of Greist attachments included free.

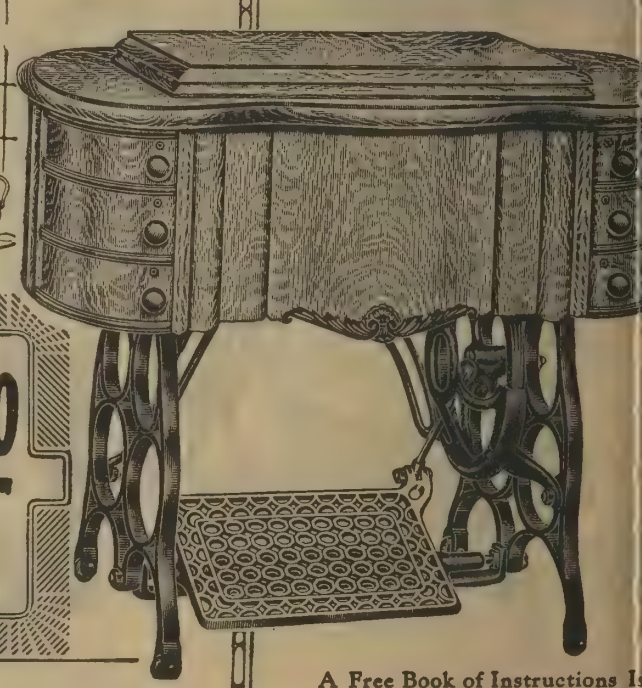
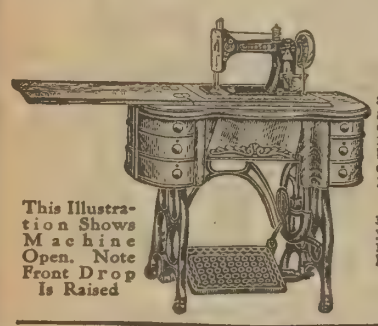
Windsor B Vibrating Shuttle

THE Martha Washington Model is built of beautifully grained oak, finished in rich, dark golden color. The table, table frame, drawer frames, head frame and top are made of solid stock veneered with genuine quarter sawed oak. The drawers are gracefully curved, harmonizing with the front drop which is ornamented with a simple embossed design. This model has the automatic lift which brings the sewing head into place with a single easy motion. An accurate 18-inch measure is imprinted on the front of the roomy sewing table. The Windsor B ball bearing stand insures easy action, while the Windsor B sewing head guarantees long years of perfect sewing service—and all at an exceedingly low price. It has all the improvements to be found on any machine at this price, and many that ordinarily are found only on higher priced models. Our liberal trial offer allows you to have this machine in your home for three months, where you can prove to your own satisfaction that it is a remarkable value. Although we sell the Windsor B for much less than our Damascus models, it is backed by the same 20-year guarantee against defects.





This Illustration Shows Machine Open. Note Front Drop Is Raised

A Complete Set of Greist Attachments Included

We send with each Windsor B a set of Greist attachments. They are made of the very best grade of steel, nickel plated, packed in a neat case. In addition to the Greist Attachments the following supplies are included: 12 needles, 6 bobbins, thread cutter, screw driver, gauge, oil can (filled) and illustrated instruction book.

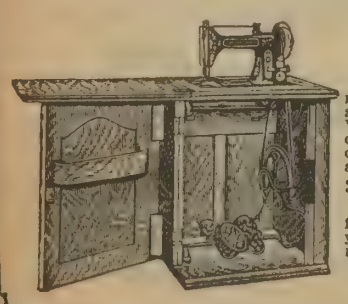
Windsor B Vibrating Shuttle

YOUR machine is always useful if you select a cabinet. When not in use for sewing, it is convenient and attractive and with room inside to tuck away sewing materials. This Windsor Model is made of richly grained oak, door and side panels of quarter sawed; frame and table of solid stock; well finished in dark golden oak. The shaped door panel is decorated with embossed design. Base is flush with floor—leaving no crevice for dust to gather. Roomy wooden pocket on inside of the door provides space for accessories. Foot form treadle gives support for the feet while working and makes bottom of the case easy to reach for cleaning. Automatic lift quickly brings sewing head into place when machine is opened. When sewing is finished the head is just as easily dropped into the case where it is protected from dust and dirt. All castings are securely anchored to the case and will not work loose. This model is as firm as any cast iron stand machine and works with as little vibration. The Windsor B sewing head, described fully on Page 577, is an excellent low priced machine. It has conveniences not found on most machines at this price. Carefully tested and adjusted before it leaves the factory, and is backed by our 20-year guarantee against defects just as our highest priced machines.



Each Machine Tested Before Shipped from Factory

In selecting your machine, keep in mind that all our models, no matter what the price, are carefully tested with both cotton and silk thread before they are allowed to leave the factory. With each machine we send a written guarantee against defects of workmanship or materials. If any develop within a period of 20 years, we will put the machine in order, free of charge, and pay freight charges both ways.

Brunswick Vibrating Shuttle

THIS Brunswick Model is our lowest priced cabinet, yet it compares favorably with the most expensive, and will add to the comfort and convenience of the seamstress. Substantially built of solid oak with attractively ornamented doors. Top rail and lid of built-up stock. Finished in dark golden oak. Automatic lift, footform treadle, ventilated, correct sewing height—all the details of the more expensive models make it pleasant to use.

$39.95

The Brunswick Sewing Head described on Page 557 is an exceptionally good value in a low priced machine. It does not have all of the special features found in the Damascus and Windsor sewing heads, but it sews the popular lock stitch, easily and perfectly. With ordinary care it will give you good service and long outlive our 20-year guarantee.

The Conqueror—
A Range You Can Depend On
Finished in Beautiful Gray Enamel

Parts of Stove Shown Like This Are Gray Enameled

The Conqueror-in Beautiful Gray Enamel-is Built for the Woman Who Wants a Good Dependable Range Fine in Appearance-Reasonable in Cost

Why You Should Buy Your New Range at Ward's

W. G Baumhogger

TO get a better stove for less money. That is the b reason why thousands of careful buyers send Ward's for their stoves. Fifty-one years in busine has taught us exactly the kind of stoves our custome want. We build into these stoves the features that mo women insist on—features that save time, fuel, an assure good cooking and baking results.

The best factories in the country make our stoves in great quantities to get the cost down to rock bottom. We sell enough to keep them busy the year round, so there is no "dull season" to boost costs.

When you buy at Ward's you pay only one profit in addition to the factory cost. We save you the two or three "in between" profits. That is why Ward's prices on stoves are never high. The low freight cost amounts to very little, compared to what you save. Freight charges are estimated in lower right han corner of this page.

Best of all, you know yo stove will be right—it has to b or Ward's would not sell Every bit of material is tho oughly tested before it is mad into the stoves. The workma ship is handled by experts- men who have made a busine of building good, dependab stoves. You will make no mi take in selecting any stove this catalogue.

W. G. BAUMHOGGER,
Manager Stove Department.

The Good Cook's Best Friend

This new gray enameled **Conqueror** will do all of these things and more too. It will heat up very quickly for baking and supply an intense, even heat at all times. It will burn either wood or coal, and the smallest possible amount of either fuel, because you get the benefit of all the heat—instead of half of it going up the flue.

This dependable range is so good looking that any woman would be proud to have it in her kitchen. The **long wearing gray enamel** will harmonize with the decorations and furnishings of any kitchen, and make that kitchen more attractive. The enamel is not merely a surface coat. It is a part of the metal itself. With reasonable care it will never chip or crack. The shiny nickel and white enamel trimmings add just the proper touch of brightness.

Best of all, you never need to blacken the **Conqueror** range—just wipe it with a damp cloth—that's all. It is always "spick and span," and the beautiful gray enamel will last for many years.

A Fine Stove at a Big Saving

For real good cooking, it would be hard to beat the **Conqueror.** The left side is swelled to create greater draft when you need it. The roomy oven will bake a batch of biscuits in a "jiffy," or it will do a large roast in the shortest time possible. With the adjustable sliding damper you can regulate the draft to suit your cooking. No need to worry about burning, because the thermometer on the oven door tells you the temperature at all times. When your cooking is done, there is the spacious warming oven to put it in—just the right height for the average woman.

Our low price is a great deal less than you would expect to pay for such a fine range with all of the features of the **Conqueror**—all the more reason why you should have one.

Linoleum is a long wearing, sanitary covering for the kitchen floor. See Index

You will have the satisfaction of knowing that your meals will be well cooked and tasty; your cake light and fluffy; your cookies crisp and flaky; your bread done to a turn. And no matter how much you find it necessary to use the **Advance,** you will know you can always depend on it for the same uniform, satisfactory results. No wonder we get so many enthusiastic letters from our customers telling us how thoroughly delighted they are with their **Advance Windsor.**

Nothing but the best quality materials are used in making the **Advance Windsor.** From top to bottom it is a high grade range. The low prices we quote on it are made possible only by the absence of expensive trimming. Just enough white porcelain enamel is used to form a pleasing contrast with the jet black in the body and in the high closet. This enamel is placed on the parts of the stove that need cleaning most frequently, so it is highly practical as well as attractive.

The **Advance Windsor** Range has been in our line a great many years. During all these years it has given constant satisfaction; we never have sold another kitchen range that has made more friends and satisfied customers than the **Advance Windsor** Range.

Body—Every casting in this body is made of pure gray iron of unusually heavy weight. All the parts are ground and fitted together by hand, making joints airtight. This is why the Advance uses so little fuel, despite its large size.

Fire Box—Built large for heavy work. Has duplex grate for burning either wood or coal. Burns any kind of fuel. Size for coal, 18 by 8 by 5 inches. The end linings may be removed so stove will take 21-inch wood. The fire back is practically indestructible.

Cooking Top—Plenty of room to prepare the largest meal. Has two fuel saving cyclonic lids (see Page 562), three heavy regular lids, and one sectional lid. This top has a highly polished finish which turns gun barrel blue when heated, and requires no blacking. No extra charge for this special finish.

Oven—Bakes perfectly in every corner and will not warp. The oven heat is regulated by a **sliding damper** which enables you to maintain even heat on all sides. Accurate heat register in door tells you when oven is proper temperature for baking and assists you in getting good results every time. Baking is a joy with this oven.

Reservoir—Extra large. Holds 28 quarts and heats by contact. Handmade of pure copper, tinned on the inside. Will not rust.

Warming Closet—The convenient drop door style, large and commodious inside. When open, the doors make a handy shelf. Door panels and entire splasher back are white enameled. Baked black Japanned castings. Takes 7-inch pipe.

Approximate Freight Charges: For 150 miles, $2.80; 300 miles, $4.05; 500 miles, $5.00.

268 E 462—Water Front. For heating water in range boiler. Shipping weight, 17 pounds. **Extra.....$5.50**

Special Feature

The Cooking Top is highly polished, and when heated turns to a gun barrel blue. Is much more attractive and easier to keep clean than the ordinary blacked top.

More Than Satisfied

"My wife is more than satisfied with the Advance Windsor Range. She says you are right when you say that a better stove was never made. I think you saved us about $50.00."

John O. Johnson,
Chesterton, Indiana
Printed with Mr. Johnson's Permission

A Prize Winner

"The Range we got from you recently is certainly as good as it looks. My wife got first prize at the county fair on the first baking of bread she ever made in her Windsor."

H. J. Botting,
Cass Lake, Minnesota

You'll Get Years of Faithful Service from This Attractive Medium Size Range

Put an end to those extra hours spent in the kitchen worrying along with an old, wornout range. End forever the anxiety about not being able to cook and bake your best. Have a Range that you can depend upon—one that will make every meal a success. The **Challenger Windsor** will meet every requirement and will give many years of perfect satisfaction in your kitchen. It is intended particularly for families of average size, but will take care of any ordinary cooking and baking requirements without difficulty.

Through the liberal use of nickel and white porcelain enamel, this range has a very striking appearance and will add beauty to any kitchen. The porcelain parts are very durable and easily kept clean. Only the best materials and finest workmanship are used in making this cast iron range. The **Challenger Windsor** will withstand hard usage and is very economical on fuel. We are quoting an unusually low price on this range, as we contracted for raw materials at prices lower than today's market; and in line with our policy, we are passing this saving on to you.

Specifications of Challenger Windsor Range

Body—Built entirely of gray cast iron, medium heavy. Parts are carefully fitted together, making the joints airtight. Takes 7-inch pipe.

Cooking Top—Six holes; two fuel saving cyclonic lids, three plain lids, and one sectional reducing lid, all 8-inch. Is 41½ by 23½ inches, including reservoir. Furnished without extra charge in **polished finish, which requires no blacking.**

Fire Box—Equipped with duplex grates so it will burn either coal or wood. Size for coal, 16 by 7¾ by 5 inches. Burns 20-inch wood with end linings removed.

Oven—Is 18 by 16½ by 12 inches. Nickeled drop door with white enamel panel and heat indicator. **Sliding damper** for regulating oven heat enables you to maintain even heat on all sides.

High Closet—Nickeled drop door; white enamel panels and splasher. Nickeled brackets.

Reservoir—Made by hand of pure copper, tinned on inside; will not rust. Holds 20 quarts and heats by contact.

268 E 455—Water Front for heating water in. Heats range boiler. Shipping weight, 10 pounds. **Extra.....$5.50**

Approximate Freight Charges: 150 miles, $1.95; 300 miles, $2.75; 500 miles, $3.40.

Challenger Windsor

Among the other things to be carefully considered before buying a range is the size. A large family should have a big range like the **Advance Windsor** with its 20-inch oven and immense cooking top, that will do an enormous amount of work. But for a smaller or medium size family, a sturdy medium sized range like the **Challenger Windsor** will do just as well.

All Stoves Take Third Class Freight Rate

Some folks don't realize how little the freight charges really amount to. For instance, a big range weighing 630 pounds can be shipped 150 miles for about $2.80. A small stove weighing about 130 pounds can be sent 150 miles for about 60¢. Freight is a small item when you consider the big saving you make by buying from Montgomery Ward & Co.

Commodore Windsor

A Medium Size Blue Enameled Ran
Which Combines Beauty and Usefulne

Every woman wants a tidy, spick-and-span kitchen. With ordinary type of Range this is almost impossible. Consta blacking and cleaning are required, and then the results often discouraging.

This handsome **Commodore Windsor** Range is as easy clean as a china dish—and it stays clean too, and looks alwa attractive. A damp cloth is all that is necessary; you need even soil your hands. The body of this stove is covered w blue porcelain enamel, against which the white enameled pan in the ash and oven doors and reservoir front make a pleasi contrast.

We are proud of the attractive appearance of the **Commodo Windsor,** but it is the fine baking and cooking qualities that ha made this stove the choice of thousands of Ward's custome Many of them, too, have written of their own accord to tell what excellent results they get from this range.

You can bake tempting biscuits and delicious bread in t roomy oven, and the thermometer on the door indicates the he of the oven so that you may regulate it as desired. The fire b is of duplex design, and the left end of the stove is swelled create greater draft when you wish to heat the oven quickly.

That's all—the Commodore Windsor will be shipped to you for a 30-day trial as outlined above.

The Terms Are Low—17¢ a Day Pays for This Handsome Range

The blue enamel on this stove is not merely a surface coat. It is so manufactured that the enamel becomes a part of the metal itself. Baked on in the hottest of furnaces so it will last for years. With reasonable care it never will chip or crack. In color it is a shade darker than a robin's egg, and the combination of this blue enamel with the shiny nickel plate and spotless white panels makes this stove an ornament to any kitchen.

You will enjoy the use of your new **Commodore** day after day without missing the money that pays for it. Many a housekeeper, continually tired out with fussing over the old fashioned iron stove, where every grease and rust spot means a lot of rubbing and bothersome blacking, will welcome this opportunity to own this stove without wishing or waiting longer. And once in your kitchen you'll wonder fifty times a day how you ever did without it!

Body—Made entirely of high grade cast iron. All castings are medium heavy, and are fitted together so perfectly that no heat can escape between them. Takes 7-inch pipe.

Cooking Top—Six-hole size; three regular lids, two fuel saving cyclonic lids (see Page 562) and one sectional lid—all 8-inch. Top measures 42 by 23½ inches with reservoir, and is 30½ inches high from the floor. Highly polished; turns gunmetal blue when heated and does not require blacking.

Fire Box—Equipped with duplex grates for burning either wood or coal. Size for coal, 16 by 7¾ by 5 inches. Takes 20-inch wood with end linings removed.

Oven—Bakes perfectly. Size, 18 by 16½ by 12 inches. Accurate heat indicator in enameled door.

High Closet—Convenient and roomy. Drop doors are flush with frame and have invisible hinges. No bolt heads show. Extreme front finished in blue enamel, with white door panels, splasher back and top rail.

Reservoir—Made by hand of the best grade of pure copper. Holds 20 quarts. Heats by contact.

Repair Parts for All Ward's Stoves

With each stove bought from us we include a repair chart show ing in detail each part of the stove, its name and number. Th chart also shows how the parts are finished—plain, japanned polished, nickeled, or enameled. Carefully save this chart. N doubt it will be some years before you will have to refer to it, bu when you do it will save confusion and help us to give you bette service.

Suppose, for instance, you have a broken or worn out plai casting weighing three pounds. Look in our catalogue under th heading "Plain Castings"; then run down the column to the line "From 3 to 4 lbs." At present prices, as per list below, this castin would cost you only 80¢. We always will sell repair parts to yo for just what they cost us.

Special trimming and steel parts shown on repair charts ca be furnished to you at current market prices.

Amazon Windsor—Durable, Dependable, Attractive

From the very first day, and through practically a lifetime, you will get perfect service from the **Amazon Windsor.** There will be no more late dinners because the stove did not work properly—no more burned bakings because the oven was out of order. And because you are going to have this range in your kitchen for so many years we have made it a real beauty in appearance. You won't want to part with the **Amazon** after you have used it for a while—and you won't have to.

$5 Down and Five Dollars A Month

Use Easy Payment Order Blank on Page 719

This is one of the best cast iron ranges made. Its generous size and weight makes it a perfect servant for the largest family, yet it is so economical to use that even a small household will find it a wise investment. On account of its heavy weight it holds heat much longer than the ordinary range, and it may be fired as hard and as long as ever is necessary. Even after ten or fifteen years of hard daily use you will find it operates the same as it did when it was new.

And, as we say, the **Amazon Windsor** is a real beauty in appearance. The massive yet graceful lines; the glistening white enameled oven door panel; the high closet door panels; the shiny nickel trimmings; all these help make it a range of which any housekeeper may be justly proud.

Specifications

Body—Built of extra large and heavy iron castings. All joints are ground and fitted perfectly tight; cemented and bolted together. The swelled left end gives you an extra strong draft when desired. Takes 7-inch pipe.

Fire Box—Made very large to take care of the heaviest kind of work. Has duplex grate—burns wood, coal or any other fuel. Size for coal, 18 by 9 by 5 inches. Takes 21-inch wood with end linings removed. **Extra heavy cast iron fire back.** Fire and ash door full nickeled in a plain, smooth design.

Cooking Top—Full six-hole size; has two cyclonic lids (see Page 562), three extra heavy plain lids, and one 3-piece sectional reducing lid for getting direct heat on a small cooking utensil. All lids are combination 8 and 9-inch; either size vessel fits firmly into opening when lid is removed. **Furnished without extra charge in highly polished finish which turns gun barrel blue when heated and never requires blacking.**

Oven—Handles large or small bakings perfectly and does not warp or get out of shape. Oven heat is regulated by **a sliding damper** by means of which you can **keep all sides of the oven equally hot.** Drop door, with nickeled frame; white enamel panel and accurate heat register in center. Size, 20 by 20 by 13 inches high.

Warming Closet—Very roomy, 13 inches deep. Nickeled drop doors with white enameled panels. Nickeled brackets, full white enamel splasher and back guard.

Reservoir—Unusually large and deep. Made of especially heavy rustproof copper. Holds 28 quarts and heats by contact. Smooth rounded full nickeled panel on front.

Base—Made of heavy cast iron. Two front legs and front base strip finished in beautiful smooth nickel.

Read What an Expert Says About Amazon Windsor

"We received the Amazon Windsor, set it up and fired up. That same evening my wife baked six loaves of bread with the most perfect results. I never saw a range of any size or kind bake better in my life, and I am a cook. The range is exactly as represented, but that is no more than I expected, as I have dealt with Montgomery Ward & Co. for over thirty years—and that is the way I have always found them—dealing square at all times."

Wm. H. Rogers, Duckabush, Wash.

Printed with Mr. Rogers' Permission

This Sturdy Cast Iron Range Sells For Less Because It Is Plain

Many people prefer a kitchen range with plain, simple lines. They do not want to pay the cost of fancy trimmings because, after all, decorations add nothing to the cooking or baking qualities of a range. The **New Crescent Windsor** is built almost entirely without fancy trimmings; that's why it is a high grade medium sized range in every way, in spite of its low price. The same care is taken in assembling and fitting the parts together. Nothing has been spared to make it a quality range throughout.

The simplicity of design of the **New Crescent** is quite pleasing. The plain construction makes it easy to keep clean, as there are no scrolls, carvings or hidden corners in which dust and dirt will collect. You will get a big value for your money in the **New Crescent Windsor** and excellent service at small cost for fuel.

Specifications

Body—Solid cast iron of good quality. All castings ground off smooth and carefully finished. Not especially heavy, but strong enough to give you much satisfactory service. Takes 7-inch pipe.

Fire Box—Equipped with our regular duplex grate for burning either coal or wood. Size for coal, 16 by 7¾ by 5½ inches. Takes 20-inch wood with end linings removed.

Pouch Feed—Feeds coal to the fire box. Handy for toasting or broiling.

Cooking Top—Full six-hole size; plenty of room to cook a big meal. All lids are 8 inches in diameter. Has two fuel saving cyclonic lids (see detailed description on Page 562), three plain lids, and one 2-piece reducing lid for getting direct heat on small cooking utensil. Size of top with reservoir, 42 by 23½ inches. Size without reservoir, with end shelf, 32 by 23½ inches.

Oven—Exceptionally large for this size range, will hold a large roaster. The drop door is spring balanced, and is fitted with one of our accurate oven heat indicators.

This range is equipped with a **sliding damper** which is a wonderful help in baking. By using the damper, you are able to get all sides of the oven equally warm.

Warming Closet—Latest improved drop door type. The entire splasher back and high closet door panels are white porcelain enameled.

Reservoir—Made of galvanized iron; will not rust. Holds 20 quarts and heats by contact. May be detached when not required or for cleaning.

Base—Smooth, rounded cast iron legs; strong steel base strips; all Japanned black finish, baked on.

268 E 455—Water Front. For heating water in range boiler. Shipping weight, 10 pounds. **Extra $5.50**

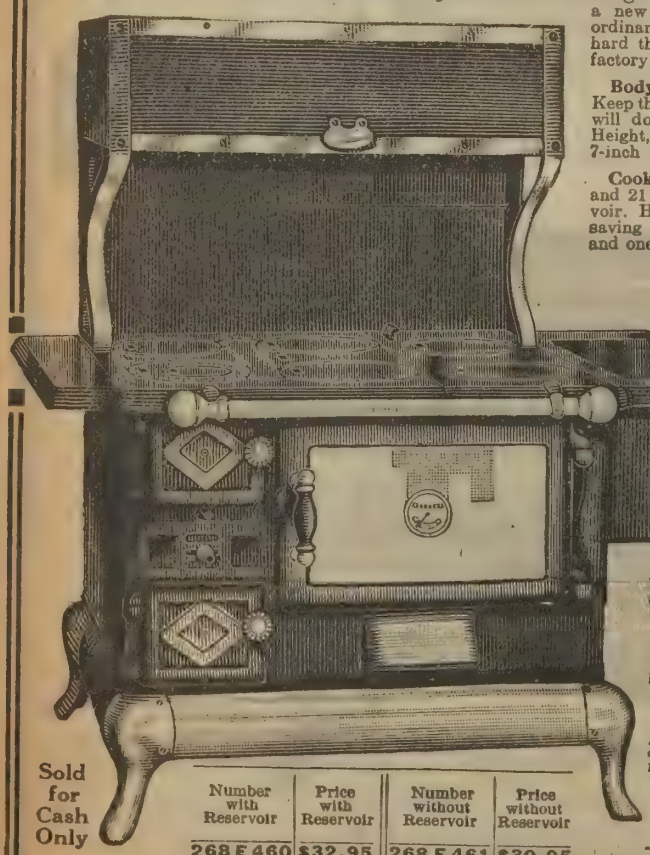
Grenadier Windsor Light Steel Range

For a small family whose needs are not too great there is not a more ideal range than the **Grenadier Windsor**. Although steel is not as durable as cast iron much can be said in its favor. It costs less, heats up more quickly and burns far less fuel than a cast iron range. On fuel alone you can save enough in a few years to buy a new steel range, although with ordinary care and if not fired too hard the **Grenadier** will give satisfactory service for a number of years.



Body—Medium weight steel. Keep the flues perfectly clean and you will double the life of this body. Height, over all, 54 inches. Takes 7-inch pipe.

Cooking Top—43 inches long and 21 inches deep, including reservoir. Has six full 8-inch lids; two fuel saving cyclonic lids, three regular, and one 2-piece reducing lid.

Julian Windsor Cast Iron Cook Stove

$30.45

Sold for Cash Only

In designing the **Julian Windsor** it has been our aim to produce a cook stove better in quality, heavier in weight and more attractive in appearance than the ordinary cook stove. The result that we have attained is that the **Julian Windsor** is one of the best stoves of its kind that you can buy anywhere. It is equal in quality to any range in this catalogue. Made heavier than most cook stoves, of heavy gray cast iron, the **Julian** may be fired harder. All joints are absolutely tight, and this, together with the construction of the fire box, makes a stove that is economical of fuel and one will give wonderful service for years.

The oven bakes excellently; is 18 by 15¼ by 12 inches. Right oven door has white enameled panel and heat indicator, also automatic kicker. Reservoir is made of galvanized iron and holds 15 quarts. Heats by contact. The stove takes 7-inch pipe.

The cooking top is large, measuring 40 by 22 inches, including the reservoir. Has four 8-inch pot holes, and two 5-inch simmering lids. The fire box is equipped with a heavy duplex grate and burns any kind of fuel. Measures 16½ by 8 by 5 inches for coal. Takes 18-inch wood with end linings removed.

Burn Gas in Summer Coal in Winter—or Both at the Same Time!

This extraordinary Range is a great convenience. During winter months you can keep your kitchen warm and cozy by burning wood or coal, and in the summer you can keep it cool and comfortable by burning gas, which may be turned off as soon as the cooking or baking is done.

Not only is the **Windsor Combination** unusually handsome in appearance, but it has two ovens—one for coal and wood, the other for gas. The coal and wood oven is located in the usual place just below the cooking top. The gas oven and a large gas broiler are placed where you can reach them without stooping, and both may be used as warming closets.

This two-oven construction has two great advantages. First of all, you can use both ovens and both cooking tops at the same time whenever there is a lot of cooking or baking to do. Imagine the unusual cooking capacity of four cooking holes, four gas burners, two ovens and a broiler! And best of all, you are sure to get the best possible baking results because each oven is especially designed for the fuel used in heating it. The **Windsor Combination** is really a stove in a class by itself—a stove sure to please you in every way.

Body—Made entirely of the best grade of cast iron. All castings are strong so they will stand up under hard use and they are fitted together with great care to avoid heat wasting leaks. Takes 7-inch pipe.

Cooking Top—Coal or wood top consists of four holes, with heavy 8-inch lids. It is highly polished and turns blue when heated, requiring no blacking. Key plate lifter opens top for feeding coal. Gas top made up of one giant and three single star burners.

Fire Box—Equipped with duplex grate; burns wood or coal. Size for coal, 15½ by 7½ by 7 inches. Takes 18½-inch wood with end linings removed. Built for heavy work.

Ovens—Coal oven measures 18 by 17 by 12 inches. Gas oven, 18 by 16½ by 11 inches. Broiler, 16½ by 12 by 11 inches. Both ovens will bake perfectly.

Nickeled Parts—All oven door frames, gas fittings and oven brackets, key plate lifter, fire and ash doors, ash shelf, front legs and front base strip.

White Enameled Parts—All oven door panels, entire splasher back, catch pan under gas cooking top, broiler pan, and gas cock handles.

268 E 310—Water Front. For heating range boiler. Shipping weight, 15 pounds. **Extra.....$5.50**

Approximate Freight Charges: For 150 miles, $2.80; 300 miles, $4.05; 500 miles, $5.00.

Burns Natural or Manufactured Gas

If you could talk to some of the housekeepers using the **Windsor Combination**, if you could watch them at work in the kitchen, you would understand why we get such enthusiastic reports from every section of the country. In natural gas territories and in territories using manufactured gas this wonderful range is proving equally satisfactory.

Sold for Cash Only

Dandy Windsor Steel Cook Stove

The **Dandy Windsor** steel cook stove is a stove very economical to use since there are no heavy castings to absorb the heat. A handful of chips, a few pieces of wood or a little coal, will give you cooking or baking heat. All the seams are electrically welded which means that all joints fit tightly. Being made of steel, it should not be fired hard, but the **Dandy Windsor** will give years of good cooking service if used with reasonable care.

The reservoir is of galvanized iron — and holds 14 quarts. Stove is fitted with a good coal grate and has an extra grate for wood. Size of top, without reservoir, 29½ by 21½ inches. Height of stove from floor, 25¾ inches. Size of oven: 14½ inches wide; 17¾ inches deep, and 9½ inches high. Lids, 8 inches in diameter. Takes 6-inch pipe. Shipping weights: Without reservoir, 130 pounds; with reservoir, 160 pounds.

268 E 457—Without reservoir..... **16.25**

Success Windsor Steel Range

Saves Time and Fuel

Whether you prefer a Steel Range because it sells for less or because it uses less fuel, you are sure to be greatly pleased with the **Success Windsor.**

As you know, a steel range is lighter in weight than a cast iron range. For that reason, it heats up quicker and stays hot with less fuel. Being made of steel, the **Success Windsor** should not be fired as hard as a similar size all cast range, but for the average size family we give this stove our highest recommendation. We consider it a splendid example of how years can be added to the life of a steel range by properly selecting and properly treating the materials used in making it. The stove is carefully proportioned to give it the most pleasing appearance. This, together with the highly polished top, the full nickeled parts, and the white enameled panels make it a stove that will add a bright spot to the finest equipped kitchen. You will be surprised that a stove so good can be sold at a price so low.

43 by 27 inches	36 by 27 inches	350 pounds	315 pounds

Read Carefully—Compare with Other Steel Ranges

Body—The careful construction of this body explains why this range cooks so well. Every joint is absolutely tight—no heat leaks out. The steel used is extra heavy and is specially selected and specially treated for its purpose to insure long life and the best possible cooking qualities. Takes 7-inch pipe.

Cooking Top—Full six-hole size. All lids are 8 inches. Has one patented non-scorching lid for cooking cereals. The entire top is highly polished and is furnished in this finish without extra charge to you.

Oven—Extra large for this size of range—18 inches wide, 18 inches deep, and 11 inches high. Door has nickeled frame, white enamel panel and heat indicator.

Fire Box—Equipped with duplex grate—burns wood or coal. Size for coal, 16½ by 7 by 5½ inches. Burns 18-inch wood with end-linings removed. Fire and ash doors are full nickeled.

Pouch Feed—Very convenient for feeding coal, toasting bread, or broiling meat.

High Closet—Has full nickeled front and nickeled drop doors with white enamel panels. White enameled splasher back.

Reservoir—Made of pure copper, tinned on inside. Holds 16 quarts and heats by contact.

268 E 306—Water Front. For heating range boiler. Shipping weight, 15 pounds. **Extra..$5.50**

Approximate Freight Charges: For 150 miles, $1.70; 300 miles, $2.15; 500 miles, $2.75.

The Greatest Heater We Have Ever Sold

Makes Five Rooms Comfortable

"I am very much pleased with Armada Windsor Oak Heater. I have five rooms and it throws out sufficient heat to make them all comfortable. They are made plenty warm enough to sleep in without extra fire. Last winter I used three stoves. This winter I have two with the cook stove as Armada takes the place of two heating stoves."
Wm. Alexander,
Carrolton, Mo.

Makes a Substantial Saving

"We received our Armada Windsor Heater yesterday and it is entirely O. K. I couldn't get a stove like it at retail for $60.00. One of my neighbors saw the stove and said that was the greatest stove bargain he ever heard of."
John Broda,
Cheboygan,
Mich.

Would Not Part with the Aramada

"The Armada Windsor we received from you recently is certainly a great heater. It is one of the best fuel savers and holds the fire longer than any stove we have ever used. I am certainly pleased with the Armada and wouldn't part with it for anything if I could not get another."
E. W. Welch,
Moorhead, Minn.

Good Results With Poor Coal

"We have our Armada Windsor set up in a large living room and it has two large bedrooms and a kitchen to heat besides. It does that without any trouble, even with the poor coal we have to use here. We are well pleased with the Armada. Everyone that sees it says it is the nicest heater they ever looked at."

Viola O. Ross,
Cedar, Iowa

$5.00 Down and Five Dollars a Month

17 Cents a Day Buys This Heater

Use Time Payment Order Blank on Page 719

The **Armada Windsor** Heater is the biggest, finest hot blas oak heating stove on the market today. During all our years i the stove business, we never have seen a heater that could equa it. It is our greatest success as builders of high grade heatin stoves.

Unusually large and massive—nearly five and one-half feet i height—the **Armada** looks every inch the master heater that i really is. In design it has the beauty of simple lines. It is gen erously decorated with smooth polished nickel, but free fron fussy and fancy trimmings which demand constant cleaning You will be delighted with its appearance in your home.

Even with its large size and superior quality, the **Armada** i not an expensive stove. It may be bought on terms of $5.00 wit your order and $5.00 per month, which puts it easily within reach of everyone.

This heater will keep the largest home comfortably warm dur ing severely cold weather, yet it may be regulated so exactly tha it will radiate just enough heat to take the chill off a smalle home during the mild days of fall and spring. This system o regulation is explained along with the illustration below.

The **Armada Windsor** Heater stands on a heavy cast iron base approximately two and one-half feet square. The legs are of smoot design, heavily plated with shining nickel. An extra deep ash pit pre vents the ashes from piling up and burning out the grates. The ash pa is made of unusually heavy galvanized iron, and the ash pit door fits ar tight. The draw center shaking grates are made heavy and strong s that any clinkers may be shaken out without danger of injury to them.

Above the extra heavy fire pot, which is described fully in the para graph below, is a wide nickeled cast iron ring. This ring deflects hea towards the floor and keeps it agreeably warm at all times. Experien has probably shown you how difficult it is to keep floors warm with th ordinary heating stove.

The body of this stove is made of extra heavy special heat and rust resisting steel. The front is of solid cast iron. The feed door is cast iro and has four mica windows so that you may see the fire. The door meas ures 11 by 15 inches—large enough to admit big blocks of wood. A three doors are machine fitted and are paper tight, so fire can be he with proper preparation for two days. On each side of the feed door ar beautiful nickeled wings, in which the regulating dials shown below ar located, and above the door is another nickeled ring. The swing cove and urn are handsomely nickeled. Takes 7-inch pipe.

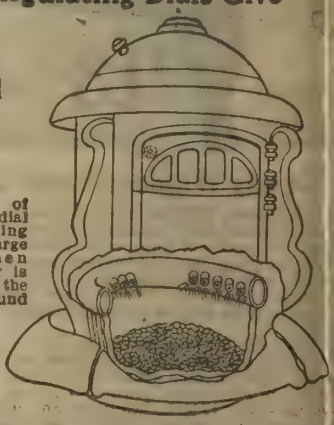
Special Features

The Urn Thermometer

In the urn of the Armada Windsor Heater is a thermometer, as shown in the illustration at the right. This thermometer, with the aid of the regulating handles in the wings (see paragraph below), enables you to regulate the heat and fire of the Armada to exactly the degree you want. You have perfect control over the fire at all times and can regulate it so that it holds over night and longer without the slightest difficulty.

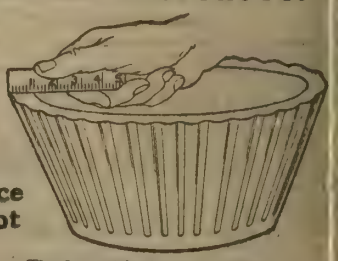
The Regulating Dials Give You Perfect Control of the Fire



In each wing of this stove is a dial with a regulating handle. (See large illustration.) When opened, cold air is taken in from the back, carried around the steel body and heated. This hot air is then forced on the fire through a series of nozzles. It churns up the smoke and holds it on the fire until all the gases are consumed. When the smoke goes up the chimney it is light gray in color—all possible heat has been extracted. This explains why the **Armada** is so unusually economical of fuel—why it costs less to operate than many smaller heaters.

The Inch Thick Fire Pot

As Heavy As a Furnace Fire Pot



The fire pot is the most important part of any heating stove. In any ordinary heater it is about a quarter of an inch thick. In the **Armada Windsor** it is one full inch thick—as heavy as a furnace fire pot! This fire pot was built especially for the **Armada Windsor**. It will last for many years, saving you the necessity of buying a new one every few seasons. If you have ever owned a heater with a light fire pot, you will know at once the value of this feature.

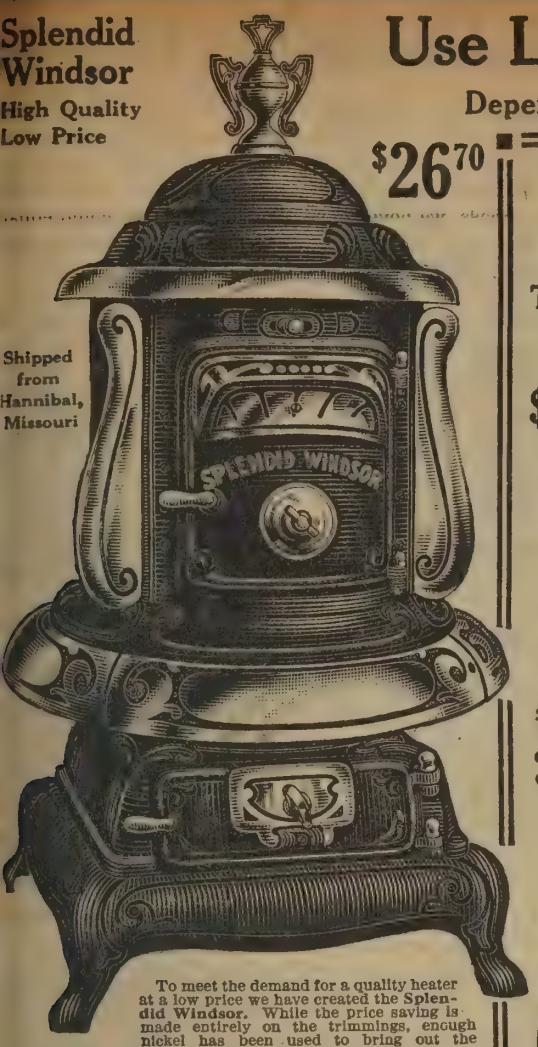
Use Less Coal—Get More Heat

Dependable, Up-to-Date Heaters to Suit All Needs

Splendid Windsor

High Quality Low Price

$26.70



Shipped from Hannibal, Missouri

To meet the demand for a quality heater at a low price we have created the **Splendid Windsor.** While the price saving is made entirely on the trimmings, enough nickel has been used to bring out the extremely graceful lines and to form a pleasing contrast with the plain body. As a heater for the average size home you would not ask for better. Its extra deep fire pot allows you to build as big a fire as you need, and the nickeled foot rails around the top of the firepot deflect the heat towards the floor. As warm air rises your whole room will be kept warm and comfortable.

Body—Made of heavy polished steel fitted tightly to top and fire pot. Small size takes 6-inch pipe; larger sizes, 7 inch.

Base—Heavy cast iron. Deep ash pit protects grates Extra large ash pan.

Fire Pot—Extra heavy. Easily holds fire over night. Grates are also made of heavy cast iron.

Doors—All machine ground and close fitting. The feed door is extra large so that big blocks of wood may be burned.

Nickeled Parts—Urn, top ring, foot rails, side wings, deflector ring, drafts and handles.

Magazine—Three larger sizes furnished with hard coal self-feeding magazine for **$3.25 extra.**

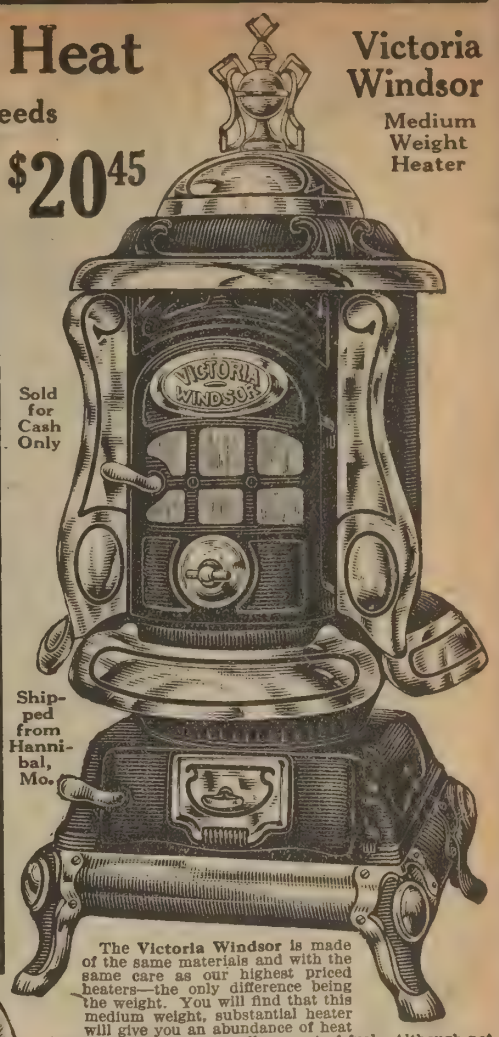
Victoria Windsor

Medium Weight Heater

$20.45



Sold for Cash Only

Shipped from Hannibal, Mo.

The **Victoria Windsor** is made of the same materials and with the same care as our highest priced heaters—the only difference being the weight. You will find that this medium weight, substantial heater will give you an abundance of heat from a comparatively small amount of fuel. Although not lavishly decorated, the **Victoria Windsor** is a mighty handsome stove and is certainly a wonderful value at our low prices.

Body—Smooth finish polished steel. Entire front, base, legs, top and swing cover of heavy cast iron.

Base—Four cast iron legs—2 front ones nickel plated. Pressed steel base skirts—front skirt nickel plated.

Fire Pot—Heavy cast iron, corrugated to give additional strength—fitted at top with wide deflector ring which throws heat to the floor.

Doors—Sizes, 8 by 9, 9 by 10 and 9 by 14 inches. Will take large lumps of coal or chunks of wood. Screw drafts give perfect control.

Nickeled Parts—Entire swing top, ring around top, name plate, side wings, three-foot rails, screw drafts, 2 legs, front base skirt.

Saxon Windsor

Substantial Little Heater For Small Homes

Shipped from Hannibal, Mo.

If your home or room is small the **Saxon Windsor** is the heater we would advise for you. Not only will this powerful little heater take care of your heating requirements as well as a larger heater would, but it will also cut down your fuel bills. The **Saxon,** though low in price, is well built of high grade materials. Neat and plain—no frills—but an out and out quality heater.

Body—Made of copper bearing steel, fitted tight to top and fire pot. Doors fitted accurately so that heater will hold fire over night.

Base—The entire base is made of cast iron, as are also the bottom, front and top of the stove. Base strips, heavy steel.

Fire Pot—Medium weight cast iron—heavy enough for this size of heater.

Nickeled Parts—Swing top and urn, top ring, side wings, deflector ring, drafts, nameplate.

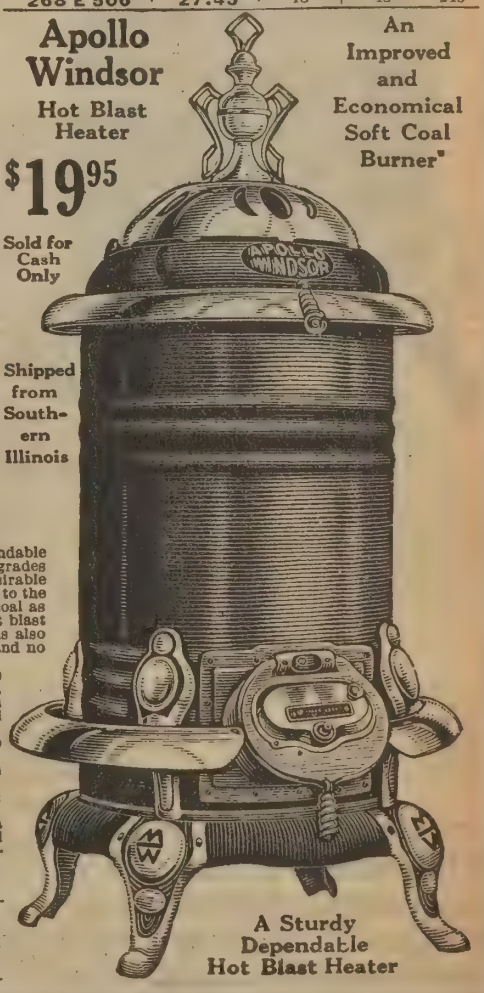
Apollo Windsor

Hot Blast Heater

An Improved and Economical Soft Coal Burner

$19.95

Sold for Cash Only



Shipped from Southern Illinois

A Sturdy Dependable Hot Blast Heater

You can make a saving of one third on your fuel bill with this dependable **Apollo Windsor** hot blast Heater as it will burn even the cheapest grades of soft coal and yet give satisfactory, even heat. Another very desirable feature of this heater is that you can easily hold fire over night due to the airtight construction. You get every bit of heat value from your coal as the smoke is held on the fire by the air coming in through the hot blast tube in the top of the stove until all the gases are burnt out. This also makes a fire free from soot, with a very small amount of ashes and no clinkers.

Body—Made of extra heavy, highly polished steel, double seamed at the back and double seamed to a heavy steel bottom, making an absolutely airtight construction. Lined with cast iron throughout—keeps steel from burning out. Cast iron door; nickel register.

Base—Cast iron; cast iron nickeled legs. Stands on space slightly more than one and one-half feet square.

Foot Rail—Nickeled cast iron, held in place by cast iron brackets which also are nickeled.

Fire Pot—Upper and lower fire pots of cast iron. Cast iron grates.

Top—Made of cast iron; feed door in front has nickeled Alaska lifter. Nickeled cast iron swing cover, with attractive nickeled urn. Slide damper for operating draft under swing cover. Nickeled pressed steel ring around top of stove. Takes 7-inch pipe.

Elite Windsor

Oval Heater

$21.75 Sold for Cash Only

Burns Coal or Wood

Shipped from Hannibal, Missouri

Some people find it necessary to be very careful about keeping the floors warm.

This is especially true in homes where there are young children who play on the floor, or where there are very old people who suffer with rheumatism. For such homes we recommend the **Elite Windsor.** This low type of heater will keep the floor comfortably warm, and as warm air naturally rises, the rest of the room will be kept comfortable also.

The **Elite Windsor** burns all grades of wood and coal. It is especially adapted for burning big blocks of wood because the whole top swings open. You can use up large, knotty logs without the trouble of splitting them.

Strong steel body bolted tightly to cast iron top, base and front. Nickeled urn, top ring, wings and hearth. Reversible pipe collar can be arranged to run pipe straight up or straight back.

Delcon Windsor

Attractive Wood Heater

$16.95 Sold for Cash Only

Shipped from Hannibal, Missouri

Built to Give Years of Faithful Service

On cold wintry nights you will want to sit around this cheerful, attractive Wood Heater and chat or read. The glow of the fire through the mica windows—the merry crackling of the wood—the warm rays—all these will give you a feeling of comfort and contentment. Attractive in appearance, the **Delcon Windsor** will add to the appearance of any room, and at the same time make it cozy and homelike.

It is built of high grade materials with the same care and skill as is used in all Windsor stoves. The parts of the range which come into direct contact with the fire are made of durable cast iron. The body is made of heavy rolled polished steel. Inside the body is a cast iron lining that protects the steel from the fire. The legs, bottom, also nickeled swing cover and nickeled foot rails are of cast iron. The **Delcon** is built to take long chunks of wood and give plenty of heat.

Solid, Reliable Construction

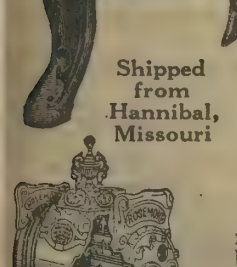
Economical of Fuel

Rosemont Windsor

Base Burning Wood Heater

Shipped from Hannibal, Missouri

$19.95



The Heat Goes Entirely Around The Body

The principle of the **Rosemont Heater** was first conceived by Rev. Todd, a Nebraska minister. His idea was to force the heat around the body of the heater before permitting it to escape up the chimney. This would keep the heat in longer, making the stove hotter and getting the utmost out of every bit of fuel. And his idea was practical. We sell a great many **Rosemonts** every year, because people realize their value as fuel-saving wood heaters.

The outer body of the **Rosemont Windsor** is built of heavy steel. The lining is of solid cast iron. The heat is forced around between the cast iron lining and the steel body, as shown in the small illustration. The fuel is placed in the cast iron lining—does not touch the steel at any point. Both ends are cast iron, also the nickeled swing cover, name plates and foot rail. As the **Rosemont** is intended to be placed near a wall, only one foot rail is furnished. The screw draft in the front door is also nickeled. Legs and hearth are cast iron. Pipe collar is reversible. Size of door, 11½ by 13½ inches. Takes 6-inch pipe.

Approximate Freight Charges: For 150 miles, 75¢; 300 miles, $1.10; 500 miles, $1.35.

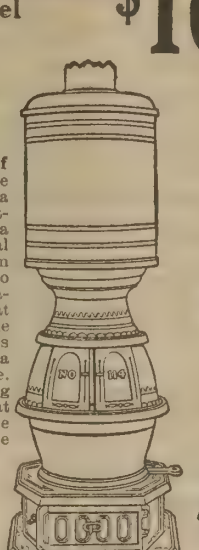
Chief Windsor

Massive Cannon Heater

Burns Any Kind of Fuel

$16.95



Heating Drums

The **Chief Windsor** can be furnished with a heavy steel heating drum at a slight additional cost. This drum adds greatly to the heating capacity, since heat is retained in the drum and thus radiates from a greater surface. With this heating drum you can heat a greater space with the same amount of fuel.

Small Size Takes 6-Inch Pipe
Larger Sizes Take 7-Inch Pipe

Shipped from Hannibal, Missouri

Built Extremely Heavy to Withstand Hard Usage

Realizing the hard and constant service to which a heater of this type is usually subjected, we have spared no pains to make the **Chief Windsor** exceptionally sturdy. A massive, heavy all cast iron heater, you can fire it as long and as heavily as necessary and you will be astonished to see how it stands up and gives unfailing service year after year. And you can burn any kind of fuel at all in the **Chief Windsor**—hard coal, coke, wood, cobs, or even the cheapest kinds of soft coal or slack. The fire bowl is made so that it fits perfectly tight to the base and the upper part of the bowl. There is no leakage and you get every atom of heat from your fuel.

Although the grates are extra heavy, the ash pit is made especially deep so there will be no unnecessary strain on them. The large slide feed doors permit large chunks to be taken. The three sizes have, respectively, a 7¼, 8 and 9¼-inch lid on top. The damper in the ash door, and the sliding feed doors enable you to regulate the heat so you can have a roaring, hot fire or a fire mild enough to hold over night.

Our largest size, No. 122, is very popular for heating churches, schools, stores, garages and depots. In fact, wherever an extra large amount of heat is necessary, we recommend this size.

Variety Windsor with Drum Oven

The **Variety Windsor** heater needs no introduction to thousands of our customers. This excellent, low priced stove is serving many of them in the home as a heater, cook stove, laundry stove and, with the addition of a high oven (shown in the small illustration) as a baker as well. Again, others will be found efficiently heating shops, churches, garages, school houses, lodge halls, etc.

Entire stove is made of cast iron. The body is heavily ribbed. These ribs not only strengthen the body and prevent warping — they also radiate heat much better than a plain surface. The big circular lower fire pot deflects heat directly against the floor.

Any kind of fuel can be burned in the **Variety Windsor.** There is a pouch at the top for feeding coal, which is very convenient when the cooking top is in use. In the upper front of the fire pot there is also a large feed door for feeding coal or wood. The grates are also of cast iron, and the ash pit is made so deep that the ashes will not pile up and cut off the draft or burn out the grates. Stands on a heavy, solid cast iron base. Diameter, lower fire pot, 18 inches. Takes 6-inch pipe. Ship. wt., 145 lbs.

268 E 530.....**$11.85**

268 E 920—Baking Oven as shown in the small illustration. Also acts as heating drum—by using as illustrated you can bake and get additional heat without using more fuel. See Page 572 for detailed specifications.

Extra.....**$4.55**

Bellwood Windsor

Cast Iron Wood Heater
Plain—Solid—Everlasting

The **Bellwood Windsor** is made with no other thought in mind than to produce a wood heater so strong and solid in construction that it will give faithful and satisfactory service no matter how hard or roughly you use it. Every casting is extra heavy and strong. Heavy corner columns and top to bottom cast iron braces on the sides give additional strength. You can fire the **Bellwood** red hot without damaging it.

A large swing top permits you to burn big, rough chunks of wood without splitting or sawing them. The four larger sizes have two handy cooking lids in the top; the small size has one. Top is 26 inches from floor in all sizes. Takes 6-inch pipe.

Article Number	Price	Size of Body Outside	Size of Top Feed Opening	Length of Wood	Shipping Weight

Laundry Stoves, Drum Ovens, Kitchen Heater and Tank Heaters

Sun Windsor Laundry Stove

$5.95

Four-Hole Type

Shipped from Southern Wisconsin

Every housekeeper knows how much extra work a good laundry stove will save her. In the **Sun Windsor** we offer at an exceptionally low price a laundry stove made exactly the right height for your convenience—one that will save you most of the heavy strains and lifts that accompany wash day. It is also a handy stove for campers as it is light enough to move around easily.

The **Sun Windsor** is a sturdy, all cast iron Laundry Stove measuring 21½ inches from floor. It has a four-hole cooking top; size, 20½ by 21 inches. The firepot is 12½ inches in diameter, deeply corrugated all around to give it extra strength. Deflector plate over firepot. Takes 6-inch pipe. Shipping weight, 90 pounds.

268 E 900.....**$5.95**

Lion Windsor Laundry Stove

$6.75

Four-Hole Type

Shipped from Southern Wisconsin

Here is a sturdy, all cast iron Laundry Stove of improved design. Wherever and whenever a stove of this type is needed the **Lion Windsor** will give most satisfactory service. The firepot is 8-sided and has a ring of brackets around the base. These brackets enable you to hold your flatirons against the sides of the firepot, where they heat very quickly. At the same time the top may be used for other purposes. An extraordinary value at this price.

Size of top is 20½ by 21 inches. Has four 8-inch lids. Height from floor to cooking top, 22 inches. The firepot is 12½ inches in diameter. Takes 6-inch pipe. Shipping weight, 100 pounds.

268 E 903.....**$6.75**

Jack Windsor Laundry Stove

$5.39

Two-Hole Type

Shipped from Southern Wisconsin

The **Jack Windsor** is the same size laundry stove as the Sun Windsor except that it has a two-hole top. It will hold the heaviest tub or boiler full of wet clothes. This compact, strongly built stove will burn absolutely any kind of fuel. It is just the proper height for greatest convenience in the laundry. A feed pouch in front makes it unnecessary to remove boiler or washtub when you want to feed the fire.

As a camp stove the **Jack Windsor** is hard to beat. It is so light and compact that it can be moved around easily.

The top is 13½ by 20½ inches. Height, cooking top from floor, 21½ inches. Fire pot is 12½ inches in diameter. Takes 6-inch pipe. Shipping weight, 75 lbs.

268 E 915.....**$5.39**

Windsor Hi-Oven Combination

$12.95

Watch Your Baking Through the Glass in the Oven Door

Shipped from Southern Wisconsin

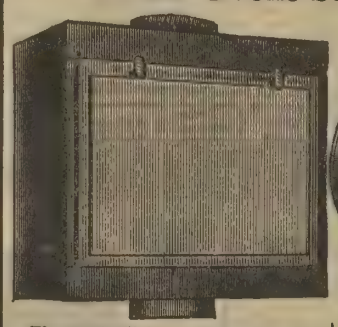
The **Windsor Hi-Oven Stove** has proved itself just the thing in many a home where kitchen space was limited. With this one stove you can heat, cook and bake with perfect results. Owing to its low price many people even buy this as a laundry stove. While it is being used for laundry purposes they take advantage of the oven heat to make their roasts, bread or cake. And you could not ask for a better baker. The heat which naturally rises in the stove pipe circulates in a jacket which surrounds the high oven. This constant circulation of new, live heat produces an even temperature all around, which is so much desired in good baking.

Well Made Throughout

The Stove is made of cast iron and has a 20½ by 21-inch cooking top with four 8-inch lids. Cooking top is 21½ inches from floor. Oven is 15¾ by 12¼ by 11 inches inside. Full lined with steel and asbestos and has glass panels and heat indicator in drop door. Takes 6-inch pipe. Shipping weight, 150 pounds.

268 E 908.....**$12.95**

Drum Ovens Save Waste Heat

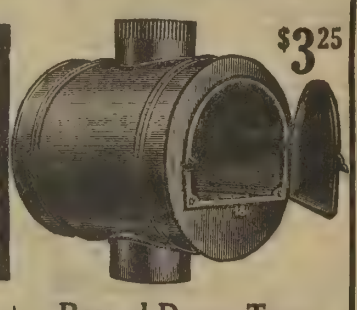


The most efficient Drum Oven you can buy. It is unusually large, built entirely of high grade steel, and has an extra shelf inside. Oven door is drop type, the same as used on our best ranges. Makes a handy shelf when open. This oven may be inserted in the pipe of any stove.

Inside dimensions: 15¾ inches wide, 11 inches deep, 12¼ inches high. Fits 6-inch pipe. Shipping weight, 20 pounds.

268 E 920.....**$4.55**

Shipped from Southern Wisconsin



$3.25

Round Drum Type

While heat is passing through your stove pipe up the chimney you can be making mighty good use of it. This round Drum Oven, fastened in the stove pipe right over your laundry stove or heater, will catch the heat and do your baking for you. Steel body, 12½ inches wide and 20 inches long. Fits 6-inch pipe. Shipping weight, 20 pounds.

Windsor Kitchen Heater

Burns Any Kind of Fuel

$19.95

Where a gas range is used for cooking the **Windsor Kitchen Heater** is needed for burning your rubbish, garbage and waste. At the same time you can be heating your kitchen or using the extra cooking space with fuel you would otherwise throw away. Just place this stove beside your regular gas range, raise it to the same height on its adjustable legs, and you have a mighty convenient addition in your kitchen with the loss of but little space.

The **Windsor Kitchen Heater** is built along the same lines as our regular ranges. The body and legs are made of the best quality cast iron. The cooking top measures 14 by 26½ inches and has two 8-inch lids. The fire box has duplex grates and will burn any kind of fuel. Takes either 5-inch or 6-inch pipe. Shipping weight, 193 pounds.

268 E 524.....**$19.95**

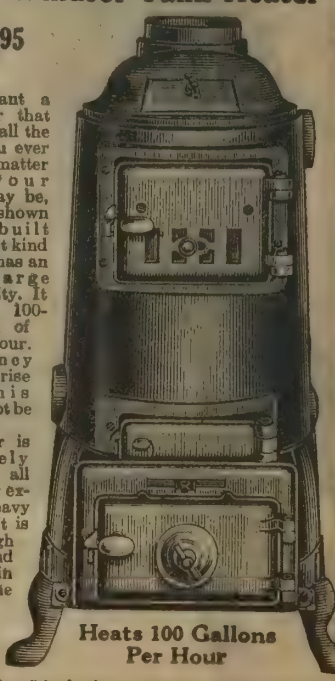
No. 3 Windsor Tank Heater

$29.95



Heats 100 Gallons Per Hour

If you want a Tank Heater that will give you all the hot water you ever will need, no matter how large your household may be, buy the one shown here. It is built for the hardest kind of work, and has an unusually large heating capacity. It will heat a 100-gallon tank of water in one hour. No emergency ever will arise where this amount will not be enough.

This heater is made entirely of cast iron, all castings being exceptionally heavy and strong. It is 36 inches high over all, and 17 inches in diameter at the base. It may be set without the legs, which takes 5 inches from the height. Takes 5-inch pipe. Shipping weight, 250 lbs.

Airtights Heat Quickly

Burn Wood, Corn Cobs and Rubbish

Our Best Airtight Heater

$6.95

Shipped from Aurora, Illinois

Apollo Windsor

The **Apollo Windsor Airtight** is the highest grade airtight we ever have sold. It is far superior to most airtight heaters, having an extra heavy steel body and a solid cast iron front. It is lined with heavy steel (lining can be replaced if it burns out); has solid steel legs and nickeled foot rails. The large flat top may be used for cooking, as it is well braced.

Burns dry wood, rubbish, garbage or chips very economically, and gives quick heat. The big feed door permits burning of large size wood. Takes 6-inch pipe.

Windsor Full Enameled Gas Range—Spotless Always

Use Easy Payment Order Blank No. 2 on Page 719

With the aid of a **Windsor Full Enameled** Gas Range you can have what nearly every housekeeper strives for—a spotless kitchen. The ease with which you can keep this range bright and shiny; the speed with which you can prepare your meals; the time and worry you will save on your baking; all these will allow you more time for your other household duties and recreation.

Instead of being finished all over in white porcelain, this stove has just enough gray porcelain parts to set off the white to the best possible advantage. The French gray castings add greatly to the appearance of the stove, and the nickeled parts give the final beauty touch. All steel parts of this range are made of Armco Iron, a nationally famous heat and rust-resisting metal. The oven is large, measuring 18 by 19 by 12 inches. Grates are of an improved design.

The broiler is 7 inches high and has enameled drip pan. The cooking top is 19¼ by 20½ inches, and has 4 large star burners—also wide end shelf. Burns natural or manufactured gas. **Nickeled parts**—Back guard corners, brackets, oven and broiler door frames, feed pipe, body band and shelf end. **Gray porcelain parts**—Front, cooking top, end shelf, legs and collar. Other parts white porcelain.

Triplex Super-Flame Oil Range

Kitchen Queen Model. Utensils Not Included

$5.00 Down—$5.00 A Month

The Kitchen Queen Automatic Oil Range will do more cooking at one time than any other oil stove—and it will do it in less time and with less oil. The eight cooking holes will take care of the needs of the largest family, yet only four super-flame burners are necessary, as each burner heats two cooking holes. You use the heat three times. The flame heats the hole directly above it, the surplus heat is carried back to the second cooking hole (the fireless burner) and heats that. Then the heat travels up to the warming shelf, where you can keep food hot until ready to serve.

Safe, clean and economical. So simple, a child can operate it. No wicks to clean; no smoke, soot or ashes. Burns ordinary kerosene. Does not heat up the kitchen as the canopy carries off the surplus heat. Super-flame burners have short chimneys which bring the flame into direct contact with the cooking vessel—another feature. The intense blue flames can be regulated to any degree of heat.

Handsomely finished and sturdily constructed of heavy pressed steel, strongly braced and very rigid. Finish is beautiful combination of black and gray, baked on to guard against chipping. The exclusive Endoor oven occupies only one-fourth of cooking top instead of one-half, as on ordinary oil stove. Warming shelf folds back when oven is in use. Takes 6-inch pipe.

Order the Kitchen Queen today. Put it in your kitchen and use it for thirty days. If you do not consider it superior to any oil stove regardless of price, simply write us for shipping instructions. We will refund all your money, including all transportation charges.

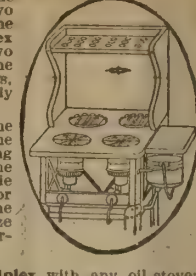
Triplex Super-Flame Oil Cook Stove

Does Twice the Work of Any Oil Stove the Same Size

Lady Windsor Model



The **Lady Windsor** has for many years been one of our most popular oil stoves. We are now offering this model with an added feature—the **Triplex Super-Flame Burner**, which heats two cooking holes with but one flame, cutting the fuel expense in half. The **Lady Windsor Triplex** has four cooking holes, but requires only two super-flame burners. Will practically do the work of an ordinary oil stove with four burners, yet occupies only half the space and uses only half the oil.

The **Lady Windsor Triplex** has exactly the same features as the Kitchen Queen, with the exception of the canopy—having instead a high shelf. It has the same super-flame burners with their double cooking capacity and the Endoor oven which occupies only half of the cooking top. Although it is a full size oven it is operated by only one super-flame burner.

Compare the Lady Windsor Triplex with any oil stove on the market having four burners. You will find that this **Lady Windsor** will cost less money and will save time and space. Only half the fuel will do practically the same amount of cooking as an ordinary oil stove with four burners. You may order this stove and use it in your home for thirty days. If you are not entirely satisfied that it is the best oil stove of its size regardless of cost, write us for shipping instructions, and all of your money will be promptly refunded.

Height of cooking top from floor, 31 inches. Height over all, 52 inches. Depth of cooking top, 22 inches; width, including shelf, 33 inches. Oven is 18 by 12½ by 20 inches. Tin lined throughout. Made of blue polished steel. Door has glass panel.

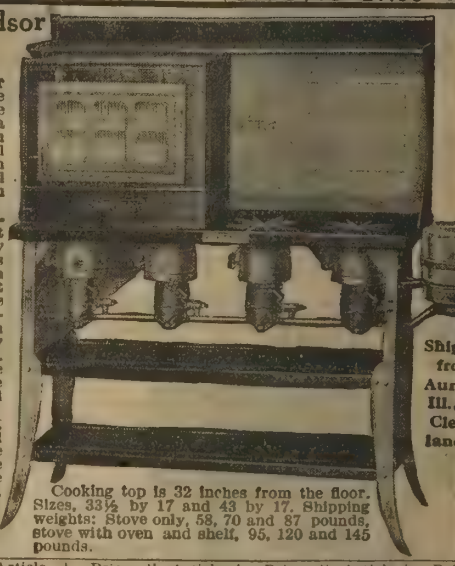
Quick Action Windsor Wick Oil Stove



The Quick Action Windsor Wick Oil Stove will cook, bake and roast as rapidly as the modern gas range, and at a lower cost for fuel than you ever have known. You will spend less time in your kitchen than before, yet your meals will be as perfectly cooked as you could wish to have them.

The burners are simple in operation and will not easily get out of order. They give an intensely hot flame—smokeless, odorless and clear blue in color. With the aid of the Windsor short chimneys, which bring the flame directly against the utensil, these burners cook with great rapidity and use a very small amount of kerosene. Years of practical use have proved the short chimney the most economical and successful type yet developed.

Made of heavy rolled steel; attractively finished in baked on gray and black japan. The grates are of steel and are guaranteed unbreakable. The oil tank is made of glass. One of our largest and best baking ovens furnished. (See No. 268 E 752 at left side of page for dimensions.)

Cooking top is 32 inches from the floor. Sizes, 33½ by 17 and 43 by 17. Shipping weights: Stove only, 58, 70 and 87 pounds. stove with oven and shelf, 95, 120 and 145 pounds.

Rexo Folding Camera

Complete Instruction Book With Every Camera

$21.60

Make today more pleasant by remembering the joys of yesterday. The pictures you take today of the family gathering, picnic or outing trip will be a source of pleasure for years to come.

Assure yourself of good results by using this Rexo Folding Camera with all the refinements demanded in a high grade camera. The compact case is covered with genuine seal grain leather. The front of the case opens easily and is locked securely in position before the bellows can be pulled out. The lens is supported on a rigid, one piece U-shaped standard with vertical raising and lowering, and laterally shifting devices. The lens is a Rexo Anastigmat F 7.5 of high quality and will produce clear well defined pictures even under bad conditions of light and speed. The Ilex shutter is fast and positively timed. It has a five leaf star shaped opening to give the highest light efficiency. Operates accurately at 1/25, 1/50, 1/75, 1/50 and 1/100 second, also with time and bulb exposures. Has both cable and finger release. All shutter and diaphragm markings are plainly shown and easy to read. The focusing scale is self-aligning and operates with a rack and pinion. Your fingers fall naturally on the adjusting knob as you hold the camera in position to take a picture. Distance scale is plainly marked. Camera has brilliant, reversible finder, sure locking back with film aligning plate, and two tripod sockets. This is a camera for good pictures.

60 E 7732—Model 1A. Takes pictures 2½ by 4¼ inches. Rexo anastigmat lens F 7.5. Uses Films 60 E 8234 and 60 E 8235. Eastman No. 116 or any standard roll film **$21.60**

Postage, 10¢ extra

Rexo Pocket Folding Camera

$8.75

Takes Pictures 2¼ by 3¼ Inches

This handy Rexo Coat Pocket Camera takes good size pictures 2¼ by 3¼ inches, yet, due to its compact construction, is small enough to slip easily into the pocket. The all-metal case is covered with smoothly finished genuine leather. Even the winding key is made so it lies flat against the case and will not catch the clothing.

Fitted with focusing scale and adjustment. Conveniently placed and so arranged that you can not forget to focus properly. Distance markings are plainly shown and legible. The rapid rectilinear lens insures sharp clear pictures with good depth and fine detail. The Ilex shutter is sturdy and dependable. Made dustproof so the camera can be carried without a case. Shutter operates at 1/25 and 1/50 second and also time and bulb exposure. Has both cable and finger release. The dustproof finder is reversible and shows a clear brilliant image. The diaphragm has a wide range of openings to suit the light conditions. Diaphragm openings are plainly marked. Tripod sockets for vertical or horizontal pictures. A serviceable camera that you can carry with you on a hiking trip or picnic and take good pictures that will keep the happy memories for future enjoyment. No. 1. Coat Pocket Camera. Takes pictures 2¼ by 3¼ inches. Uses Film 60 E 8232. Eastman No. 120 or any standard roll film.

Why Sportsmen Rely on Our Judgment

YOU know as well as I do, that it is the actual use in the field which determines the worth of a piece of sporting goods. As an old timer and one who has lived a great part of his life in the great outdoors, I think I am more than qualified to pass judgment on sporting goods. I know sporting goods not only as a user of them, but also because I have bought millions of dollars worth of guns, ammunition and sporting goods in general.

Here at Ward's we know the manufacturers and know that certain factories make a line of goods that is just as fine as the goods coming from some other factory that sells for much higher prices. That is where our experience counts. We compare different makes and select for you the goods that will be the best for you and at the same time save you money. We never sacrifice quality for the sake of making a low price. We make sure that the goods are up to our high quality standard before we offer them. We feel sure that our many customers would rather know that they are getting high quality goods than receive poor merchandise at "bargain" prices. We keep in touch with the world's markets and always check up to see that you are getting the best values to be had.

Take Red Head Ammunition as an example. This fine ammunition has made it possible for the shooter to cut down the cost of his sport and at the same time have the best shells on the market.

When it comes to athletic equipment, Earnway Edwards, manager of our Sporting Goods Department, selects the merchandise himself. He knows that line thoroughly. As a player, as a coach, and as a sportsman he knows the importance of proper equipment. He searches the markets for goods of high quality. Because of his experience and knowledge he is able to judge which is best. He knows from actual use the kind of equipment that will stand up and give the best service—that is the kind he buys—the only kind Ward's sells.

PETER SMITH, *Merchandise Manager*

Red Head Shotgun Shells

7% Greater Velocity

Better Shells for Less Money!

Welcome news for shooters! Spend less money; shoot better shells—and Red Head Shells are better; the tests prove that! They embody the newest and best ideas in shell manufacture. The resilient, greased cork composition wads actually produce 7 per cent greater velocity with less recoil. They keep the gases sealed behind the load and give a more uniform even pattern. The high base primer means quick, complete ignition. The high fiber cup comes well above the brass and prevents "cut offs." Examine Red Head shells; compare them point by point—then try them!

The Experts Use Them

Many of the world's best trap and field shots are using Red Head shells, not only because they cost less money but because they give better results.

Buy Them by the Case

Also, Red Head shells cost less by the case. Three or four shooters can club together and order a case. By anticipating your needs, you can make an additional saving—have them sent by freight. You save on the cost of the shells, and you save also on transportation charges.

410-Gauge Shotgun
Double Barrel Takedown

An Ideal Gun for Boys or Women

$25.30

A Hard Hitting Small Bore Gun

A remarkably fine small bore Gun. Has all the refinements of the larger guns, and the additional advantage of light weight and small recoil. Because of this, it is the ideal gun for women to use or for beginners. It is a double barrel, take down model and is particularly well suited for shooting quail or snipe. This gun is now being used by many old time hunters. Has a close pattern and at close range the penetration is fully equal to that of a 12-gauge gun. An effective 410-gauge gun that shoots true and clean.

Barrel—26-inch with matted extension rib. Bored for black or smokeless powder. Blued finish. Tapered, bell shape breech. **Stock**—Highly polished walnut stock and fore end. Pistol grip. Rubber Grip and fore end checkered. **Frame and Action**—Casehardened. Safety butt plate. slide.

Specifications—Length, over all, 43 inches. Weight, 5¾ pounds. Uses 410-gauge shells 660 E 1760-2-5 or 660 E 1478 shot cartridges. Shipping weight, 8 pounds.

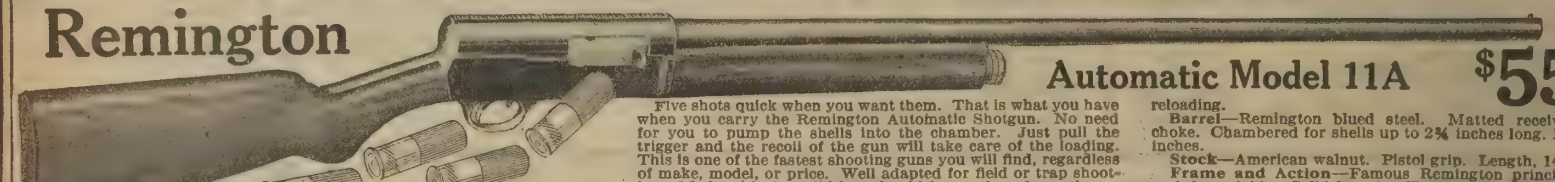
Remington

Automatic Model 11A

$55.25



Five Shots

Five shots quick when you want them. That is what you have when you carry the Remington Automatic Shotgun. No need for you to pump the shells into the chamber. Just pull the trigger and the recoil of the gun will take care of the loading. This is one of the fastest shooting guns you will find, regardless of make, model, or price. Well adapted for field or trap shooting. Made with the solid breech which greatly reduces the recoil and increases accuracy.

Takedown model; 12 gauge. Holds four shells in magazine and one in the chamber, making five shots available before reloading.

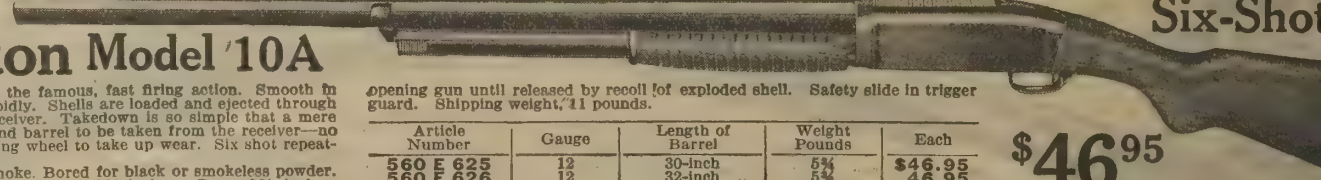
Barrel—Remington blued steel. Matted receiver. Fu choke. Chambered for shells up to 2¾ inches long. Length, 2 inches.

Stock—American walnut. Pistol grip. Length, 14 inches.

Frame and Action—Famous Remington principle. Fas and dependable. Solid breech. Hammerless. Safety catch i trigger guard. Actual weight, 7¾ pounds. Shipping weight, l pounds.

560 E 628 ..... $55.2

Remington Model 10A



Six-Shot

$46.95

The Remington Pump Gun with the famous, fast firing action. Smooth in operation and may be fired very rapidly. Shells are loaded and ejected through an opening in the bottom of the receiver. Takedown is so simple that a mere quarter turn allows the magazine and barrel to be taken from the receiver—no tools needed. Has adjustable bushing wheel to take up wear. Six shot repeater, takedown model. Solid breech.

Barrel—Remington steel. Full choke. Bored for black or smokeless powder. **Stock**—American walnut, pistol grip; length, 13¾ inches. Drop, 2¾ inches. Rubber butt plate. **Frame and Action**—Matted top. Recoil lock prevents opening gun until released by recoil of exploded shell. Safety slide in trigger guard. Shipping weight, 11 pounds.

$7.75

A Big Warm Coat

This Coat, for hunting or general outdoor use, has all the appearane and style of a finely tailored garment. Made of Eisner-Dupont rubberized twill—a waterproof fabric so fine that it resembles gabardine. It has a superior finish and gives a more dressy appearance than is generally expected in such a garment. The coat is full lined with heavy moleskin cloth, making it comfortable for wear even on very cold days.
The coat has corduroy cuffs which are adjustable, and the corduroy collar may be turned up snugly about the neck in bad weather. Both collar and cuffs are made of high grade corduroy, insuring long wear and adding to the attractive appearance of the coat. There is a large all around game pocket with entrance from the front or from the side seam. All other pockets are fitted with button flaps. The shoulders are reinforced to give extra strength and there are ventilated gussets under the arms. Double stitched throughout. Tailored to permit perfect freedom of action for the arms.
SIZES: 36 to 46-inch chest measure.
State size wanted.
60 E 2831 ..... $7.75
Postage, 14¢ extra

EISNER-DUPONT

Rubberized Coat
Wind and Water-Proof
Special Value

The Eisner-Dupont treatment for waterproofing fabric insures an even distribution of the rubber and a perfectly waterproofed garment when it is finished. The fabric remains soft and pliable and the outer surface of the garment does not show that the inside has been rubber treated. There is no stiffness as there is in a coat lined with rubber sheeting.

The Storm King

A Coat Specially Designed for Use in Bad Weather

$8.95

No need to shiver and be uncomfortable when you are hunting duck or deer. This Storm King—a big, warm blanket lined Coat—offers you comfort and protection from wind, water and weather. Specially designed to keep you comfortable no matter how severe the weather may be.
Made of genuine U. S. army shelter duck, khaki color. Warm, comfortable, plaid blanket lining. The storm collar is extra large and is lined with beaverized sheepskin. Four large shell pockets and a large all around game pocket lined with washable slicker cloth to protect the blanket lining. Entrance to game pocket from inside front edge and from side seams. The two hand warmer pockets on the sides are leatherette bound. Shoulders have specially reinforced gun shoulder pads. Adjustable corduroy lined cuffs. Strongly stitched and well tailored.

Specially Selected Silk Lines

These lines are of excellent quality; guaranteed to have a life and strength equal to any line on the market. No higher grade lines can be produced. They represent a saving of approximately 33 per cent over other lines of equal quality. These lines can not become flat. The center is perfectly round and will stay so because it is made of three strands of pure silk tightly twisted together.

Intercollegiate Football Pants

Made according to the specifications of one of the famous football coaches. These pants are used by a great many colleges and universities throughout the country.

Guaranteed genuine olive drab 8-ounce **Army duck** with **all seams double** sewed. Kidney, hip, thigh and knee pads of finest white asbestos water repellent felt. Kidney pads extend four inches above top of pants, high in back, sloping down gradually in front and have seven flexible fiber strips, ⅞ inch wide and 7½ inches long, sewed on each side running up and down, giving protection to all vital points on hips and ribs. Spine pad is connected to kidney pad on both sides. Two-piece spine pad backed with white felt to protect end of spine. Kidney pad and spine pads covered with army duck on outside. Laced in front with one long special cord. Extra long white felt hip pads extend well around front and back and cover top of thigh pads. Four-piece flexible fiber thigh pads, covered with white felt, give protection to side of legs. Extra large white felt knee pads. Tapered legs fit snugly without binding. Snap buckle and trap at waist line. Tunnel belt loops. Extra wide fly piece and crotch seam reinforced with tape.

SIZES: 30 to 40-inch waist measure.

Featherweight
Hawthorne Racer
1923 Model

Every fellow who ever rode a bicycle knows the many advantages of a racer that is light and easily handled—one that responds to the slightest pressure on the pedals—so he can speed up instantly whenever he desires, and ride for hours at a stretch, without fatigue.

The FEATHERWEIGHT, true to its name, weighs only 27 pounds. So light, you can easily hold it up in one hand, yet, nothing is eliminated that would in any way weaken the strong construction. Made from the very best of materials, with all strain points properly reinforced. Friction has been reduced to a minimum by well oiled, carefully ground ball bearings, traveling in casehardened ball-races. When you swing into the saddle and grip the reversible drop handle bars, your weight is evenly distributed, and you rest comfortably, directly over the pedals.

The twenty-inch frame is made extra short between crank hanger and rear hub. Crank hanger is in one piece, with carefully ground ball bearings. Chain is ½-inch pitch, roller type, smooth running, strong and light. Racing type hubs. Finish is rich black enamel, with gold stripes. Front fork, handle bars and crank hanger are nickel plated. Tires are 1¼ inch Racing Cords, mounted on laminated rims, light, but extra strong. Ball bearing metal pedals. Our low price does not include tools or tool bag, as most riders prefer to select their own equipment. For riders of 27 to 35 inch measurement from crotch to toe. Actual weight, complete, 27 pounds, with Coaster Brake, 30 pounds. Shipping weight, crated, 45 pounds.

160 E 3048—With Special Racing Rear Hub **$29.25**
160 E 3047—With New Departure Coaster Brake **31.65**

Tools and Tool Bag Not Included

$29.85

For Women and Big Girls
Dolly Varden

Whether it is a picnic in the country or a trip to a neighbor's or friend's house, this attractive Bicycle will take you there and back quickly and in comfort. The double loop drop frame finished in golden brown with white head makes it easy to mount and dismount. So simple that you seem to just step on the pedal and seat yourself on the easy riding saddle. The free running coaster brake insures your exact control of the speed at all times. The metal guard over the chain and cording on the rear wheel prevents soiled or damaged skirts. You will be surprised at the ease with which you move along because of the smooth running wheels and balanced crank hanger. The well made Hercules Giant Stud Tires also contribute to the easy riding qualities. Also they are practically puncture proof. For young women. Actual weight, 40 pounds. Shipping weight, 55 pounds.

160 E 3060—Coaster Brake Model..... **$29.85**

Dolly Varden Junior. Same style and model, but without chain guard. For girls 7 to 11 years old. Actual weight, 35 pounds. Shipping weight, 45 pounds.

160 E 3067—Girls' Coaster Brake Model..... **$26.85**

For big benefits at little cost, own a good bicycle. Good health will reward your brisk rides in the open air. Transportation is yours that never fails, day or night. You travel independent of street-car delays, "engine troubles," and time tables. You can accomplish hundreds of errands daily—cover the distance to farm, city, market, office or factory easily and unfailingly—enjoy added earning power, greater economy, improved health, pleasure and profit.

Red Wing Motobike
A Real Red Beauty
At a Special Low Price!

Think of paying only $29.95 for a Bicycle like this! Attractively designed, enameled a brilliant Red, and trimmed in black with gold stripes, this Red Wing is a bicycle that any boy—yes, and any boy's father, uncle or brother, would be proud to own. As you read the detailed specifications given below, picture to yourself the striking value we have brought to you for so little money! Lighter in weight than the DeLuxe Motobike. This model is equipped with a New Departure coaster brake; has rubber pedals, rubber handlebar grips; a drop curve in the double top bar that gives an easy, low riding position; a good quality leather motorbike saddle with double spring suspension, and a sturdy frame built to stand all kinds of hard wear. That splasher on the front mudguard protects your shoes and clothes. **Boy!**—can't you just see yourself slipping easily onto the comfortable seat of this Red Wing and spinning along for hours at a stretch, without the least weariness or discomfort? If you want the best bicycle **possible to buy for less than $30.00,** order your Red Wing today.

You can explore the side paths in perfect comfort, for the bumps of the rough road WILL NEVER TIRE YOU. You can spin over to that good fishing stream, to the baseball game or the picture show. Errands will become a pleasure instead of a bother, and besides, they will be done much more quickly than you ever thought possible. You will want to make your own selection of tools to meet your particular needs. For that reason we have deducted the cost of tools from the price of the Red Wing; but a full line of tools, accessories and bags are shown on Page 590. You save enough on the cost of your bicycle to buy for all the tools you need, and have enough money left to buy a baseball uniform or a fishing outfit besides.

Frame—Carefully tested 18-gauge seamless tubing. Reinforced by fishmouth connections so all joints are flush and extra strong. The curved double top bar enables you to lower the seat post about two inches more than the ordinary diamond frame bicycle. **Forks**—The front forks are of the trussed type, making them extra strong, giving you that sense of security when riding over rough, bumpy roads. **Saddle**—Large, comfortable leather covered seat, motorcycle type, with double suspension springs. **Handlebars**—Wide, motorcycle type, with long rubber grips and crossbar. **Color**—A brilliant, durable Red, trimmed with black head and darts edged with gold stripes. **Mudguards**—Deep center motorcycle type, rubber splash on front guard. **Coaster Brake**—The well known and dependable New Departure. Easy running, yet sure and positive in action. Checks your speed easily and quickly when necessary. **Tires**—All gray with studded tread. **Other Features**—Special, one-piece crank hanger. Rubber pedals with large ball bearings. Adjustable seat post.

160 E 3049—Suitable for any rider with inseam measurement of 27 to 35 inches, crotch to toe. With New Departure Coaster Brake. Actual weight, 37 pounds. Shipping weight, 58 pounds..... **$28.**

The Hawthorne
De Luxe Motobike
Built for Boys Who Want the Best

JUST that! The best Bicycle you will ever want, even though its price IS low! Look at those smart, brand new motorcycle lines; that full size seat, built along the same line as a motorcycle saddle; that double crossbar; reinforced handlebar; tank toolbox; those deep center mud guards; that sturdy wide bottomed parking stand; those rubber cush-

pedals that roll on ⅜-inch ball bearings! From r brake to color scheme of triple baked, rich n Brown enamel with White Stripes and trim, the bicycle you will be proud to swing down rest on and never find its equal! And think it means to save enough on this Hawthorne ike to buy a camping or a baseball outfit.

tinctively Designed to our own specifications cycle is built low and strongly reinforced with a specially modeled after the latest motorcycle **Notice the Trussed Fork,** the double Top Bar ank Tool box; the heavily nickeled, scientifically handlebars, with long, soft rubber grips and reinforcing crossbar. The sturdy steel Pedals, evolve smoothly and noiselessly on ball bear- d are fitted with divided rubber cushions. All have flange-reinforced connections; and the built of the very best 18-gauge seamless steel will carry the heaviest man comfortably. **The rcycle Type Saddle** is made of good quality r, embossed to give a pebble grain effect; is ned for utmost riding ease; is heavily padded, adled on double-acting springs. **Riverside Tires xcellent Quality,** anti-skid type, with white alls and white tread.' Will give you many miles of delightful riding and remarkable freedom from repairs. **Nothing Excels the Finish** of the Motobike, in triple-baked enamel, while the **New Departure Coaster Brake** also means a big saving in tire expense and repairs, and delights every boy with its easy speed control. **Mud Guards** are deep-center, drop side motorcycle type; light but very strong; enameled and striped to match frame, and fitted with regulation leather mud splasher. **Crank Hanger is in One Piece** with carefully aligned ball bearings. Chain, sprocket and wide-based **Parking Stand,** are all of the very finest materials and workmanship. For riders with inseam measurements of 27 to 35 inches crotch to toe. Actual weight, 43 pounds. Shipping weight, approximately, 60 pounds.

160 E 3051—Bicycle complete with New Departure Coaster Brake..... **$32.95**

Tools not included

Here is another striking example of Ward's high quality at the lowest possible price. Just picture this high grade Bicycle as it really is. Notice the frame with its curved top bar to permit low riding position. It is made of strong seamless steel tubing reinforced by fish-mouth connections so all joints are flush. The appearance fully bears out the quality that lies beneath the seasoned royal red enamel with its attractive black and gold striping.

Think what this bicycle would mean to you. Just jump on it and away you go. The miles will slip behind you like a flash because of the well balanced, easy running wheels, ball-bearing crank hanger, and smooth roller chain. You sit at ease on the fine quality leather saddle with its double spring suspension. Your hands fall naturally on the long rubber grips of the wide, adjustable handlebars. The little jars of the road will never reach you; the 28-inch Hercules Giant Stud Tires and large rubber pedals will absorb them, day after day and mile after mile. Enjoy riding in your good clothes; the ample metal mud guards provide full protection. Take the thrill of coasting down the hills in safety; the dependable, New Departure Coaster Brake runs smoothly, yet it is instantly ready to check your speed at the slightest backward pressure. You may wish to go soon. Be prepared.

For riders with inseam measurement of 27 to 35 inches from crotch to toe. Actual weight, 36 pounds. Shipping weight, 52 pounds.

160 E 3069—The Bear Cat..... **$27.50**

Ward's Better Bicycle Tires Wear Longer — Cost Less

OUR prices on Bicycle Tires are far below what you usually pay for high grade, first quality tires like these. We are able to sell tires at these low prices because we sell direct. Only one small profit is added to the manufacturer's price. There is no profit added for the jobber, traveling salesman or dealer. Ward's tire prices have always been low, and the remarkable growth of our tire business is conclusive evidence that Ward's tires are good tires and give lasting satisfaction. These tires are better tires than we have ever listed before. Every one is guaranteed to be free from all imperfections in workmanship or material and will give many miles of riding comfort and satisfaction.

Riverside White Owl Motor Fabric Tires

$2.35 Each

Buy your Tires for the miles they will travel. A tire of this type costs considerably more to manufacture than the regular bicycle fabric tire, but usually gives about twice as much service. These are full size tires, made from 12-ounce automobile fabric, the same as used by many automobile tire manufacturers. Extra heavy non-skid automobile tread design. The entirely white tread and side walls make it especially attractive. It pays to buy a good tire, and we recommend this one for long service and satisfaction. We guarantee every one to please you. You usually would pay considerably more for a tire as sturdy and well made as the "White Owl." Sold in 28-inch size.

Famous U. S. Chain Tread Fabric Tire

$2.45 Each

A white body Tire with heavy black chain tread. Made of bicycle fabric—3-ply all around. This is a very attractive tire made by skilled workmen in a factory producing one of the most popular automobile tires on the market. While bicycle tires do not receive the shocks and hard use given automobile tires, the experience gained in making the heavier tires has been applied here to produce a long life bicycle tire. This tire will give many miles of good service and keep its shape and easy riding qualities. The chain tread gives a good road gripping surface and tends to prevent skidding. The fabric is closely woven and tough. You will find new riding comfort and satisfaction in a pair of these famous U. S. Chain Tread Tires. Fits rims 28 by 1⅜ inches, 28 by 1½ inches and 28 by 1⅝ inches.

Hercules Giant Stud Bicycle Tires

In this Tire every effort has been made to give you the best that can be had in bicycle tire value. Handmade of finest fabric and rubber throughout. Correctly designed to give long life and satisfactory service. There are two plies of heavy fabric with an extra ply over the tread. The thick red tread is made with giant studs making an attractive appearance. Heavy gauge inner tube inside the fabric. The construction is such that the tire is made practically puncturepoof. The good service and happy times you enjoy with your bicycle depend to a large extent on the tires you use. You want tires that will give you the greatest amount of mileage with the least trouble. For 1½ or 1⅝-inch rims.

Quality Always Comes First at Ward's

$2.85 Each

Riverside "Black Crow" Cord Tires

Cord Tires are noted for their resilient, easy riding qualities, and long, satisfactory service. This tire is entirely black. The construction is similar to that of our Riverside automobile cord tire. It is made full size and extra heavy. Each layer of fabric is laid ply by ply and vulcanized into a solid mass. The tread is a perfect non-skid design and is made extra heavy and tough to stand the road friction and keep its true form. The walls of this tire are about twice as heavy as the ordinary fabric tire and naturally will give twice the service. You will find unusual satisfaction in the long life of this tire particularly when you consider the low price at which they are offered These Cord Tires are made specially for us and represent an unusual value in a high quality tire which we sell direct to you at a remarkably low price. Sold in 28-inch size only.

Improved Runabout

Steel gray color; full size and handmade of two-ply select bicycle fabric with fancy rubber studded tread. Extra high grade quality rubber used throughout. While this is not claimed to be a puncture-proof tire, small punctures are practically eliminated because of the special construction. Our quality is considerably better than that usually offered in a tire of this class. This Improved Runabout Tire is designed to give high mileage and freedom from tire trouble. Furnished in 28-inch size only, for either a 1½ or 1⅝-inch rim.

Postage, per tire, 10¢ extra; pair, 14¢ extra

Blue Streak Majestic

$1.89

This Tire is patterned after an automobile tire. It is built up of two plies of heavy bicycle fabric, reinforced with an extra ply or breaker strip on the tread side, giving the tire resiliency and a great deal more strength. The tread is a very attractive, practical non-skid design, blue in color against white rubber side walls. The tread is extra heavy and the walls of the casing are considerably heavier than those on average tires. This is an exceptional tire for the money. Bicycle tire mileage depends to a great extent on the wearing qualities of the tread surface. Made in 28-inch size for 1½ or 1⅝-inch rim.

Hawthorne Clincher Tires

$2.45

A handmade Tire built by master workmen. Made from three plies of an extra high quality bicycle tire fabric and pure gum rubber throughout. It has an extra knobby red stud tread; Non-skid. We know of no finer clincher tire made than the Hawthorne. The Hawthorne combination clincher tire will fit any G & J type wood rim, any metal lined clincher or steel clincher rim. It will fit either a 1½ or 1⅝-inch size rim. For those bicycle riders who prefer a Clincher Tire we heartily recommend the Hawthorne because we know it is good. Made in 28-inch size.

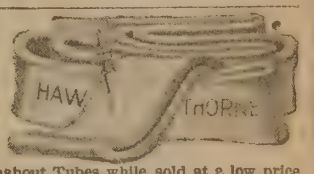
Hawthorne Runabout Tubes



Our Runabout Tubes while sold at a low price are of high quality and will give good service. They are full size and high class in every way. Only new, live gray rubber is used in the making of these tubes. Vulcanizing is so done that tubes combine great elasticity with strength. Valves are strongly set in fabric and rubber. Tested by inflation and inspected. For 28 by 1½ or 1⅝-inch tires.

Bicycle Rims

You may be able to get many more miles of pleasure and service out of your bicycle if it is only a warped or broken rim that is keeping you from riding.

Our quality Bicycle Rims for both Cement and Clincher type tires are made of the best grade materials. They are well finished and thoroughly dependable.

The wood rims are made of one piece of high grade selected and seasoned Rock maple. Finely finished and varnished. The metal rims are made of high grade steel finely finished in aluminum color. Rims for 28-inch tires are drilled with 36 holes; for 26 and 24-inch tires are drilled with 28 holes.

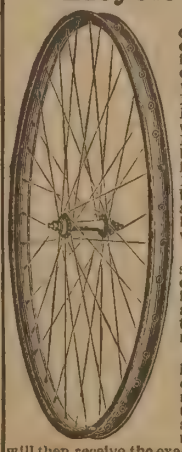
Bicycle Wheels



The Wood Rims are of rock maple, specially cured to prevent warping. Spokes are of nickel plated steel. Front wheels are fitted with New Departure hubs. Rear wheels are fitted with either plain hubs or New Departure coaster brake. Nine-tooth ⅜-inch wide sprocket for 1-inch pitch chain, on both plain rear hubs and coaster brakes unless you specify otherwise.

Before our wheels are shipped to our customers they are carefully inspected. The spokes are trued up accurately to insure perfect alignment.

The Steel Rims are ideal for use in rainy climates. In ordering new wheels it is important to order by tire size, (outside diameter) not by rim size. You will then receive the exact size wheel, promptly.

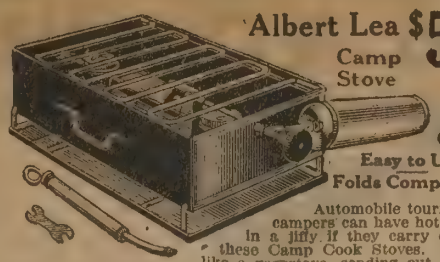
Albert Lea $5.95 Camp Stove



Automobile tourists or campers can have hot meals in a jiffy if they carry one of these Camp Cook Stoves. Burns like a gas stove, sending out a blue flame. Fill the metal tank with gasoline. Give the pump a few strokes. Open the valve a trifle and light the burner. Outside adjusting knob controls height of flame. Room on top of stove for two large pans. Steel case of 22-gauge metal with reinforced edges. Carrying handle on side. Hinged clamps at each end form a rigid base when stove is in use. Strong metal grate is hinged at one side of case so there is no danger slipping and causing food to spill. Case is deep to protect flames from wind. Fuel pump, pipe and wrench are carried inside case. Top fits snugly and is held by hinged clamps. Size, 10¼ by 17 by 4¼ inches. With tank, pump and wrench.

460 E 8898.....**$5.95**
Postage, 28¢ extra

For Your Camping Trip

Campfire Grub Stake

All the fun of cooking over an open fire with the convenience of the kitchen range. Meets all the requirements of the outdoor cooking rig. Can be used any place where there is soil. Slip the malleable metal racks that hold the coffeepot, the frying pan and the one used for broiling meats, over the lower end of the stake. Force the stake into the ground, light a fire and cook an appetizing meal perfectly. The racks can be raised or lowered easily or turned about on the stake yet hold firmly in place without the use of set screws or clamps. The stake is made of a durable malleable casting and will last you many years. Take it with you on your next camping trip. Easily carried. Height of stake set up, 26 inches.

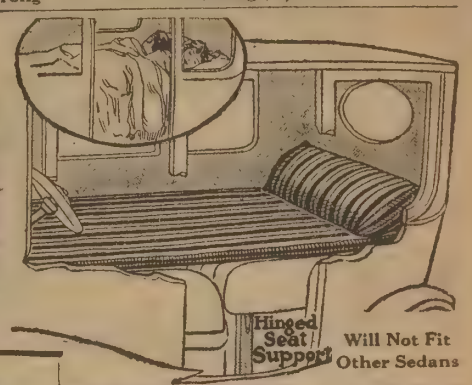
Comfortable Auto Bed

$9.95

Makes a comfortable, full sized Bed for two large persons. Can be set up in 3 to 5 minutes in any five or seven-passenger touring car. Can also be used as a double bed in a tent or as an extra bed at home. When used in a car you sleep high and dry away from bugs and insects. Simply put on your side curtains and forget wind and weather. Bed consists of three parts—three wooden rails hinged in center with heavy 12-ounce double filled khaki duck top attached and two adjustable telescopic cross bars. The center rail prevents occupants from rolling together. The cross bars are adjustable for different widths and are fitted with a simple device to insure the proper tension in the duck top. Bed is full six feet long and 52 inches wide at back, narrowing slightly toward front to fit all cars. Sets back of steering wheel in large cars; in small cars, steering wheel projects through slotted flap in canvas top. Folded space is 3 feet long and 7 inches wide. No tools necessary to set up bed. No strain on top or windshield. Rests on car body. Shipping weight, 28 pounds.

460 E 9883.....**$9.95**

Pullman Sleeper for Ford Sedans



When out in the open the safest place to sleep is in your Ford Sedan where you have privacy and protection. When you go on those week-end trips to the country or longer trips, if you wish, you can make a comfortable bed right inside your Ford Sedan. Sleep right on the cushions and save hotel bills. The canvas cover fastens inside your car and supports your head and feet. The back seat cushion is moved forward and rigidly supported by special braces. The weight of your body rests on the cushions. Plenty of room for two persons. Not necessary to make any alterations in car or attach special pieces. No tools necessary to set up the bed. Packs in fiber case 4 by 6 by 30 inches.

460 E 9879—Complete.....**$8.95**
Postage, complete, 18¢ extra

Camp Chair

Canvas seat. Hardwood frame. Back rest. Steel braced legs. Shipping weight, 4 pounds.

All Metal Folding Table

$5.35

How much better those savory strips of crispy bacon and freshly caught trout will taste when you serve them on this spotlessly clean, attractive Table. Its all metal construction makes it unusually sanitary and extremely desirable. Folds into a space of only 1⅛ by 9 by 36 inches. Opened, it measures 27 by 36 inches and 28 inches high. Stands rigidly. Braced in all directions. Always ready for use. Self contained. No loose pieces. Easily cleaned. Finished in olive green enamel. Shipping weight, 18 pounds.

460 E 9692.....**$5.35**

Camp Cot

$3.45

Compact folding Cot which may be opened and closed without taking apart. Well made of canvas duck with hardwood supports. Strong enough to hold 1,000 pounds. Opened it is a full length, comfortable elastic bed. Folded it is a small package 38 inches long, 5 inches thick and 7¼ inches wide. Size when opened: 6 feet 6 inches by 25 inches. Strong iron straps reinforce legs. Shipping weight, 20 pounds.

460 E 9678.....**$3.45**

Gold Medal Double Size Camp Cot

$9.95

A double width Cot Bed especially adapted for campers, tourists or for use in the home. When opened it measures 52 inches wide, 73 inches long, and stands 18 inches high. Size folded, 5 inches by 10 inches by 3 feet 3 inches long. Made of select, well seasoned rock elm with heavy white duck bed. Metal parts of heavy gauge steel, strongly braced throughout. Center rail prevents the bed from sagging. Shipping weight, 32 pounds.

160 E 9674.....**$9.95**

Handy Camp Stool

For camping trips or picnics. Four substantial wooden legs joined at center. Folds into small space. Seat of heavy khaki duck. Reinforced corners. Comfortable and convenient. Shipping weights: each, 2 pounds; 12 stools, 20 pounds.

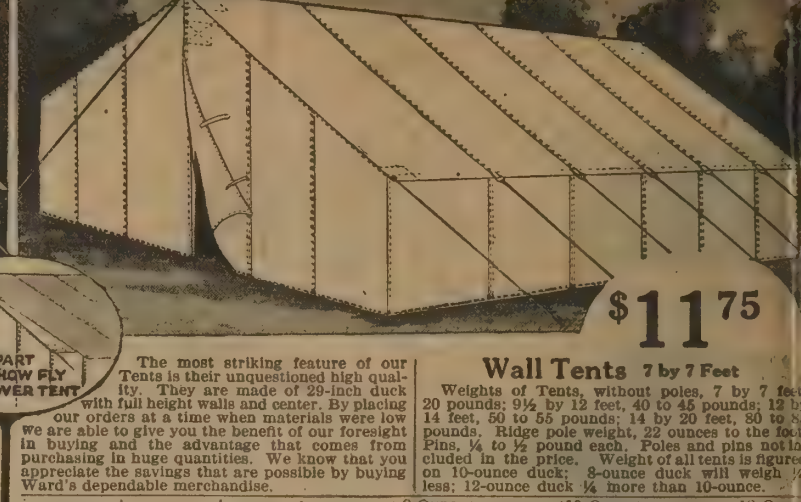
KHAKI DUCK WATER PROOFED
TWO IN ONE EXTRA HEAVY
WIDE EAVES KEEP WATER FROM SIDE WALLS
HEAVY WHITE DUCK
SHADED PART SHOWS HOW FLY FITS OVER TENT



$11.75

Kul-Dri Tents—Khaki Duck Tops

$15.35

When you buy your tent, buy one that will not leak. This tent has a 3-inch eave which allows the water to drop to the ground and helps keep the side walls dry. The walls of heavy white duck and the roof of the waterproofed khaki color duck give the tent an attractive appearance. Tents are strongly stitched to insure strength at seams and are carefully inspected before leaving the factory. All materials are of the best. Iron dee rings are used instead of small brass grommets for guy ropes. Buy now, and know that no matter what the weather may be this tent will keep you dry.

Read Carefully about These Special Features

The khaki color duck roof has given this tent its name "Kul-Dri." This khaki duck has been waterproofed and it subdues the hot rays of the sun far more effectively than plain white canvas.

No fly is needed with this tent as the heavy texture, waterproofed roof will shed water as well as any tent made. The white side walls permit perfect circulation which, too, adds greatly to the coolness of this sturdy, comfort giving tent.

Article Number	Size	Height of Wall	Height of Pole	Shipping Weight	Each
160 E 9563	7 by 7 feet	3 feet	6½ feet	35 pounds	$15.35
160 E 9566	8 by 10 feet	3 feet	7 feet	50 pounds	21.85

Three Section Steel Tubing

Wenzel Poleless Tent

These Wall Tents are suitable for touring or as permanent summer camps. They are a pratical tent without ridge poles. They fold compactly, yet when set up are as serviceable as the ordinary ridgepole type. Adjustable lever on top of each upright. May be adjusted to draw up the ridge of the tent as tight as a drum. During rain when all canvas shrinks to some extent the levers automatically release the strain on ridge.

The poles are made of light steel tubing in three sections, each 28 inches long and thoroughly coated with special non-rust baked enamel. Tent is made of very finest white Army duck that is water resisting. Screen window in rear wall supplied with protecting flap. Tent folds into canvas bag 10 by 28 inches. Easily carried on running board of auto. May be shipped as baggage. Shipping weights, 35 and 45 pounds.

460 E 9560—Size, 8 by 10 feet, with 3-foot wall $25.65
460 E 9562—Size, 9½ by 12 feet with 3-foot wall 30.85

For floor cloths use 460 E 9819 and 460 E 9827 Waterproof Covers, Page 593

Tent Flies

What They Are
What They Do

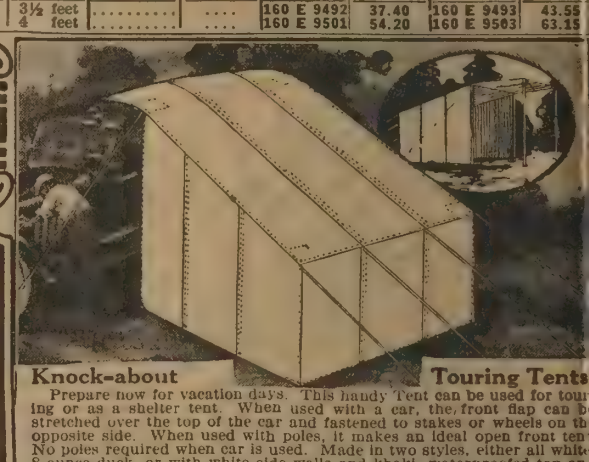
A tent Fly is a separate canvas roof to spread over the tent top for protection from sun and rain; also used as an awning. Tent prices quoted on this page do not include flies. Flies for any size wall tent furnished without poles at one-half the price of the tent of corresponding size and weight of duck. Tent flies are shipped from factory in St. Louis or Chicago. Order by number 260E9504 and specify size of tent and weight of duck.

What We Mean by Full Weight Duck

The U. S. Government Standard for 8, 10 and 12-ounce duck is based on the weight of a yard, 36 by 29 inches.

Be careful when you buy tents or canvas goods. It has been a common practice of many to sell 6, 8 and 10-ounce goods for full weight duck, calling it 8, 10 and 12-ounce, but basing that weight not on the U. S. standard yard, but on the common square yard, 36 by 36 inches. Such 6, 8 and 10-ounce duck makes a very inferior tent which sells for a great deal less.

Our Tents and Paulins are guaranteed to be just as represented. Every yard of duck used by us is first quality and full U. S. Government standard weight. To pay more than we ask is spending money unnecessarily, to pay less means that you take a chance of getting light weight, second quality.



Knock-about Touring Tents

Prepare now for vacation days. This handy Tent can be used for tour ing or as a shelter tent. When used with a car, the front flap can b stretched over the top of the car and fastened to stakes or wheels on th opposite side. For Fabric Tires and Standard Size Cords

Standard Size and Quality Gray Tubes for much less than the usual prices. Made of very good grade rubber and built by the laminated (layer on layer) process. For those desiring a good low priced tube, they will prove an excellent value. We are confident you will find these tubes far superior to any others offered close to our prices. We have sold many hundred thousands of them, and they always have proven a remarkable value. However, for those desiring the very best inner tubes, we recommend our Heavy Duty and Cord Size Tubes. Our sales of Riverside Tubes are so great that it is necessary to have new shipments coming in almost daily from the factory—so you are always certain of brand new tubes.

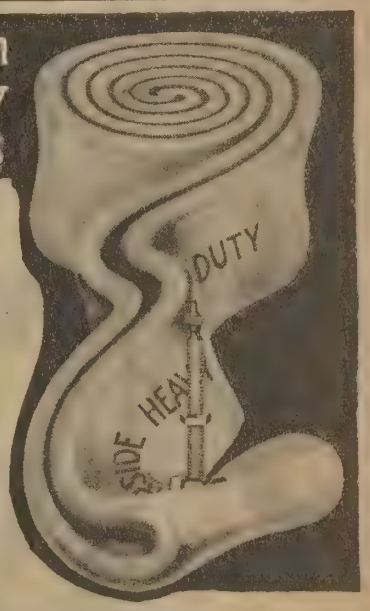
Make Your Tires Last Longer

To get full mileage from tires, you must use the best Inner Tubes. Quality is just as necessary in inner tubes as it is in tires. We realize the great strain that is put on inner tubes, so build Riversides so strong and of such fine materials that we know they will prove a big help in increasing your tire mileage by keeping your tires at full pressure for long periods.

All Riverside Inner Tubes are built by the laminated (layer on layer) process. This is a method of making tubes from thin sheets of fresh, strong, lively rubber rolled around a form in about the same way you would roll a sheet of paper around a pencil. After several layers have been rolled one on top of the other, they are vulcanized together so they become one thick piece of rubber. This construction makes Riverside Tubes airtight—free from porousness, and is one of the chief reasons they hold air for such a long time. Our sales of Riverside Tubes are so great that you are always sure of fresh tubes with "full of life" rubber.

Always be sure to use good tubes in new tires. Don't take chances with patched up, old tubes. Order some new Riverside Tubes now.

Riverside Brown Heavy Duty Inner Tubes



The Best Tubes for Standard Size Tires

Riverside Brown Heavy Duty Tubes are best grade standard size tubes. Pure Para Rubber is used in their construction. They are built thicker and stronger than any standard size tubes we ever have seen. The extra thickness is a big help in preventing pinches, and it allows them to stretch far more than ordinary tubes. Troubles from porousness are practically unknown. Put Riverside Heavy Duty Tubes in fabric tires and standard size cord tires, and get more mileage and satisfaction. Only because we sell thousands of these tubes each week in the year can we give such low prices for such remarkable quality.

Heavy Duty Truck Tires

Guaranteed First Quality

Now thousands of truck owners can save money on their tires by purchasing from Ward's. We have studied and tested Truck Tires on the roughest country roads, in all seasons for more than 4 years, and offer you these extra strong, giant size Heavy Duty Truck Tires as the greatest value in this line on the market today. These are specially built truck tires with extra plies of cords—not just oversize cord tires. The treads are specially designed with big sturdy blocks of rubber which project far down the sidewalls to give better traction on rough or muddy roads and also to protect the sidewalls against rut wear. **We guarantee these truck tires to be the very finest quality and to be greater in size, weight, thickness of tread and in the number of plies of cord than many other truck tires selling for $10 to $30 more.** Every tire is standard factory brand. We know we can save you a lot of money on truck tires—and we will prove it to you. Order one or as many as you need of these big husky Heavy Duty Tires and compare them side by side with any other. Compare the prices—compare the guarantees and then if you are not satisfied that they are by far the best value on the market send them back and we will return every cent you paid including transportation charges.

Heavy Duty Inner Tubes Are A Great Success

We have made the most thorough service tests with Heavy Duty Tubes and the records of performance have been amazing. On the very hardest road tests they have gone thousands of miles without requiring additional air. But the best test is the service they give our customers. Motorists all over the U. S. have written us that Heavy Duty Tubes have given them better service than any tubes they have ever used regardless of price. If you use fabric or standard size cords be sure to put in Riverside Heavy Duty Tubes the next time you change tires.

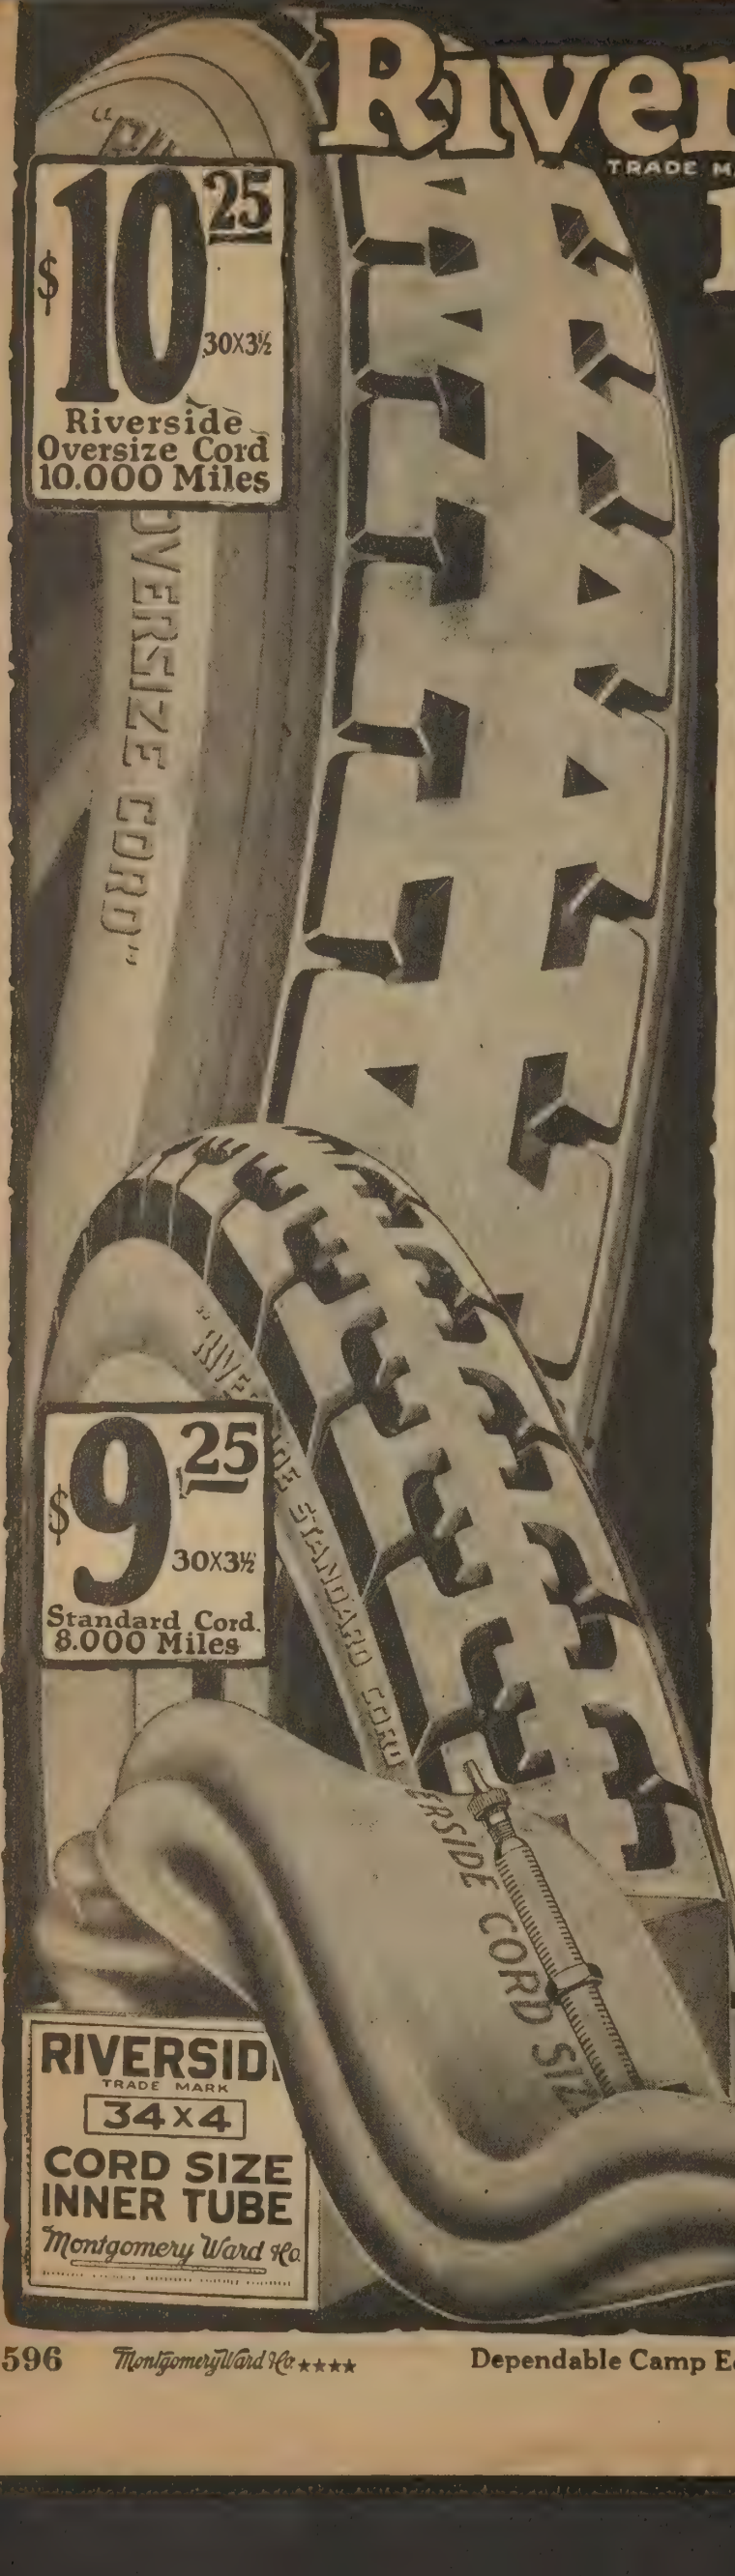
Riverside Cords

TRADE MARK

10,000 Mile Guarantee



Actual Measurements Prove Riverside Oversize Cords Are Wonderful Tires

To give you **real facts** about tires, we purchased the best known, nationally advertise cord tires from dealers and cut them in two. Careful measurements were made. Belo is the record of this comparison. Study it carefully. It gives you unquestionable proo that **Riversides** are **Quality Tires.** We use the best grade rubber and cord materia Workmanship is guaranteed the finest. So the only **real** difference between Riverside and other good tires is the **price.** Our price is lower because we sell direct to the use and add only **One Profit,** instead of the usual three or four profits and expenses adde by others.

The New MW Tread
Is a Great Improvement

We firmly believe Riverside Cord Tires are the equal of any cord tire made. For years they have proved more satisfactory than other cord tires, according to actual mileage records from thousands of customers. But the New 1923 Riverside Oversize Cord Tires, guaranteed 10,000 miles, have been improved by building the treads high and giving them additional thickness—they last longer, give greater freedom from punctures and furnish a more effective non-skid surface. The tread is braced on sides by heavy ribs of rubber which fortify the tire against hard service on rough country roads. Riverside Oversize Cords are much larger and stronger than many cords selling for much more.

Make This Test
Then You Will See for Yourself

If you are now using cord tires, order our 10,000 Mile Riverside Oversize Cord Tires and place them opposite the tires which have pleased you best regardless of the cost or make of the other tires. Check the mileage carefully—notice how slowly the Riverside treads show wear. Then you will see why we sell so many thousands each day of the year.

If you are now using Fabrics, order the 8,000 Mile Riverside Standard Cord or the regular 6,000 Mile Road Grip or Driving Tread Fabric Tires and make the same test. Each Riverside Tire is its own salesman. We make them good because we know they must give better service per dollar or you will not order more.

The Safest Place to Buy Your Tires

Montgomery Ward & Co., has been in business 51 years and is here to stay. Since we started selling tires hundreds of different makes have come and gone. When you buy Riversides you know you will get exactly what is promised—you take no chances. Your satisfaction and your future business means more to us than the sale of one or two tires—that's why we protect you with a definite, honest guarantee.

How Montgomery Ward & Co. Saved Motorists Millions of Dollars by Holding Down Tire Prices

During the past year the price of rubber has gone up more than 150%. The cost of cord and fabric material increased over 30%—and manufacturing costs have advanced nearly 35%. All the large tire manufacturers have made big advances in prices. But Montgomery Ward & Co. protected auto owners by purchasing enough fine quality tire materials while prices were low, to make more than half a million tires. You get the full benefit of these purchases as our prices on many sizes are only a few cents higher than last year. Though prices on nearly everything else have advanced, Riverside prices are lower than in 1914 and 1915.

10 Years Experience in Directing the Manufacture of 2,000,000 Riverside Tires

Experience is the best teacher. The Riverside Tires you get today are the perfected result of ten long years of experience in directing the making of more than 2,000,000 Riversides. We have spent thousands of dollars for testing tires. We have watched the mileage records of Riversides in all parts of the country. We have made the most thorough tests of processes for toughening rubber. All of this experience has helped us to make the present Riversides better Tires. Montgomery Ward & Co. can not afford to sell poor tires—and never will. We never sacrifice Ward's high standard of quality to make a low price. When you buy Riverside Tires you can feel certain your money has bought the best value it is possible to obtain. When new or better methods of making tires are developed you can depend on it that Ward's will use them in making Riversides.

The Only Real Difference between Riversides and Expensive Tires Is the Price

If you stand a Riverside Tire alongside a high priced tire it is just as big. If you measure them the Riverside will be as large—possibly larger. If you weigh them the Riverside will be as heavy. The tables on the opposite page give you the actual measurements of the Riverside Oversize Cords and the high priced cords when cut in two. In every comparison Riversides are the equal of the expensive tires. The materials cost just as much as those used in other tires because we use the best rubber and selected quality cord and fabric. Riversides cost just as much to make because they are built by experts in a factory with the most up-to-date equipment. Actual measurements and the mileage-records from our customers prove the **only real difference** is the price—and you save this difference because you only pay one small profit when you buy Riversides.

Accept This Offer You Don't Risk a Cent

You don't take a single chance when accepting this offer to see Riverside Tires. It makes no difference where you live, we want you to see our Riverside Tires—either the 10,000 Mile Cord, 8,000 Mile Cord or 6,000 Mile Fabric—and compare them with others. If there is any question in your mind regarding their size, construction, weight or any other point that can be made clear by closely examining Riverside tires, we want you to order at our risk as many as you need—right now. Inspect them thoroughly; put them alongside tires selling for $5 to $25 more; examine their sturdy construction; feel the thick, lively tread and convince yourself they are wonderful bargains. Simply send us your order in the regular way, with remittance. If, for any reason, you should feel that you don't want to keep them, send them back and we will refund your money and the transportation charges you have paid. **Remember, you must be satisfied.**

Save $5 to $25 On Each Tire

A comparison of Riverside Prices with the latest prices of any of the other well known tires shows an actual saving of more than $5 to $25 on each tire. Think of the big saving this means to you on two or three tires. Then there is also the important advantage of Montgomery Ward's definite mileage guarantee which gives you complete protection on your purchase. We sell Riverside tires on a mighty small one profit basis at the rate of thousands each day. Big quantities and the cutting of several profits usually required in selling tires are the chief reasons why our prices to you are so extremely low. But we could not sell Riversides at any price if they were not good tires. Quality is the foundation of our success—and Riverside Tires are Quality Tires all the way through and we give you a guarantee that means complete protection.

Riverside Road Grip and Driving Tread Fabric Tires

These Riverside Fabric Tires are the improved product of the experience gained in directing the manufacture and watching the records of more than 2,000,000 other Riverside Tires. Our Road Grip and Driving Tread Fabric Tires have a stronger guarantee of satisfactory service than most tires selling for several dollars more. We guarantee every fabric tire to be first quality, standard construction with the full number of plies of fabric. And furthermore, **for your protection—we guarantee 6,000 miles service** on all Riverside Road Grip and Driving Tread Fabric Tires.

$2.75

Punctureproof Reliners

Ward's Punctureproof Reliners are made of especially toughened, live ly elastic rubber with two layers of non-rusting flexible metal plates firmly imbedded in the center. These two layers of plates are separated by rubber, one layer overlapping the other so they do not touch. The sides and ends of the reliner are tapered to a feather edge to protect the inner tube.

The metal plates prevent nails, tacks, wire and other sharp articles from reaching the tube, for when they strike the plates they bend over.

Article Number	Size Inches	Ship. Wt., Lbs.	Each

61 E 1226	4½-in	90¢

Don't Throw Away Your Old Tires

Use These Improved Suction Grip Reliners

Old tires which are ready to blow out, often can be made to last for thousands of miles more service. Sensible as halfsoling shoes, as they brace up and strengthen the old casing and protect the inner tube. The extra thickness they give the tread stops ordinary tacks and usually bends small nails. Slip them in as easily as an inner tube; the suction grips prevent help them slipping. Many times you may use the same Reliner in two or three tires.

Made Similar to Tires

Suction Grip Reliners are made in a continuous piece very much like regular tires, except they do not have the heavy beads at the bottom. They are made over forms like a tire—have several layers of fabric and a cushion of rubber on the tread similar to regular tires. The edges at the bottom are tapered or thinned down so they make a continuous smooth surface for the inner tube. We guarantee Suction Grip Reliners against defects in material or workmanship.

Carry these reliners in your car, ready to put in when you change tires.

Suction Grip Reliner Prices

Article Number	Size	Shipping Weight	Each

Super Service Fabric Reliners

$1.10

Every day auto owners are throwing away good tires that could often be saved and thousands of miles added to their life if these reliners were used in time. If the sole of your shoe gets thin you have it half soled. Using an inside protector in your tire is just as sensible an idea. Look over your old tires—see if they are bruised or worn in spots, then order these reinforcements to put inside. Don't wait until you have a blowout—that's too late. Thousands of auto owners have found these Reliners a sure method of cutting tire costs way down and obtaining unusual freedom from trouble. Made of fine grade fabric layer on layer, completely saturated and bound by high grade rubber. Easy to put in casing and being self cementing, they become practically inseparable. Shipping weights: 2 to 4 pounds.

Number	Size	Each
61 E 1301	30 by 3	$1.1(

Tire Pump Hose

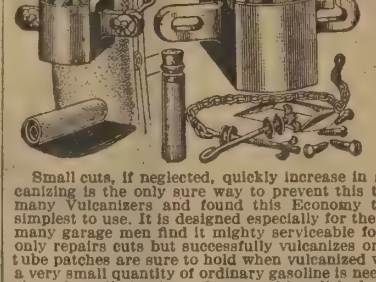
Complete 24-inch hose, 3-ply construction. Fits all valve stems. Clamp furnished. Shipping weight, 6 ounces.

61 E 1750..... 35¢

Auto Tire Talc

A good quality Tire Talc, does not absorb moisture and is non-caking. Keeps inner tubes from sticking to casing. Comes in handy sifter top carton. Shipping weight, 1 pound.

61 E 1483..... 10¢



Economy Vulcanizer

For Tires and Inner Tubes

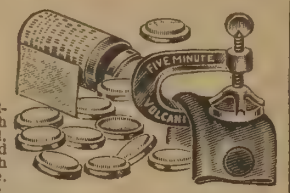
$1.95

Small cuts, if neglected, quickly increase in size and ruin tires. Vulcanizing is the only sure way to prevent this trouble. We have tested many Vulcanizers and found this Economy the quickest acting and simplest to use. It is designed especially for the car owner's use, though many garage men find it mighty serviceable for the usual jobs. It not only repairs cuts but successfully vulcanizes ordinary blowouts. Inner tube patches are sure to hold when vulcanized with the Economy. Only a very small quantity of ordinary gasoline is needed for fuel. Outfit consists of an all aluminum fire pot with polished vulcanizing surface, wind protector hood, vulcanizing rubber and cement, sand paper and attaching clamps, which make it suitable for all tires or tubes. This outfit will pay for itself in a very short time. Shipping weight, 2¼ pounds.

61 E 1417.....$1.95

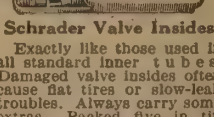
Five Minute Inner Tube Vulcanizer

85¢



No previous experience in vulcanizing required. With each Vulcanizer 12 patches are included, complete with chemically treated heating units which do away with the necessity of using gasoline. There is no flame to burn the tube. Works in the wind, so you can readily put on sure hold patches by the roadside. The whole outfit is small enough to slip in the pocket. Consists of vulcanizer, 12 patches and 12 heating discs. Shipping weights: outfit, 1 pound; patches and units, 8 ounces.

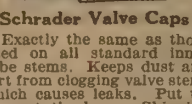
61 E 1415—Complete outfit.....85¢
61 E 1416—12 heat units with patches.....59¢



Schrader Valve Insides

Exactly like those used in all standard inner tubes. Damaged valve insides often cause flat tires or slow-leak troubles. Always carry some extras. Packed five in tin box. Shipping weight, 4 ounces.

61 E 1703—Box of 5. 25¢



Schrader Valve Caps

Exactly the same as those used on all standard inner tube stems. Keeps dust and dirt from clogging valve stem, which causes leaks. Put up in neat tin box. Shipping weight, 4 ounces.

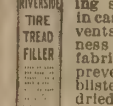
Vulcanizing Cement

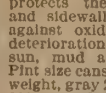


Suitable for use with any steam, gasoline or electric vulcanizers made. Cure quickly. Shipping weights: 10 ounces and 1¾ pounds.

61 E 1465—¼ Pint.15¢
61 E 1466—Pint ...39¢

Use Riverside Tires

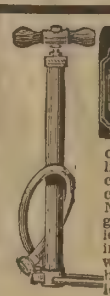
Michelin Mastic



For filling and cementing cuts in casing and repairing punctures in inner tubes. A plastic cement. When properly repaired with this, cuts will not re-open; 2-ounce can. Shipping weight, 5 ounces.

61 E 1480.....26¢

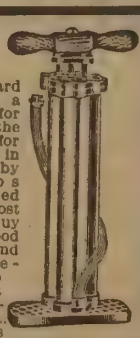
Rose Tire Pump



Pumps large size tires to a high pressure with surprising ease. New patented valve principle, shown in the cut-out illustration, makes it easy to operate under all pressures. Full compression at every stroke with but little friction. Foot rest folds against cylinder for carrying. Made of 18-gauge seamless steel tubing which will stand hardest service and last a good many years. Length, 23 inches. Diameters, 1¼ and 1½ inches. Shipping weights: 3½ and 4 pounds.

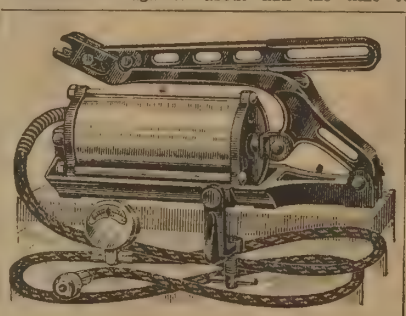
61 E 1653—1¼-inch size.....$1.95
61 E 1650—1½-inch size.....$2.49

Three Cylinder Quick Action Tire Pump



A big, husky, powerful, standard size three-cylinder tire pump at a lower price than is often asked for the one-cylinder type. This is the same pump we formerly sold for $3.25. Fills tires to full pressure in about half the time required by pumps furnished with most cars. Buy this good pump and be prepared to meet all emergencies. This is our best bargain in this style pump. Shipping weight, 8 pounds.

61 E 1652...$2.59



Hi-Pressure Running Board Pump

We have sold a great many thousand Running Board Tire Pumps, but this new Hi-Pressure Pump is the biggest value we have offered you. It has a larger cylinder than pumps selling for much more—size 6½ by 3 inches. It has a quick adjustable folding handle and permanently attached swinging clamp. You can pump the biggest tires with this Hi-Pressure Pump without backaches or pains. The base is malleable iron and large enough to set solidly on the running board. The tested hose is about 7 feet long, so it will reach both tires on side where attached. At this exceptionally low price, we do not believe there is an equal value anywhere. Shipping weight, 8½ pounds.

61 E 1623—Without tire gauge..... $3.75
61 E 1624—With airline tire gauge... 4.25

Bargain Tire Pump

73¢

Buy this sturdily constructed single cylinder tire pump probably for less than the cost to repair your old one. Length of seamless steel barrel, 17 inches; diameter, 1½ inches. Hose, 19 inches long with universal connection. Shipping weight, 2½ pounds.

61 E 1647.....73¢

Two-Cylinder Tire Pump

$1.25

Produces a good strong pressure. Made of seamless drawn tubing. Substantial base. Length of barrels, 16½ inches. Diameter of large barrel, 1½ inches; of small one, ⅞ inch. Fits all tire valves. Shipping weight, 5½ pounds.

61 E 1654...$1.25

Cementless Patches

23¢

For repairing punctures in auto tubes. High quality para rubber. When tube is placed in casing the friction heat, while running, cements patch firmly to the tube. Ten 2-inch patches in a neat box. Shipping weight, 5 ounces.

61 E 1487—Per box.....23¢

$1.25

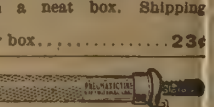
Twitchell Tire Gauge

Has the new positive lock stop. Made of brass, nickel plated. Length, 3½ inches; diameter, ½ inch. Carry it in your vest pocket like a pencil. Shipping weight, 2 ounces.

61 E 1710.....$1.25

Schrader Tire Gauge

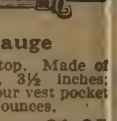
$1.25



Indicator stays up till reset. Leather carrying case. Made of brass, nickel plated. Length, 2½ inches. Shipping weight, 3 ounces.

61 E 1702.....$1.25

Accurate Tire Gauge



Registers up to 120 pounds. Hand remains stationary at pressure indicated until reset. Height, 2 inches; diameter, 1½ inches; ¾ inch thick. Shipping weight, 2 ounces.

61 E 1701.....69¢

Increase the value of your car with a new coat of Auto Enamel. See Index

61 E 1699—¾ inch...36¢

Dependable Tire Chains

$2.65

Double Strength Road Grip Tire Chains

$3.25

Standard Tire Chains

We have tested all kinds of chains and offer you the Standard as one of the best, longest wearing chains on the market, at a very low price. They are made of case hardened steel chain which is far superior to the soft steel used in many chains selling near our prices.

Driving on wet streets or through mud, snow and sand without tire chains is very dangerous. These Standard Tire Chains fit fabric tires perfectly but when used on oversize cords it is necessary to use oversize Standard Chains. See table below tire cover prices for proper oversize.

Fits Either Cord or Fabric Tires

These Road Grip Chains are a great improvement over the usual standard type chains as they have extra heavy, extra big, new design cross chains. The three center links are of a figure eight shape with a great deal more surface to grip the road. This larger surface is also easier on the tires and gives longer life to the whole chain. The cross chains are specially hardened which combined with their oversize construction means longer wear and greater safety. We believe these new Road Grip Chains to be the best value on the market.

Standard Chain Prices

61 E 6569	34x5½	6.20	24 lbs.
61 E 6566	36x5½	6.75	26 lbs.

Be Careful

Driving on wet, muddy, slippery roads without chains is very dangerous even though you are a careful, experienced driver. If you slide into a ditch just once, or bang up against the curb or another car or have to be towed out of a mud hole it will undoubtedly cost you several times more than a pair of chains. Don't take chances when you can buy good chains for such low prices.

Double Face Resilient Nickel and Black Spring Bumper—Latest Style

The finest looking, best designed, strong Double Face Spring Bumper we ever have seen offered near this price. The wide spread of the two center bars prevents bumpers on other cars locking under or over it. The steel used in the double face is especially tempered so that even the hardest bumps will not break it. Special strong steel brackets fasten solidly to the frame so the bumpers can not shake loose. Bumpers for nearly all cars are ready for prompt shipment. Some cars require special fittings, and in such cases a few days extra are needed for special assembling. Average shipping weight, 40 pounds.

Be sure to state the make, year and model of your car when ordering all bumpers. Also state if snubbers are used.

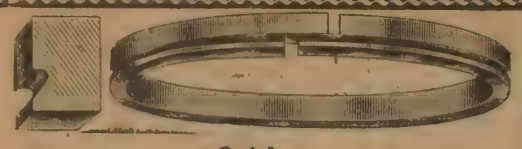
More Power Going Up



Oil Groove Quick Seating Piston Rings

This type of Ring is a favorite with several hundred thousand motorists. A groove in each ring holds a quantity of oil, thus forming a film that prevents excessive oil working up past the pistons and seals compression so there is a big saving in gasoline and oil. The groove is cut on an angle so that on the down stroke it pushes surplus oil back toward the crank case. Your motor will run better and you will not have spark plug trouble due to the pistons "throwing oil." Quick seating style which fit perfectly when driven about 100 miles. We can furnish oil groove piston rings in oversizes also—see below table. Shipping weights, each, 2 to 5 ounces. All sizes. Each.....20¢

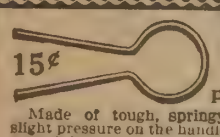
Special Oversize Oil Groove Piston Rings

We can supply oversizes for any of the Oil Groove Piston Ring sizes listed above. They will be **shipped from the factory in Northern Illinois.** We furnish oversize rings in the oil groove type only. When ordering mention only the catalogue number shown below. Be sure to state the regular size of your rings and the oversize wanted. For example, if you want a .005 oversize ring for 3¼x¼ order as follows: 261 E 8950—12 Piston Rings 3¼x¼—.005 oversize, etc. Shipping weight, 2 to 5 ounces.

261 E 8949—.0025 oversize. Each.....**20¢**
261 E 8950—.005 oversize. Each.....**20¢**
261 E 8951—.010 oversize. Each.....**20¢**
261 E 8952—.025 oversize. Each.....**20¢**

When oversize rings are desired, **mention only the article numbers shown for the oversize.**



15¢ Piston Ring Compressors

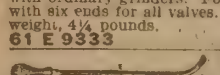
Made of tough, springy steel. A slight pressure on the handle produces enough leverage to compress even new and stiff rings. Average shipping weight, 10 ounces.

61 E 9194—For 2½ to 3 in. Rings. **15¢**
61 E 9195—For 3 to 3½ in. Rings. **15¢**
61 E 9196—For 3½ to 4 in. Rings. **15¢**
61 E 9297—For 4 to 4½ in. Rings. **15¢**

$2.55 Quick Action Valve Grinder

Handle always turns in one direction. Makes a perfect, smooth seat; leaves no rings or ridges. Made of malleable iron and steel. Grind valves in about one-third the time usually required and do a better job than with ordinary grinders. Four fittings with six ends for all valves. Shipping weight, 4¼ pounds.

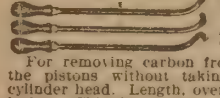
61 E 9333 **$2.55**



Carbon Scrapers

For removing carbon from top of the pistons without taking off the cylinder head. Length, over all, 13¼ inches. Shipping weight, per set, 1 pound.

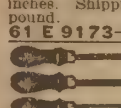
61 E 9173—Set of 3.....**37¢**



Bearing Scrapers

Well made of forged steel with carefully ground edges, and have hardwood handles. Three standard sizes in set. Shipping weight, 1¼ pounds.

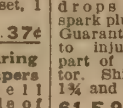
61 E 9171—Set of 3.....**87¢**



Water Mixed Grinding Compound Mixed Ready for Use

Grinds faster than other kinds with same pressure. Leaves no rings or grooves. Beginner can do an expert job. Shipping weight, 6 ounces.

61 E 9302—Per can...**25¢**

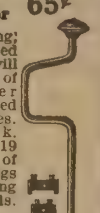


Valve Grinding Compound

A fast cutting compound for valves or lapping in pistons. Double end box; one end contains fine, the other coarse grade. Contents, 4 ounces. Shipping weight, 7 ounces.

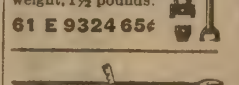
61 E 9308.....**18¢**

Adjustable Valve Grinder 65¢



A quick acting, easily operated grinder which will fit valve heads of all cars whether slotted or drilled with two holes. Long shank. Length, about 19 inches. Made of steel. Four fittings included. Shipping weight, 1½ pounds.

61 E 9324 65¢



Self Holding Valve Lifter 26¢

Simply push this handy lifter under the valve spring grip the handle and raise to height required. The ratchet holds it in any position, requiring no holding while removing valve pin. Steel construction. Length, 11 inches. Shipping weight, 1½ pounds.

61 E 2556.....**26¢**

Johnson's Carbon Remover

Put a few drops in the spark plug holes. Guaranteed not to injure any part of the motor. Shipping weights: 1, 1¾ and 2¾ pounds.

61 E 9181—½-pint size can.....**59¢**
61 E 9182—1 pint size can.....**98¢**
61 E 9183—1-quart size can.....**$1.55**

Greater Safety Going Dow

Nu-Power 3-Piece Piston Rings

Excellently constructed piston rings that increase power. Motors that failed to pick up quickly—that stalled on hard pulls—and used far too much gasoline and oil for their size, have been brought back into condition when fitted with Nu-Power Piston Rings. They fit tightly all the way around, perfectly sealing the compression and preventing leakage. Besides giving more power—more speed—greater flexibility—quicker pickup—Nu-Power Rings greatly aid in doing away with oil soaked plugs and excessive carbon deposits due to oil leakage. Shipping weight, each, 3 to 6 ounces. All sizes. Each. **70¢**

Guaranteed Piston Innerings

Stop Piston Slaps

If your motor is weak—if it uses too much gasoline and oil—if your cylinders are worn and the pistons slap, use these Nu-Power Innerings. Save the expense of reboring, fitting new piston rings, etc. Simply place the Innerings under any make of one-piece piston rings. They expand the piston rings outward against the cylinder walls so you are certain of increased power and a big saving in gasoline and oil. Made of fine imported steel. Guaranteed not to lose their springiness. Use one Innering under each piston ring. Innerings also may be used under piston rings up to 3/64 inches oversize. **Sold only in sets of six.** For four cylinder cars, order two sets; for six cylinders, order three sets. **Order same size as piston rings.** Shipping weights: 2 to 5 ounces.

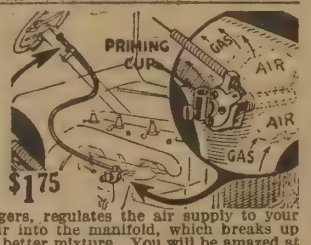
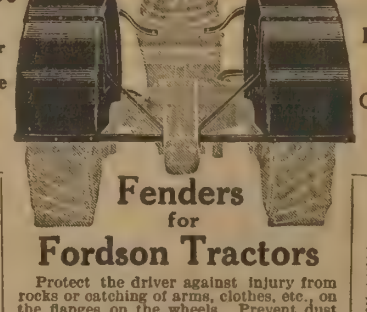
Hand Controlled Gas Saver With Priming Cup



The mixer screws into the manifold as illustrated. Equipped with priming cup, which is a big help in cold weather starting. A shaft runs from the mixer to control lever, which is attached to steering post. This lever, which is attached within reach of the fingers, regulates the air supply to your cylinders and sprays air into the manifold, which breaks up the gasoline and gives a better mixture. You will be amazed at the increase of speed when this gasoline saver is opened: ⅛-inch pipe thread. Nickel plated. Shipping weight, complete, 8 ounces.

61 E 2150—Complete outfit.....**$1.75**

Tractor Supplies



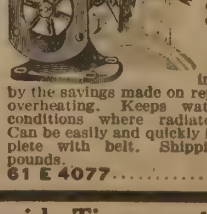
$12.95 Per Pair Complete with Attachments

Make Driving Safer and Cleaner

Fenders for Fordson Tractors

Protect the driver against injury from rocks or catching of arms, clothes, etc., on the flanges on the wheels. Prevent dust and mud being thrown all over. Braces are heavy so fenders are very rigid and will withstand practically all vibration. A board can be placed across lower braces so driver can stand on it when tired of sitting down. Complete with attachments. Shipping weight, about 135 pounds.

161 E 9991—Per pair.....**$12.95**



Water Circulator for Fordson $15.00

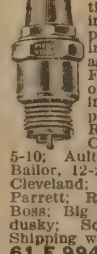
Pays for itself in a short time by the savings made on repair bills due to overheating. Keeps water cool under conditions where radiators alone fail. Can be easily and quickly installed. Complete with belt. Shipping weight, 15 pounds.

61 E 4077.....**$15.00**

$6.25 Special Tractor Socket Wrench Set

To make tractor repairs and adjustments easier and quicker for you, we have combined in a compact outfit the Wrenches you need most. A strong ratchet handle operates the sockets. Long and short extensions enable you to reach into places hard to get at. Six hexagon sockets 15/32, 21/32, 25/32, 29/32, 31/32 and 1 3/32-inch. Two special big hexagon sockets have 1 29/32 and 2 7/32-inch openings. Square socket, 1 7/32 inch. Outfit also includes 5 double end flat wrenches; offset socket handle; 8-inch pipe wrench; and a double end spark plug socket, opening sizes, 31/32 and 1 5/32. Shipping weight, per set, 12½ pounds.

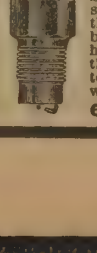
61 E 9938—Per set.....**$6.25**



Mosler ⅞-Inch Tractor Plug

Two-piece construction with heavy mica insulation and baffle plate to protect the inner part of the plug against oil and heat. Fits following and others which use ⅞-inch standard thread plugs. All Advance—Rumely; Allis-Chalmers, 6-12; Avery 5-10; Aultman Taylor, 15-30; Bailor, 12-20; Case, 9-18; 10-20; Cleveland; Farmer Boy; Gray; Parrett; Russel; Junior; Little Boss; Big Boss; Samson; Sandusky; Square Turn; Velie. Shipping weight, 10 ounces.

61 E 9949—Each....**$1.25**



Champion Plug for Fordsons

This Champion Spark Plug has a long shank which carries the spark into the combustion chamber. It has a heavy porcelain that will give satisfactory service. Shipping weight, each, 6 ounces.

61 E 9998....**65¢**

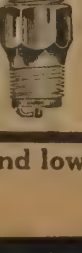
Mosler ½-Inch Tractor Plug

Standard.—Fits following and others using this size: Aultman Taylor, 18-36, 25-50, 30-60; Avery, 8-16, 12-25, 18-36, 25-50, 40-80; Bailor, 8 H. P.; Emerson-Brant (all); Flour City; La Crosse; Twin City, 25, 40, 60. Shipping weight, 8 ounces.

61 E 9951—Each....**$1.25**

Long extension type. For these and others using this type plug: Fordson; Bull, Clinton; C. O. D., Farm Horse; Ford Mfg. Co.; Moline (Old Models); Russel, 30-60, 40-80; Whitney. Shipping weight, 10 ounces.

61 E 9950—Each....**$1.25**

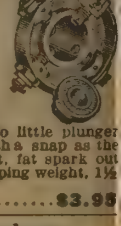


Bethlehem Plug for Fordsons

This Bethlehem Spark Plug is designed especially for Fordson Tractors, and is used as standard equipment. You can save money by buying these from us. Shipping weight, 8 ounces.

61 E 9879....**49¢**

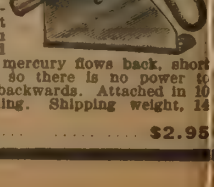
Herz Hot-spark Timer for Fordsons $3.95



The Herz has no roller, no brush, no fiber and no raceway—parts which always have been trouble makers with ordinary timers. A simple, hardened steel cam replaces the old style roller or brush and always gives a sure acting press contact. The terminal housing has two little plunger buttons which are released with a snap as the cam passes. This jerks a hot, fat spark out of the coils at all speeds. Shipping weight, 1½ pounds.

61 E 9983.....**$3.95**

Stabilizer for Fordsons



If your tractor shows a tendency to tip backwards when pulling up a hill order this Stabilizer. It consists of a metal tube containing mercury, with an electrical connection at the top. When wheels are raised 25° from ground mercury flows back, short circuiting current so there is no power to pull tractor over backwards. Attached in 10 minutes—no drilling. Shipping weight, 14 ounces.

61 E 9939.....**$2.95**

Challenge Brake Lining

Probably no one thing causes so much uneasiness to the auto driver as the knowledge that the brakes may not hold. Put aside this uncertainty by lining your brakes with this Challenge Lining. In an emergency it will lock the wheels or, with a light pressure on the brake, bring your car to a slow stop without jerking.

This lining is used as regular equipment by several manufacturers. Challenge Lining is made of a fine staple, fibrous asbestos yarn closely interwoven with brass wire. It will not char or burn from friction heat, nor does it soften or become hard. It is heatproof, oilproof and waterproof. Shipping weight, per foot, 4 to 9 ounces.

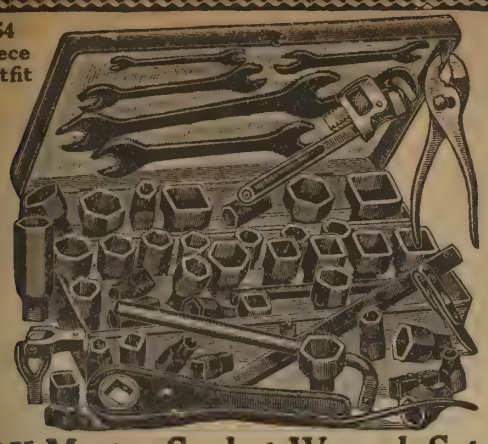
A Turn in Time Saves Nine



$9.75 Master Socket Wrench Set

In Strong Steel Box

The set for the good mechanic or critical auto owner who insists on having the best; who demands that every nut or bolt be properly tightened. The hard-to-reach connecting rod nuts, brake band and clutch adjustment are easily handled. The Master Set contains one flat ratchet handle; one 8-inch drop forged pipe wrench; one pair pliers; five flat wrenches (ten openings); one cotter pin extractor; one folding screw driver; one universal joint; one long extension rod; one offset socket wrench handle; one spark plug socket, 3½ by 4 inches long; 38 guaranteed pressed steel sockets. Strong steel box of convenient size to carry in car. Shipping weight, per set, 15 pounds.

61 E 9733—Complete Set.....**$9.75**

Service Socket Wrench Set

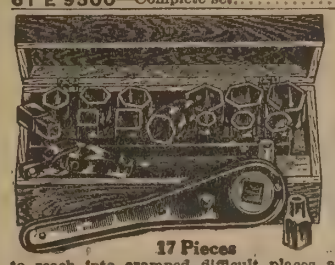
$4.95

30 Pieces

Nuts and bolts can be tightened in one-third the usual time by using this Set. The sockets fit snugly, so they do not damage the bolt heads or slip off and injure the hands. Set consists of one ratchet handle, 15 hexagon sockets from 15/32 to 1 inch, two square sockets, one spark plug socket, one long extension, one universal joint (permitting use of the wrench at angles up to 90 degrees), one good pair of pliers and 5 double end wrenches—all in a black Japanned steel box. Every socket is high grade pressed steel, guaranteed not to break. Shipping wt., 10 lbs.

61 E 9500—Complete set.....**$4.95**

Challenge Socket Wrench Set



17 Pieces

Sockets of fine grade pressed steel. Held in handle by spring tension, which prevents dropping out when in use. Set consists of 14 sockets, fitting almost all sizes of bolts, nuts, set screws, etc. Universal joint and extension enable one to reach into cramped difficult places at any angle without trouble. The set is in a strong wooden box and can be carried in the car. Shipping weight, 8½ pounds.

61 E 9730—Per set.....**$3.35**

DeLuxe 24-Piece Tool Kit

A handy 24-piece assortment of highest grade drop-forged tools used almost constantly around an automobile. Consists of 5 double end wrenches; one machinist hammer; one half-inch cold chisel; one cape chisel; one round punch; one center punch; one prick punch; one pair alligator pliers; one flat file; one round file; one file handle; one cotter pin extractor; one monkey wrench; one pair tire pliers; one 5-inch perfect handle screw driver; one 3-inch screwdriver; one hack saw; three hack saw blades. Put up in a canvas roll. Shipping weight, per set, 9 pounds.

61 E 9881—Complete set.....**$5.25**

$1.00 Bolt and Nut Assortment

An outfit that will often pay back its price in time saved when making repairs as it consists of capscrews, castellated nuts, square nuts, hexagon nuts, bolts, setscrews, rivets, cotter pins, lock washers, etc., in the sizes most used on autos, trucks and tractors. Carry a set in your car and keep another at home. Shipping weight, 3¾ pounds.

61 E 3516.....**$1.00**

Cotter Pins

Put up in paper canisters containing about 100 spring steel cotter pins, in assorted lengths and thicknesses. Shipping weight, 6 ounces.

61 E 9104..... 9¢

Lock Washers

A full assortment of 39 steel lock washers. Sizes of holes, from ¼ to ⅝ inch. Every motorist should carry a package in his car. Strong carton. Shipping weight, 8 ounces.

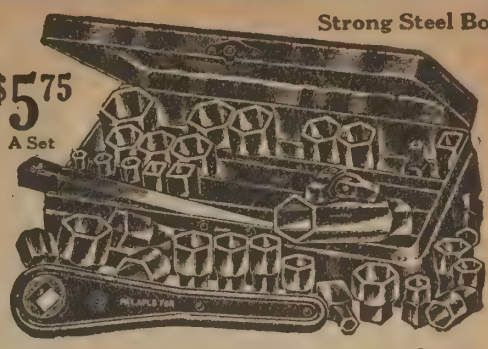
Do Your Own Repairing

Handy Socket Wrench Set

40-Piece Outfit

$5.75 A Set

Strong Steel Box



Due to the high cost of making repairs and adjustments many owners are doing this work themselves. Loose nuts and bolts cause excessive wear which means new parts. Here is an outfit that will cut down high costs for you. The sockets in this outfit will fit practically every bolt and nut on all autos; and with the use of our new improved flat ratchet handle, you can tighten loose parts and make adjustments in a great deal less time than with ordinary wrenches. The outfit consists of socket wrench; an assortment of 30 casehardened, cold drawn, pressed steel sockets ranging in size from 5/16 to 1 3/32 inch; a universal joint (permitting the use of the wrench at any angle up to 90 degrees); one long extension bar, permitting wrench to reach into engine or crankcase; also a long socket for removing spark plugs. Shipping weight, complete set, 10 pounds.

61 E 9537—Complete set.....**$5.75**

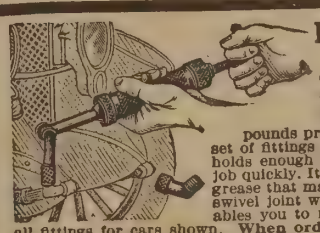
61 E 9758.....**27¢**

Rex High Pressure Greasing System

$4.95



To get the best service from your car it must be greased. Grease lessens wear so parts last three or four times longer; makes the car ride more smoothly, eliminates the squeaks, and saves you many dollars in repair bills. The Rex Greasing System consists of a grease gun that will exert 2000 pounds pressure (with one hand) without leaking, and a complete set of fittings to take the place of the old grease and oil cups. Gun holds enough grease to take care of several bearings—and does the job quickly. It forces the old grease and grit out so you have new, fresh grease that makes the bearings work freely and quietly. Non-leaking swivel joint with threaded coupling to connect to the Rex fitting enables you to reach all bearings easily. Outfits are complete with gun and all fittings for cars shown. **When ordering, state the catalogue number and make and model of your car. All outfits except 61 E 4203 are shipped from Factory in Chicago, Illinois.** Shipping weights, 4 to 6½ pounds.

775 Porcelain

39¢ Riverside Giant

Heavy Duty Type Spark Plugs

A great big, powerful Plug that will give years of service. The heavy body is turned from solid bar hexagon steel, scientifically treated and copper plated. The stone colored porcelain is especially selected. Electrode and sparking points made of high resistance, specially treated alloy. A heavy shoulder or ledge on the porcelain sits upon a copper gasket in the shell, which in turn is held down and made gastight by an adjustable locking nut.

Terminal takes either the regular open end or slip-on connection. Owing to their double point construction, Riverside Giants give remarkably good service in motors that throw oil. Shipping weight, each, 6 ounces.

61 E 9015—½-inch size. Regular type. Each.....39¢

Spark Plug Wrench

A handy double socket Wrench which fits nearly all standard spark plugs. Prevents breaking of porcelain or injury to hands, which often happens with ordinary wrenches. Malleable iron. Length, 4¼ inches. Shipping weight, 12 ounces.

61 E 9074.....18¢

Give Your Auto A Square Deal

Many auto owners wonder why their cars do not run as well as they did at first and the trouble is often due to old leaky plugs, with porous porcelains, or burned off points. It is a good idea to occasionally put in a whole set of plugs. The difference in the saving of gasoline will many times pay back their cost.

Champion Spark Plugs

Champion ⅞-inch Long Body Plug 68¢

These standard two-piece cleanable type Plugs will give excellent service in the cars named and others using this style. The long body extends above top of motor in an accessible position. This is the Champion No. 4 for Apperson, Case, Cadillac, Chalmers, Cleveland, Chandler, Cole, Dorris, Earl, Hupmobile, Jordan, King, R. & V. Knight, Lincoln, Lafayette, Liberty, Marmon, Moon, Oldsmobile 8, Packard, Paige, Paterson, Peerless, Pierce Arrow, Winton, Federal, White (except ¾ ton), G. M. C., Mack, and many others. Quick Shipments

De Luxe Quality Guaranteed Auto Springs

Finest Quality Auto Springs at the Very Lowest Prices

Every spring is graphited and painted black. All springs are guaranteed to match the original springs on the car in load depression.

It takes the very best quality Spring made to live up to a guarantee like the above when backed by Ward's. De Luxe Springs are made of extra fine grade steel which is properly heat treated and tempered in oil under scientific control. Careful inspections and tests are made during every important operation. Special expensive testing machines are used on all springs to prevent defects passing through; this means a great deal to you, as a slight flaw in a spring may mean a quick replacement, a loss of time, laying up the car, and more work for installation. We guarantee De Luxe Springs to be A1 quality and to be an exact duplicate of your original springs in size, in number of leaves and in the arching.

A spring 36 by 1¾ means that the spring measures 36 inches between centers of eyes and that the width is 1¾ inches. Measurements shown are without load. Order by article number only. If the style of car is not mentioned, the spring fits all touring, roadsters, sedans or coupes. *No. Lvs.= Number of leaves in the spring.

Note If the make of your car is not listed here, write and we will quote prices.

You Save $7.50 to $20 When You Buy a De Luxe Battery

Montgomery Ward & Co. originated the plan of allowing auto owners a Special Battery Trial in their cars to prove to their own satisfaction that De Luxe Batteries could do everything that the highest priced batteries could do. They are built of the finest materials. They are full size and and are full weight and will positively deliver the same amount of power as batteries selling for $7.50 to $20 more. We let you prove it in your own car. We know by tests that Ward's De Luxe Batteries will satisfy every user—that is why we do not hesitate for one moment in offering to let our customers make their own demonstration. Think of it! More than 108,000 have already accepted this offer. This year De Luxe Battery sales increased more than 300 per cent because they are giving such wonderful service—that De Luxe users are telling their friends—and they are sending us their orders, too. Many auto owners have told us that their De Luxe Batteries have given three and four years without being removed from the car. This is the kind of service that built our wonderful business. Don't pay more than De Luxe prices for any battery! Let us prove every word about them in your own car.

The Reason Why

Our Prices on First Quality Batteries are Lower

That reason is—you pay only One Profit above the manufacturing cost. The De Luxe cost just as much to make as the batteries that sell for $7.50 to $20 more. De Luxe Batteries weigh as much—they have the best plates—they have just as strong a box—they have the best separators—they are built by battery experts—they have even a stronger guarantee—but you only pay One Profit to get the De Luxe. That is the only difference—the price. Stop just a moment and think where your battery comes from. How many profits do you pay? Are you paying the dealers' profit—the jobbers' profit—the branch office profit—the salesmen's profit and the factories' profit? Investigate—think it over—do like thousands of others are doing each week—order a De Luxe and see for yourself the big saving you make.

30 Days' Trial In Your Own Car

No Questions Asked

Put a De Luxe Battery in your car and use it 30 days without risking a cent. You are the judge of quality. Simply send in your order in the regular way, enclosing remittance. If at the end of the 30 days you should feel for any reason that the De Luxe is not equal in every way to any battery on the market, write us for shipping instructions—we will cheerfully refund your money without asking a single question.

A New Battery

for Less Than the Cost to Repair Your Old One

When you have an old battery repaired it is generally guaranteed for only 6 to 8 months If the repair cost $8.00 to $12.00 that is considerably more than a dollar a month and then you have a made-over battery that may give out unexpectedly. Why take chances when you can buy a brand new, fresh, powerful guaranteed De Luxe Battery from Ward's at a less cost per month? Before having your old battery repaired or before buying another new battery figure this out. We are certain you will be glad to buy a New Guaranteed De Luxe Battery which you know is right, because Ward's guarantee it. Every De Luxe Battery is designed to fit the box and terminals of each particular car. You can easily change the batteries yourself. With the New De Luxe in your car you will feel better and get greater pleasure because youknow you have a battery that will not fail.

De Luxe Batteries Guaranteed 18 Months

De Luxe Storage Batteries are fully guaranteed for a period of 18 months (one year on Batteries for Fords) against any defects in material or workmanship. Any De Luxe battery which develops trouble due to a defect within these periods will be repaired free of charge or replaced on a service basis. When Ward's give you such a strong guarantee, surely there is no reason why you should pay more elsewhere.

De Luxe Batteries Made for All Cars

We can furnish De Luxe Batteries for all cars; so if your make is not listed on this page, write and we will quote you a price. State name of car, year, model, and name of starting system. Also voltage, length, width and height to the top of the handles of the old battery. If possible, tell us all that appears on the name plate.

De Luxe Batteries Are Also Furnished with One-Piece Solid Rubber Boxes

One of the most important improvements in batteries is the New De Luxe Seamless Solid Rubber Box and Jars, all made in one piece. It is much stronger than the wood box—it will not warp, spread or come apart—it is not affected by mud, slush or snow. The walls of the jars are very heavy and thick, which completely eliminate breakage from road shocks or bumps.

De Luxe Solid Rubber Boxes are far superior to wood boxes and well worth the slight difference in cost. This construction adds only about 5 pounds to the weight. When ordering batteries in rubber boxes, be sure to state the catalogue number and price shown in the last two columns.

Best Quality Hydrometer and Outfit

Don't ruin your battery due to neglect. Use an acid testing Hydrometer Outfit which shows accurately the efficiency of your battery. This is a very handy and convenient outfit. The jar is used for distilled water and is sealed by rubber disc on the hydrometer, keeping out dust and dirt. Hydrometer is of the very best type, protected by rubber disc at bulb and rubber shoulder at lower end, preventing breakage from rolling off bench or running board. Use this outfit regularly. Shipping weights: Outfit, 2½ pounds; hydrometer only, 1 pound.

61 E 3843—Outfit **$1.00**

61 E 3842—Hydrometer only. **.65**

Acid Testing Hydrometer

A good, accurate, low priced instrument that will give satisfactory service. This is the standard, most generally used hydrometer at a remarkably low price. The float has easily read figures. Shipping weight, 1 pound.

61 E 3844—Hydrometer. **42¢**

61 E 3854—Glass Float to fit numbers 61 E 3844 and 61 E 3842. Shipping weight, 3 ounces..... **19¢**

Solderless Battery Connections

72¢ A Pair

Here's a pair of new patented non-corrosive solderless battery connections that should be on every straight or tapered post battery. Fits all size cables. Wonderful help for getting full current to the battery and more power to starter, lights, and ignition. Battery will last longer and give less trouble. Only pliers or wrench needed to connect. Furnished in pairs for positive and negative terminals. Shipping weight, per pair, 12 ounces.

61 E 4195—Per pair..... **72¢**

Save $20 to $100 A Year by Using Riverside Tires and a De Luxe Battery

Unless Specified, All Batteries Are 6-Volt. Shipped Separately from Factory in Chicago. Ship. Wts., 55 to 65 Lbs. Not Mailable.

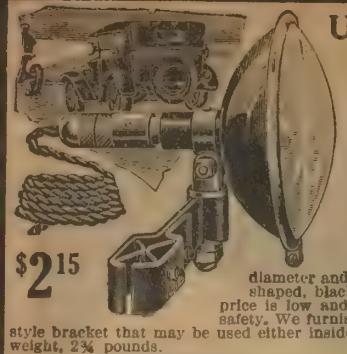
Universal Spotlight



$2.15

By purchasing many thousands of these reliable, splendidly designed Spotlights we were able to offer you this value—the best we have seen anywhere. The long handle with enclosed switch makes it easy to operate. One trip on a dark, stormy night will repay its cost. The bright piercing light of the nitrogen bulb concentrated in a strong beam by a properly shaped reflector clearly shows up holes in the road, breaks in culverts, road signs, washouts or drops at the side of road that would not be seen with the regular headlight. The lens is 4½ inches in diameter and set in the most popular type convex shaped, black enameled body. Get this while the price is low and be able to drive faster with greater safety. We furnish without extra cost an entirely new style bracket that may be used either inside or outside of closed cars. Shipping weight, 2¾ pounds.

For Open Cars			For Closed Cars

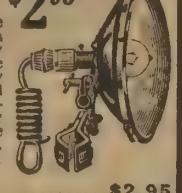
Bright Lite Long Distance Spotlight

$2.95



Several of the finest features of Spotlight construction are used in this model. It has a focusing device that gives a narrow beam or wide flooding light. The body is strongly made, highly enameled black, with a neat nickel rim. The 6-inch convex shaped lens and convex body with a highly polished reflector are designed to throw a more powerful light than is usual with lamps sold near this price. Universal type clamp fits all standard windshield rods or closed car brackets. Off and on switch connection in the handle. Powerful bulb has double contact Ediswan base. Furnished complete with cord. Shipping weight, 3¼ pounds.

61 E 6798— 6-volt type.....$2.95

Accessories to Make Driving Safer For You and Others

Inside Control Spotlight

$4.75

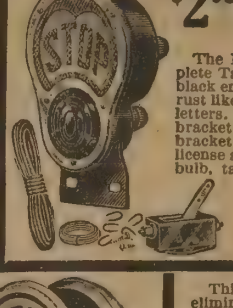
Improved Spotlight operated easily from the inside of closed or open cars with the curtains up. Control lever close to steering wheel. No long reaching; a twist of the wrist throws the light just where you want it—up, down or sideways. A big aid in preventing accidents. The lamp is of latest convex design with a pure silver coated reflector that gives a powerful, concentrated beam of light. Black and nickel finish. Fitted with 6-volt 21-candle power nitrogen bulb controlled by special focusing device. Brackets furnished fit all standard open or closed cars. Shipping weight, 3 pounds.

61 E 6793.....$4.75

Safety Stop-light $1.15

An automatic signal device that warns the drivers back of you. The switch is connected to the footbrake or clutch pedal so when you stop it immediately flashes a strong, bright light that can be seen plainly day or night. This is really the only practical way of warning during the cold weather or when it is raining or snowing, since side curtains or windows usually make it impossible to reach out. The light is 4¼ inches in diameter and is fitted with a very high quality single contact bulb. Improved waterproof switch. A special ruby lens is securely fastened so it cannot turn. At our extremely low price no auto owner should be without a stoplight. Shipping weight, 2 pounds.

61 E 6781— 6-volt type.....$1.
61 E 6783—12-volt type.....1.
61 E 6789—Special for Ford magneto.....1.



$2.98 DeLuxe Combination Stop-light and Tail Light

Easily Attached to License Bracket

The DeLuxe is one of the finest Stoplights with a complete Tail Light beneath. The body is made of aluminum, black enameled, which looks a great deal neater and will not rust like steel. Stop lens is of special shape with large clear letters. The tail light lens is semaphore type. Special bracket at the bottom is easily attached to the license bracket or plate so white light at the base shines on the license as required by law. Stoplight has a 21-candle power bulb, tail light has 2-candle power bulb. A waterproof switch and sufficient wire is furnished for attaching to all cars. Shipping weight, 2½ pounds.

61 E 6794— 6-volt type.....$2.98
61 E 6795—12-volt type.....2.98

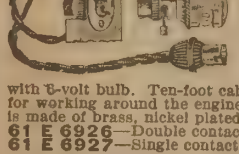
Beautiful Drum Headlights

The very latest design in handsome, Drum Shaped Headlights. Same style as being furnished on the most expensive new model cars. They completely change the front of your car giving it an up-to-the minute appearance for less than the price generally asked for the old styles. If your present lamps are damaged, the finish gone, the reflectors tarnished or the lenses broken, put on these new lamps instead of trying to repair the old ones. Brilliant black enamel finished body, with a nickel plated front rim. Bulbs are 21-candle power, single contact. Lenses are splendid non glare type. Diameter of lamps 9¼ inches. Adjustable brackets fit all cars.

Be sure to mention make, year and model of your car when ordering. Shipping weight, 12 pounds.

361 E 7043—Per pair.....$7.25

Combination Dash and Trouble Lamp



To use this Lamp as a trouble finder takes only a moment. Disconnect dash light, attach cord, which is equipped with Ediswan plug, and insert light in Ediswan socket. Complete with 6-volt bulb. Ten-foot cable. Comes in mighty handy for working around the engine, changing tires, etc. Lamp is made of brass, nickel plated. Shipping weight, 1 pound.

61 E 6926—Double contact.....$1.35
61 E 6927—Single contact.....1.35

Electric Dash Lamp

Nickel plated. Easily attached to dash of any car. Two inches long and furnished with a 6-8-volt bulb and switch. Shipping weight, 6 ounces.

61 E 6860—Double contact for metal dash.....49¢
61 E 6861—Single contact for metal dash.....49¢
61 E 6904—Double contact for wood dash.....45¢

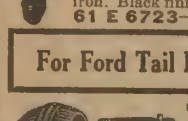
48¢ Electric Tail Lamp

Has ruby semaphore lens; white side light to illuminate number as is required by many state laws; cut-out plug; 2-candle power 6-volt bulb. Furnished with combination prop; opening fits round or flat iron. Black finish. Shipping weight, 12 ounces.

61 E 6723—Single contact.....48¢

For Ford Tail Lamps See Page 612

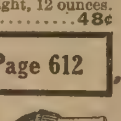
Capped Plug 9¢



Made of hard rubber with screw cap. Cap acts as a support for the connecting cable. Standard size and will fit all automobile lamps. Shipping weight, 3 ounces.

61 E 7023—Two-point. 9¢
61 E 7024—One-point. 9¢

12¢ Ediswan Capped Socket



Used where you desire to break connections, without interfering with wiring. Nickel finish. Shipping weight, 2 ounces.

61 E 7013 — Two-point.....12¢
61 E 7014 — One-point.....12¢

Use Riverside Tires

$1.00 Automobile Siren

This Siren penetrates above noise and sounds its melodious signal in a way that commands attention. Attaches to the exhaust manifold. Operates by the simple pull of a cord attached to dash or steering column. Costs nothing to operate. Does not in any way interfere with the mechanical operation of your car. Has standard pipe thread. Full instructions for attaching included. Shipping weight, 1 pound.

61 E 3436.....$1.00

$2.25 Loud Tone Hand Horn

When caught in a pinch you can depend on this horn. Mechanism is simple and operates easily. Many prefer this dependable hand operation. Special bracket fits either right or left side of car and is arranged for easy attaching. Body and arm of pressed steel, attractively enameled black. So strongly made that it will stand up under continuous hard service. Length over all, 10 inches; diameter of bell, 5 inches. Shipping weight, 3½ pounds.

61 E 3376.....$2.25

Horns for Fords on Page 612

$5.25 Silver Ray Spotlight

It throws a powerful, penetrating light. Heavy convex lens centers the strong, powerful beam of light just where you want it. A three-point bracket with wide range adjustable motion enables you to lower the light for watching the road or swing it sidewise and upwards. Easily detached by a turn of cross bolt with the fingers to use as trouble light. Has universal bracket to fit all windshields. Black and nickel finish. Complete with wire and bulb. Shipping weight, 3 pounds.

Silver Ray without Mirror

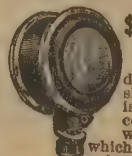
61 E 6724—6-8-volt bulb.....$5.25
61 E 6725—12-16-volt bulb.....5.35
61 E 6726—For Ford magneto...5.45

Rear View Mirror for Silver Ray

Attaches direct to handle. Diameter 3½ inches. Shipping weight, ½ pound.

61 E 6727—Mirror only.....85¢

$2.40 Drum Sidelights



Two beautiful, splendidly designed drum shaped lights. The base is arranged to fit on the cowl of all cars. Fitted with 2-candle power bulbs which give good light yet only use little current. Diameter; 2¾ inches. Nickel plated rim. Shipping weight, pair, 1½ pounds.

61 E 6744—Per pair.....$2.40

Slo-Stop Stoplight

The "Slo" signal is green and "Stop" is red. When you press on the foot brake only, the green "Slo" lights up; when you press on both the clutch and foot brake, the red "Stop" shows. Only one color shows at a time. This is a remarkable improvement over the regular stop signals. There is a separator between the two bulbs so each color shows distinctly. The two color combination attracts attention quickly and forcibly. Body of lamp is the latest barrel shape style, black enameled, with two neat nickel rims. Complete with two bulbs, wire and waterproof switch. Shipping weight, 2½ pounds.

61 E 6796— 6-volt type.....$2.98
61 E 6797—12-volt type.....2.98

Parking Lamp

Save your battery by using this one small light instead of two large ones and the tall light when parking at night. It shows red in rear and white in front. Cone shape lenses. Switch in base. Bulb, 6-volt, 2 C. P. Nickel plate finish. Height, 2¾ inches. Shipping weight, 8 ounces.

61 E 6743—Each.....85¢

This well known headlight Lens eliminates all glare. Furnishes good driving light at side of road as well as lighting the road for 600 feet ahead. When ordering, state diameter of old glass.

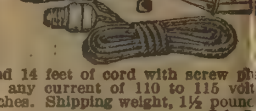
McKee No-Glare Headlight Lenses

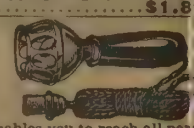
$1.89 Garage Trouble Lamp



Standard type electric portable 110-volt Lamp with 16-candle power bulb. Strongly made for garage use. Equipped with a key socket, and 14 feet of cord with screw plug attached. Used with any current of 110 to 115 volts. Length over all, 13 inches. Shipping weight, 1½ pounds.

61 E 6917.....$1.89

Inspection Lamp



Operated by car's storage battery. The plug fits all sockets on dash or in lamps. It brings the light exactly where you want it. Has a polished reflector and protecting guard. Ten feet of cord that enables you to reach all parts of the car; 6-8-volt bulb. A high grade lamp that will give long satisfactory service and may save you a great deal of time. Shipping weight, 1 pound.

61 E 6901—Fitted with double contact plug..$1.3
61 E 6902—Fitted with single contact plug..1.3

Dependable Stoplight Switch 24¢

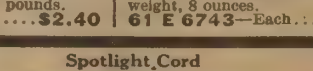
A reliable, sure acting Switch which may be used with any stoplight. The contact points are enclosed in a metal case. Waterproof type. Strong double spring action which practically eliminates sticking and wasting of electricity. Shipping weight, 4 ounces.

61 E 6792..24¢

Electrical Supplies for Fords on Page 612

Spotlight Cord

4¢ Per Foot



Several strands of twisted copper wire, covered with cotton wrapping over which is rubber insulation. Braided black covering on outside. It is advisable to carry a few extra feet of this cord in the car as it may also be used for wiring your horn or other lights. Shipping weight, per foot, 2 ounces.

61 E 6963—Per foot.....4¢

5¢ Galvanized Armored Cable

Per Foot

Lamp cord strand wire covered with one cotton wrap, then two cotton braids. All saturated with varnish. Over this strong wiring is a galvanized steel armor, which gives excellent protection to the cord preventing short circuits which are so often caused by rubbing or chafing against the frame or body. Shipping weight, per foot, 2 ounces.

61 E 6960—No. 16 wire. For 2 to 6-candle power. Single lamps. Per foot.....5¢
61 E 6961—No. 14 wire. For side, head and tail lamps, 10 to 21-candle power. Per foot.....6¢
61 E 6962—No. 12 wire. General distribution wire to carry all the current from battery to switch or generator to battery. Per foot.....8¢

Push and Pull Switches

These are standard panel push button Switches that are neat, simple and easily installed. Can be used for headlights, tail and dash lamps, or in any combination desired.

Spring contacts; wire connections are at the back. Black finish. Shipping weight, per gang, 2 ounces.

61 E 7059 — Two-gang switch....43¢
61 E 7060 — Three-gang switch....65¢

Spotlight Bracket For Closed Cars 29¢

Fastens to the body of sedan or coupe. Spotlight clamps to the bracket. Finished in black enamel. Shipping weight, 8 ounces.

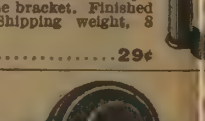
61 E 6719.....29¢

12¢ Per Roll Friction Tape

A fine quality fresh holdtight Tape for insulating wire and emergency repair work. Always carry a roll in your car. Four-ounce roll, ¾ inch wide. Shipping weight, 6 ounces.

61 E 1488—Per roll.....12¢

22¢ Push Button

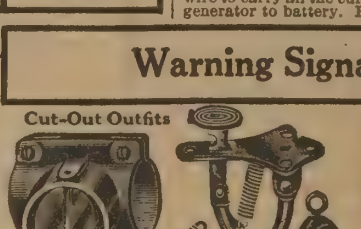


Made of polished hard rubber and metal. Attaches to steering wheel spider or any flat surface. Touch any part of the top of this button and the horn will sound. Shipping weight, 3 ounces.

61 E 3367.....22¢

Warning Signals and Cut-Outs

Cut-Out Outfits



A Cut-Out is a great help in locating engine troubles as it enables you to pick out missing cylinders when testing the plugs. On hilly country roads many motors develop more power and heat up less when the cut-out is open. At our extremely low price no owner of the cars listed below should be without a cut-out. This outfit is easily installed; 4-bolt type, insuring perfect fit. Complete with locking pedal, pulley, spring and cable, ready for attaching to car. Fits cars with pipe having outside diameter shown. Ship. weight, 3 lbs.

61 E 3438—For Maxwell and other cars with 1⅝-inch exhaust pipe.....70¢
61 E 3439—1¾-inch for Buick, Saxon, Oldsmobile and others.....75¢

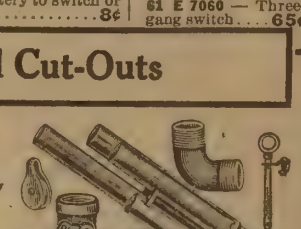
Four Tone Melody Horn

$5.25



A real high class exhaust horn with four full deep, smooth tones that warn in a manner that pleases. The musical tone may be varied by a slight pull on the lever. It is really surprising to see how pedestrians and other motorists obey this signal without being offended. You will find this one of the most delightful additions you can make in your equipment. It is built so strongly that you get years of faithful service without operating cost. For cars of 20 to 35 H. P. Complete with lever, clamp-on valve, and wire cable. Made of brass, nickel finish. Length, 12 inches. Sizes are outside measurement of the exhaust pipe. Shipping weight, 5½ pounds.

Supplies to Make Old Autos Look New And Keep New Cars Bright

Automatic Windshield Cleaner

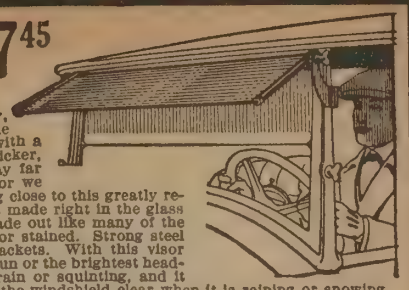
$3.25

An excellent safety device that automatically keeps the windshield clean when it is raining, snowing or sleeting. You have both hands free for driving and handling levers. One of the best helps we know of for preventing accidents. Outfit consists of a sturdy vacuum motor which is connected by a hose to the vacuum tank or intake manifold. It is always ready. Simply turn the button and the wiper swings back and forth. No cost to operate. Fits all open or closed cars. Black finish. Shipping weight, 2½ pounds.

61 E 9507 ..... $3.25

Green Ribbed Glass Visor

$7.45



This is an extra quality, guaranteed Visor, made of the finest green glass with a ribbed surface. It is thicker, stronger and in every way far superior to any other visor we ever have examined selling close to this greatly reduced price. The green is made right in the glass so it will not rub off or fade out like many of the visors which are painted or stained. Strong steel frame with adjustable brackets. With this visor you can drive against the sun or the brightest headlights without any eye strain or squinting, and it is a great help in keeping the windshield clear when it is raining or snowing. The green glass is restful and easy on the eyes. Makes every car classier looking. **When ordering, state name, year and model of car.** Shipping weight, 12 pounds.

361 E 6876—For all open cars (except Fords) from 37⅛ to 41¼ inches from center to center of windshield posts $7.45
361 E 6877—For all closed cars (except Fords) from 37⅛ to 41¼ inches from center to center of side posts $7.45

Medium size amber lenses correctly curved to give a large field of vision. Protect eyes against sun. Zylonite frame. Shipping weight, 4 ounces.

61 E 6653..... **27¢**

Auto Puller and Hoister

A simple, compact device which has a powerful pull and lift that will handle the heaviest cars. No more need to stay stuck for hours and pay for being pulled out. Just fasten to stakes, a tree or post and attach to car. A few pulls on the handle gets you out. Also handy for hoisting. Self locking. Furnished with 12 feet of pulling cable. Shipping weight, 32 pounds.

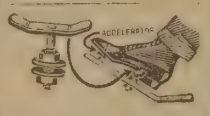
461 E 6462..... **$6.95**

Combination Auto Robe and Poncho

Can be used as a raincoat or hood cover, warm robe and protector. Light weight fits under seat. Makes a serviceable poncho to use in wet weather during engine or tire trouble. Waterproof material. Size, about 50 by 70 inches. Shipping weight, 3 pounds.

61 E 6663...**$2.49**

Handy Foot Rest



Takes strain off of foot and leg muscles. Suitable for all style accelerators. Adjustable in height so you may fit it for comfort. Steel, black nickel finish. Shipping weight, 12 ounces.

61 E 3549..... **29¢**

Heat Indicators

Moto-Meter

Large Size

$7.59

Genuine Boyce Motometers. Placed on radiator cap the Motometer indicator liquid warns the driver of engine troubles before damage occurs. A necessity that should be on every car.

61 E 3613—Large Model. Beautifully finished in black and nickel. Beveled plate glass crystal. Height, 3¾ inches. Width, 3⅜ inches. Ship. wt., 1½ pounds... **$7.59**

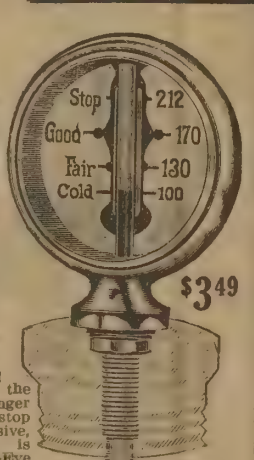
Motometer Lock

98¢

Drops in filler hole and opens up so it can not be taken out. Attached to motometer by special fittings. Fits all except Willys-Knight, Overland, Stearns and Nash. Holds while filling radiator. Shipping weight, 8 ounces.

61 E 3587..... **98¢**

Motor-Eye



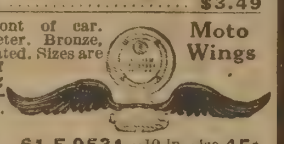
$3.49

This is a greatly improved, excellently designed Heat Indicator with a large, easily read dial. It fits on the radiator cap of any car. Put on the Motor-Eye and know exactly what the heat condition of your motor is at all times. If the water or oil is low—if the fan belt slips or is broken—if the gas mixture is too rich—if the spark is retarded too long, the red will rise high in the tube, signifying danger in time for you to stop before any expensive, delaying damage is done. The Motor-Eye is 3¼ inches wide and about 4 inches high with a heavy beveled plate glass front and a highly polished nickel plated rim and back, so it is very attractive. Shipping weight, 2¼ pounds.

61 E 3618..... **$3.49**

Beautifies front of car. Held by motometer. Bronze, heavily nickel plated. Sizes are from tip to tip of wings. Shipping weights, 14 ounces and 1 pound.

Moto Wings

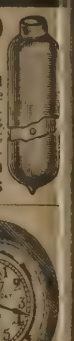


Motometer not included.

61 E 9531—10-in. size **45¢**
61 E 9530—14-in. size **60¢**

Glass Inner Bottle for Vacuum Bottle

$1.10



Our Glass Inner Bottles will fit all the vacuum bottles shown on this page except bottle in Lunch Kit 61 E 6639. They also fit the well known Icy-Hot Vacuum Bottles. Shipping weights: Pint size, 1 pound; quart size, 2 pounds.

61 E 6607—Pint size bottles..... **$1.10**
61 E 6608—Quart-size bottles.... **1.55**

Frisco Cowl Clock

Fine appearing, flush fitting. Reliable one-day movement. Built to withstand jars and vibrations. Special catch loosens clock for winding and setting. Nickel finish. Height over all, 3½ inches; diameter of dial, 2½ inches; depth, 2 inches. Shipping wt., 1¼ lbs.

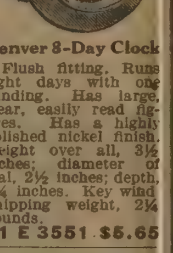
61 E 3554..**$4.15**

Denver 8-Day Clock

Flush fitting. Runs eight days with one winding. Has large, clear, easily read figures. Has a highly polished nickel finish. Height over all, 3½ inches; diameter of dial, 2½ inches; depth, 2¾ inches. Key wind. Shipping weight, 2¼ pounds.

61 E 3551..**$5.65**

Boss Auto Clock



A reliable, fine appearing highly polished nickel plated Clock; 24-hour movement. Fits all cars. Only 1⅛ inches deep, so it may be attached without drilling dash. Wind and set without removing. Screws included. Shipping weight, 8 oz.

61 E 4215..... **$2.45**

Aluminum Step Plates

With Ribbed Rubber Mat

Latest design and most serviceable type Step Plates with heavy ribbed composition rubber mat set in aluminum frame. Splendid foot scraper. High rear guard prevents scratching the finish of the car. Size, about 10 by 9 inches. Screws furnished. Shipping weight, pair, 4 pounds.

61 E 4210—Per pair..... **$1.73**

Heavy DeLuxe Model

This finest style is a great improvement over the usual kinds as it has a special scraper arrangement that is used as a cleaner for mud and slush. Besides the scraper these plates have high rear guard and raised sides. The outside measurements are about 10 by 9 inches. Screws furnished. Shipping weight, pair, 4 pounds.

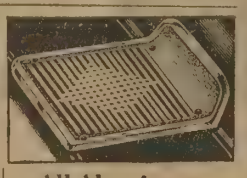
61 E 3556—Per pair..... **$2.69**

Latest Model Aluminum Step and Kick Plates

Exactly the same as used on expensive sport models. Stylish enough for a $10,000 car yet our price is so low every owner should have this distinctive equipment. The Step and Kick are sold separately so you may use either alone. However, they are more attractive when used in pairs as illustrated. Shipping weight, per pair: Step plates with rubber mats and scrapers, 3½ pounds; kick plates, 1½ pounds.

61 E 3541—Step plates. Per pair. **$2.19**
61 E 3542—Kick plates. Per pair.. **1.45**

All Aluminum Step Plates

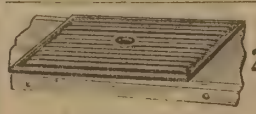


With rear protecting guards and corrugated surface. All necessary bolts are included. Size, 9 by 9¼ inches. Shipping weight, pair, 5 pounds.

61 E 4211—Per pair..... **$1.95**

Running Board Mat

20¢



Made of heavy composition rubber with strong ribs which give sure foothold when getting in or out of car and protect the running board. Aids in keeping floor of car clean. Prevents slipping. These durable, long wearing Mats make the car look better; 8 by 11¼ inches. Shipping weight, 1½ pounds.

61 E 3798—Each..... **20¢**

Cocoa Running Board Mat

68¢

A strong, closely woven, well bound Mat which fits on running board of any car. The stiff fibers clean the shoes keeping the car much neater inside. Also prevents slipping. Size, 8½ by 13 inches. Fasteners furnished for attaching to wood or metal running board. Shipping weight, 1½ pounds.

61 E 2281—Each..... **68¢**

Evr-Klean Seat Pads

Two pieces of strong rice straw, bound with strips of khaki colored cloth. Protects clothes and cushions. Fits all cars. Each half is 17 by 17 inches. Shipping weight, 1 pound.

Economy Improved Dash Controlled

Radiator Shutter

—Protects the Motor and Radiator
—Saves Gasoline
—Prevents Overheating

Pays Back Its Cost in Gasoline Saved

The Economy Radiator Shutter is one of the newest and best improvements for winter driving, as it gives the driver control over the water temperature without moving from the seat. Many motorists prefer this shutter to the high priced automatic types which sell for two or three times as much. When the motor is cold an easy pull closes the shutter. As the radiator warms up you may open the shutter. A spring roller on the shutter and a locking device on the dash give you complete control of the shutter opening by simply pulling the easily reached cable. Radiators freeze at the bottom first so the Economy Shutter works from the bottom to the top giving full protection to the lower part which also makes the motor run better as it keeps cold draughts from the carburetor. If your motor is too cold or too hot it wastes gasoline—with this shutter you regulate the temperature to get the best results. The saving in gasoline for one season will generally pay back the cost of the shutter. Another big advantage is that when you are going to stop the car, the shutter may be quickly closed a short time before, so more heat will be in the radiator to protect it while standing. Another important feature is you save alcohol or non-freezing solution, and you are also able to prevent overheating. The curtain is a durable imitation leather. The shutter fits snugly over the fins or core of the radiator and is held tight by special bolts which go through holes in the core. The roller has a strong steel spring. Average shipping weight, 4½ pounds.

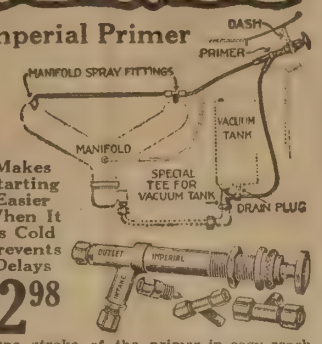
Drive All Winter and be Comfortable

Imperial Primer



Makes Starting Easier When It Is Cold Prevents Delays

$2.98

One stroke of the primer in easy reach on the dash board sprays vaporized gasoline into the manifold. You can start without the fuss or delay usually experienced in winter motoring. No priming through petcocks; no standing in the snow or rain. Do not risk injury to your battery by grinding away for several minutes to start your motor when it is cold. This feature alone is worth many times the price of the outfit. Outfit consists of substantially made plunger pump, all necessary bolts, connections and tubing. Shipping weight., 14 ounces.

61 E 3668—For all cars fitted with a vacuum tank. Complete outfit.....**$3.95**
61 E 3669—Special for Fords...**2.98**

Radiator Covers

and Radiator and Hood Covers For All Cars

Radiator Covers are an absolute necessity for proper care of the radiator and motor during the cold weather. Our prices are much lower than generally asked and the saving to you so great that it is advisable to send us your order before the cold snap comes. Buy now and be prepared. These covers are cut from carefully made patterns so they fit snugly and look neat. Both the radiator covers only, and the radiator and hood covers are made of durable waterproofed enameled fabric with a thick lining of kersey, a heat retaining material. All radiator covers have double flap construction, the lower flap rolls down, the upper flap rolls up and they are held in place by securely attached straps, which lock with snap fasteners. Metal clips hold radiator covers close to radiator. We can furnish either type covers for all cars. Covers for Chevrolet 490 and Dodge cars are carried in stock for immediate shipment.

Radiator Covers

These covers fit over just the radiator and do not cover the hood. Average shipping weight, 3 pounds.

61 E 3715—For Chevrolet 490, 1915-22.....**$2.45**
61 E 3718—For all Dodge Cars, 1915-22.....**2.45**

Radiator Covers Only For All Other Cars

We can furnish radiator covers for all other cars. These will be shipped direct from factory in Northern Illinois and will require from 10 to 15 days. When ordering be sure to state make, year and model of car. Allow extra for postage. Average shipping weight, 4 pounds.

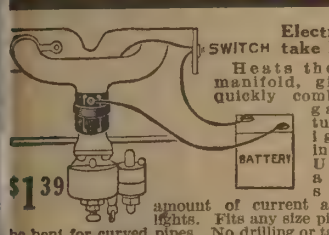
Auto Heaters



Electric Intake Heater

$1.39

Heats the intake manifold, giving a quickly combustible gas mixture that ignites instantly. Uses about same amount of current as 6-volt lights. Fits any size pipe. Can be bent for curved pipes. No drilling or tapping—simply clamp around pipe. Complete with wire and switch for attaching to battery. For single contact lighting systems only. Shipping weight, 8 oz.

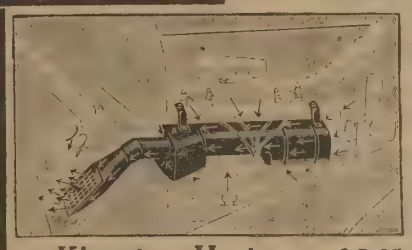
61 E 3670—For 6-volt Battery, each..**$1.39**
61 E 3671—For 12-volt Battery, each.**1.39**

Kingston Carburetor for Maxwell and Chevrolet

$12.25

The Kingston is one of the best known Carburetors on the market. These two models incorporate all the late gasoline saving and power producing points that have been brought out by this company. Quicker pickup—easier starting and smoother action will be instantly noticed when your car is equipped with one of these new models. Shipping weights: 6½ and 5 pounds.

61 E 5700—For all Maxwell 25 models—1915 to 1922 inclusive. Furnished complete with hot air extension pipe and exhaust stove.....**$12.25**
61 E 5701—For all Chevrolet 490 models. Furnished complete with all connections....**$12.25**



Kingston Heaters

$3.85

for Dodge, Chevrolet, Overland and Maxwell

Owners of the above cars will be able to drive all winter and be comfortable by using this efficient, easily installed Kingston Heater. It furnishes a constant supply of pure, fresh, warm air without any cost to operate. Each heater is accurately designed and carefully built to fit over the manifold and attach to the floor board. Fresh air forced by the fan is heated by passing through the metal cover over the exhaust manifold. The register in the floor board has a two-way valve which is opened or closed by a touch of the foot. At our exceptionally low price no owner should be without one. You can put it on easily. Even on the coldest days it will keep you warm. Made of heavy gauge metal with a baked-on black enamel finish. Furnished complete ready to install. Shipping weight, about 3½ pounds.

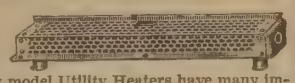
Ford Owners!

Other Cold Weather Necessities for Fords on Page 612

Keep You Warm Without Any Cost to Operate

Utility Exhaust Heaters



These new model Utility Heaters have many improvements in design and construction not found in any other heaters. A Utility will heat your car quickly and is absolutely noiseless. The heating core is steel tubing covered with fins which radiate the heat much more quickly and more plentifully than the plain types. It costs nothing to operate these heaters as they use the exhaust heat. The register type fits flush with the floor board and has drop pan for cleaning. The upright type sets above the floor. Utility Heaters are completely protected so there is no possibility of fire or scorching and also have valves so they may be completely shut off in summer. Fittings furnished to fit all exhaust pipes with outside measurements of 1¾ to 2¼ inches (specials for Fords). Furnished complete with attachments. Ship. wts.: 461 E 3354, 461 E 3356, 461 E 3355, each, 15 lbs.; 461 E 3357 and 461 E 3358, each, 11 lbs.

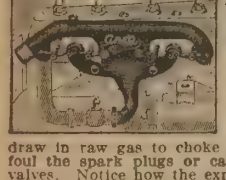
Garage Door Hardware, well made and low priced. See Page 656

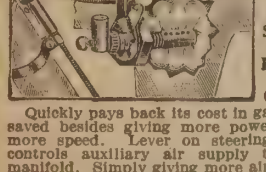
Our Complete Line of Supplies for Fords to Fit All Models - Starts Here



Anco Hot-Spot Manifold $3.75

Breaks up the gasoline so the pistons do not draw in raw gas to choke the engine, foul the spark plugs or carbonize the valves. Notice how the expensive cars feature Hot-Spot Manifolds—they are a necessity. You will notice a great improvement in your motor almost instantly. Fits all Ford cars. Put on with monkey wrench. Shipping weight, 12½ pounds.

461 E 2178.....$3.75



Hand Control Gas Saver with Priming Cups

Quickly pays back its cost in gasoline saved besides giving more power and more speed. Lever on steering post controls auxiliary air supply to the manifold. Simply giving more air gives more speed without touching throttle or spark. Handy priming cup makes starting easier—⅛ inch pipe thread connection. Shipping weight, 8 ounces

61 E 2150.....$1.75

De-Luxe Carburetor Adjuster $1.50

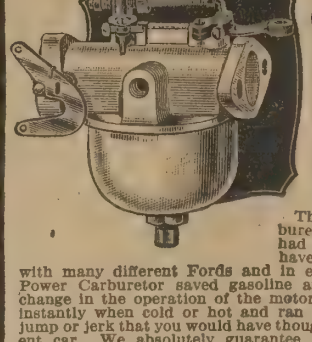
Easily turned finger piece permits quick adjustment of carburetor at times when it would be impossible to reach down to the dash. Has handsome nickel plated dial. Excellent flexible coil spring shafting connections allow dial to be placed nearer the driver than is possible with other styles. Fits all models. Shipping weight, 14 ounces.

61 E 2096.....$1.50

Carburetor Adjuster

A very good low priced Adjuster. Dial on dash shows position of needle valve. Easy to install. Fits all models, closed and open. Shipping weight, 10 ounces.

61 E 2179....50¢

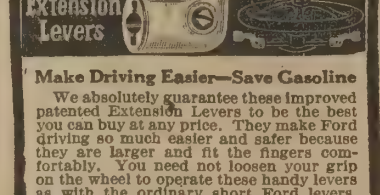


Nu-Power Carburetor $3.95

Saves Gasoline Starts Quicker Runs Smoother

This is the biggest carburetor value we ever have had for Ford owners. We have made hundreds of tests with many different Fords and in every instance the Nu-Power Carburetor saved gasoline and made a wonderful change in the operation of the motor. The engines started instantly when cold or hot and ran so smoothly without a jump or jerk that you would have thought you were in a different car. We absolutely guarantee your motor will start quicker—run smoother—pick up faster—and give less trouble from adjustments than is possible with any carburetor near our price. Simplified adjustments and the elimination of the troublesome needle valve make it nearly troubleproof. We will let you prove every word we have said right in your own car, without risking a cent. Send us your order, with remittance for the Nu-Power—use it 30 days—and then, if for any reason you don't want to keep it, send it back and we will return all your money. Fits all Fords. Ship. wt., 2½ lbs.

61 E 2167.....$3.95

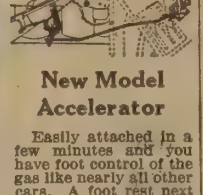


Make Driving Easier—Save Gasoline

We absolutely guarantee these improved patented Extension Levers to be the best you can buy at any price. They make Ford driving so much easier and safer because they are larger and fit the fingers comfortably. You need not loosen your grip on the wheel to operate these handy levers as with the ordinary short Ford levers. Prevent accidents. Made of the best grade aluminum, highly polished. Fastened over regular levers in less than a minute. Fit all Fords—every size steering wheel—and all size hands. Every Ford needs a pair. Order now—use them 30 days—money back if not entirely satisfied. Shipping weight, pair 6 ounces, each 3 ounces.

61 E 2039—Per pair.....39¢

61 E 2189—Each.....20¢



New Model Accelerator

Easily attached in a few minutes and you have foot control of the gas like nearly all other cars. A foot rest next to the pedal holds your foot steady on all kinds of roads. Its action does not affect the hand throttle. All parts strongly made and designed for easy action and simple attaching. Shipping weight, 1 pound.

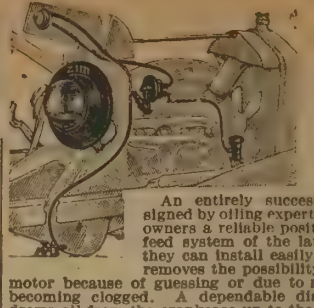
61 E 2033.$1.17

Foot Accelerator for Easy Driving

A real good low priced Accelerator which gives you foot control of the gas without affecting action of hand throttle. Made of steel and designed for easy attaching. However, those desiring the best should order accelerator shown at left. Shipping weight, 1 pound.

61 E 2083.....53¢

See Page 603

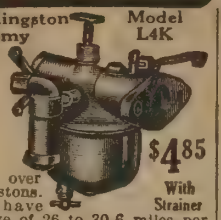


Zim Visible Oiler for Fords $3.65

An entirely successful Oiler—designed by oiling experts. Gives to Ford owners a reliable positive acting sight feed system of the latest type which they can install easily. It completely removes the possibility of ruining the motor because of guessing or due to regular oil pipe becoming clogged. A dependable diaphragm pump draws oil from the crankcase up to the glass indicator on the dash. Then it is carried down to the breather pipe so you know positively that all parts are being oiled properly, even though the regular Ford oil pipe should become clogged. This pump fits in the third spark plug hole and has an adapter which holds the plug. Does not affect running of the motor. Does not register when oil is below bottom petcock. Fits all models. Shipping weight, complete, 2½ pounds.

61 E 2137—Complete outfit.....$3.65

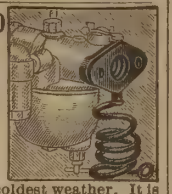
New Kingston Economy Carburetor — Model L4K



Used as regular equipment by the Ford Motor Company. A remarkable improvement over old style Kingstons. Many tests have shown mileage of 26 to 30.6 miles per gallon, on touring cars, coupes and roadsters, and from 21 to 25.4 miles to the gallon on sedans. Improved spray nozzle. Shipping weight, 3 pounds.

61 E 2153.....$4.85 — With Strainer

Electric Gasoline Vaporizer $1.20



Attached in a few minutes between carburetor and intake manifold. When you step on the starter the coil in vaporizer heats the gasoline so the engine starts immediately in the coldest weather. It is automatic—when foot is removed from the starter button current is shut off—no switches used. Saves your battery—saves gasoline and prevents delays. Shipping weight, 7 ounces.

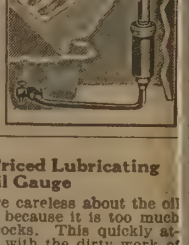
61 E 2081—For Fords with starters.....$1.20

Universal Dash Model Oil Gauge $2.05

Don't take chances of burning out your bearings. Use this Gauge and be on the safe side. It's always in sight and always accurate. Connect it to the lower petcock and you'll never again crawl on your knees in the dirt and grease to test the oil supply. This gauge is sure acting and thoroughly dependable. Will last a lifetime as it has no floats, no wires or metal working parts to wear out. We have made a big reduction in price. Fits all models. Shipping weight, 1 pound.

61 E 2801.....$2.05

Clear View Dash Oil Gauge 85¢



Simple, economical and decidedly convenient. The oil barrel, made of heavy brass is connected to lower petcock hole. An extra large cork float registers the exact oil level by means of a red enameled indicator. Near the top of the heavy brass tube projecting through the floor board is a white enameled portion with a heavy glass window to show location of indicator. Built of excellent materials. Shipping weight, 2 pounds.

61 E 2098.....85¢

20¢ Good Low Priced Lubricating Oil Gauge

Many Ford owners are careless about the oil supply in the crankcase because it is too much trouble to open the petcocks. This quickly attached gauge does away with the dirty work of crawling under the fender. It has a thick glass tube, protected by a metal guard, that shows exact height of oil. Simply unscrew lower petcock and replace with gauge. Petcock screws in base of gauge. Shipping weight, 5 ounces.

61 E 2511.....20¢

A Better Radiator for Fords

$11.95

You Get 30 Days Trial On Your Car To Prove It

We have made tests of all kinds, on the road and in the laboratories, and know this Radiator will satisfy you completely. The strongly built brass core or cooling section is of patent construction—freezing can not damage it. **We guarantee it for 18 months against breakage by freezing.**

Guaranteed 18 Months Against Breakage Caused by Freezing

When Montgomery Ward & Co. give you a definite guarantee of 18 months' service on a Radiator, against freezing which breaks most radiators, why should you pay more than our price? Why should you take chances with an ordinary radiator without a guarantee?

If in any case freezing should injure the core within 18 months we will give you a new core without charge. Patented shock absorbing brackets and sturdy construction positively prevent damage to the radiator when frame twists or spreads. Besides its better mechanical features this radiator with its honeycomb core is far superior to other types in appearance.

The Strong-Built Radiator holds a great deal more water than most radiators for Fords, and the patented core construction cools the water quicker and more efficiently. We consider this the best radiator offered at any price. Bright, black enamel with gray core. Shipping weight, 50 pounds.

161 E 1899—For 1917 to 1923 models.....$11.95

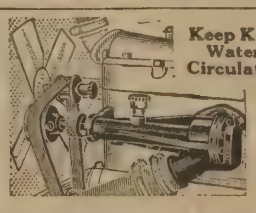
161 E 1900—For 1916 and older models. Shape and brackets same as radiator originally on the car.....$11.95

Heavy Duty Honeycomb Type Radiator for Fords $15.75

This is an extra large, extra strong, oversize water capacity radiator for heavy duty service such as given Fords in hilly or sandy districts or where the car is run at high speeds for long distances. Also a very serviceable radiator for Ford trucks or touring cars used for carrying heavy loads. It has patented brackets that resist the strain of frame twisting or spreading which usually causes leaks in ordinary radiators. It has a big sturdy core with large water channels that allow free flow of water so it cools quicker. Not affected by lime or alkali water. Shipping weight, about 55 pounds.

161 E 2998—For 1917 to 1923 Fords.....$15.75

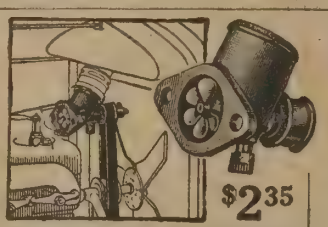
161 E 2999—For 1916 and older models. Shape is similar to the one that came on car.....$15.75



Keep Kool Water Circulator

Never before have we made such a remarkably low price on a big powerful side type Water Circulator for Fords. On hot days when other Fords are stuck by the roadside with the radiators boiling over, your Ford with the Keep Kool will travel along without a sign of overheating. You will be able to travel faster—you will use less lubricating oil and you will like your Ford more than ever. A special grease cup lubricates the shaft. You will also find this circulator a valuable aid in preventing engine troubles. Easily attached. Special fan belt furnished. Attachments included to fit all Fords. Shipping weight, 10 pounds.

61 E 2139.....$3.45



Water Circulator for Fords $2.35

New design solid brass circulator which greatly increases water circulation. Fords that would overheat within 4 or 5 miles have been run with this device for 100 miles without a sign of overheating even on the hottest days. Overheating ruins engines—stop it with this circulator. Easily attached in place of top water connection. Complete with belt. Shipping weight, 2¼ pounds.

61 E 2678—For 1917–1923 Fords.....$2.35

61 E 2675—For 1916 and older Models.....$2.35

Improved Water Circulating Pump

Rotary Pump forces water through circulating system at a rapid rate. Keeps your Ford cool on hottest days. The forced circulation will help save much lubricating oil. Exceptionally well constructed. Easily installed—instructions included. Complete with belt and fittings Shipping weigh, 10 pounds.

Reliable Timer For Fords

Type most generally used on Fords at an exceptionally low price. Hardened steel roller held in contact with the raceway by a coil spring. Fits all models. Shipping weight, 12 ounces.

61 E 2133.....**59¢**

Genuine Herz Hot Spark Timer for Fords

A great improvement in Timer construction that gives Ford owners a reliable, positive timing system which will quickly repay the additional cost above common kind in time saved and extra service from your car. The Herz has no roller, no brush, no fiber and no raceway, which parts have always been trouble makers with ordinary timers. A simple, hardened steel cam replaces the old style roller or brush and always gives a sure acting press contact. The terminal housing has two little plunger buttons which are released with a snap as the cam passes. This causes a lightning quick break, which action absolutely cannot fail to produce a strong spark. This jerks a hot, fat spark out of the coils at all speeds. It is built to give years of accurate, faithful service. Shipping weight, 1½ pounds.

$3.95

61 E 2071.....**$3.95**

Positive Contact Timer for All Fords

$1.45

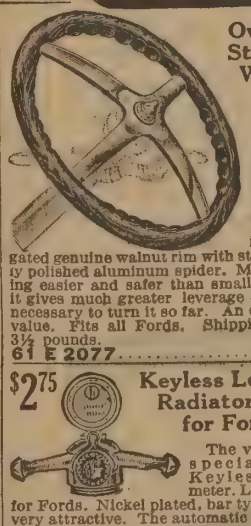
Warner Wheel Tilt

For Fords

Simply remove the steering wheel and put on the Wheel Tilt. The wheel is then attached to tilting device. It makes your steering wheel into a tilting wheel which completely eliminates squirming and wiggling around to get into or out of the driver's seat, as the wheel raises up out of the way. Wheel is rigid when in driving position. Light pull on catch releases for tilting. Can be put on in a few minutes. Needed on all Fords—open or closed models and it is designed to fit all regular Ford or special oversize steering wheels. Shipping weight, 1½ pounds.

61 E 2448.....**$1.25**



Oversize Steering Wheel for Fords

$1.95

Extra good value. 17-inch corrugated genuine walnut rim with strong, highly polished aluminum spider. Makes steering easier and safer than smaller type as it gives much greater leverage so it is not necessary to turn it so far. An exceptional value. Fits all Fords. Shipping weight, 3½ pounds.

61 E 2077.....**$1.95**

Eagle Radiator Cap

Very attractive. The flying eagle perched on the highly polished nickel plated T-handle cap gives a handsome appearance and dresses up the front. The arms on this cap make it easy to unscrew and prevent burning the fingers when the radiator is hot. Will not rust. Size, 6½ inches from tip to tip and 2¼ inches high. Shipping weight, 14 ounces.

61 E 4221.....**45¢**

New Sport Trunk for Fords

$20.75

Handsome and substantial and fully dust-proof Trunk for touring cars and sedans. Equal of trunks used on the highest priced sport model cars. Made of 3-ply basswood veneer covered with durable glossy black material. It is 37½ long, 15½ high and 10 inches wide at the bottom. Corners and edges reinforced by metal. Three catches and lock. Special carrier furnished holds the trunk and also supports regular Ford tire carrier back of trunk. Shipping weight, without suitcase, 50 pounds.

161 E 2692—Outfit without Suitcase.....**$20.75**

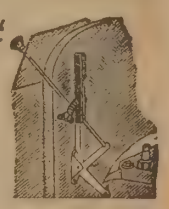
461 E 2693—26x14x7-inch Suitcase. Shipping weight, 6 pounds.....**$3.10**

Snap Lock Radiator Cap for Fords

An entirely new design—does away with troublesome screwing and unscrewing when filling the radiator. Just touch the snap lock and spring opens the hinged lid. Press lid down and it locks. Open or closed in a second. Neat T-handle style with black enameled lid. Gasket prevents water leakage. Shipping weight, 14 ounces.

61 E 2045.....**95¢**

Choke Holder 33¢



A great convenience for all self-starter Fords. Holds the choke securely at any position. Adjustable tension. No drilling. Shipping weight, 4 ounces.

$2.95 Complete Motometer and T-Handle Radiator Cap

Two necessities every Ford owner will appreciate. The Motometer is the new, improved Midget model, exactly like the larger models except a smaller size. Nickel and black finish. Radiator cap is 6½ inches wide. T-handle style with bright nickel plate finish which greatly improves the appearance of the front. Much easier to unscrew than the small, unhandy regular cap—you can take off this cap when the radiator is boiling without burning your fingers. Shipping weight, each, 10 ounces.

61 E 3608—Motometer only...**$2.69**

61 E 3597—T-cap only.....**.30**

61 E 4228—Motometer and cap. Shipping weight, 1½ pounds.....**$2.95**

$2.75 Keyless Locking Radiator Cap for Fords

The very newest special model Keyless Motometer. Locking Cap for Fords. Nickel plated, bar type shape—very attractive. The automatic locking device prevents cap or motometer being removed. The cap is hinged so it tips back for filling radiator. To release or close the cap you just pull or push the spring catch. Many insurance companies do not insure motometers on account of the enormous theft of these devices so this locking cap is really a very necessary accessory. Beautiful Indian Girl's head emblem on front. Hole drilled for Midget Motometer. Fits all Fords; 6¾ inches from tip to tip. **Motometer not included.** Shipping weight, 1½ pounds.

61 E 4225.....**$2.75**

Standard Fenders for Fords

$10.35

We have just bought several carloads of these beautiful, strongly made, heavy gauge Fenders and have reduced the price so every Ford owner can put his car in good fender condition at a very low cost. Since we made this big purchase the cost of steel has gone up considerably but we give you the advantage of the low price we paid. They will fit your Ford perfectly and match in design the original fenders. Even though only two or three of your old fenders are damaged or worn it will pay you to buy a set at this low price and replace all of them or have them ready for emergency. They have a long lasting baked-on black enamel finish. Fit all Ford cars. Shipping weight, per set, 90 pounds.

161 E 2271—Set of 4, for 1917-23....**$10.35**

161 E 2253—Set of 4, for 1909-16....**10.35**

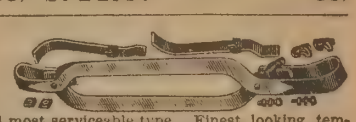
Strapless Running Board Tire Holder

Has no unsightly straps, chains or cables to break or wear out. No loose parts to rattle or get lost. To remove tire simply unlock the padlock, lift up on the tire and it is free. Easily slipped back into place. Whole operation can be done in less time than it takes to fasten straps. Made of steel throughout. No drilling of body to attach. Will not fit closed models. Padlock not furnished. Ship. wts., 4 pounds and 5 pounds.

61 E 1925—For one tire. Each.....**95¢**

61 E 1926—For two tires. Each.....**$1.45**

Double Face Spring Bumper for Fords



The very latest and most serviceable type. Finest looking, tempered steel, double spring Bumpers for all Fords. The shape is like that used on most expensive cars. The wide spread of the two center bars prevents other bumpers from going over or under as is possible with the one bar type. Special brackets fasten securely without drilling so you can quickly attach them. Shipping weight, 50 pounds.

161 E 1946—Front, black finish.....**$ 9.15**

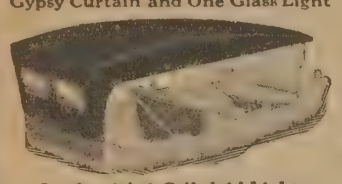
Supplies for Fords

Make Old Tops Look Like New

Gypsy Curtain and One Glass Light

Ward's Economy Top Re-Covers for Fords

If your top is shabby or torn, make it look new with one of these Top Re-Covering Outfits. They are cut to fit perfectly. Only home tools needed. The top and back curtains are made of heavy rubberized fabric with all parts stitched ready to slip right over the old top frame. Fasteners and trimming also furnished. Outfits with two glass lights are a big improvement over the old type and make the top really better than new. All glass lights are the heavy type. Shipping weights: Touring models, 12 pounds; roadster models, 8 pounds. Re-Covers with Gypsy curtains weigh 14 pounds and 10 pounds, respectively.



Outfit with 2 Celluloid Lights

Enameled Steel Visor

For Ford Closed Cars

If you had this Visor on your car for 10 minutes you would never want to drive again without it. It is designed and shaped especially for Ford Sedans and Coupes. It fits perfectly and greatly improves the car's appearance. During the day it completely shades your eyes from the bright sun—at night it gives considerable protection against dangerous headlight glares. It keeps the windshield much clearer. Trough carries the water to the sides. It is strongly constructed of the highest grade rustproof Armco 20-gauge steel. Beautiful, long lasting black enamel finish, baked on. Complete with screws and instructions; easily attached. Size, 10 by 40 inches. Shipping weight, 7½ pounds.

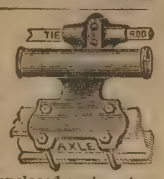
61 E 9576.....**$2.35**

Stoffer Champion Steering Device

$2.95

It takes the strain off the arms and shoulders when driving over rough roads and gives a steadiness to the steering wheel. Eliminates jerking and backlashing so you will get more pleasure out of driving. Repair bills are cut down as the wheels will not wiggle about which causes excessive wear on bushings and tires. A roller bearing working against an oil tempered steel spring gives a smooth driving action. Also a big aid in preventing accidents. Shipping weight, 4 pounds.

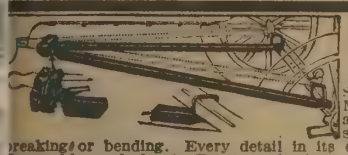
61 E 2312.....**$2.95**



Safety Pilot Steering Device

It holds the front wheels in a straight line which saves the tires. An enclosed spring gives a tension on the steering connections that eliminates constant wobbling of the wheels when traveling over rough roads, thus taking the strain off the driver's arms. In case you hit a bump the Safety Pilot automatically brings the wheels back into line. Made of malleable iron with a high grade spring so it will give long service. Shipping weight, complete, 5 pounds.

61 E 2287—Complete outfit.....**$1.85**



Universal Radius Rod Support

A real Radius Rod Support for Fords. Made of heavy gauge angle iron, it will stand severe strains without breaking or bending. Every detail in its construction has been thoroughly worked out. By strengthening and bracing the front it prevents vibration of the front axle and makes steering easier. It helps prevent bending of the radius rod and axle, which often cause serious accidents. Fits all Fords. Easily installed with a monkey wrench. Shipping weight, 6 pounds.

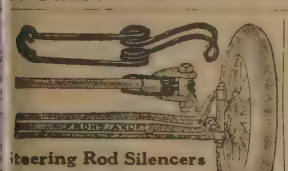
61 E 4078.....**83¢**

Columbia Irreversible Steering Gear

Stops the Wobbling of Ford Front Wheels

The Columbia Steering Gear eliminates that continuous jerking and vibrating of the Ford steering wheel which causes tiredness and a strain on the arms. Rough roads will not bother you as the road shocks are held back by the gear. The steering wheel becomes firm, steady and safe. This is a genuine irreversible safety gear that replaces the Ford steering gear at the bottom of the steering column, and is entirely different from the ordinary attachment which connects to the axle. There is no machine work necessary to install the Columbia—it can be put on by the average owner in a short time. Instructions included. Shipping weight, 9 pounds.

61 E 2361.....**$6.45**



Steering Rod Silencers

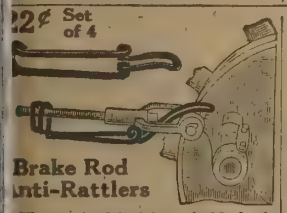
Clamp around the steering joints and tie rod. A big help in steering the car, for they prevent slack in the steering knuckle connections. Made of high quality spring steel. Shipping weight, per pair, 8 ounces.

61 E 2499—Per pair.....**22¢**

Radius Rod Anti-Rattling Ball Socket

Automatically takes up wear. Patented spring holds the socket against the ball doing away with the frequent adjustments necessary with regular old sockets. To install, you simply take off old socket and put this in its place. Shipping weight, 8 ounces.

61 E 2503.....**25¢**

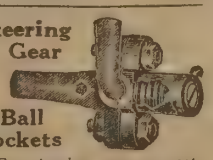


22¢ Set of 4

Brake Rod Anti-Rattlers

These Anti-Rattlers hold both front and rear connections of the brake rods firmly and reduce the wear, besides doing away with the annoying rattle. Shipping weight, per set, 4 ounces.

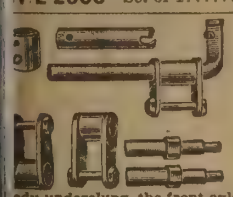
61 E 2500—Set of 4.....**22¢**



Steering Gear Ball Sockets

For steering gear connecting rods. Take the place of steel caps. Spring behind pivots takes up the wear and eliminates all rattle. When once attached no further adjustment needed. Fully dependable. Shipping weight, pair, 4 ounces.

61 E 2502—Pair..**25¢**



Underslung Parts

These parts make it possible to drop the Ford frame 4½ inches lower than standard height. Made of manganese bronze. Correct in construction. With body underslung, the front axle extends two inches in front of the radiator and parts are supplied for extending crank. Little experience and few tools are necessary to make the change. Fit all models. Shipping weight, complete, about 10 pounds.

61 E 5001—Complete set.....**$7.35**

$1.95

Driveshaft Tube Support

This is an exceptionally strong malleable iron Clamp which fits over the end of the driveshaft tube and around the driveshaft roller bearing housing, holding these parts in perfect alignment. Also used to repair broken tubes. Complete with bolts ready to apply. Shipping weight, 4 pounds.

61 E 2387.....**$1.95**

Make Your Ford Smoother Riding

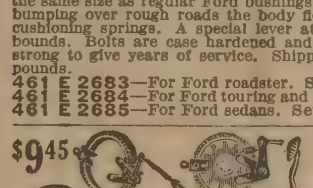
Every accessory we sell is Thoroughly Tested and has proved successful before we offer it to you

$10.35 Set of 4

Challenge Smooth Rider Shock Absorbers

They are large and strong, adding many inches of springiness without clamping or binding in any way. The durable coils are telescoping barrel shape made of tempered steel. Side arms and connections are malleable iron with replaceable bushing the same size as regular Ford bushings. Instead of jolting and bumping over rough roads the body floats along on these big cushioning springs. A special lever at the top checks all rebounds. Bolts are case hardened and all parts exceptionally strong to give years of service. Shipping weight, per set, 30 pounds.

461 E 2683—For Ford roadster. Set of 4.....**$10.35**
461 E 2684—For Ford touring and coupe. Set of 4 **10.35**
461 E 2685—For Ford sedans. Set of 4..... **10.35**



$9.45

Stronghold No-Jerk Rear Brakes

Stronghold external Brakes give your Ford a dependable brake direct on the rear wheels like those used on the highest priced cars. Eliminate grinding, or jerking when you stop. Operated by foot pedal—no more adjusting transmission brake bands. Connected with ¼-inch steel rods. Can be installed in a short time—no holes to drill—lined with a high quality brake lining. Special steel rods equalize braking force to each wheel. Do not interfere with shock absorbers. Shipping weight, complete, 12 pounds.

461 E1898—Complete outfit.....**$9.45**

Ward Grip Transmission Band Lining For Fords

Lining the transmission bands is no easy job, so it always pays to use the very best Linings. Here they are—we guarantee Ward Grip Transmission Linings are one of the very finest, longest wearing sets of linings obtainable for Fords. They are made of extra fine quality, long staple cotton which is firmly and closely woven. After great care in weaving, Ward Grip Linings are chemically treated so they last longer and are not affected by oil or heat nor glaze like untreated linings. When you step on the pedals the car stops with a positive smooth action which will delight every Ford owner. Rivets included. Shipping weight, per set of three, 1 pound.

61 E 2392—Set of 3 linings.....**75¢**

Cork Disc Lining

Holds securely but does not cause grabbing, jerking or chattering when starting or stopping. The cork lessens wear on the extra quality fabric. Rivets included. Shipping weight, per set, 14 ounces.

61 E 2078—Set of 3...**$1.35**

Challenge Lining

Good grade Linings composed almost wholly of long fiber material impregnated with a compound which lessens action of oil, grease or heat. Rivets furnished. Shipping weight, ¾ pound.

61 E 2439—Set of 3....**59¢**

Denonco Non-Chatter Transmission Bands

Their patented construction removes the chatter, jumping and jerking. Double hinged so they take hold evenly all the way around the drums and do not grab in spots. Faced with high quality lining. Linings can be renewed without removing the upper half of transmission case. Shipping weight, set, 3½ pounds.

61 E 2360—Set of 3.....**$4.95**

Transmission Tool

Band holder and wrench. Clamp holds the bands in position and the wrench handles the adjustment nuts. Wrench attached to clamp by a chain. Shipping weight, 7 ounces.

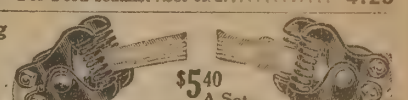
Improved Steel Built Shock Absorbers For Fords

$4.25

These Improved Absorbers are stronger, smoother riding, and far better in every way than any near this price. Patented features allow the easy acting coil springs to open further and more freely than any others ever could; so you may ride over the roughest roads without being jolted about. Your Ford will hold the road better and steer easier; the tires will last longer and repair bills will be less—for the soft, easy, smooth action of these eight-coil springs prevents even the little bumps from jolting the car and passengers. Special fastenings prevent the springs from coming loose. Improved drop-forged steel perches prevent springs hitting the brake drums. We know these absorbers are so much better than any cantilever style you've seen or tried, that we want you to prove every word we've said by purchasing a set and using them on your car for two months—60 full days. If you are not fully satisfied, send them back and we will return your money and all transportation charges. You may put on these absorbers yourself as there are no holes of any kind to drill. Shipping weight, per set of four, 18 pounds.

461 E 1893—For touring cars, roadsters and coupes. Set of 4.....**$4.25**
461 E 1894—For Ford sedans. Set of 4..... **4.25**

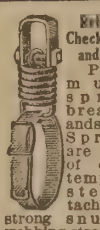
Easy Acting W. X. Shock Absorbers



$5.40 A Set

W. X. Shock Absorbers will make your Ford ride as smoothly as more expensive cars with longer wheel bases. A wrench is the only tool needed for installing them. Quickly and easily put on. Owing to the changing fulcrums of the levers from normal to full load, greater flexibility of action is obtained. This feature, combined with the high grade compression springs at each corner of the car, assures easy riding and makes breaking impossible. Stop on the lever prevents regular springs touching axle. Shipping weight, set, 14 pounds.

461 E 2173—For touring, roadster and coupe. Set of 4. **$5.40**
461 E 2174—For Ford sedan. Set of 4..... **5.40**



Extra Heavy Check Spring and Strap

Prevent much spring breakage and shocks. Springs are made of oil-tempered steel attached to strong snubber webbing straps. No holes to drill. Will fit all Ford models. **For rear only.** Shipping weight, 3½ pounds.

This Support holds up the running boards, braces the fenders and stops the rattling. Brace consists of angle steel crosspiece with hooks and two short pieces of board to put beneath metal steps. Has adjustable clamps. Shipping weight, 13 pounds.

161 E 2347.....**$1.10**

Pressed Steel Brake Shoes

Exceptionally strong and unbreakable, saving you shoe replacement cost. Lined with high quality brakeband lining. Prevent grabbing—but will lock wheels if necessary. Lining quickly replaced when worn. One-piece shoes. Best steel. Fit all Fords 1909–1923. Shipping weight, per pair, 4 pounds.

61 E 2512—Per pair **$1.25**

Zim Wheel Retainers

This is a safety device that should be on every Ford. It gives valuable protection against damage in case the rear axle breaks as it prevents the wheel coming off which is very dangerous on many country roads or on crowded streets. It also holds the wheel on so you can be towed if the axle breaks. Shipping weight, per pair, 8 ounces.

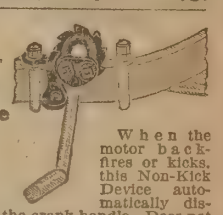
61 E 2398—Per pair.....**48¢**

Steering Column Brace

Strengthens and makes steering column rigid. Steering wheel is often used as handle in getting in and out of car. This frequently bends or breaks steering column. Finished in black enamel and furnished with bolts. Fits all models. Shipping weight, 14 ounces.

61 E 2326.....**58¢**

Non-Kick Device For Fords



When the motor backfires or kicks, this Non-Kick Device automatically disengages the crank handle. Does not interfere with cranking. Made of heavy steel. Slips right over crank handle—it is not necessary to remove the crank. Shipping weight, 2 pounds.

61 E 2294—For 1920 and older models.....**$1.55**

61 E 2291—For 1921–23 models.....**1.55**

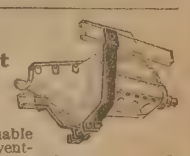
Crank Arm Support Fits All Models

52¢

If the crankcase arm breaks, use this simple, inexpensive device instead of laying up your car and spending many dollars for repairs. May be put on quickly. Boiler plate steel. Ship. weight, 2½ pounds.

61 E 2548.....**52¢**

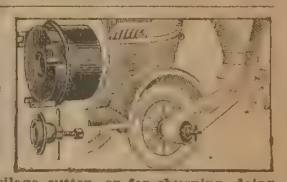
Motor Support For Fords



A valuable aid in preventing broken crankcase arms. It forms a cradle support under the motor from the strong frame which relieves the side arms of much strain, greatly reducing vibration and making the motor run smoother. Hard roads and bumps will not break arms with this support. Not necessary to remove motor. Easily put on. Shipping weight 4 pounds.

61 E 2348.....**95¢**

Economy Power Pulley for Fords



Why let your Ford stand idle? Use this inexpensive, easily attached Pulley for running the cream separator, grindstone, ensilage cutter, or for churning, doing washing, pumping water or sawing wood. Equal to 8 horse power gas engine. Outfit consists of an iron pulley, 10 inches in diameter, 5 inches wide, which slips over rear hub and is held by special hub cap. Jack up the wheel and your Ford is ready for work. Belt not included. Shipping weight, 24 pounds.

461 E 2317—For Ford cars.....**$5.25**
461 E 2188—For Ford 1-ton truck. Shipping weight, 35 pounds, 12-inch pulley.....**$7.75**

Lighting Supplies and Warning Signals for Fords

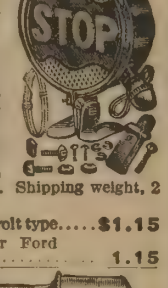
$5.95 A Pair

Beautiful Drum Type Headlights for Fords

These magnificent new Drum Type Lights will dress up and beautify your Ford in a most pleasing manner. They are exactly the same style as the lamps now furnished on the most expensive new model cars. The body of the lamp is one piece with a handsome brilliant black enamel finish. A wide attractive nickel and black rim holds the non-glare lens securely so they will not turn. In every way these lights are of superior construction and we know they will completely satisfy the most critical Ford Owner. Fit all models 1915-1923. Ship. wt., per pair, 12 lbs.

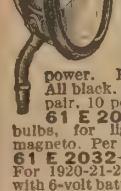
61 E 2087—With 6-volt bulbs. Per pair.....**$5.95**
61 E 2088—With 9-volt bulbs for Ford Magneto. Pair..... 6.05

Stoplight



An automatic signal device that warns the drivers back of you. Switch connects to foot brake or clutch pedal so when you stop, a strong, bright light is flashed instantly. Diameter, 4¼ inches. High grade single contact bulb. Waterproof type switch. Ruby lens. Shipping weight, 2 pounds.

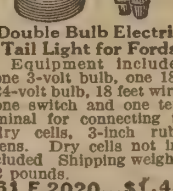
61 E 6781—6-volt type.....**$1.15**
61 E 6789—For Ford magneto..... 1.15



Electric Headlights for Fords

Heavy French roll doors; diameter, 9 inches; reflectors highly silver plated, adjustable focusing device; 21 candle power. Ediswan connections. All black. Shipping weight, per pair, 10 pounds.

61 E 2016—With 9-volt bulbs, for lights operated from magneto. Per pair.....**$3.80**
61 E 2032—With 6-volt bulbs. For 1920-21-22-23 Fords equipped with 6-volt battery. Per pair**$3.80**



Double Bulb Electric Tail Light for Fords

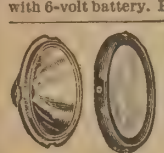
Equipment includes one 3-volt bulb, one 18–24-volt bulb, 18 feet wire, one switch and one terminal for connecting to dry cells, 3-inch ruby lens. Dry cells not included Shipping weight, 2 pounds.

61 E 2020...**$1.48**

49¢ Electric Dash Lamp Needed by All Fords

For wood or steel dash. Made especially for Fords. Convenient, useful and easy to install. Gives plenty of light for you to see the speedometer or clock. About two inches long. Has self contained switch; 6–8 volt bulb included. Single contact. Ship. weight, 6 oz.

61 E 2029.....**49¢**



Headlight Parts

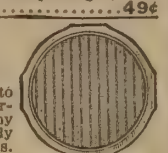
Fit perfectly on all lamps for 1915 to 1923 models. Doors complete with glass. Black enameled rims.

61 E 2003—Headlight door, all black (replaces Ford No. 6594X). Shipping weight, 2 pounds. Each.....**37¢**
61 E 2025—Headlight Reflector. Highly polished, silver plated (replaces Ford No. 6585X). Shipping weight, 1½ pounds. Each....**49¢**

McKee Lens

Designed to destroy head-light glare yet gives excellent driving light. Squared sides. Fit all Ford lamps. Shipping weight, pair, 2¼ pounds.

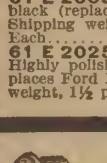
61 E 6849—Pair...**79¢**



Hudson Lens for Fords

Very similar to new type furnished on many Fords. Comply with state laws. Completely break up the blinding glare so dangerous to others, yet gives a clear driving light. Our price for these lenses is less than often asked for the plain type. Squared sides prevent turning. Size, 8⅛ inches. Shipping weight, per pair, 2¼ lbs.

61 E 6862—Per pair.....**37¢**



47¢ Electric Tail Light for Fords

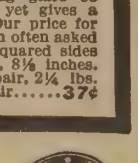
Ruby semaphore lens; white side light. Black enameled shell. Shipping weight, 12 ounces.

61 E 2022—For Fords with prop bolt; 18-24-volt double contact bulb, for magneto.....**59¢**
61 E 2026—Single contact bulb for battery.....**47¢**

Generator Cut-out for Fords

If your ammeter indicator hand remains on zero or wobbles, the trouble usually is in the generator cut-out. This reliable Cut-out fits present screws and wiring without alterations. Shipping weight, 9 ounces.

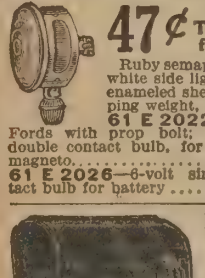
61 E 2355.....**69¢**



Guaranteed Ammeter for Fords

Direct current. Same type as supplied on Fords. Flush mounting flange, diameter 3 inches. Registers charge and discharge up to 20 amperes. Diameter of body, 2¼ inches. Face and dial black enamel finish. Shipping weight, 1 pound.

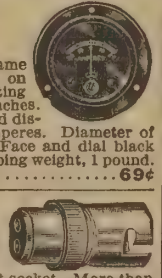
61 E 2144.....**69¢**



Beauty Hood for Fords $3.85

If your old Hood is damaged, rusty or worn out, replace it with this new Beauty type which fits all 1917 to 1923 Fords. Many Ford owners use it to dress up the car, as the small flares look neater. The many additional side openings make it better looking and provide greater outlet for the hot air around the motor. It will help to keep your motor cool. Fits perfectly. Lustrous black, enamel finish, baked-on. Our price will save you money. Shipping weight, 18 pounds.

461 E 2354.....**$3.85**



Brite Lite Plug for Fords

For lights operated by the magneto. Attaches in right hand headlight socket. More than doubles the volume of light at all engine speeds and provides strong, reliable light for slow engine speeds. Keeps one bulb alive if other burns out. Nothing to wear out. Shipping weight, 3 ounces.

61 E 2056.....**29¢**

48¢ Aluminum Hub Caps

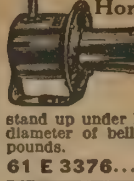
You will enjoy the delightful change these neatly designed Aluminum Hub Caps will make on this conspicuous part of the car. Brightly polished, always look nice and will not rust. Shipping weight, 10 ounces.

61 E 2687—Set of 4.....**48¢**

30 x 3½ Wheels for Fords $2.89

Those who have 30 by 3 wheels in front can fit their cars with 30 by 3½ tires all around. These wheels fit front or rear hubs. Regular clincher rim (not demountable). Well seasoned hickory, black finish. Shipping weight, each, 19 pounds.

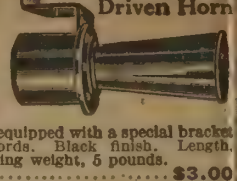
161 E 2270—Each..... **$2.89**



Hand Horn

You are sure it will work in all emergencies. Mechanism is simple and operates easily. Special bracket fits either right or left side of car and is arranged for easy attaching. Body and arm of pressed steel, beautifully enameled black. Will stand up under hard service. Length, 10 inches; diameter of bell, 5 inches. Shipping weight, 4 pounds.

61 E 3376.....**$2.25**

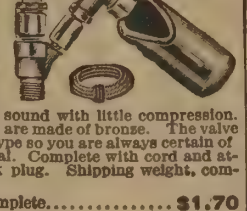


Electric Motor Driven Horn

A better, more dependable Horn for Ford cars. It gives a loud clear warning. A motor rotates against the horn diaphragm. Tone can be varied by a simple adjustment. It operates from 6-volt storage battery. It is equipped with a special bracket to attach to all Fords. Black finish. Length, 10¾ inches. Shipping weight, 5 pounds.

61 E 2034.....**$3.00**

Loud Tone Compression Whistle



$1.70

Special attachment fits ½-inch spark plugs, making it suitable for Fords. The bell of the Whistle is made of aluminum and so shaped that it gives a penetrating sound with little compression. The attaching parts are made of bronze. The valve is the self cleaning type so you are always certain of a strong, clear signal. Complete with cord and attachment for spark plug. Shipping weight, complete, 2 pounds.

61 E 3445—Complete.....**$1.70**

Four-Tone Melody Chime Horn for Fords

$5.25

Will clear the road for you quickly because of its distinctive sound. Tone is varied by regulating the pressure on the control lever. It is well made of brass, nickel plated. The malleable iron valve fits Ford exhaust pipe without removing the pipe. Outfit includes the chime horn, valve, nickel plated control lever, wire cable, pulley and attachment for fitting all Ford models. Shipping weight, complete, 5½ pounds.

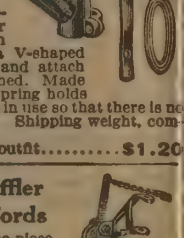
61 E 2384—Complete.....**$5.25**

72¢ Cut-out Outfit for Fords

Helpful for all hill climbing and hard pulls as it eliminates back pressure. Aids in testing the motor, as each explosion is distinct. Attached by cutting V-shaped hole in exhaust pipe without removing pipe. Furnished complete with cut out valve, lock pedal, cable, pulley and spring. Shipping weight, complete, 2½ pounds.

61 E 2333—Complete outfit.....**72¢**

Muffler Cut-outs for Fords

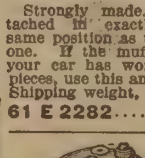


$1.20

Extra heavy and serviceable Cut-out, much better than type generally used on Ford cars. Simply cut a V-shaped hole in the exhaust pipe and attach with special clamps furnished. Made of strong casting. A coil spring holds the cut-out closed when not in use so that there is no noise from the explosions. Shipping weight, complete, 3 pounds.

61 E 2959—Complete outfit.....**$1.20**

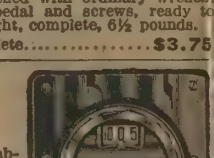
Never Miss Horn Button



A handy, easily touched Horn Button built right into a strong nut which replaces the present nut on top of the steering wheel. Fits all Fords. Complete with wire. Shipping weight, 3 ounces.

61 E 2082.....**38¢**

Combination Muffler and Cut-out for Fords



$3.75

A very strongly built one-piece Muffler with automatic relief valve which will withstand terrific explosions such as would blow ordinary mufflers to pieces. Fitted with a cut-out for testing the motor. Body of muffler is a one-piece casting with no bolts, plates, nuts or rivets to work loose or rattle. Attached with ordinary wrench. Complete with foot pedal and screws, ready to attach. Shipping weight, complete, 6½ pounds.

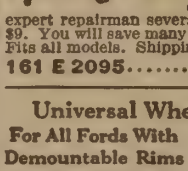
61 E 2367—Complete.....**$3.75**

Muffler for Fords

Strongly made. Attached in exactly the same position as the old one. If the muffler on your car has worn out, rattles, or is blown to pieces, use this and get best results at a low price. Shipping weight, 4 pounds.

61 E 2282.....**89¢**

Hudco Transmission Cover

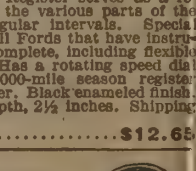


$7.85

A patented, complete Cover to replace regular Ford transmission cover. Has removable section which enables you to change transmission bands in 20 minutes. When old style cover is used, this job takes expert repairman several hours, at a cost of $6 to $9. You will save many dollars by using this cover. Fits all models. Shipping weight, 40 pounds.

161 E 2095.....**$7.85**

Stewart Speedometer for Fords



A Speedometer is absolutely essential for you to know you are getting the proper results from your gasoline, oil and tires—it is the only way you can accurately check up service. Then there is the added advantage of knowing how fast you are going. This is the very latest model, fitted with improved colored dial. Register serves as a reminder to oil or grease the various parts of the motor or chassis at regular intervals. Special charts furnished. For all Fords that have instrument or cowl board. Complete, including flexible shaft and swivel joint. Has a rotating speed dial (60-mile capacity)—100,000-mile season register and a 100-mile trip register. Black enameled finish. Diameter, 3⅜ inches; depth, 2½ inches. Shipping weight, 11 pounds.

61 E 2197.....**$12.65**

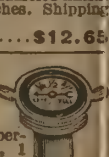
Universal Wheels For All Fords With Demountable Rims

$3.25

This Wheel replaces any demountable rim wheel for Fords no matter which style of rim is used. It takes any of the following rims without any alterations or special fittings—Kelsey, Hayes, Firestone, Jaxon, Cleveland, Perlman, Baker, Standardized Rubsam, Detroit and many others. It is exceedingly strong being made of guaranteed first class hickory fitted with the steel felloe, same as used on all standard equipment for years. Rim not included. Ship. wt., each, 21 lbs.

61 E 2243—Each.....**$3.25**

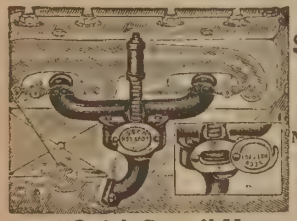
Gasoline Gauge



A reliable, easily read Gauge that takes the place of the screw cap in the gas tank. Indicator is operated by a float. Shipping weight, 1 pound.

61 E 2161—For Ford open cars and Coupes with round tank.....**69¢**
61 E 2956—For Ford open cars with oval tank.....**69¢**
61 E 2681—For all Ford Sedans and Coupes with square tank.....**69¢**

Cold Weather Necessities



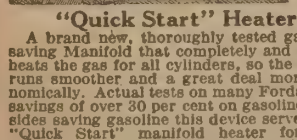
$5.65

"Quick Start" Heater

Hot Spot Manifold with the

A brand new, thoroughly tested gasoline saving Manifold that completely and evenly heats the gas for all cylinders, so the engine runs smoother and a great deal more economically. Actual tests on many Fords show savings of over 30 per cent on gasoline. Besides saving gasoline this device serves as a "Quick Start" manifold heater for cold weather. On cold mornings, by using the heater you can start the motor as quickly at 10 degrees below zero as you can in summer. This saves the battery and starter. Aluminum construction. Easy to attach. Replaces regular intake manifold. Shipping weight, 4½ pounds.

61 E 2694.....**$5.65**



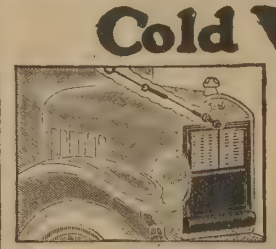
Saves Gasoline

50¢

Jiffy Intake Manifold Heater

The Jiffy Intake Heater covers the Ford intake and exhaust manifolds, making a stove around them so the hot exhaust manifold heats the intake manifold. The Jiffy will pay for itself in gasoline saved within a few days, and you will immediately notice the improvement in the running of your motor. The Jiffy can be put on in less than five minutes. Shipping weight, 2 pounds.

61 E 2382.....**50¢**



Dash Controlled

Radiator Shutter for Fords

The Economy Radiator Shutter is one of the newest and best improvements made for winter driving, as it gives the driver control over the water temperature without moving from the seat. Many motorists prefer this shutter to the high priced automatic types which sell for two or three times as much. When the motor is cold an easy pull closes the shutter. As the radiator warms up you may open the shutter. A spring roller on the shutter and a locking device on the dash give you complete control of the shutter opening by simply pulling the easily reached cable. Radiators freeze at the bottom first so the Economy Shutter works from the bottom to the top giving full protection to the lower part. If your motor is too cold or too hot it wastes gasoline—with this shutter you regulate the temperature to get the best results. The saving in gasoline for one season will generally pay back the cost of the shutter. If you are going to stop the car, the shutter may be closed a short time before, so there will be more heat in the radiator to protect it while standing. Another important feature is that you save on alcohol or non-freezing solutions. Imitation leather with heat retaining inside lining. Fits all Fords 1917–23. Shipping weight, 4 lbs.

61 E 4250.....**$4.49**

$1.30 Radiator Covers

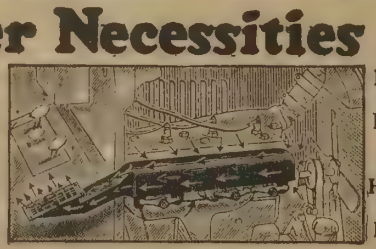
Radiator Covers only. High grade black enameled cloth or imitation leather lined with thick material. Front curtain divides at center and fastens with straps and snaps. Average shipping weight, 1½ lbs.

Enameled Cloth

61 E 2603—For 1916 and older models.....**$1.30**
61 E 2604—Fits 1917 to 1923 models.....**$1.30**

Imitation Leather

61 E 2623—Fits 1917 to 1923 models..... 1.55



Kingston Register Type Heater for Fords

Drive all winter and be comfortable by using this efficient easily installed Kingston Heater. It furnishes a constant supply of pure, fresh, warm air without any cost to operate. Carefully built to fit over the manifold and attach to the floor board. Fresh air is heated by passing through the cover over the manifold. The register in floor board has a two-way valve which is opened or closed by a touch of the foot. You can put it on easily. Made of heavy gauge metal with a baked-on black enamel finish. Furnished complete ready to install. Adjustable to fit all open or closed models. Shipping weight, 3½ pounds.

61 E 2244.....**$2.89**

$2.65

Radiator and Hood Covers

Neat, snug fitting covers that are easily attached by means of metal clips and may be easily detached. Made of imitation leather or enamel cloth heavily lined. Filler hole and handles are reinforced with fabric. Front curtain divides at center and fastens with straps and snaps. Average shipping weight, 3¼ pounds.

61 E 2601—For 1916 and older models....**$2.65**
61 E 2602—For 1917 to 1923 models..... 2.95

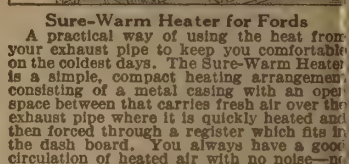
Imitation Leather

61 E 2621—For 1917 to 1923 models..... 3.65

Sure-Warm Heater for Fords

A practical way of using the heat from your exhaust pipe to keep you comfortable on the coldest days. The Sure-Warm Heater is a simple, compact heating arrangement consisting of a metal casing with an open space between that carries fresh air over the exhaust pipe where it is quickly heated and then forced through a register which fits in the dash board. You always have a good circulation of heated air with no noise—no odor—no gases. You simply place the heater over the exhaust pipe and tighten the manifold clamps over two metal strips, then place register in dash board. Shipping weight, 4 pounds.

61 E 2320.....**69¢**



Comfort Heater for Fords

An entirely new model Heater that will furnish sufficient heat to keep you very comfortable in the coldest weather. Made of metal and designed so it fits over the exhaust pipe and beneath the floor board of all models. It carries the heat to the pedal openings so it is not necessary to cut or alter the boards. Exhaust pipe fits in opening in the heater so you do not have to cut the pipe or drill holes. Screwdriver only tool needed. A regulator varies the temperature. No gases, odor or noise from the exhaust. Shipping weight, 4½ pounds.

61 E 3589.....**$1.25**

Turn to Pages 698 and 699 for warm, serviceable Motor Robes

For Fords

Counterbalanced Crankshaft

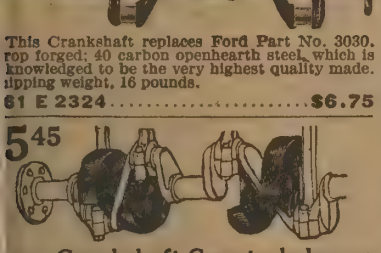
The marvelous improvement this Counterbalanced Crankshaft makes in the Ford motor has caused thousands of owners to discard the regular part. The power impulses are smoothed out so remarkably that the motor may be slowed down till it barely turns, or run at high speed with scarcely a sign of vibration. We guarantee these to be the very finest, perfect fitting, one piece drop forged crankshafts with all wearing parts machined and polished to a glassy surface. Shipping weight, 7 pounds.

61 E 2093.....**$14.25**

Crankshaft for Fords

This Crankshaft replaces Ford Part No. 3030. Drop forged; 40 carbon openhearth steel, which is acknowledged to be the very highest quality made. Shipping weight, 16 pounds.

61 E 2324.....**$6.75**

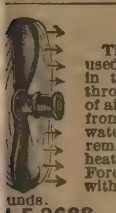


5.45

Dunn Crankshaft Counterbalances

A great aid in preventing strain on the crankshaft and in reducing wear on the bearings. Makes the motor operate more smoothly at all speeds, as the counterbalances carry pistons over the gap between the explosions and smooth the power impulses. Fit on easily and can not come off. Shipping weight, per set, 12 pounds.

61 E 5006—Set of 4.....**$5.45**



Aero Sure-Cool Fan

The same scientific design that is used for aeroplane propellers is used in this new 2-blade Aero Fan. It throws an exceptionally strong current of air straight back, forcing heat away from the engine as well as keeping the water in the radiator cooler. This is a remarkable help in preventing overheating on hot days. Fits all 1915-1920 Fords. Made of heavy steel, complete with pulley. Shipping weight, 1½ pounds.

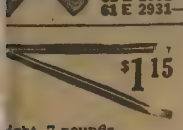
61 E 2688.....**$1.10**

68¢

Fan for Fords

Replaces regular Ford fans. Complete with pulley assembly. Shipping weight, 1½ pounds.

61 E 2932—For 1909-20 Fords. **68¢**
61 E 2931—For 1921-23 Fords. **72¢**



$1.15

Radius Rod for Fords

If your radius rod is bent even slightly, replace it before trouble occurs. Shipping weight, 7 pounds.

61 E 2851—For Fords up to 1920. Replaces Part No. 2733.....**$1.15**
61 E 2380—For 1920-23 Fords. Replaces Part No. 2733B.....**$1.15**

Cork Gasket Set

12 pieces of high grade compressed cork. Most engine manufacturers use Cork Gaskets. A gasket leak around your engine is dangerous, expensive and dirty. Shipping weight, per set, 2 pounds.

61 E 2965—Per set. **32¢**

Felt Washer and Gasket Set for Fords

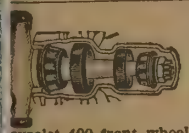
Complete set of Washers and Felt Gaskets for Ford cars. The set includes two each of Numbers 2510B, 2809, 3111, 3377 and 3451, one each of 2580, 3070, 3071, 3102, 3379, 3363 short, 3363 long, 3544, 3279 and 3012. Shipping weight, per set, 6 ounces.

61 E 2566—Per set.....**27¢**

Grease Retainers for Ford Rear Axles

Rear wheel grease leaks are expensive, dangerous and very dirty. When grease works out into the brakes it allows them to slip which may cause a serious accident. These Retainers fit over the axle shafts and have a screw feed action that carries the grease back toward the differential. Shipping weight, per pair, 11 ounces.

61 E 2515—Per pair.....**53¢**



Roller Bearings for Ford and Chevrolet 490 Front Wheels

The bearings shown above are of the roller type used so extensively. Will fit Ford or Chevrolet 490 front wheels and spindles perfectly. May be used to replace ball bearings on old model Fords. The bearings are of tapered pattern and are held in position by the small projections in the retainer. Set includes bearings and retaining sleeves for both front wheels. Shipping weight, 3 pounds.

61 E 2269—Per set.....**$3.50**

Bushing Reamers

Very fine quality tool steel Reamers, highly polished, accurately finished. Very essential tools at overhauling time. Shipping weight, 10 ounces.

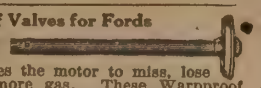
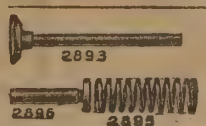
61 E 2882—Piston Pin; replaces Part No. 3022. Shipping weight, 4 ounces.....**17¢**

Warpproof Valves for Fords



Ordinary valves for Fords very often warp, which causes the motor to miss, lose power and use more gas. These Warpproof Valves are made of a specially treated metal which is guaranteed not to warp even though your motor becomes intensely hot. This means a very noticeable saving in gasoline and repair bills, as you will have better compression and more power without having to continually grind the valves. Shipping weight, each, 4½ ounces.

61 E 2838—With regular size stem. Each.....**21¢**
61 E 2037—With ¼-inch oversize stem. Each.....**21¢**



Valves, Valve Spring and Push Rod

Shipping weights: Valves, 4 ounces; spring and rod, 2 ounces each.

Engine Gaskets

Well made of copper and brass and lined with asbestos. Fit all Fords. Set consists of one cylinder head gasket; one cylinder head water outlet gasket; one cylinder head water inlet gasket; one carburetor flange gasket; six inlet and exhaust pipe gaskets.

61 E 2564—Complete set. Shipping weight, 14 ounces.....**33¢**
61 E 2869—Head Gasket only. Shipping weight, 5 ounces.....**24¢**

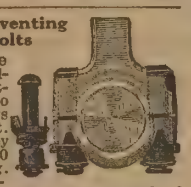
$4.95

Cylinder Head For Fords

Note the saving! Guaranteed perfect fit fitting. Carefully machined cast iron. Replaces Part No. 3001. Shipping weight, 33 pounds.

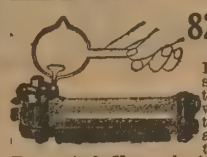
161 E 2094.....**$4.95**

Automatic Knock Preventing Connecting Rod Bolts



As wear occurs in the bearings the little self adjusting springs automatically take up the play so the bearings are always snug—but not too tight. On many severe tests they have gone 50,000 to 75,000 miles without adjusting. No special tools—no grinding or scraping, no shims needed to install, made of finest nickel steel, heat treated. Shipping weight, 1¼ pounds.

61 E 2092—Set of 8.....**$2.65**



82¢

Connecting Rod Babbitting Jig

This device holds the Ford connecting rod in such a position that when the babbitt is poured it will have the correct centers. Very accurate and arranged so that the metal takes a perfect seat. Economical. Uses only few cents worth of high-speed babbitt. No scraping necessary. Made of cast iron and steel. Suitable for Ford owners and garage men. Shipping weight, 2¾ pounds.

61 E 2447—Each.....**82¢**

Parts for Fords

All parts on these pages are guaranteed. Part numbers are same as used by Ford, but the parts are not made by the Ford Company.

Nu-Power Piston Rings for Fords

Give Old Fords New Power

If your motor is weak and unable to take hills and mud on high, the trouble may be in faulty or worn piston rings. Nu-Power Piston Rings insure strong compression in the cylinders, stopping that waste of fuel and loss of power, and make your engine produce its best. Made in 3 pieces which fit the cylinder snugly all around. They often save expensive cost of reboring and fitting of new pistons. Accurately made. Shipping weight, each, 4 ounces.

61 E 2558—Regular size. Each.....**60¢**
61 E 2583—.0025 Oversize. Each.....**60¢**
61 E 2584—.03125 Oversize. Each.....**60¢**

Complete Pistons For Fords

Made of gray iron with carefully fitted stepcut piston rings. Tight fitting pistons will give you a smooth running engine, increased power, more mileage from gasoline and oil. Oversize pistons are often the only successful remedy for motors that "pump" or "throw" oil.

Piston rings, pin and bushings included. Shipping weights: 2¾, 3 and 3 pounds.

Number	Part	Name of Part	Each
61 E 2961	3020	Piston standard size	$1.18
61 E 2962	3020C	Piston complete, .0025 oversize	1.18
61 E 2963	3020D	Piston complete .03125 oversize	1.18

20¢ Each

Quick Seating Oil Groove Piston Ring For Fords

A groove cut near the edge of each Ring holds a quantity of oil, thus forming a film that prevents excessive oil getting up past the pistons and gives better compression. This saves oil and gasoline; also lessens spark plug troubles. Quick seating type which fits tightly in a short time. Shipping weight, each, 3 ounces.

61 E 2950—Regular size. Each.....**20¢**
61 E 2951—.0025 oversize. Each.....**20¢**
61 E 2952—.03125 oversize. Each.....**20¢**

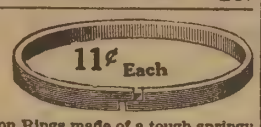
Piston Innerings For Fords

$2.40 A Set

If your motor uses too much gasoline and oil—if your cylinders are worn and the pistons slap, use these Nu-Power Innerings. Save the expense of reboring, fitting new piston rings, etc. Simply place the Innerings under any make of one-piece piston rings. They expand the piston rings outward against the cylinder walls so you are certain of increased power and a big saving in gasoline and oil. Made of fine imported steel. Guaranteed not to lose their springiness. Use one innering under each piston ring. Innerings also may be used under piston rings up to 3/16 inch oversize. Shipping weight, per set, 6 ounces.

61 E 2043—Set of 12.....**$2.40**

Quick Seating Stepcut Ring



11¢ Each

Regular Piston Rings made of a tough springy metal. Standard one piece rings at money saving prices. Shipping weight, each, 3 ounces.

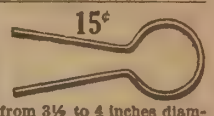
61 E 2837—.0025 oversize. Each.....**11¢**
61 E 2879—.03125 oversize. Each.....**11¢**

Piston Ring Compressor



15¢

A slight pressure on the handle produces enough leverage to compress even new and stiff rings. Made of tough springy steel. Fits rings from 3½ to 4 inches diameter. Shipping weight, 8 ounces.

61 E 9196.....**15¢**

Finest Quality Differential Gears

The 2¾-to-1 ratio Gears are particularly desirable for very fast driving or racing cars. The 3-to-1 gears are for fast driving over country roads. The 4-to-1 gears are used where more power is needed. The pinion gear is nickel gear steel. Perfect fitting and interchangeable with the present Ford gears. Shipping weight, per set, 4 pounds.

Ball Thrust Bearings for Fords and Chevrolet 490

The ordinary plain washers used in the rear axle often wear thin quickly and cause grinding, jerking and breaking of the differential teeth. The hardened steel balls rotate and wear very slowly, thus keeping the gears in proper mesh eliminating to a great extent backlashing and growling. Will fit perfectly in either Ford or Chevrolet 490. Shipping weight, each, 1 pound.

61 E 2477—Each.....**85¢**

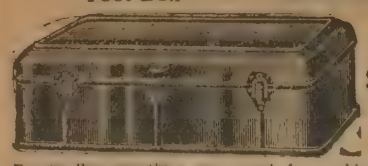
Ford Owners! You Can Do Your Own Repairing With These Wrenches

Running Board Tool Box



$1.55

Practically everything you need for making quick repairs about your machine may be carried in this tool box. It has large carrying capacity, yet it is so neat and shapely that it really improves the appearance of your car. The box is constructed of steel, black enameled. It is fitted with two trunk catches and a good lock. Size, 22 by 9 by 7 inches. Shipping weight, 9 pounds.

461 E 2276—Box only.....**$1.55**

Battery Box For Fords

92¢

This battery box completely covers the battery, keeping it clean and dry. A battery kept in this condition will last longer. It is quite simple to fit around the hanger, as the openings are properly cut to accommodate all wiring. The box is strongly made of heavy gauge metal, black enameled. Shipping weight, 6 pounds.

461 E 2437—Box only.....**92¢**

Gasoline Can

Holds an extra gallon. Heavy galvanized steel. Fits in space at side of Ford gas tank on touring cars, roadsters and trucks. Shipping weight, 2¼ pounds.

61 E 2390—.....**70¢**

Set of 6 Drop Forged Wrenches

This set consists of 6 Wrenches with twelve openings, specially made to fit every nut on a Ford car. New handy design. One thin wrench with offset bar for reverse gear and brake adjustments. Openings, ⅜, 7/16, ½, 9/16, ⅝, ¾, 11/16, 25/32, ⅞, 15/16. Thin wrench, ⅜, 11/16. Nuts and bolts which have been neglected on account of being hard to handle can be reached and turned easily. It is real economy to buy this set. You will have no trouble with openings spreading as with cheap wrenches. Shipping weight, per set, about 3 pounds.

61 E 2460—Set of 6.....**$1.65**

DeLuxe Set for Fords

$1.45

This set contains five of the most essential Wrenches needed in repairing and overhauling Ford cars. They fit practically every bolt and nut. The flywheel wrench has a specially designed socket, size 11/16-inch. The connecting rod wrench can be used on all rods. The reverse wrench is the ratchet type, with a screwdriver arrangement on the handle end. The triple socket wrench, with two ⅝-inch and one ½-inch sockets, and the double socket wrench with a 9/16-inch and a ¾-inch socket, have uses too numerous to mention. These wrenches are machine turned from solid steel bar and properly tempered. Black finish. Shipping weight, 5½ pounds.

61 E 2186—Set of 5.....**$1.45**

Time Saver Socket Wrench Set

For the motorist who does not have a socket wrench set we have made up a set of five of the most commonly used sizes of pressed steel hexagon sockets with a strong, quickly fitted handle. Priced at less than 3 sockets usually cost. Sizes of openings, ½, 9/16, ⅝, 11/16 and ¾ inch. Shipping weight, per set, 1 pound.

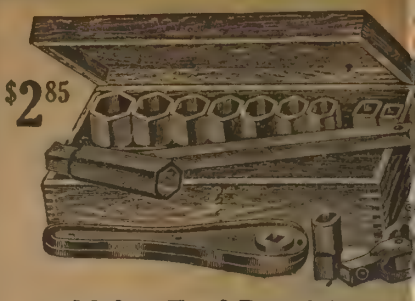
61 E 9499—Set of 5.....**33¢**

Foot Brake and Reverse Ratchet Wrench

With this wrench you simply slip the end over the adjusting nut and work back and forth. The ratchet does away with necessity of removing the wrench, so you may do the job more carefully and in quicker time. Shipping weight, ½ pound.

61 E 2383.....**35¢**

Special All Size Socket Wrench Set



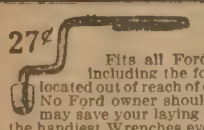
$2.85

Makes Ford Repairing An Easy Job

A time saver and a money saver. This Special Socket Wrench Set will help to keep your car out of the garage. With it you may tighten nuts and bolts that are usually left for the repairman because ordinary wrenches are hard to use. The sockets fit the nuts tightly, preventing battering up the edges, which makes nuts or bolts hard to turn. You don't have to keep removing the wrench for a new hold—simply work the ratchet handle back and forth. A fine socket for nearly every bolt and nut. Contains a new improved flat ratchet handle; one long extension rod; one universal joint; one pressed steel spark plug socket 3½ by 4 inches long, and ten other most popular sizes of guaranteed pressed steel sockets. The 1 7/32 and 1 9/32 hexagon sockets are tapered to hang nuts and bolts where ordinary sockets will not fit. Set is packed in strong wood box. Shipping weight, complete, 4 pounds.

61 E 2441—Complete set.....**$2.8**

27¢ Connecting Rod Wrench

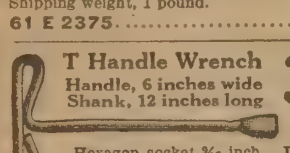


Fits all Ford connecting rods, including the fourth one, which is located out of reach of ordinary wrenches. No Ford owner should be without it: it may save your laying up the car. One of the handiest Wrenches ever made for Fords. Shipping weight, 1 pound.

61 E 2375.....**27¢**

T Handle Wrench 35¢

Handle, 6 inches wide Shank, 12 inches long



Hexagon socket 7/16 inch. Used on ball and socket joint, clutch release fork clamp, commutator case support, crankcase arm, engine bolts, cylinder cover, cylinder valve cover, fan adjustment, front radius rod ball, inlet and exhaust clamp, muffer bracket, radiator and transmission cover. Shipping weight, 1¼ pounds.

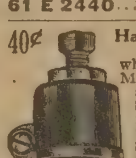
61 E 2376.....**35¢**

Triple Socket Wrench 29¢

One of the most useful Wrenches you can buy. It has two ⅝-inch hexagon sockets and one ½-inch hexagon socket. It will fit the axle housing bolt and nut, brakeshoe support bolt, cylinder head cap screw, dash bracket to dash bolt and nut, driveshaft roller bearing stud and nut, water cylinder inlet connection cap screw, water cylinder outlet connection cap screw. Shipping weight, 1 pound.

61 E 2440.....**29¢**

40¢ Handy Wheel Puller



Easy to disengage wheels with this puller. Made of malleable iron, accurately threaded. Steel set screw, round pointed, prevents injury to axle. Shipping weight, 1½ pounds.

61 E 2462..**40¢**

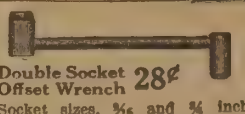
Make Repair Work Easy 46¢

Speed Wrenches

Long shank brace hexagon Socket Wrenches are used as speed tools in assembling and dismantling cars. Are most efficient when used on a series of the same sized nuts as on cylinder heads. To gain the most time in removing nuts, first release the nut with an offset socket wrench, then spin nut off with brace or speed wrench. These tools are big time savers and are considered indispensable in garages where they have been tried. Average shipping weight, 1½ pounds.

61 E 2370— 7/16-inch size..**46¢**
61 E 2371— ½-inch size..**46¢**
61 E 2372— 9/16-inch size..**46¢**
61 E 2373— 11/32-inch size..**46¢**
61 E 2374— ⅝-inch size..**46¢**

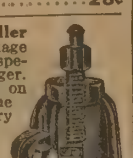
Double Socket Offset Wrench 28¢



Socket sizes, ⅝ and ¾ inch; handle, 9 inches. Used on brakeshoe support, crankshaft (main) bearing, fan bracket, steering gear post, steering post bracket, spindle bolt and nut, lamp bracket nuts, front spring clip nuts and the universal ball cap. Shipping weight, 1¼ pounds.

61 E 2377.....**28¢**

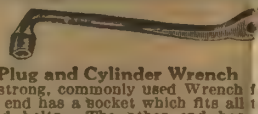
Mosco Wheel Puller



To avoid breakage this new type has a special knock-out plunger. Quick, sharp raps on plunger loosen the wheel without injury to the threads or puller. Shipping weight, 1¾ pounds.

61 E 2461.**$1.18**

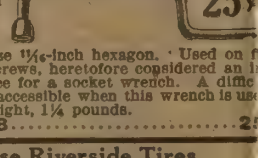
25¢ Spark Plug and Cylinder Wrench



This is a strong, commonly used Wrench for Fords. One end has a socket which fits all cylinder head bolts. The other end has an opening to fit Champion X and some other inch spark plugs. The open end is curved, making it easy to get at the spark plugs. Drop forged. Length, over all, about 10 inches. Shipping weight, 1½ pounds.

61 E 2301.....**25¢**

Flywheel Wrench 25¢



Socket, size 11/16-inch hexagon. Used on flywheel cap screws, heretofore considered an impossible place for a socket wrench. A difficult place made accessible when this wrench is used. Shipping weight, 1¼ pounds.

61 E 2378.....**25¢**

Use Riverside Tires

$1.00 Bolt and Nut Assortment

An outfit that will often pay back its price in time saved when making repairs on your car, tractor or farm machinery. It consists of cap screws, castellated nuts, square nuts, hex. nuts, bolts, set screws, rivets, cotter pins, lock washers, etc., in the sizes most used on autos, trucks and tractors. Carry a set in your car and keep another at home for it may save you many hours delay and a trip to town when you are real busy. Shipping weight, complete, 3 pounds.

61 E 3516—Assortment.....**$1.00**

Shipping weight, 5 pounds.

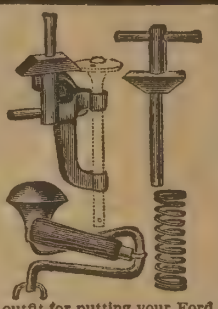
61 E 2550—Complete outfit.....**$5.45**



Complete Valve Grinding Set for Fords

82¢

A complete outfit for putting your Ford valves in the very best condition. This Set will give very good service; but for those desiring the quickest and easiest acting outfit, we recommend the Ward Special No. 61 E 2550. This low priced outfit includes swing type valve grinder; valve refacing tool; valve seat reamer and a spring. Shipping weight, outfit, 3½ pounds.

61 E 2682—Complete Outfit.....**82¢**

For Fords $1.29 Save-A-Man Speedy Wrench

One man with this wrench can remove all the bolts from engine base or transmission case where it fastens near the center in less time than it generally takes two men with ordinary wrenches. The sockets are carefully machined and are held in place by a coil spring. It holds the bolts and enables you to spin the nuts off or on very easily and quickly without requiring anyone else to hold the bolts. Shipping weight, 3 pounds.

61 E 2379.....**$1.2**

18¢ Riverside Valve Grinding Compound

Fast cutting. In double end box, containing a fine and a coarse grade. Contents, 4 ounces. Shipping weight, per box, 7 ounces.

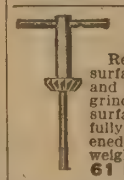
61 E 9308—Per box.....**18¢**

Water Mixed Valve Grinding Compound Ready for Use 25¢

Grinds faster than other kinds with same pressure. Leaves no rings or grooves. Beginner can do an expert job. Shipping weight, 6 ounces.

61 E 9302.....**25¢**

Valve Reseater



Reams a clean even surface much better and quicker than by grinding. Cutting surface made of carefully machined, hardened steel. Shipping weight, 10 ounces.

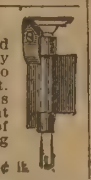
61 E 2560..**55¢**

Handy Valve Grinder

This good low low priced Grinder will fit all Ford valves. Made of steel, wood handle with a new design special swivel arrangement that works faster and a lot easier than the old style. Shipping weight, 8 ounces.

61 E 2396.....**25¢**

Valve Refacer



When Ford valves are badly pitted it is hard to get a perfect seat. This refacer trims valves to the right angle. Blade of tool steel. Shipping weight, 6 ounces.

61 E 2561.**29¢**

26¢ Valve Lifter for Fords

The ratchet holds it in position requiring no holding while removing valve pin. Simply constructed and easily handled. Length, 11 inches. Shipping weight, 1½ pounds.

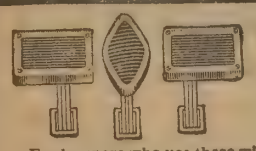
61 E 2556..**26¢**

Valve Adjusters

If your valves have an annoying click order a set of them at once. They are made to take up the wear and lost motion between the ends of valve stems and push rods. They will silence the click and noise. Complete set consists of 8 cups and sufficient discs. Shipping weight, per set, 3 ounces.

61 E 2563—Complete set.....

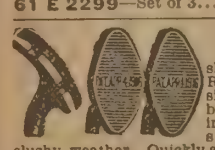
Rives Pedal Pads for Fords 78¢



Ford owners who use these wide extension Pedals tell us they wouldn't think of driving again without them. The extra width of the pedal combined with the rubber foot rest, makes driving much more pleasant and safer. Three pedals in set, two wide and one narrow for reverse pedal. Shipping weight, per set, 1½ pounds.

61 E 2299—Set of 3.....**78¢**

Pedal Pads



Prevent feet from slipping off pedals. Rubber composition with metal bands for attaching. Especially desirable in wet, slushy weather. Quickly and easily attached to pedals. Shipping weight, per set, 8 ounces.

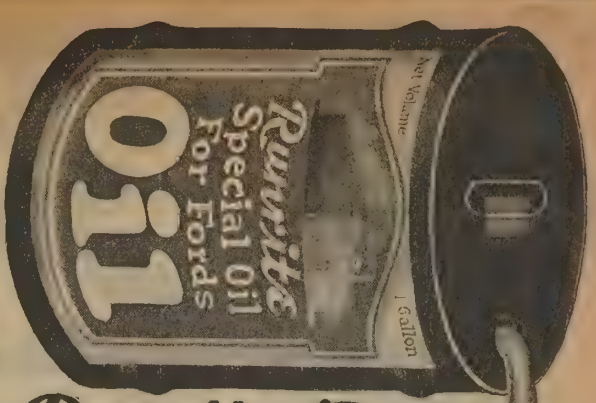
Ward's Runrite Oil



42¢ Ward's Runrite Automobile Oils

A Gallon
In 50-Gallon Wood Barrels

As in everything at Ward's, **quality** is the first thought in the selection of our Oils. Have the advantages enjoyed by thousands of our automobile customers: smoother running, cleaner spark plugs, thorough lubrication of all moving parts at any temperature, and unusual mileage on gasoline as well as oil! Ward's Runrite has passed the severest tests of our laboratory experts as well as actual use on the road and the tremendous volume of business we do annually enables us to give you the benefit of very substantial savings. Why not **prove** this better performance and greater saving at our risk? Order enough Runrite to fill your crankcase. Test it out thoroughly—compare it with any oil you can buy. Then if you are not honestly delighted with the results, just say so, and we will refund your money in full, plus transportation charges!

Ward's Runrite Special Oil for Fords 38¢

A Gallon
In 50-Gallon Wood Barrels

Yes—Fords **do** need a special oil. They carry high speed motors cooled by the thermo-siphon system. Temperatures are higher than most motors. If they are to operate efficiently and economically, they must have a suitable oil. Ward's Runrite is exactly such an oil. This special oil for Fords has successfully passed every laboratory and road test for lubricating qualities at high temperature, and thousands of "repeat" customers use it the year 'round.

Ward's Runrite is so low priced that many Ford owners will want its quality **proved** to them. Send us your order for two gallons or more of Runrite Oil. Refill your crankcase with it, and run your motor a sufficient number of miles to test it out thoroughly. Then if you are not MORE than pleased with Runrite in every way, we will refund both your purchase price and any transportation you may have paid. **You won't be out a single penny.** You will find Runrite Oil for Fords aids your motor to deliver maximum power from a minimum amount of gasoline—more mileage to the gallon—lubricates perfectly at all speeds and temperatures, and is ideally suited to the splash system of lubrication. Why not order a barrel today and save yourself real money? The standard Ward guarantee is your protection!

Ward's Runrite Tractor Oils

Never buy poor Oil! For tractor use, particularly, you need the best oil obtainable. Ward's Runrite for Tractors has been refined to meet all heavy-duty operating conditions to your fullest satisfaction. It stands up under the hardest kind of tractor work, reducing friction and lubricating every moving part efficiently. If you never have used Ward's Runrite for Tractors, you will be very agreeably surprised at the unusual saving you make at no sacrifice of quality in the slightest! A trial order will convince you, and you can make it entirely at our risk—every cent refunded if you are not satisfied. Three grades are furnished: Medium, Heavy and Extra Heavy.

Shipped in dust-tight, dirtproof containers.

Shipped Promptly from Chicago

Transmission Oil

A heavy Oil especially blended for auto or tractor transmission. Has sufficient body to effectively reduce gear noise, yet is thin enough to insure thorough coating of every gear and bearing surface with a protective, frictionless film of oil. Penetrates into innermost niches; circulates constantly and lubricates thoroughly.

Gasoline Engine Oil

For all makes of stationary and portable gasoline engines. It is a medium bodied Oil, ruby color, with a high fire test. Forms a constant film of oil in the cylinders and makes the engine produce maximum power from minimum fuel. When Ward's Runrite Gasoline Engine Oil is used, there is less friction. Although not what is known as a heavy oil, this has just enough body to seal the space between the head and inner cylinder wall, preventing leakage of gas into crankcase and insuring compression.

Reliable Cup Grease

For general machine use and for automobiles. Our own product. Our greases lubricate properly in any style grease cup.

Use **Soft** for pillow blocks or crossheads; **Medium** for general purposes (for auto hubs and cups); **Hard** for heavy open bearings and screw cups.

All automobile owners know that their cars wear out from excessive friction caused by insufficient oiling and greasing. Prolong the life of your car by using Ward's Reliable Cup Greases liberally.

Size Pail	Soft	Medium	Hard	Price
1-pound	75 E 1400	75 E 1405	75 E 1410	$ .16

Graphite Axle Grease

10¢ 1-Pound Box

$2.00 25-Pound Pail

Made from a graphite base that gives better lubrication and lasts longer. We freely recommend its use on slow speed bearings and pumps, as well, as for axles of buggies, wagons, etc. Its lubricating qualities are lasting, does not "run" readily.

575 E 1490— 1-pound box..$ .10
475 E 1492—10-pound pail .90
475 E 1493—25-pound pail 2.00

Steam Cylinder Oil

A medium bodied, dark green colored Oil, made especially for proper lubrication of steam cylinders and valves.

An oil so compounded that steam at high pressure will not wash it off the cylinders. A thin coat remains between the moving parts and prevents friction and wear.

Harvester Oil

A heavy bodied, dark, green Oil which may be used on all types of harvesting machines.

It reduces friction and will not gum or corrode bearings.

An oil that will stand considerable heat.

Cuts off without a "string" when used from a squirt gun. Used by hundreds of our customers.

Safe, Reliable and Powerful Light

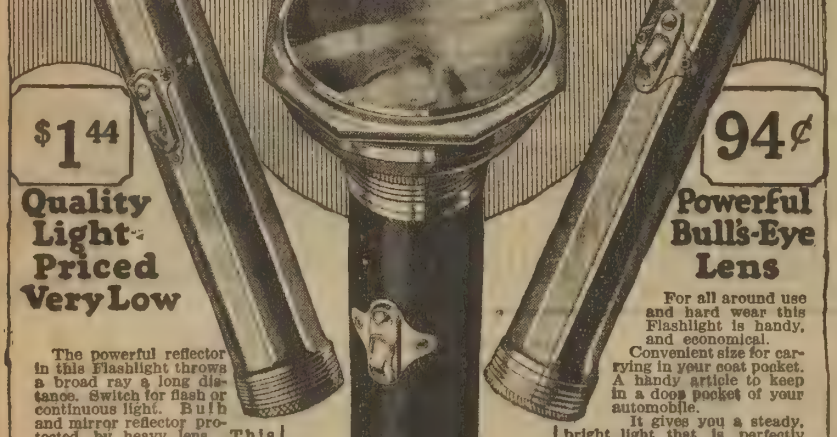
Gives Wide or Narrow Ray

$2.90

You have been wanting a good, dependable Flashlight for a long time. Here is good news for you. You can have this fine Flashlight for only a little more than an ordinary flashlight costs. Remember that it always pays to buy the best even though it costs a few cents more. Every man needs a good, dependable flashlight. The farmer will find constant use for it around the barn and for general use after dark. For campers and hunters, it is a necessary part of the equipment. This light has features that make it better than any other light. It can be focused—you can make the flashlight throw a wide flood of light or a narrow, powerful beam by simply turning the cap on the back end. Think how handy this is when you want to see an object some distance away. By adjusting the flashlight until it is set for extremely long distance you can see distinctly objects 800 feet away. Excellent for reading signboards when driving at night. An extra bulb is furnished and is carried inside the case. No matter if your bulb does burn out on a dark road—you are always prepared. Equipped with switch for flash or continuous use and with fresh, strong battery. Brass case, polished nickel plated—or plain black fiber case with nickel plated trimmings.

63 E 2039—Polished nickel case.....**$2.90**
63 E 2038—Black fiber case..... **2.55**
Postage, 8¢ extra

Extra Powerful Miners' Type



$1.44

Quality Light—Priced Very Low

The powerful reflector in this Flashlight throws a broad ray a long distance. Switch for flash or continuous light. Bulb and mirror reflector protected by heavy lens. This flashlight is a useful article for men requiring a bright light. Always handy for use.

Children playing with a flashlight escape the chance of injury by fire. Housekeepers can go to the farthest corner of their attics and cellars with the assurance that a bright light will enable them to see their way.

Hunters and fishermen know that this style of flashlight gives them a bright, steady light when they need it most.

Nickeled brass case or black fiber case, nickel trimmed. Complete with battery and lamp.

94¢

Powerful Bull's-Eye Lens

For all around use and hard wear this Flashlight is handy, and economical.

Convenient size for carrying in your coat pocket. A handy article to keep in a door pocket of your automobile.

It gives you a steady, bright light that is perfectly safe. It will not go out at just the minute you need it the most.

No danger of a flashlight setting fire to anything. It can be held near inflammable material without danger.

Tourists and sportsmen need a flashlight as a part of their equipment.

Policemen, firemen and trainmen find it very handy for their work.

Makes a very suitable gift at Christmas or any other time.

Switch for flash or continuous light. Nickel plated brass or black fiber case, nickel trimmed.

63 E 2129—Nickel case, 2 cell, 1¼ by 5½ inches....**94¢**
63 E 2049—Nickel case, 2 cell, 1½ by 6¾ inches.**$1.15**

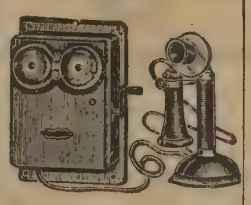
Bridging Type Standard Telephones

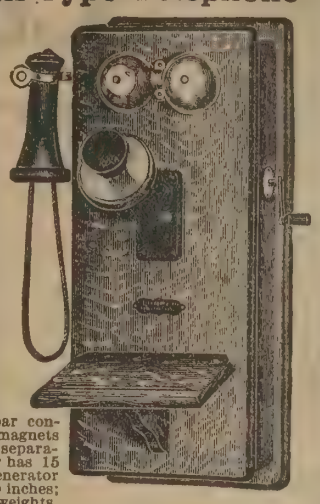
Bridging Telephones are recommended for any kind of telephone service (private exchange or party line) and are specially designed for use on either long distance or short party lines. Outside of cities and large towns telephone service is usually secured by bridging telephone party lines.

Modern Desk Telephone



A modern, up-to-date Telephone that you can install on any rural bridging line. Has all the best features of the telephones used in big cities. May be placed in any convenient position and used while seated or standing. Generator and ringer mounted in finely finished oak case. Improved transmitter stand, black enamel finish. Particularly fine for desk use as it leaves one hand free for writing. Handsome in appearance and very compact. For Stands and Stools for use with telephones see Furniture Section. Refer to Index.

Popular Wall Type Telephone



Don't waste your time and strength walking. Install one of our Telephones on the telephone line in your neighborhood and handle your business over the 'phone. Every home should have a telephone—in case of emergency it may save your life, your money or your property. Our telephones are high grade instruments and will give long, satisfactory service. If there is no line in your neighborhood, you and your neighbors can have your own private line. For use on any bridging or private line of any length. Oak cabinet, finely varnished and polished. Easily installed with the complete directions included free. Equipped with solid back transmitter, bi-polar receiver, lightning arrester, adjustable ringer movement with 2½-inch gongs, powerful generator with laminated magnets; each bar consisting of three distinct magnets tempered and magnetized separately. Every 5-bar generator has 15 magnets and every 6-bar generator has 18 magnets. Length, 20 inches; width, 9 inches. Shipping weights, 32 to 38 pounds.

Shipped Promptly from Factory in Northern Indiana

Important Points to Remember

If a line is already in operation in your neighborhood, and you wish to connect with it, no matter if the instruments already in use are not of our make, you may use our telephones.

When constructing a bridging party line or when installing an instrument on a line already in operation: All of the telephones on any one line must have Ringer Movements wound to the same resistance. Our Bridging Telephones are made with ringer movements of either 1000, 1600, 2000 or 2500 ohms resistance. Therefore before ordering your telephone, find out the resistance of those already installed on the line and order your telephone with ringer movement of the same resistance.

Details of Construction

The Generator is constructed on strictly scientific lines and retains its power permanently without deterioration. Each bar of the generator is made up of three distinct magnets so that every 5-bar generator has 15 magnets and every 6-bar generator, 18 magnets. This method is superior to the solid bar constructions, as the generator is enabled to supply more power and retain its efficiency longer. The entire generator is self-contained and mounted in the box in such a manner that it may be removed instantly.

The 5-bar generator is standard with power more than enough for any line of standard construction. For all ordinary lines it will give perfect satisfaction. The 6-bar generator is especially recommended for long, heavily-loaded lines, and will ring strongly where many other generators could not penetrate.

The Ringer Movement in our Telephone will ring loudly and clearly. Its construction is so planned and the parts so balanced that continued use will not decrease its efficiency.

The Transmitter is of the long distance, solid back type and gives the best of service. It transmits low articulate sounds distinctly over the longest lines. This transmitter, if not tampered with, lasts indefinitely and requires little attention or repairs.

The Receiver is bi-polar and equipped with laminated magnets. This construction insures an absolutely permanent receiver, which may be relied upon at all times. The shell is extra heavy, the binding posts are concealed inside the case, the cord is heavy and will wear well.

The Lightning Arrester. When properly connected it positively protects the telephone against lightning. It is enclosed in a metal casing. We agree to replace any parts of the telephone damaged by lightning provided telephone has been properly installed.

Repairs

We furnish Repairs for any of our telephones at any time. If you have one of our telephones which needs repairs and you do not find the parts you need on this page write for our telephone repair parts list.

Our Telephones Are Guaranteed

We guarantee that every telephone will be exactly as described and give perfect satisfaction, or you may return it and receive back all money you have paid, including transportation charges. If any part proves defective, we will replace or repair it without charge. This guarantee applies to the complete instrument and all its parts.

Private Line Telephone

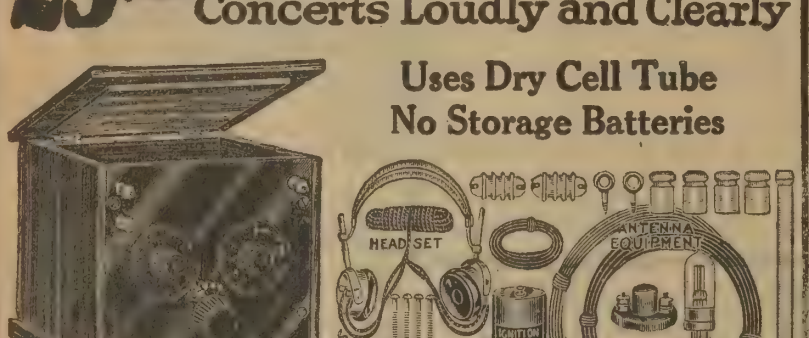
$23.50 for this Complete Radio Set Receives the Broadcast Concerts Loudly and Clearly



Uses Dry Cell Tube No Storage Batteries

Nothing Extra to Buy

AT our special low price you can now own a good Vacuum Tube Receiving Set at about the same price ordinarily paid for a crystal set. This set is simple to operate and will bring in regularly the long distance stations It is complete in every detail. All you need do is to follow the simple directions that come with the set and you are ready to receive the concerts being broadcasted. The complete set is mounted in a mahogany finished cabinet. There are only three controls on the set which make it easy for even the beginner to operate. During tests in our radio laboratory this set made some splendid records. We are sure you will be more than delighted with the results you will obtain from it.

It is of the single circuit type and is tuned by means of a high grade condenser controlled by a knob and dial on the front of the bakelite panel. The tube socket is of special construction and is fitted with positive contact springs. The rheostat is of high grade construction and gives a fine adjustment of the filament current. Binding posts for aerial and ground connections and for the head set are mounted on the front of the panel. The connections for the "A" and "B" batteries are inside the cabinet and space is provided inside the cabinet for both batteries. This gives the set a neat appearance.

Everything Is Included

The complete outfit consists of the receiving set; a high grade 2000 ohm double headset; one 22½-volt "B" battery; a long life, dry cell battery; and a complete antenna outfit consisting of 150 feet of copper wire, 25 feet of insulated wire for connecting to the ground, a single pole, double throw switch; a lightning arrester; four porcelain insulating knobs with screws; two aerial wire insulators; two screw eyes; a 12-inch porcelain wall tube, 20 feet of insulated wire for connections, and a clamp for connecting to the ground. The outfit also includes one of the famous W. D. 11 tubes.

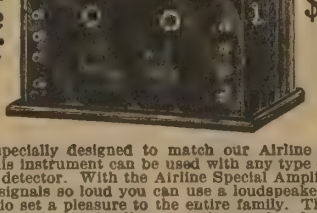
Airline Special Complete Radio Receiving Set $39.7

There are at the present time several thousand these Sets in the hands of satisfied customers. have received reports from many of them which dicate that the Airline Special regularly brings the long distance broadcasting stations loudly a clearly. The distance any set will receive depen on the geographical location of the station, conditio of the weather, and the size and type of the broadca ing station Many of our customers tell us that th Airline Special receives programs from broadcasting stations fro 500 to 1500 miles away. The directions which come with the are very clear and simple and you can easily install the set in t or three hours.

The Airline Special is of the single circuit regenerative ty and is licensed under Armstrong patents No. 1,113,149. The tuni circuit is directly connected to the detector and consists of a hi grade condenser in series with an inductance having four ta and controlled by a switch lever. This arrangement permi very fine tuning and usually will enable the operator to tune o interfering stations. Regeneration is obtained by means of tickler coil mounted inside the antenna inductance and wired the plate circuit. Both condenser and tickler coil are controll by attractive dials mounted on the panel. This makes tuni rapid and simple. The tube socket is mounted on a bakelite bas Vernier rheostat controls filament current. The complete ceiving unit is mounted in a highly polished, mahogany fini cabinet, 12 by 8½ by 6¾ inches. Plainly marked binding pos for all connections.

Use This Two Stage Amplifier To Make Signals Loud Enough For All To Enjoy!

Airline Special Two Stage Amplifier



$15.00

Although specially designed to match our Airline Special Receiving Set this instrument can be used with any type of crystal or vacuum tube detector. With the Airline Special Amplifier you can build up the signals so loud you can use a loudspeaker. This will make the radio set a pleasure to the entire family. This amplifier will also help to bring in the distant stations and make them heard plainly.

Handsome in appearance and a fine addition to your radio set. Mounted in a mahogany finished cabinet. All controls, binding posts, etc., are mounted on a bakelite panel. The top of the cabinet is hinged to allow free access to the inside.

The construction throughout is high-grade. The sockets are mounted on bakelite bases. Positive spring contacts set at right angles to each other to avoid losses. Transformers selected to give greatest signal strength without loss of tone quality. Cabinet size, 8½ by 12 by 7 inches. No. "A" or "B" batteries, vacuum tubes or receivers included. Fitted with standard sockets, to use UV201A, C301A or WD12 tubes.

Hear Those Distant Stations With the Airline De Luxe

Complete - Ready to Receive - Nothing Extra to Buy

This long distance receiving set has made a wonderful reputation. People from all over the country have written us telling how they have heard concerts from stations near and far. One customer in Central Illinois reported stations on the Atlantic and on the Pacific, from Cuba to Canada and of course dozens of other nearer stations.

Under average favorable circumstances you can expect to receive messages from stations 500 to 1500 miles away. People from all over the United States have written to tell us how much they enjoy their radio sets and that they consider the money well invested. Most of these letters come from people on farms and in small towns where good entertainment is scarce.

The Airline De Luxe is licensed under the Armstrong patent No. 1,113,149. The complete instrument is mounted in a nicely finished cabinet. Tuning is controlled by two dials and a switch lever mounted on the bakelite panel. The complete outfit consists of all necessary parts: The Airline De Luxe Combined Tuner Detector and Amplifier; one detector tube; two amplifier tubes; a 6-volt, 80-ampere hour high grade radio storage battery; a 45-volt tapped "B" battery; a 2000-ohm double headset described at bottom of page and a complete antenna outfit consisting of 150 feet bare copper wire; 25 feet insulated ground wire; lightning protector; double throw switch; 2 porcelain aerial insulators; 4 porcelain knobs with screws and necessary connection wire. Full directions for easy installation are included.

663 E 638—Complete outfit with storage battery equipment as described above. This outfit is recommended where you can recharge a storage battery easily. Tubes included are one UV200 or C300 for detector and two UV201A or C301A for amplifiers. Shipping weight, 115 pounds. Not mailable. Price.....**$69.00**

$69.00

663 E 646—Tuner and detector amplifier only. Fitted with standard base sockets. No tubes, batteries, headset or antenna equipment included. Shipping weight, 29 pounds. Price.....**$34.50**

Airline De Luxe With Dry Cell Tube Equipment

This outfit does away with the storage battery. The new UV199 and C199 tubes are used which give excellent results with the special dry battery supplied. A set of batteries will usually last several months with ordinary usage and the outfit is therefore economical. The results obtained with this outfit are the very best, practically equaling the storage battery equipment. For farms or in towns where current for recharging the storage battery is not easily available this is the ideal outfit and will give entire satisfaction. All batteries and connections are inclosed inside the cabinet. The only wires outside the cabinet are the aerial wire and ground wire. This is a very neat and convenient arrangement. Can be shipped by mail. Shipping weight, 65 pounds.

563 E 645—Complete with tubes, headset, antenna equipment and batteries.....**$59.00**

563 E 647—Tuner and detector amplifier only, fitted for UV199 and C299 tubes. No tubes, batteries, headset or antenna equipment included. Shipping weight, 20 pounds. Price.....**$34.50**

Workrite Radio Loud Speaker

Will make the concerts loud enough for the whole family to enjoy. Special construction gives clear tones. Attractive mahogany finish. Height, 12¾ inches. Diameter of horn, 7¼ inches. Complete with loud speaking unit and 5-foot cord and plug. Requires one or more steps of audio frequency amplification for good results.

463 E 717.....**$9.80**
Postage, 12¢ extra

Loud Speakers for the Airline De Luxe Radio Magnavox—Loud, Clear Tones

The Magnavox is by far the best Loud Speaker that has been placed on the market. With it broadcasted concerts are reproduced with remarkable clearness and volume. Stands on the table and does away with the need of headsets. When used with two stages of audio-frequency it will fill a medium size room with music, speeches, etc. Like all loudspeakers the Magnavox requires one or more stages of amplification for satisfactory results. Order one of these fine loud speakers and make your radio set a pleasure to the entire family. You can also make money with your radio set and your Magnavox by giving concerts at church entertainments, schools, lodges, etc. Connects to regular 6-volt battery and plate voltage on amplifier can be from 50 to 300 volts. Horn diameter, 14 inches. Beautifully finished in the new crackle enamel.

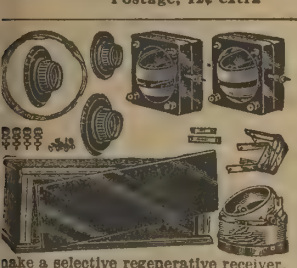
563 E 690.....**$28.75**
Postage, 42¢ extra

Murdock Loud Speaker

$4.38

Gives loud and clear tones. Takes the place of the headset. Makes radio a pleasure for the entire family. Complete with adjustable loud speaking unit. Ready to connect to amplifier. Length, 15 inches. Horn diameter, 7¼ inches. A fine value at our price.

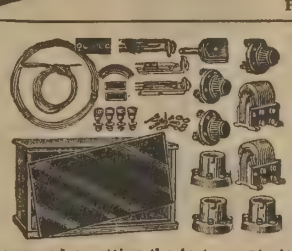
463 E 715.....**$4.38**
Postage, 14¢ extra



You Can Easily Put This Regenerative Receiving Set Together and Save Money

Build a sensitive, long range Set in a few hours enjoyable work. Brings in the distant code and voice stations. Very handsome in appearance and will be a constant source of pleasure and entertainment. Consists of all parts necessary to make a selective regenerative receiver. High grade molded composition variometers and variocoupler. Includes fine quality mahogany finish cabinet and 6 by 17½-inch bakelite panel with necessary binding posts, wire, dials, switch points, switch lever and full directions. Wave length range, 180 to 600 meters.

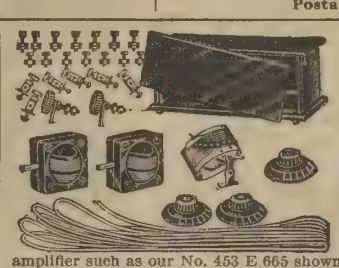
463 E 678.....**$22.50**
Postage, 24¢ extra



Detector Two-Stage Audio Frequency Amplifier

Add this high grade Detector Two-Stage Amplifier to a good tuner and bring in the long distant stations. Will make the stations you hear now so loud they can be heard on the loud speaker. Just a few dollars makes the radio a pleasure to the whole family. You save money by putting the instruments together. Includes all necessary parts. Easily assembled. Consists of: Mahogany finish cabinet; Bakelite panel, 6 by 14 by 3/16 inches; three sockets; two amplifying transformers; ten binding posts with marking plates; three jacks; one plug; connecting wire and instructions. No tubes or batteries included.

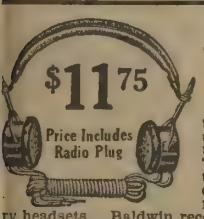
463 E 665.....**$17.75**
Postage, 20¢ extra



Long Range Knock-Down Set

The special low price on this high grade Receiving Tuner is made to help you have a fine radio set at a low price. It is of the three circuit type and can be depended upon to bring in the long distance stations when used with a good vacuum tube detector and two stage amplifier such as our No. 453 E 665 shown at the left. It consists of a mahogany finish cabinet 7 by 18 inches with hinged top; a panel 3/16-inch thick; two molded composition variometers; a 180-degree coupler; necessary knobs and dials; binding posts; switch levers; switch points and connection wire. This makes a highly selective receiver you will be proud to own.

463 E 663.....**$17.50**
Postage, 24¢ extra



Baldwin Type "C" Amplifying Headset

$11.75

Price Includes Radio Plug

For those who wish to hear the far distant stations, we recommend the Baldwin Receivers. Their special construction makes them reproduce signals that could not be heard with ordinary headsets. Baldwin receivers may properly be called the "Standard of the World." Mica diaphragm sensitive to faintest signal. Shells and caps of molded bakelite. Six-foot cord with standard radio plug attached.

63 E 5164—Per set.....**$11.75**
Postage, 8¢ extra

Brandes Matched Tone Headset

Carefully matched in tone so that when used in a loud speaker the result is clear and free from distortion. This also helps in the reception of weak signals. These receivers have been used for years in some of the best radio stations. Light in weight but strong. Complete with six-foot polarity indicating cord.

63 E 5380—Superior type, 2000 ohm. Per set.....**$6.85**
63 E 5381—Navy type, 3000 ohm. Per set.....**$10.75**
Postage, 8¢ extra

Reliable Murdock Headsets

Made by an old, reliable manufacturer of radio apparatus. Moulded composition cases and caps. Strong, permanent magnets. Reproduce signals loudly and clearly. Comfortable headband. Six-foot cord. A special value at our price.

63 E 5162—2000-ohm double headset..**$4.25**
63 E 5163—3000-ohm double headset.....**$4.85**
Postage, 8¢ extra

Frost Headsets

A splendid value at our low prices. These Headsets have been in use for several years and have proved satisfactory. Moulded composition cases and caps. Very sensitive. Comfortable headband. Six-foot cord.

63 E 5160—2000-ohm double headset.....**$4.45**
63 E 5161—3000-ohm double headset.....**5.35**
Postage, 8¢ extra

Wood Cabinet

The Cabinets we offer are attractive in design and are of uniform style so you may use cabinets of different sizes and have them all match up. Lids or tops are hinged. Fine mahogany finish. Dimensions given for depth are inside measurements and are in inches.

You Need Another Headset!

$3.25

Airline Special Headset

When your radio set is equipped with one headset only one person can enjoy the concerts. The radio set should be a family pleasure. Two or more Headsets may be connected to the radio set without a noticeable loss in strength of signals. If you have no headset you will save money by buying this one. This excellent headset is offered at a very reasonable price. Equal in sensitiveness to many headsets selling at much higher prices. Light in weight and of substantial, durable construction. Every detail has been worked out carefully and only the best materials are used. The workmanship is the best, resulting in a neat appearing, nicely finished product. Headband is covered with webbing and will not catch or pull the hair. May be worn for hours without fatigue. Easily adjusted to fit your head. Five-foot cord. Will give satisfactory results on any receiving set whether it is an expensive tube set or cheap crystal outfit. You are sure to be well satisfied.

Single Dry Cell Batteries to Operate W.D.11 Tubes on Page 616

Arlington Type Receiving Transformer

An efficient, high grade longwave tuner. Will receive all government time stations such as Arlington and Key West. Works up to 4000 meters. Very effective on short waves, 200 to 600 meters. Primary controlled by slider. Secondary inductance varied by a 10-point switch mounted on formica panel, silk covered wire windings. Brass metal parts polished and lacquered. Mahogany finish woodwork. Base is 18 inches long, 6 in. wide.
563 E 601.....**$5.95**
Postage, 32¢ extra

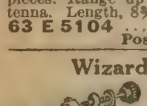
Junior Loose Coupler

Very efficient on either code or radiophone. Rubbed mahogany finish. Base, 12 by 3½ inches. Especially recommended for the radio enthusiast who desires a tuner that is inexpensive and efficient. Wavelength range, 180 to 600 meters.
63 E 5103.....**$3.95**
Postage, 16¢ extra

Two-Slide Tuning Coil

Machine spaced enamel copper wire winding. Nonshrinkable tube. Control is by means of two smooth working sliders. Mahogany finished end pieces. Range up to 1000 meters on average antenna. Length, 8¾ in.
63 E 5104.....**$2.48**
Postage, 12¢ extra

Wizard Detector Stand



Exceptional value. Black moulded composition base, metal parts nickeled. Easy to adjust catwhisker.
63 E 6535.....**89¢**
Postage, 4¢ extra

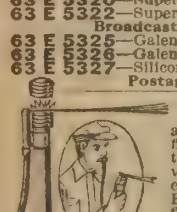
Pocket Blow Torch

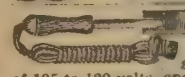


Burns denatured alcohol and gives very hot, clean flame. Fitted with rubber tube; by blowing in tube a very hot flame is directed to exact spot to be soldered. Burns 20 minutes with one filling. Nickel plated, leak proof case. Very handy.
63 E 5877.....**59¢**
Postage, 6¢ extra

Automatic Blow Torch

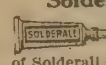
Makes neat, clean joints easily and quickly. Fill both cylinders with denatured alcohol and light wick in large cylinder. A pressure is automatically developed in small cylinder, producing long needle like flame, which can be directed to exact spot to be soldered. Metal parts brass, nickel plated. 5¼ inches tall. Burns 20 minutes with one filling. Perfectly safe.
63 E 5876.....**$1.10**
Postage, 6¢ extra

Electric Soldering Iron



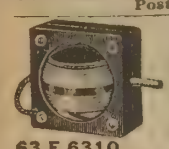
This Iron is made to operate on house lighting circuits of 105 to 120 volts, and when connected maintains the proper temperature as long as the current is left on. Every radio man should have an electric iron. There is nothing handier for the man who does his own electrical work than an iron of this kind. Six-foot cord with plug attached.
63 E 5871.....**$1.79**
Postage, 6¢ extra

Solder with Heat of a Match!



A combination of a paste and soldering metal which makes a clean soldered joint. Put a drop of Solderall on the joint to be soldered and hold a match under it. Does away with soldering irons and blow torches for all small work.
63 E 5822.....**19¢**
Postage, 2¢ extra

Molded Variometer



Extra high quality. Will not warp or shrink. Windings will not come loose. Positive contacts prevent noises in set. Wave length range, 150 to 600 meters. Strong ¼-inch shaft. An excellent value at our low price.
63 E 6310.....**$3.48**
Postage, 14¢ extra

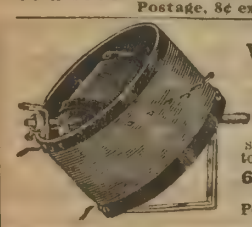
Variometer

A high grade Variometer. May be used separately for grid and plate tuning in any audio or radio frequency tuner. Designed for very low dielectric losses and maximum range of inductance. Rotor element contacts are positive and permanent. Solidly built; ¼-inch shaft. A well-made efficient instrument but not equal to 63 E 6307 listed above.
63 E 5641.....**$1.95**
Postage, 10¢ extra

The Wonder Variocoupler

A strong, well made instrument, very satisfactory for short wave receiving sets. The materials used and the workmanship are equal to those of much higher priced instruments. For either panel or table mounting; ¼-inch shaft; 150 to 550 meters wave length range. Primary tapped.
63 E 6313.....**$1.95**
Postage, 8¢ extra

Variocoupler

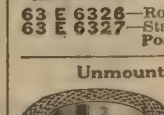


180 degree coupler. Panel or table mounting. ¼-inch shaft. Range 175 to 600 meters.
63 E 6309—
.....**$2.95**
Postage, 10¢ extra

Variometer Parts

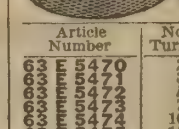
Includes all parts, except wire, necessary to make complete variometer. Solid genuine mahogany. Wood form for winding stator coils included; ¼-inch shaft. With these parts you can easily make a high grade instrument.
63 E 6322—Complete.....**$1.19**
Postage, complete, 8¢ extra

Variocoupler Parts



Includes necessary parts, except wire, to make an efficient variocoupler. Can be used with two variometers to make a short wave receiver.
63 E 6325—
Complete.....**95¢**
63 E 6326—Rotor ball, only.....**30¢**
63 E 6327—Stator tube, only.....**38¢**
Postage, 6¢ extra

Unmounted Inductance Coils



High grade, efficient Inductance Coils at attractive prices. Made firm by varnish impregnation. Wave length is in meters with .001 mfd. condenser. Not mounted.

Postage, 6¢ extra

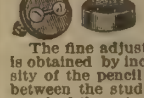
Variable Grid Leak



The fine adjustment needed by the modern is obtained by increasing or decreasing the i sity of the pencil line drawn on the bakelite between the studs which fasten the device t panel of the set. Has black enamel cover.
63 E 5341.....
Postage, 2¢ extra

Fixed Grid Condenser

Designed to fit connections on of grid leak number 63 E 5341. pacity .00025 mfd.
63 E 6369.....
Postage, 2¢ extra

Mica insulated similar to above but b made. Also fits our variable grid leak. S capacity. Worth the difference in price.
63 E 5331.....
Postage, 2¢ extra

Panel Mounting Rheosta

Used to regulate filament cu to detector or amplifier tubes. rect mechanical construction. C ity, 1½ amperes. Mounts on p up to ¼ inch thick.
63 E 6401—Resistance, 6 ohms.....
63 E 6403—Resistance, 30 ohms.....
Postage, 6¢ extra

Vernier Rheostat

Used on detector tube will filament current to be regulate exactly the proper point for results. Engraved bakelite k show vernier and coarse adjustm Capacity, 1½ amperes. A very good rheosta
63 E 6409.....**$1**
Postage, 4¢ extra

Radio Autostat

Gives vernier control of rent. Rapid adjustment. Sm action. Silent in operation. handle detector tube, two a fier tubes or one power Takes little space inside p Very desirable.
63 E 6440.....**$1**
Postage, 6¢ extra

Bakelite Socket

Extremely well made of m bakelite, heavily reinforced at bayonet groove. Binding posts table or panel mounting. Co springs designed to give positive tact. High dielectric and mechanical strength
63 E 6432.....
Postage, 4¢ extra

Porcelain V. T. Sock

Made entirely of glazed white p lain. High dielectric strength. tically unbreakable. Positive co Easily mounted on panel or base. For ampl detector or power tubes.
63 E 6419.....
Postage, 6¢ extra

Standard V. T. Sock

The base is molded of bakelit strength and high insulating pr ties. The tube into which the va tube fits is metal, polished nicke ish. Binding posts are molded into base plainly marked. A fine socket at a low price
63 E 6434.....
Postage, 6¢ extra

Combination V. T. Socket

Solid metal, polished nickel fi Fiber insulation. Panel or table m ing. Strong and very handy.
63 E 6435.....
Postage, 6¢ extra

Potentiometers

Same style as above rheostats and match in size and appearance. Mount on panels ¼ inch thick.
63 E 6444—200-ohm Potentiometers.....
Postage, 6¢ extra
63 E 6447—400-ohm Potentiometers.....
Postage, 6¢ extra

Vernier rheostat

Single knob control. Matches above rheo and potentiometer. Resistance, 6 ohms.
63 E 6449.....
Postage, 6¢ extra

Three G Socke

A nice for building tector and step amplifier as all sockets are mounted o base with plainly marked binding posts. For or panel mounting.
63 E 6424.....
Postage, 6¢ extra

For Telephone and Telegraph Sets see Page 617

Receiving Condenser

Special type Receiving Condenser. The foil and insulation are wrapped around a fiber sheet. Connections are made by means of rivets in the ends of the condenser. Very compact. Equal in results to any other phone condenser.

3 E 6351 ..... **9¢**
Postage, 1¢ extra

Fixed Receiving Condenser

Used as stopping condenser or across telephones. Molded composition bases. Nickel plated binding posts.

3 E 5364..... **46¢**
Postage, 5¢ extra

Amplifying Transformer

Well designed and carefully made; closed core type. Gives good amplification without howling. Quality has not been sacrificed to make this low price. Enclosed in metal case, for ble or panel mounting. Binding posts plainly ar ed.

3 E 6474 ..... **$2.70**
Postage, 6¢ extra

All American Audio Frequency Amplifying Transformer

Designed for use with Radiotron and Cunningham tubes. Winding ratio of 10 to 1. Specially constructed. Produces maximum amplification without distortion or howling. For C-301, C-301-A, UV-201-A, and UV-201 Tubes.

3 E 6426—Mounted..... **$4.05**
3 E 6428—Unmounted..... **3.15**
Postage, 6¢ extra

Same high grade Transformer wound with 3 to 1 ratio, especially for use with A. P. Moorhead, Western Electric and similar tubes. Also desirable for 3rd and 4th stage of amplification when using Radiotron or Cunningham tubes.

3 E 5140—Mounted..... **$3.85**
3 E 5141—Unmounted..... **2.95**
Postage, 6¢ extra

Thordarson Amplifying Transformer

Produced by one of the oldest radio companies. Very satisfactory in every respect. Large size silk covered wire. Windings carefully designed for best results. Free from howling and distortion. Connections plainly marked.

3 E 6427—Ratio, 3½ to 1..... **$3.45**
3 E 6445—Ratio, 6 to 1..... **3.75**
Postage, 6¢ extra

Acme Audio Frequency Amplifying Transformer

Free from distortion and howling. Carefully designed and well built. Panel or table mounting. Binding posts marked.

63 E 6473..... **$4.58**
Postage, 6¢ extra

Varnish Cambric Tubing—Spaghetti

Perfectly shaped yellow Tubing of high dielectric strength. Used to cover the connecting wire in radio sets. Improves appearance and provides proper insulating protection.

Number	Size	For Wire	3-Ft. Lgth.
3 E 6896	3	12 and smaller	18¢
3 E 6897	2	17 and smaller	18¢
3 E 6898	1	25 and smaller	18¢

Postage, 3¢ extra

Indoor Loop Antenna

If you have a sensitive receiving set you will appreciate this loop. It will allow you to tune out most of the interference from other stations and to experiment with direction finding apparatus. Range to 600 meters. Shipped knocked down but complete, ready to assemble in a few minutes with directions furnished. Height: 44 inches. Complete instructions for use included.

3 E 651..... **$4.65**
Postage, 14¢ extra

Radio Frequency Amplifying Transformer

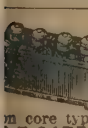
One of the best designed Radio Frequency Transformers on the market. The windings are of the air core type arranged in pan cake form. Radio frequency amplification will bring in stations you do not hear now. This transformer is mounted in a highly polished nickel plated shell, with binding posts on top plainly marked. So arranged that it will fit into a standard VT socket for ease in mounting and connecting. This transformer has a wave length range of 180 to 500 meters and will give excellent results when used according to the diagram and directions furnished.

3 E 6639..... **$3.55**
Postage, 6¢ extra

Coto-Coil Radio Frequency Amplifying Coil

This is one of the most efficient radio frequency transformers obtainable. It will bring in the long distance stations that can not be heard by ordinary methods. Suitable for use in one or more stages. Specify whether you want first, second or third stage transformers. Full directions for connecting included.

3 E 6635..... **$4.48**
Postage, 6¢ extra

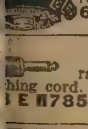


Acme Radio Frequency Amplifying Transformer

The use of one or more of these Transformers in the proper circuits will increase your range and make the use of a loop aerial possible.

Air core type. Bakelite case.

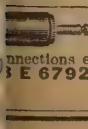
3 E 6475—Single stage transformer. Wave length range 100 to 350 meters, amateur wave.
..... **$4.58**
3 E 6476—
250 to 500 meters. First stage..... **4.58**
3 E 6477—
250 to 500 meters. Second stage..... **4.58**
Postage, 6¢ extra



Potentiometer

Suitable for either panel or table mounting. Adjustable to panel of any thickness up to ⅜ inch. Permits very close adjustment of plate circuit current. Resistance, 300 ohms.

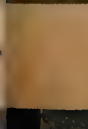
63 E 6368..... **$1.39**
Postage, 6¢ extra



Radio Plug

Designed for use in connection with radio Jacks. Large spaces for attaching cord. No soldering. Length, 2⅛ inches.

3 E 6785..... **32¢**
Postage, 3¢ extra

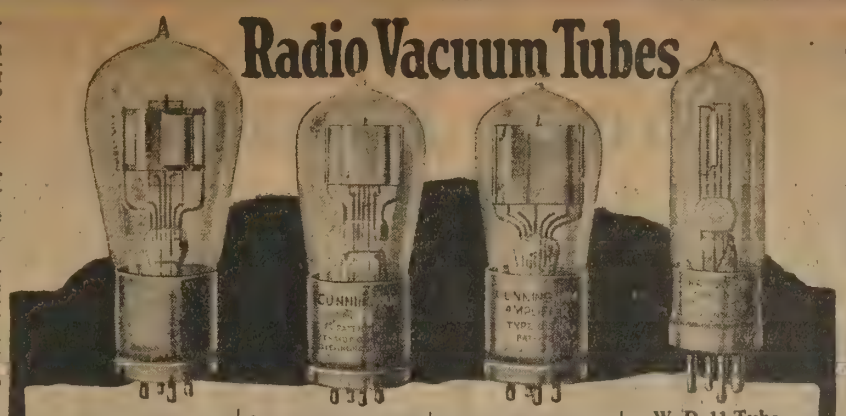


Two Cord Radio Plug

A very well made Plug designed to take two sets of phone cords. Connections easily made. Attractive round body.

3 E 6792..... **89¢**
Postage, 3¢ extra

Radio Vacuum Tubes



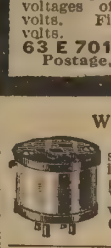
5-Watt Tube
Cunningham C 302. Used for transmitting or may be used in a power amplifier for loud speakers. Gives more volume than ordinary amplifier tube. Operates at plate voltages of 350 to 500 volts. Filament, 7½ volts.
63 E 7015 .. **$7.60**
Postage, 6¢ extra

Cunningham C-300 Detector Tube
Popular soft type. Very sensitive even to weak signals. Operates at plate voltages of 16½ to 22½ volts. Filament, 5 to 6 volts. These tubes give very satisfactory results.
63 E 5198— **$4.58**
Postage, 6¢ extra

Cunningham C-301A Amplifier Tube
This new type Tube is much better than the old type amplifier tube. Gives much louder signals. Uses only ¼-ampere. May be operated from dry cells. Plate voltage up to 100 volts.
63 E 5199— **$6.12**
Postage, 6¢ extra

W. D. 11 Tube
Operates from dry cells. Uses special sockets shown on this page. Equally good as detector or amplifier. Operates in any receiving set.
63 E 5195— **$6.50**
63 E 5196—Same as W.D.11 except has standard base. **$6.50**
Postage, 6¢ extra

W. D. 11 Socket Adapter



Permits use of W.D 11 tube in any standard socket. Fits into socket and is provided with holes in top to take prongs of W.D. 11. Strongly made. Will give excellent service. Special value. Positive contacts.
63 E 6441 ..... **59¢**
Postage, 6¢ extra

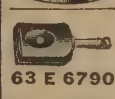
W. D. 11 Socket

For table or panel mounting. Positive contacts. Binding post connections. A high grade socket for W.D. 11 tubes. Priced very low.
63 E 6403 ..... **49¢**
Postage, 4¢ extra

W. D. 11 Socket

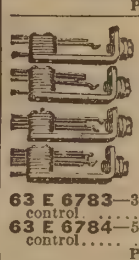
Molded bakelite construction. Positive contact springs. Binding posts plainly marked. Holds tube securely. This Socket deserves a place in your set
63 E 6412..... **49¢**
Postage, 4¢ extra

Universal Radio Plug



This Plug is extremely well made and will fit any standard jack. Easy connections.
63 E 6790..... **48¢**
Postage 3¢ extra

Radio Jacks



Especially designed for radio work. Very compact, carefully constructed; finely finished. May be mounted on panels up to ¼ inch in thickness. Contact points are silver.
63 E 6780—Open circuit ..... **38¢**
63 E 6781—Closed circuit. ..... **45¢**
63 E 6782—2-circuit **49¢**
63 E 6783—3-spring. (Single circuit) Filament control..... **59¢**
63 E 6784—5-spring. (Two circuit) Filament control..... **69¢**
Postage, 3¢ extra

Tinfoil

With this Tinfoil you can make your own condensers easily. We supply it in sheets 6½ by 8½ inches. Approximately 25 sheets in the pound.
63 E 5680—Per pound..... **31¢**
Postage, per pound, 3¢ extra

Variable Condenser
Table Mounting Type

Plates stamped from sheet aluminum. Accurately machined spacers insure perfect centering of plates. Square formica sheet ends with engraved scale. Regulating dial and pointer.

63 E 6480— 21-plate size. Capacity, .0005 mfd..... **$3.24**
63 E 6481— 43-plate size. Capacity, .001 mfd..... **3.98**
Postage, 10¢ extra

Vernier Attachment Variable Condensers

Standard high grade. Fitted with a small vernier plate controlled by a separate knob projecting through the large knob and dial. A device of this kind gives best tuning results. Brings in distant stations. Bakelite end pieces.

63 E 6111— Capacity, .00025mfd.; with dial and knobs. **$2.38**
63 E 6112— Capacity, .0005 mfd.; with dial and knobs **2.68**
63 E 6113— Capacity, .001 mfd.; with dial and knobs. **2.98**
Postage, 10, 12 and 14¢ extra

Porcelain Base Knife Switch

This is a quality product and will prove very useful around your set. Switch parts of heavy copper.

63 E 2684—Single pole, single throw..... **18¢**
63 E 2686—Single pole, double throw..... **28¢**
63 E 2687—Double pole, single throw..... **39¢**
63 E 2689—Double pole, double throw..... **45¢**
Postage, 6¢ extra

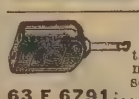
C-299 Tubes

63 E 5197—The real peanut tube. Operates from dry cells. Excellent detector and amplifier. Filament current only .06 ampere. Does away with storage batteries. Requires special socket or adapter listed below..... **$6.12**
Postage, 6¢ extra
63 E 5202—Socket for 199 or C-299... **.59**
Postage, 6¢ extra
63 E 5203—Adapter to fit U. V. 199 or C-299 to any regular socket. Perfect contacts..... **49¢**
Postage, 5¢ extra

Three-Plug Adapter

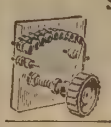
With this Adapter you can plug in three headsets. May be mounted on table or side of cabinet. Very convenient.
63 E 6794..... **$1.19**
Postage, 4¢ extra

Two-Way Adapter Plug



Fits into any standard jack and takes two standard plugs permitting use of one or two headsets at the same time.
63 E 6791..... **$1.19**
Postage, 4¢ extra

Switch Lever Set



A high grade switch lever with ten switch points and two switch stops. Fits any panel up to ⅜ inch thick. Polished black knob, metal parts brass polished, nickel finish.
63 E 5615..... **35¢**
Postage, 4¢ extra

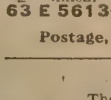
Our Special Inductance Switch

High grade smooth working Switch. Black polished composition knobs, nickel finished phosphor bronze spring and bushings. Panel bushing adjustable to any thickness up to 5/16 inch.
63 E 6774—Radius, 1¼ inches..... **18¢**
63 E 6775—Radius, 1½ inches..... **18¢**
Postage, 3¢ extra

New Style Binding Posts

Specially constructed with non-removable, knurled knob. May be mounted on any panel up to 5/16 inch thick. Fitted with copper lug and lock nut. Tumble plate, nickel finish.
63 E 5613—Each..... **8¢**
Per dozen..... **80¢**
Postage, each, 1¢; per dozen, 6¢ extra

Switch Points



These are attractive and well built with 5/8-inch shanks which are threaded 5½ and fitted with two nuts. Will make your set very neat appearing.
63 E 5650—Head ¼ by ¼. Polished nickel finish. Per dozen..... **23¢**
63 E 5648—Head, ¼ inch diameter, ⅛ inch high. Polished, nickel finish. Per dozen.... **21¢**
63 E 5649—Head, 3/16 inch diameter by 1/16 inch high. Polished nickel finish. Per dozen... **18¢**
63 E 5652—Head, 3/16 inch diameter, ⅛ inch high. Tumble plate, nickel finish. Per dozen.. **15¢**
Postage, per dozen, 4¢ extra

Binding Posts

Metal parts of brass, polished nickel finish. All have ⅝ inch long 5½ screws with washers. Sizes given are from bottom of shoulder to top of knob and do not include screw.

63 E 5602—Style 1. Length, 13/16 inch. Each, 4¢. Dozen..... **36¢**
63 E 5636—Style 2, Length, 9/16 inch. Each, 6¢. Dozen..... **58¢**
63 E 5638—Style 3. Length, 11/16 inch. Each, 9¢. Dozen..... **85¢**
63 E 5603—Style 4. Length, 15/16 inch. Each, 9¢. Dozen..... **85¢**
63 E 5644—Style 5. Length, 1 1/16 inch. With black molded knob. Each, 6¢. Dozen..... **48¢**
63 E 5605 — Style 6. A large size black molded knob and base. Base molded onto one inch long 10-32 screw. Length of base and knob, 15/16 inch. Each, 22¢. Dozen..... **$2.40**
Postage, each, 1¢ extra; per dozen, 6¢ extra

Switch Lever Stop

Used to prevent the switch lever jumping off the row of switch points. Adds to appearance of set. Polished nickel finish.
63 E 5611—Per dozen..... **17¢**
Postage, per dozen, 2¢ extra

Solid Brass Rod (Round)

Supplied in 8-inch lengths only. To be used for shafts in variometers, variocouplers, etc. You will find a few lengths of the various sizes of brass rod very handy around your station.

63 E 6880—Size 6. Three lengths..... **18¢**

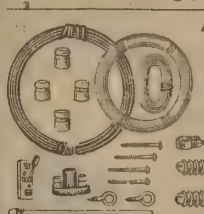
Postage, 4¢ extra

Threaded Brass Rod

A high quality, cut with clean, accurate threads Sold only in **three 8-inch lengths.**

63 E 6875—Size 5/32. Three lengths.... **22¢**
63 E 6876—Size 3/16. Three lengths.... **28¢**
63 E 6877—Size 1/32. Three lengths..... **35¢**
Postage, 3¢ extra



Antenna Equipment

Includes 150 feet copper aerial wire, 25 feet ground wire, double throw switch, lightning arrester 4 knobs with screws, 2 aerial insulators, 2 screw eyes, 12-inch porcelain tube, 20 feet annunciator wire and a ground clamp.

63 E 5156 — Complete outfit... **$2.95**
Postage, 20¢ extra

Connector Block

Allows antenna wires to be firmly connected to the lead-in wire. Solid brass throughout. No soldering.
63 E 6604..... **20¢**
Postage, 2¢ extra

Ground Clamp

Makes firm connection to any water, gas, or steam pipe up to 1½ inches.
63 E 6606..... **9¢**
Postage, 1¢ extra

Copper Antenna Wire

Supplied only in coils of sizes listed.

63 E 5150—Composed of seven strands of hard drawn copper. Much stronger than ordinary copper wire. Large surface gives better results than solid. Well worth extra cost. 100 feet, **69¢**. 150 feet, **$1.02**. 200 feet, **$1.32**. 500 feet **$3.25**
63 E 5151—Bare copper wire, No. 14 gauge. 100 feet, **42¢**. 500 feet..... **$1.70**
63 E 5152—Bare copper wire, No. 12 gauge. 100 feet, **62¢**. 500 feet..... **$2.65**
Postage, per 100 feet, 10¢ extra; per 500 feet, 34¢ extra

Copperweld Antenna Wire

This is an ideal Wire for long aerials. Made of steel and covered with a thick layer of copper. Stronger than pure copper and just as efficient. Easily soldered. Does not break from ordinary strains. Size, 14.

63 E 5154—Per 100-foot coil..... **44¢**
Postage, per 100 feet, 4¢ extra

Braided Antenna Cable

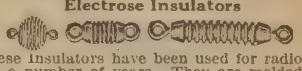
A braided Cable consisting of 16 strands. Fine for loop aerials for radio frequency. Handy for experimental work or for transmitting connections.

63 E 6246—Per 100-foot coil..... **$2.20**
Postage, per 100 feet, 10¢ extra

Porcelain Bracket Insulator

For attaching aerial or ground wire to buildings or posts.
63 E 6646—With 2-in. screw. **31¢**
63 E 6647—With 2 holes in base. ..... **28¢**
Postage, 5¢ extra

Electrose Insulators



These insulators have been used for radio purposes a number of years. They are molded of a shellac base composition which gives good service as an insulator. Have galvanized wrought iron eyes for attaching wires.

Article Number	Diam. In.	Length In.	Strgth. Lbs.	Elec. Value Dry Volts	Elec. Value Rain	Each

Porcelain Strain Insulator

Strong and well made of corrugated porcelain. About 2¾ inches long by 1¼ inches diameter. Ideal for receiving aerials.
63 E 6643—Each..... **6¢**
Per dozen..... **69¢**
Postage, each, 1c; per dozen, 12¢ extra

Leading-in Insulator

A very well made device especially desirable because of its small diameter. It is only necessary to drill a ⅝-inch hole to insert insulator. May be used to bring lead through wall, partition or window sash. Made of molded hard rubber compound and fitted with threaded brass rod through center and two nuts on each end.
63 E 6644—For walls up to 4 inches .... **45¢**
63 E 6645—For walls up to 9 inches .... **74¢**
Postage, 4 and 6¢ extra

Ground Switch

This is a very high quality, 600-volt, 100-ampere Switch for grounding the antenna while not in use. Single pole, double throw. Asbestos composition base. Passed by Underwriters' Laboratories.
63 E 5359..... **$1.78**
Postage, 14¢ extra

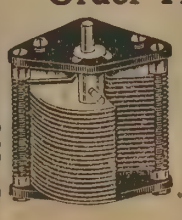
Lightning Arrester

This device is a protection to your apparatus during electrical storms when the ground switch is not thrown. It is easily mounted and requires no attention whatever. The Arrester has no effect upon Radio signals but effectively grounds any heavy current induced by an electrical storm. Mounted on porcelain base.
63 E 6613..... **69¢**
Postage, 8¢ extra

Outdoor Type Porcelain Enclosed Lightning Arrester

A very dependable Arrester for outdoor use. Easily mounted.
63 E 6611..... **$1.45**
Postage, 8¢ extra

Order This Condenser for Your Radio Set



$1.45
11-Plate

At these low prices there is no reason why everyone who needs a good Condenser should not take advantage of this offer. These condensers are solidly built and have some very fine features. The tension on the moving plates is adjustable. Will stay in any position. End pieces are bakelite. Plates are made of hard aluminum and are not easily bent. The 43-plate size may be used in series with the aerial or across the secondary of the coupler or the 23-plate may be used instead, depending on the size of the instrument. Users of the Reinhartz circuit will want the 11-plate size. The small sizes are used as verniers. Shaft is ¼ inch.

63 E 6486—43-plate, .001 mfd. Postage, 8¢ extra..... **$1.98**
63 E 6485—23-plate, .0005 mfd. Postage, 8¢ extra..... **1.75**

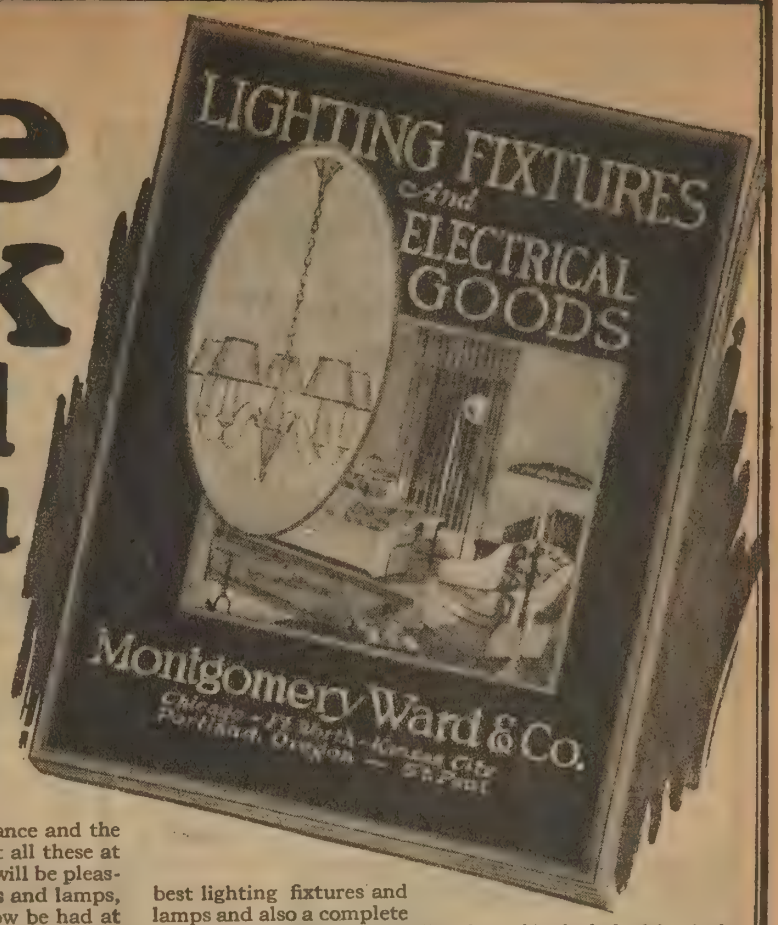
A Free Book that Will Save You Money



Good news for the man who is building a new home or improving the old one. You want electric lights, of course, and we will help you to have the finest equipment in a new easy way. Costly electrician's services are not needed—you can easily do the work yourself and save a large part of the cost. You want the latest styles, the best appearance and the finest materials for your new home. You get all these at Ward's at a price that saves you money. You will be pleasantly surprised to know that fine new fixtures and lamps, suitable for every room in the house, may now be had at low cost. Our Free Lighting Fixture Catalogue has been prepared specially to show you the way to a beautiful, happy home. It contains full selections of the latest and best lighting fixtures and lamps and also a complete line of wiring materials and supplies. Everything in the book is priced to save you money. The complete seven-piece set for five-room house, as shown below, is just one example of the excellent values offered by Ward's in this 66-page book that is yours Free.

Lighting Fixtures—Latest Designs

Another important discovery to you as a home-owner is not only can you get modern illuminating fixtures at low cost but you can do the installing yourself. You do not need to be an electrician, a mechanic or even mechanically inclined to follow the simple, complete directions we send with every fixture or set of fixtures, and to install them quickly and correctly by yourself. That is one of the most satisfactory features of buying your fixtures from Ward's. Every home owner can now be his own electrician. Realizing this was of the greatest importance in keeping down your cost, we have planned all our fixtures and lamps to meet these requirements. Everything has been made so simple that even the person with no experience whatever can successfully install our electrical goods in his home.

Things You Should Know About Fixtures

Notice the wealth of useful information this Electrical Book brings you. Instructions on how and where to use different fixtures—the proper height and placing of fixtures for best effect—the kind of fixtures specially suited to dining room, living room, parlor, bedroom, bathroom, kitchen, porch, hallway and basement, laundry, den, etc. It also covers the arrangement of plugs for heating appliances—how to make connections—and a dozen other subjects equally important. And speaking of connections, we have a new, patented device which now makes it possible to join two electric wires without the use of solder or tape. There is no scraping—all you need is a screwdriver; and two of these solderless, tapeless connectors are shipped with every fixture.

In fact, we have planned and provided everything possible to put commonsense, proper Lighting Fixtures and Appliances within the reach of everyone and without a single electrician's bill to pay. Complete sections are devoted to table lamps, floor lamps, boudoir lamps, porch lights, desk and reading lights, electric water supply systems, vibrators, heating pads, sewing machine motors, curling irons, percolators, and a complete selection of wiring materials and supplies. One of the features of the book is a full page color chart which shows you just how any of the twelve finishes used on our fixtures will look in your home.

Soldering Paste

A fine flux in a convenient form. A flux must be used with solder to make a strong and neatly soldered joint. Shipping weight, 2 oz. can, 3 ounces.

63 E 5836—2-ounce can..... 9¢

63 E 5838—1-pound can..... 30¢

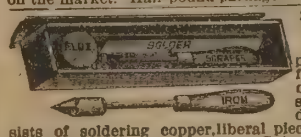
Insulating Tape and Splicing Compound

For wrapping wires where insulation has been scraped off. In making joints on electric wires, they must first be soldered, then wrapped with rubber splicing compound over which friction tape must be wound.

63 E 5848—Black Friction Tape, ¾ inch wide. A high grade tape. Shipping weight, 9 ounces. Half-pound package..... 23¢

63 E 5854—Rubber Splicing Compound, ¾ inch wide. One of the best rubber splicing compounds on the market. Half-pound package..... 24¢

Soldering Set



A complete outfit for doing ordinary small soldering. Consists of soldering copper, liberal piece of solder, soldering flux and directions. Suitable for electrical work and light household repairing. Shipping weight, per set, 1½ pounds.

63 E 5840—Complete set..... 79¢

Insulated Wire Connector

By the use of the Wire Connectors shown here it is possible to eliminate entirely the muss and labor of soldering joints, and to complete your wiring installation in considerably less time. A screw driver is the only tool required. Makes an Underwriter's approved connection. For fixture outlets and motor leads. We believe them to be the best method of making splices or taps known today, and we recommend their use in all installations. They save time, trouble, money and material. Used for connecting sizes 12 and 14 single conductor wire only. Ship. weight, each, 2 ounces.

63 E 2690—Each..... $ .12
63 E 2691—10 connectors..... 1.05

Similar to wire connector listed above, but used in outlet boxes or where a "tap off" of the main line is desired. May be used for connecting sizes 12 and 14 single conductor wire only, which are the most used sizes. Shipping weight, each, 2 ounces.

63 E 2692—Each..... $ .13
63 E 2693—10 connectors..... 1.15

Flexible Non-Metallic Conduit (Loom)

Finest quality. Very flexible, non-kinking. Moisture and fire resisting. Used for various insulating purposes. If rubber covered wires are run between partitions or crossed over each other, they are usually put inside either "loom" or conduit to afford proper fire protection. Shipping weight, per 100 feet, 6 to 28 pounds, according to size.

Special Utility Motors

One of the greatest values we ever have been able to offer. Especially recommended for driving churns, cream separators, pumps, washing machines, fan mills or any other work requiring ¼ horse power. This motor is splashproof! Motor ends enclosed except for ventilators. Motor remains cool even on steady run. Shaft of special heavy steel. Large size bronze bearings oiled from self-closing oil cups on motor end frames. Holes in base arranged so belt can be kept tight without moving motor bolts. Solidly constructed. Will give satisfactory service for many years. Can be run from any light socket or receptacle except 32-volt which requires separate circuit. Fitted with ten-foot cord, attaching plug and 1¾-inch grooved pulley for ⅜-inch round belt. Speed, 1750 revolutions per minute. At this low price you should have one of these motors. Shipping weight, 39 pounds.

Robbins & Meyers 32-Volt Direct Current Power Stand

$19.50

These stands are often equal to the help of an extra man around the farm, particularly in the dairy and when the washing machine is in use. They are very strongly built and will give satisfaction for years. Consume only a little current and so do not place a large load on the farm lighting plant batteries. One of these Power Stands should be on every farm. Operates on 32-volt farm lighting plant current. Can be used to drive washing machine, cream separator, grindstone, pump or any one of a dozen uses that come up daily. Sits solidly on three rubber tipped iron legs. Base has adjustable rod for attaching to machine to be driven to keep belt tight. Fitted with combination grooved and flat pulley. Diameter, 4½ inches and 3½ inches for round belt; 2 inches for flat belt. Speed, 300 revolutions per minute. Reducing gear especially adapts outfit for heavy duty work. Take advantage of this special low price. Will pay for itself in a short time. Shipping weight, 75 pounds.

163 E 25.....**$19.50**

Handy Home Utility Motor Outfit

Can be attached to a washing machine, churn, cream separator, ice cream freezer, grindstone, pump fan mill or any other machine requiring not over ¼ horse power. Iron tripod base has rubber caps on ends of legs to prevent slipping. An adjustable rod with clamp is provided for keeping the belt tight. Fitted with 15-foot cord and plug for attaching to lighting socket. Motor revolves at a speed of 1750 revolutions per minute. Fitted at one end with a combination grooved and flat pulley, diameter, 2 inches. At the opposite end is a reducing gear fitted to combination pulley revolving at 290 R. P. M. This combination pulley has two flat pulleys and 2 grooved pulleys, diameters, 4 and 2 inches each. For use on 105 to 120-volt, 60-cycle alternating (central station) current. Shipping weight, 75 pounds.

Induction Repulsion Motors

1-2-3 and 5 Horse Power Sizes

Induction Repulsion Motors are the best type to use where a great deal of power is required to start the load. These motors are especially recommended for use on lighting circuits as they do not draw an excessive amount of current when starting and therefore do not flicker the lights. For operating pumps, cream separators, blowers, washing machines, etc., as well as for general heavy duty they cannot be excelled. Our prices are very low. You can make a worthwhile saving by buying from us.

¼ and ½ H.P. Sizes

You may depend on these Motors to give long satisfactory service under severe conditions where an ordinary motor would be badly damaged. From our experience with these motors we consider them a very special value at our prices. The larger sizes illustrated above are built for heavy duty. They are equipped with slide rails so belt can be kept tight without changing position of motor base. Wound rotors. Rugged commutator short circuiting device. These motors have a starting torque of over 200 per cent of the running torque. Black enamel finish. Interchangeable on 105 to 120 or 210 to 230 volt current.

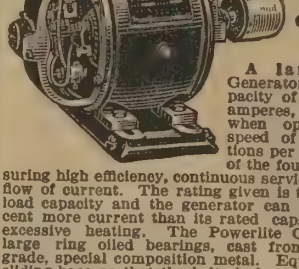
Powerlite Generator



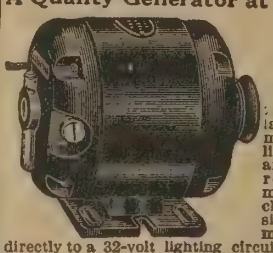
High Quality at a Low Price

A large, sturdy Generator with a capacity of 40 volts, 25 amperes, 1000 watts when operated at a speed of 1800 revolutions per minute. It is of the four-pole type insuring high efficiency, continuous service and an even flow of current. The rating given is the continuous load capacity and the generator can deliver 25 per cent more current than its rated capacity, without excessive heating. The Powerlite Generator has large ring oiled bearings, cast from heavy, high grade, special composition metal. Equipped with a sliding base so that the belt slack can be taken up without moving the floor fastening. In order that we may determine what size pulley you should have, we must know the speed of your engine. Also the diameters of the fly wheel and driving pulley. Give us this information when sending your order and we will supply the pulley on the generator of the proper diameter without extra charge.

Regular pulley equipment: Diameter, 4 inches, face, 4 inches. Shipping weight of generator, complete, 150 pounds.

163 E 189—Generator only, as described above. Each.....**$49.50**
163 E 1200—Field Rheostat for use with above generator. Shipping weight, 3 pounds.....**$6.95**

A Quality Generator at a Low Price

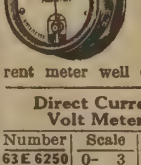


$19.25

For charging batteries, lighting lamps, operating motors, etc. Delivers 40 volts, 7½ amperes at 1750 revolutions per minute. Will charge from 2 to 5 six-volt batteries or may be connected directly to a 32-volt lighting circuit to supply current for 10 twenty-five-watt lamps. For home lighting plant, garage or battery service stations. Solid construction. Shipping weight, 39 pounds. Priced to save you money.

163 E 190.....**$19.25**

Electric Meters



Electric Meter; 3¼-inch face. Black enameled. Two 1¾-inch posts with nuts and washers project from back for mounting. Direct current meters—D'Arsonval design. Alternating current meter well damped. All are very accurate.

Storage Battery Charging Panel

For Use With 30-32 Volt Farm Plant Current

Charges one to five 6-volt batteries, or either equivalent in combinations of 6 and 12 volts, from 32-volt farm plant current. Simple to operate with the instructions furnished. Just attach to line and hook on the batteries. Rheostat controls flow of current. Ammeter indicates charging rate. Fuses protect farm plant line from injury. Cost of charging batteries is only a few cents. Black enameled panel with wall mounting brackets. This panel may be used for charging automobile and tractor batteries. It has sufficient current carrying capacity to take care of general garage and battery service station work in connection with a 32-volt generator such as shown on this page. Size, 10 by 14 inches. Shipping weight, 20 pounds.

463 E 520—Complete as shown.....**$21.00**

Powerlite Storage Batteries Big Value

These strong, rugged batteries are the logical thing to use when it is necessary to replace the batteries on your farm lighting plant. They are made for any 32-volt system regardless of make or type batteries now in use. The cells are of heavy construction and will give full rated capacity. The jars are heavy, first-quality glass and will stand more than the usual amount of rough usage without breakage. It will mean a distinct saving to you to buy your replacement batteries from us. All batteries are new and covered by the liberal guarantee outlined below. Price includes 16 complete cells of batteries, with necessary connecting bolts and straps. All sets carefully crated and packed and guaranteed to arrive in perfect condition. Shipping weights, 520 and 930 pounds per set.

Shipped from Southeastern Wisconsin

263 E 141 has 7 plates, 5¾ by 7; 263 E 144 has 11 plates, 5¾ by 8⅝.

Battery 263 E 141 has a capacity of 2560 watts and will light 16 20-watt lamps for 8 hours. Battery 263 E 144 has a capacity of 5120 watts or just twice as much as 263 E 141 Battery.

Our Battery Guarantee

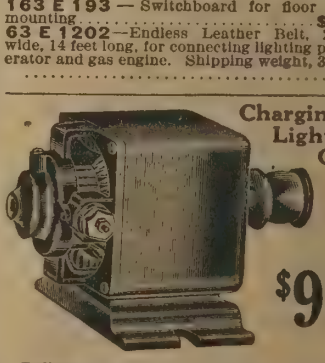
We guarantee these Batteries to give lighting service for 5 years when installed and operated according to our Instructions, and if they are recharged not oftener than twice a week. If, for any reason the battery proves defective or does not give good service within the 5-year period, we will make an adjustment allowance toward the purchase of a new battery on the basis of time in service.

Powerlight Switchboards

Powerlite Switchboards are made of oil finished black marine slate of the best quality and high insulating properties. Size 24 by 16 inches. Carry complete set of high grade instruments with which to control the lighting plant. The voltmeter indicates current pressure. The ampere meter indicates amount of current flowing in or out of the battery. The rheostat raises or lowers voltage. An automatic circuit breaker protects plant and wiring against short circuits. It is the heart of the plant and is positively dependable at all times. Charging and starting switch enables you to crank gasoline engine by electricity. Light fuses protect battery. Battery fuse is placed between batteries and generator. A complete unit of exceptionally high grade construction. Will last for years and give good service. Shipping weight, 45 pounds.

163 E 193—Switchboard for floor or wall mounting.....**$43.5**
63 E 1202—Endless Leather Belt, 2 inches wide, 14 feet long, for connecting lighting plant generator and gas engine. Shipping weight, 3 pounds.....**$3.7**

Charging and Lighting Generator



$9.95

Delivers current to charge any 6-volt starting or lighting battery without adjustment or regulation. Also may be attached directly to lighting circuit of tractor or motor boat or for any other purpose where 8-volt current of about 8 to 10 amperes is required. Has base for convenient attaching to flat surface. Size, 6 inches high; 7¼ inches wide and 8½ inches long. Fitted with pulley 2¼ inches in diameter. Delivers 8 volts 8 amperes against battery resistance when driven at a speed of about 2250 revolutions per minute. Amperage increases with speed.

463 E 290—With pulley for ⅜-inch round belt and with low voltage cut out to disconnect battery when voltage drops below 7 volts. A perfect protection to battery and generator.....**$9.95**
463 E 294—Fitted with pulley for 1-inch flat belt and cutout same as above.....**$9.98**
Postage, 24¢ extra

Convenient size Flashlights which throw bright, steady light. See Page 616

neida and Newhouse Genuine Victor Traps

The Victor "Humped Cross" feature guards against freezing or choking by trap covering—a big advantage. Spring of special steel—backed by 75 years of experience in making hand traps.

Lakeside Quality Saw Set

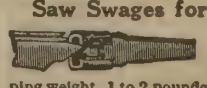
$1.25

Lever Can Be Operated By Fingers

A finely finished full nickel plated tool with eccentric anvil and indicator. The indicator gives the number of teeth to the inch. This enables you always to hold a uniform set in the saw. The lever is placed below the handle and operated by the fingers rather than by the entire hand. This gives a steadier hold and produces a truer set on the saw. The revolving anvil covers the required bevel and length of all saw teeth, ranging from 4 to 16 points to the inch. Hardened anvil and plunger. Length, 7 inches. Shipping weight, 1 pound.

84 E 310 ..... $1.25

Saw Swages for Circular Saws



Forged, crucible steel. For spreading the points of saw teeth. State size. Shipping weight, 1 to 2 pounds. 84 E 280

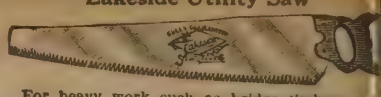
Lakeside Utility Saw



For heavy work such as bridge timbers, concrete framing and false work. Blade is of fine crucible steel; 18 gauge, with bevel filed teeth. Light, malleable iron handle, well riveted. State size wanted.

Size	30 inches	36 inches
Shipping weight	4 pounds	5 pounds
484 E 37	$2.95	$4.30

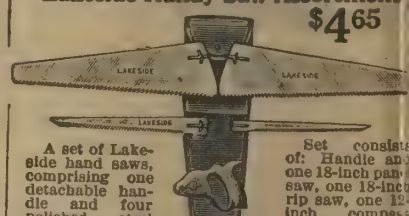
Lakeside Nail Cutting Saw

Will saw wood, nails, sheet metal and gas pipe. Saves your hand saws. Polished steel blade. Applewood handle, brass screws. May be filed but does not require setting as it is taper concave ground. A most desirable addition to any carpenter's kit. Length of blade, 18 inches. Shipping weight, 3 pounds.

84 E 34 ..... $1.85

Lakeside Handy Saw Assortment

$4.65

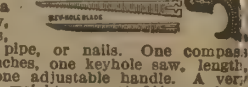


A set of Lakeside hand saws, comprising one detachable handle and four polished steel blades. Blades are held rigidly in place by a lever on top of the handle where it cannot interfere with the work. Complete assortment in Khaki case. Shipping weight, 1¾ pounds.

Set consists of: Handle and one 18-inch panel saw, one 18-inch rip saw, one 12-inch compass saw, one 10-inch keyhole saw.

84 E 47—Complete assortment $4.65

Lakeside Set of 3 Saws

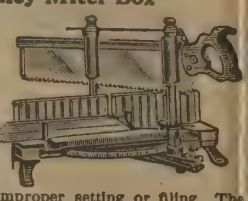


Consists of a Metal Cutting Saw, length 18 inches, for cutting lead pipe, or nails. One compass saw, length 14 inches, one keyhole saw, length, 10 inches, and one adjustable handle. A very useful set. Ship. weight, per set, 3½ pounds.

84 E 60—Per set of 3 ..... $2.25

Miter Boxes

Stanley Miter Box



Stanley No. 358.

The entire frame is one solid casting of great strength. The saw-guide uprights are securely clamped and may be adjusted to counteract a saw which does not run true, due to improper setting or filing. The edge of the base is graduated in degrees, and the swivel arm may be set and fastened at any degree. Stock guides hold all kinds of regular or irregular material.

Complete with 28 by 5 Miter Box saw. Shipping weight, 35 pounds.

484 E 370 ..... $20.56

Lakeside Miter Box Saw

For above Miter box. Applewood handle with brass screws. Polished steel blade. Hand filed and set. 28 inches long. Width, 5 inches. Shipping weight, 7¼ lbs.

84 E 54 ..... $3.95

Complete outfit $14.65

AJAX Stock and Poultry Fencing. See Pages 646 and 647

Lakeside Special Saws Not in List

Saws listed can be furnished with any ordinary size hole at no extra charge. We carry in stock for immediate shipment saws in standard sizes, as listed but will supply special gauges as promptly as possible. It usually takes from 10 to 30 days to make up special saws at the factory. Prices on saws larger than 36 inches and on inserted tooth saws given on request.

When Ordering Special Saws

Be sure to advise us of the diameter, hand, gauge at center and run, number of teeth, kind of timber to be cut, speed of saw while buried in log (not while running out of cut) horse power of engine, greatest feed, whether mandrel runs cool or warm, and templet showing size of holes. All saws come filed and set, ready for use.

Table of Speeds

Always run saw at proper speed. Too fast or too slow is equally bad.

Saw Diameter	Speed	Saw Dia. In.	Speed	Saw Diam. In.	Speed
18 in.	2,000	26	1,384	..	....
20 in.	1,800	28	1,285	36	1,000
22 in.	1,636	30	1,200	..	....
24 in.	1,500	32	1,120	..	....

Lakeside High Speed Circular Saws

Best grade crucible Saw steel, correctly tempered, smithed, blocked set and hammered. These saws are the product of expert sawyers of many years' experience enabling them to correctly build each saw to give you the service to which you are entitled. Always run the saw at proper speed, too fast or too slow is equally bad. See the speed table at left.

Prices are for saw, set and sharpened ready for use. Be sure to give size of hole and style of saw wanted.

Eclipse Cordwood Saws

Made expressly for use on Cordwood or Pole Sawing Machines and on our Saw Mandrels. They are hammered to run properly at the usual speeds of these machines and are precisely hand filed and set, ready for use. The improved special shaped teeth with large gullet, make these saws cut fast and hold their edges remarkably. They are tempered to stand the severe outdoor weather service to which they are subjected, and will be found to be thoroughly reliable in every way. Made only in sizes listed below, for crosscut sawing. State size wanted.

$2.90 Lakeside Planes

Improved Thumb Nut Adjustment

The Plane That Does Better Work

When you buy a Lakeside Plane, you get a tool that has proved itself unsurpassed through many years. Expert carpenters who use these planes find them perfect in every detail with accurate adjustments which enable them to do the best work.

The frames of these planes are made of heavy Japanned iron. Sides and bottom accurately ground and polished. Strong cutter caps. The "Easy Grip" handles and knobs are of close grained hardwood. The cutters are made extra heavy to prevent clattering when planing rough boards or knobs. The improved thumb nut adjustment in rear raises or lowers the cutters in removing blade, and lever shown underneath adjusts the blade, assuring you of a smooth and level planing edge. Made with both smooth or grooved bottom. Shipping weights, 4¼ to 10¼ pounds.

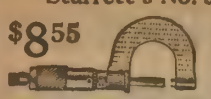
484 E 2768—Complete set.....**$6.75**

Starrett's No. 3 Micrometer

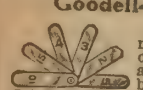
$8.55



Made of forged tool steel, carefully tempered and polished. The anvil and spindle are hardened, ground and lapped. A knurled lock nut keeps the spindle true and locks it firm, making a solid gauge when desired. Measures up to one inch by thousandths of an inch. The decimal equivalents of 8ths, 16ths, 32nds and 64ths of an inch are shown on the frame. Length closed, 4 inches. Shipping weight, 10 ounces.

84 E 2543.....**$8.55**

Goodell-Pratt Feeler Gauge



For comparing or testing thicknesses. Fine for gauging opening of exhaust and intake valves on automobiles. Each leaf marked by thousandths.
